## **BUDGET DOCUMENTS**

The fiscal year 2024-25 Washington County budget is detailed in three separate but inter-related documents which are all posted on our County website at:

<https://www.washingtoncountyor.gov/finance/fy2024-25-county-budget-reports>

This first document, entitled **Budget Summary**, contains explanatory and summary information regarding the County budget as a whole as well as each individual organization/budget units. The information focuses on key issues, policy decisions, underlying budget assumptions, and changes from the prior budget year.

The second document, entitled **Budget Organization Unit Detail**, contains line-item information on revenues, expenditures, and positions at the organization unit level. Revenue and expenditures by fund are also included in this document.

The third document, entitled **Budget Program Detail**, contains line-item information on revenues and expenditures at the lowest level of the budget hierarchy – the program level.

*This page intentionally left blank*

# Budget Message

---

This proposed budget comes at a time of both hope and continued challenge for the Washington County organization. We are grateful for the availability of limited-duration and one-time resources allowing us to better position our organization and the community we serve for the years ahead. We are also challenged by the long-constrained revenue framework within which much of the organization must navigate in order to deliver even basic county services. This “tale of two counties” can be seen throughout the FY 2024-25 proposed budget. On the one hand the proposal supports the expansion of some programs while on the other hand it cuts service levels in the interest of budget balancing and ensuring that – at the very least – state-mandated service requirements are met.

A clear strength in the face of these challenging times can be seen in the enormous talent and dedication of our employees. The services our employees support day in and day out include everything from hosting the County Fair; providing access to recreational opportunities; holding elections; helping older adults access resources; providing public safety services; building and maintaining roads, signals and streetlights; issuing permits and licenses; administering rental assistance; and valuing property and collecting taxes.

Another strength is our ongoing engagement in building capacity in systems and structures to be able to deliver the most effective and impactful services possible to the community. We do this through strategic coordination and organization-wide planning.

## **Guidance from the Strategic Plan Update and Board Budget Principles and Priorities**

This spring the Board of County Commissioners plans to adopt a Strategic Plan Update 2024-2028 that illuminates the current state of Washington County operations and a path forward for five years. With the adoption of the Strategic Plan Update, Washington County is continuing to take steps to operationalize the plan and build and implement foundational systems needed to continuously improve our organization in service to our community. This “One Washington County” approach – together with the Board’s Budget Principles and Priorities – supports responsible and equitable decision making and can be seen throughout the budget proposal. This ongoing work does not take place over a single fiscal year, but instead is achieved over multiple years of commitment, rigor and learning.

The Strategic Plan Update 2024-2028 contains both documentation of our vision, mission, values and approach and a comprehensive listing of goals by the five areas of Washington County’s government. These values show through in the plan’s Guiding Principles and Four Fundamentals, among other places. I’ve included these sections of the plan, and the Board’s Budget Principles and Priorities, below this message.

## **Continuing Challenges to County’s Financial Framework**

In a new section of the proposed budget document called “Budget Summary,” we outline the financial context for the County this year, starting with persistent limitations faced by all local governments in Oregon.

On the revenue side, Oregon’s property tax system continues to restrict this largest, most flexible source of funding for Washington County and many other local governments in Oregon. The effect is a constrained revenue source that does not keep up with service demand costs and has a unique, negative impact on Washington County as our population grows relative to our regional peers.

On the expenditure side, most General Fund-supported services are facing reductions this year in order to close a \$10 million gap between projected revenue and anticipated expenditures. Although Washington County has the benefit of some one-time revenue sources, such as the Strategic Investment Program (SIP), we have made a

# Budget Message

---

concerted effort to reduce the County's reliance on such limited revenue when it comes to supporting on-going operations. As a result, the reduced General Fund expenditures in this proposed budget lean towards supporting state and federally mandated services, leaving fewer and fewer discretionary dollars for anything else. Exceptions to this approach to General Fund budget balancing can be found in places like the public safety area – a system facing overlapping and compounding challenges – where limited investments are proposed and reductions avoided. This approach is intended to maintain mandated service requirements, restore public safety system balance and strengthen it for emerging challenges described throughout this proposed budget document.

