EMS Clinical Notification				
EFFECTIVE DATE: January 19, 2023	NUMBER: 0119230-ADM	TYPE: Operational Notice	REPLACES: None	PAGE: OF
ENTER NAME/TITLE HERE (signature on line below): DR. RITU SAHNI, MD, MPH, FAEMS		TITLE: ST. VINCENT SCHEDULED EXTENDED ED DIVERSION		

Hello!

I want to give everyone the heads up that St. Vincent will be on a **planned, extended ED/STEMI/Stroke diversion on January 19 from 0100-0500** due to an electrical shutdown affecting the Knight/West Pavilion.

The Knight/West Pavilion is the building that houses the emergency department, L&D, the Cath labs, and the OB and cardiovascular (CV) ORs. This work is part of the ED Expansion project. During this portion of the project, there will be several mechanical systems offline, including suctioning equipment, hot water, and the heating/cooling/ventilation.

As a result, St. Vincent cannot effectively use key interventional spaces such as: the CVOR, Interventional/Cath Labs, or OB/C-Section ORs, during the shutdown.

Thanks!

Ritu Sahni, MD, MPH, FAEMS
EMS Medical Director
