 $^{^{\}rm 1}$ Categories of Farm, Forest, and Rural are consolidated. $^{\rm 2}$ Industrial is State Appraised.

Tax Year	Average Real Market Value	Average Assessed Value
24-25	\$605,671	\$328,283
23-24	\$596,703	\$318,581
22-23	\$596,758	\$308,138
21-22	\$497,706	\$295,978
20-21	\$457,064	\$287,220
19-20	\$444,299	\$279,432
18-19	\$434,305	\$270,208
17-18	\$405,308	\$261,070
16-17	\$370,843	\$252,294
15-16	\$334,712	\$244,150
14-15	\$317,934	\$236,139

Typical residential properties are used to calculate the averages for Real Market Value, and Assessed Value each year. These are improved residential properties with a living area greater than 100 sq. ft. that are in residential neighborhoods. This list excludes properties with partial construction, exempt property, code-split accounts, pro-rated accounts, property with special use value, rural property, tract property and plexes.

Total County Value

Property Type	Real Market Value	Measure 5 Value	Taxable Assessed Value
Real Property \$187,923,225,205		\$146,206,612,695	\$78,948,353,590
Personal Property \$5,387,142,102		\$4,087,340,664	\$4,043,769,871
Manufactured Structures	\$439,266,240	\$435,628,620	\$128,431,200
Utility	\$3,388,661,352	\$3,388,661,352	\$3,185,242,340
Total	\$197,138,294,899	\$154,118,243,331	\$86,305,797,001

- For complete definitions of "Real Market Value", "Measure 5 Value", and "Taxable Assessed Value", please see the Glossary.
- The Assessment Date is January 1, 2024.
- Not reduced by Urban Renewal Excess Value.

Total Taxes

Property Type	Number of Accounts	Taxes
Real Property	201,693	\$1,431,421,820.14
Personal Property	20,904	\$71,505,561.70

Government Total:	\$2,705,205.11
-------------------	----------------

Compression - Reduction in taxes required by the Measure 5 property tax rate limits approved in 1990. County assessors calculate compression as a dollar amount, but it can also be expressed as a tax rate. Compression is done on a property-by-property basis.

Measure 5 - Constitutional tax rate limitations passed by voters in November 1990, which can be found at Article XI, Section 11b, of the Oregon Constitution. Measure 5 limited school taxes to \$15 per \$1,000 of assessed value and non-school taxes to \$10 per \$1,000 of assessed value starting in 1991-92. The school limit fell by \$2.50 per \$1,000 each year until it reached \$5 per \$1,000 in 1995-96. The non-school limit remains at \$10 per \$1,000. Levies to pay bond principal and interest for capital construction projects are outside the limitation. The Measure 5 rate limits still apply under the provisions of Measure 50, passed in 1997, but now apply to M5 value.

Glossary of Terminology

Assessed Value (AV)

(See Taxable Assessed Value)

Assessment Date ORS 308.007

January 1 at 1:00 a.m. each year. The "as of" date that becomes the basis for valuation of property.

Maximum Assessed Value (MAV)

ORS 308.146

Maximum Assessed Value (MAV) is generally equal to the prior year Taxable Assessed Value times 103% or the prior year MAV, whichever is greater. MAV was initially established for 1997-98 as equal to 90% of the property's Real Market Value in 1995-96.

Maximum Specially Assessed Value (MSAV)

Maximum Specially Assessed Value (MSAV) applies only to the specially assessed portion of specially assessed property. For 1997-98, it was equal to 90% of the 1995-96 Specially Assessed Value. For subsequent years it was equal to its prior year Maximum Specially Assessed Value times 103%. Beginning with 2002 for farmland and 2004 for forestland, the MSAV is calculated as the prior year assessed value of the specially assessed portion times 103% or the prior year MSAV, whichever is greater.

Measure 5 (M5)

Oregon Ballot Measure 5, passed in 1990, established constitutional limits on property taxes. After a period of implementation, total property taxes levied on any property were limited to a maximum of \$5 per thousand of Real Market Value for all education levies, and \$10 per thousand of Real Market Value for general government. Property taxes beyond these limits are not levied and are said to be "lost to compression."

Measure 5 Value (M5 Value)

ORS 310.202

Measure 5 value is the value used to calculate the Measure 5 limits. This value differs from Real Market Value for property that is assessed under a Special Assessment program (such as Farm and Forest property, and SIP). For non-specially assessed property, Measure 5 Value is equal to Real Market Value (RMV). For specially assessed property, Measure 5 Value is the sum of the Real Market Value of the market portion of the account plus the Specially Assessed Value (SAV) of the specially assessed portion of the account.

Glossary of Terminology

Measure 50

The voters of Oregon passed an initiative Petition in November 1996 called Ballot Measure 47. This change to the Oregon Constitution provided for a "cut and cap" of property tax assessed values in the State. The cut was a roll back of the value of each property to its 1995 assessed value minus ten percent. The value cap restricted annual increases in assessed value to three percent unless certain changes to the property were made, such as new construction.

The 1997 Legislature found parts of Measure 47 to be unworkable and offered a substitute. Measure 50 provided for the same outcomes as well as additional provisions to enable a smoother implementation. The voters approved Measure 50 as a substitute for Measure 47 in May 1997. The changes in the property tax system were implemented in the 1997/98 tax year. These changes are found under Article XI, Section 11 in the Oregon Constitution.

Real Market Value (RMV)

ORS 308.205

Real Market Value is the value a property would sell for in a competitive market if the property were used in its highest and best use. RMV is the amount in cash that could reasonably be expected to be paid by an informed buyer to an informed seller, each acting without compulsion in an arm's length transaction occurring as of the assessment date for the tax year.

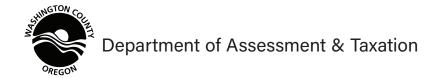

Specially Assessed Value (SAV)

Specially Assessed Value (SAV) applies only to the specially assessed portion of a property. It is the value, specially assessed according to statute, of the specially assessed portion of the account only. Specially assessed property is assessed at less than its full value. Farm use special assessments apply to land used primarily to make a profit in farming. Forestland special assessments apply to land used for growing timber.

Taxable Assessed Value (TAV)

ORS 308.146

Taxable Assessed Value (TAV) is the value to which the billing rates are applied to calculate taxes. For most properties, Taxable Assessed Value is the lesser of Maximum Assessed Value (MAV) or Measure 5 Value (M5). For property that is partially or wholly specially assessed, Taxable Assessed Value is the lesser of: (A) the lesser of MSAV or SAV by land class of the specially assessed portion, plus the lesser of RMV or MAV of the market portion; or (B) account RMV.