Beyond the General Fund, one-time American Rescue Plan funding is assisting with foundational systems such as implementing Enterprise Resource Planning modernization to ease access to and use of critical financial and human resources data. Regional Supportive Housing Services dollars are allowing the County to build out a system of care for houseless individuals that has virtually eliminated the existence of large homeless encampments over the last three years and provided a pathway for a more dignified, human-centered future for nearly 2,000 formerly houseless. A prior allocation of Oregon Health Plan dollars, to be combined with other non-General Fund revenue, is dedicated to the development of a new Center for Addictions, Treatment and Triage (CATT) that would centralize access to person-centered health and social services in this vital area. Each of these foundational projects hold the promise of bringing greater effectiveness and supporting better outcomes for the community going forward.

## Conclusion

This year's proposed budget depicts two distinct realities for the organization. Guided by the values and aspiration the Board of County Commissioners has infused into the Strategic Plan Update 2024-2028 and the Board's Budget Priorities and Principles, the proposed budget seeks to support our organization in collaborative problem solving, continuous improvement and strategic decision making. Nonetheless, the proposed budget also challenges the organization as resources – particularly in the General Fund – require reductions for a third year in a row, prompting budget decisions meant to prioritize mandated services, avoid layoffs wherever possible and shore-up a public safety system in crisis.

Despite this “tale of two counties” mixture of realities, I remain cautiously hopeful for our future. By partnering with a dynamic set of partners – including other government jurisdictions, community organizations and businesses – our employees live the guiding principles of integrity, trust, accountability and stewardship. We carry these values as we engage in dialogue about the resources and expenditures required to meet critical community needs. The foundational management systems the County continues to develop and implement will ultimately strengthen decision making and planning. My cautionary message is that more scrutiny and big-picture problem solving will be needed in the years ahead – particularly as it relates to our General Fund – so that we can plan for a more stable financial future.

Thank you to all of the employees and department leaders involved in the development of this proposed budget. Thank you to the steadfast Finance and Budget team who knit together the aspirations of our County with the appropriate resources amidst a maelstrom of challenges and opportunities. Finally, thank you to the various budget committees, including members of our Board of County Commissioners, for the work of reviewing and considering this proposed budget for FY 2024-25.

In partnership,

Tanya Ange  
Budget Officer and County Administrator

## Guiding Principles

### Mission Driven

We commit ourselves to serving the community, providing a wide range of services, including mandated and regulated services while actively engaging others. The County will continue to evolve as a modern, effective and efficient organization. Innovation and calculated risk-taking are essential. We commit ourselves to best practices and professional standards and to continuous improvement and creativity in ways that reduce longer-term costs and mitigate risks.

### Accountability and Stewardship

We will ensure public funds provide priority services. We will strive to get the most benefit from available resources through sound business practices. We will act in accordance with the law, with integrity and in the public interest; ensuring accountability throughout the organization. We commit ourselves to the efficient use of public resources. We will invest in our people, systems and facilities.

### Integrity and Trust

We believe ethical conduct is paramount and it will be a trademark of our organization. We will strive to create and maintain an environment of trust and civility that comes from open, honest and direct interactions with each other and our residents.

### Equity and Inclusion

We are committed to an inclusive culture that values and celebrates the diversity of the county's residents and employees. We are committed to fostering, supporting and strengthening equity and inclusion in Washington County's programs, practices and policies.

### Valued Employees

We will hire and develop employees and provide them with the tools to perform their duties. We will enable employees and teams to manage their work and expect them to be accountable for their decisions and actions. We commit ourselves to employee development and active performance management.

### Collaboration

We will enhance and support teamwork and team building in our organization and with other public organizations. We will strive for a professional and cooperative working relationship with residents, organizations and other public agencies.

## Four Fundamentals

### FUNDAMENTAL 1:

#### **We operate with a collective mindset – One Washington County**

What makes Washington County special is the acknowledgement that our diversity is an asset, and we all need each other. Our community is stronger because we recognize the power and promise of every resident. We value collaboration and cooperation and utilize this approach in all of our relationships amongst other local governments, community-based nonprofits, businesses and civic and faith-based organizations. The County relies on both the participation of these organizations as well as individuals and families to provide the range of services needed in our community.

