Hi!

We received word that St. Vincents will be closing their cath lab overnight tonight. The closure is scheduled to start at **2100hrs (05/08/24) and run through approximately 0530hrs (05/09/24).**

Please refer to OCS for the open/close status of the cath lab.

****UPDATE** 5/8 @ 1600**

This event is a **hard closure – not available for stroke or STEMI care.** CSTAT+ pts. will need to be transported to the next closest appropriate hospital, e.g., OHSU, Emanuel.

This closure is a result of their ongoing construction project. While there are no further planned closures, there may be times when a short notice closure is necessary. We'll continue to message those out as we learn about them.

If you have any questions, please feel free to let us know.

Thank you for all that you do!
