LAND USE COMPATIBILITY STATEMENT (LUCS), continued

Onsite Wastewater Treatment System Permits

What is LUCS?

Land Use Compatibility Statement is the process used by the Environmental Health Program to determine whether Environmental Health Program permits and other approvals affecting land use are consistent with local government comprehensive plans. The LUCS form is included in the onsite permit application approval packet.

Why is LUCS required?

Oregon Law requires that state agency activities which impact land use be consistent with local comprehensive plans and land use regulations. Oregon Administrative Rules, (OAR) Chapter 340 Division 18 identifies agency activities/programs that significantly affect land use and the process of ensuring consistency.

When is LUCS required?

A LUCS statement is required for affect land use. **This form only applies to onsite wastewater treatment system permits and activities.** *Water Pollution Control Facilities (WPCF) applicants must complete DEQ's General LUCS form.*

How to complete a LUCS:

Step	Who Does It	What Happens
1.	Applicant	Completes Section 1 of the LUCS and submits it to the appropriate city or county planning office.
2.	City or County Planning Office	Completes Section 2 of the LUCS by determining if the activity or use meets all local planning requirements, and returns to the applicant the signed and dated LUCS form <u>with findings of fact for any local reviews or necessary planning approvals.</u>
3.	Applicant	Includes the completed LUCS with <u>findings of fact</u> with the DEQ permit or approval submittal application to the Washington County Environmental Health Program.

A permit cannot be issued if the business or facility does not comply with all applicable local land use requirements. The applicant is responsible for working with the local planning office to comply with land use requirements.