### FUNDAMENTAL 2:

#### **We build capacity and a positive culture**

To effectively serve Washington County residents, we recognize that the employees of Washington County are key drivers of excellence and customer service. To support employees in these roles, we will continue to invest in the development and empowerment of staff to perform their day-to-day activities while also providing opportunities to learn new skill sets. We will also continue to support organizational work to build a positive culture of inclusion and belonging where employees feel seen, heard and valued. We endeavor to be the employer of choice of mission-oriented employees committed to serving the public in a positive workplace.

### FUNDAMENTAL 3:

#### **Washington County is a dynamic partner**

To better serve our community and meet the needs of the people, the County government will assume various roles as set by the Board of Commissioners. Those roles include provider, partner or supporter. In those roles, the County endeavors to bring integrity, best practices and an equity-diversity-and-inclusion (EDI) lens to ensure the success of our priorities and mission.

### FUNDAMENTAL 4:

#### **We prioritize critical needs**

The County recognizes it must balance its aspirations with its long-term financial sustainability. Policies and services are resourced according to the direction of the Board of Commissioners and their expressed priorities. The County will continue to focus on resourcing countywide services defined by utilization and benefit to a broad range of county residents. Countywide property tax dollars will be primarily expended on countywide services.

# Budget Message

---

## **Board Budget Principles**

- Support Board goals and governance.
- Enhance meaningful communication with the public that is transparent and open.
- Enhance and evaluate revenue and long-term fiscal sustainability.
- Make explicit the investments in equity.
- Fund mandated services and objectively evaluate service levels.
- Balance long-term capital and operating needs.
- Position the organization for the future.
- Protect services that impact community members' daily lives.
- Balance systems of service and continue to pursue a One Washington County approach.

## **Board Budget Priorities**

- Address immediate and long-term budget issues.
- Fund immediate needs for 24/7 public safety facilities.
- Develop the community county strategic plan.
- Operationalize Design the Future and One Washington County.
- Plan for and respond to emergencies and disasters, including those caused by climate change.
- Support a connected multimodal transportation system.
- Support equitable economic development through federal Rescue Plan funds.
- Partner with the state and community to protect public health.
- Support affordable housing and address homelessness.
- Deliver public safety and justice services in a way that builds community trust.
- Support major systems of County government, including capital improvement planning, finance, information technology and human resources.
- Proposals for new or expanded services must include new revenue.

*This page intentionally left blank*

# Budget Summary

## General Fund Fiscal Sustainability

Property taxes are Washington County’s primary source of revenue, paying for general government programs and services in the General Fund. Under Oregon’s Measures 5 and 50, which reduced taxes and introduced growth limits in the 1990s, increases in assessed values on property from year to year is limited to 3% plus the value of new construction. For Washington County, this has historically resulted in an annual increase in property tax revenue by between 4.2% to 4.8%.

The chart below illustrates how permanent property tax rates in the three-county region compare to one another and to the rate of population growth each county has experienced since permanent rates were established in 1997. As the chart indicates, temporary local option levies have been approved by Washington County voters in recent years to close the gap between community need and service levels, but these levies are limited to five-year increments and they still do not put Washington County on a level playing field with neighboring counties.

An additional limiting factor involves how any serial property tax levy that was in effect prior to Measure 50 was rolled back and made part of each local government’s permanent rate. Washington County voters had approved two such serial levies that were active at that time, one for library services and another for the Major Streets Transportation Improvement Program (MSTIP). Until very recently, the Board of County Commissioners has approved the transfer of property tax revenue out of the General Fund to libraries and MSTIP proportionate to what these original levies raised before becoming part of the permanent rate. Roughly speaking, the two levies represent about 90 cents of the County’s \$2.25 permanent rate per \$1,000 in assessed value.

Additionally, Washington County’s limited revenue growth has not kept pace with the increasing cost of services. As a result, the long-term General Fund forecast shows expenditures exceeding revenue in the short-term and differences in projected growth rates between long-term revenue and expenditures are causing the gap between the two to widen in the future.

# Budget Summary

---

The principal reason for this is that property tax revenue, the primary source of revenue in the General Fund, is statutorily capped while expenditure growth is driven by market factors (labor market, inflation, and so forth) with no cap.

As a result, the initial General Fund forecast for FY 2024-25 showed a \$10 million short fall.

