| DR. RITU SAHNI, MD, MPH, FAEMS | | LEGACY MT. HOOD MEDICAL CENTER BIRTHING CENTER CLOSURE | | |

Hi!

Effective March 17, 2023, Legacy Mt Hood Medical Center will be **closing** its birthing center. After this date, there will be no obstetrician available on site.

Beginning at **0001hrs on March 17**, both stable and urgent OB patients should be transported to another hospital with OB services.

In truly emergent situations, such as an imminent delivery, EMS should transport to the closest hospital for emergency department assistance and consider a potential early transfer if necessary.

Ritu Sahni, MD, MPH, FAEMS
EMS Medical Director