## General Fund Balancing

This is the third budget cycle in a row the County has been challenged with a significant imbalance between revenue and expenditures in the General Fund; in FY 2022-23, the gap was \$31 million and in FY 2023-24, the difference was \$25 million.

To close the gap, and to provide a balanced forecast, each department receiving General Fund support developed three budget requests for FY 2024-25: 1) a flat budget including growth for payroll roll-up costs and previously committed contract increases only, 2) a 3% reduction and 3) a 5% reduction.

Using a combination of these three levels of General Fund support, the proposed FY 2024-25 General Fund budget is balanced with a variety of permanent and one-time expenditure reductions and one-time revenues. The proposal includes resources to provide a 4.1% cost-of-living increase and emphasizes avoiding staff layoffs or furloughs as much as possible. The plan also uses several one-time revenue and expenditure adjustments, including:

- A \$3.1 million savings from eliminating and temporarily freezing 25 General Fund-supported positions.
- Reducing nominal General Fund transfers by 5% to MSTIP (\$2.5 million savings) and by 7% to Cooperative Library Services (\$1.6 million). It is important to note that these reductions are taken after the assessed value growth rate for all property in Washington County is applied to the prior year transfer amount. This means the *actual* year-over-year reductions for FY 2024-25 are 0.5% (\$258,955) for MSTIP and 2.6% (\$588,126) for WCCLS.
- A transfer of \$1.9 million in support for facilities capital projects from the General Fund to the Strategic Investment Program fund.
- Transfer the \$1.1 million limited-duration support for the Housing Production Opportunity Fund (HPOF) from the General Fund to the Strategic Investment Program fund.

With limited exceptions, this budget-balancing is continuing a trend of focusing General Fund support for ongoing County services primarily on those that are mandated by state or federal requirements. Discretionary spending for operations beyond these mandated services is becoming increasingly challenging. Details and context about how this trend shows up in this proposed budget can be found in the Trends and Initiatives section.

## Use of One-time Funds

In addition to property tax dollars, the County receives other discretionary sources of revenue. These sources, which are limited in either term or amount and are “one-time” in nature compared to property tax revenue and have been used to pay for both one-time expenditures and to backfill ongoing operating costs not funded by property tax revenue in the General Fund. The following is an explanation of these funds and how they are used in the development of the budget.

Strategic Investment Program – The primary source of the County’s one-time funds used to balance the General Fund stems from Strategic Investment Program (SIP) agreements. SIP revenue is considered “in lieu of” property taxes because the agreements abate some property taxes as an economic incentive to encourage large-scale investments and job creation by private companies. As the tax abatement allowed by these agreements is

# Budget Summary

temporary, the revenue is also limited in duration, amount and ability to keep pace with inflation. As the projected future gap between revenue and expenditures widens in the General Fund, shown in the chart below, SIP funds will not be able to make up the difference.

In March 2024, the Board of County Commissioners adopted a policy that provides guidelines for fund balance and utilization of SIP funds.

**Gain Share** – The Gain Share program was created by the state Legislature in 2007 to provide local governments a share of the state income tax revenue generated from new jobs created by investments made under Strategic Investment Program (SIP) agreements. This amount is capped at \$16 million annually and distributed to eligible local governments whose property taxes are affected by a SIP agreement. Washington County receives approximately \$9 million annually in Gain Share funds and has used these dollars to pay for a variety of capital projects including facility, technology and transportation improvements. These funds are not used to subsidize ongoing operating costs in the General Fund.

**American Rescue Plan Act (ARPA)** – This federal legislation passed in 2021 to provide local governments one-time revenue to support pandemic-related response and recovery operations. Washington County received a total of \$117 million. These funds must be obligated by the end of 2024 and spent by the end of 2026.

## Limited General Fund Investments to Address Public Safety System

Following the Board’s direction from the Strategic Plan Update and Budget Principles and Priorities, the proposed budget includes some investments, especially related to delivering balanced public safety and justice services that build community trust. These investments come within the context of a system-wide crisis as outlined in a staff analysis provided to the Board in the fall of 2023. The white paper explains how, despite Washington County crime rates remaining low relative to the region or the state, the system is nonetheless under considerable strain. This

# Budget Summary

---

stress is particularly felt in those parts of the system that the County is responsible for operating. The analysis explores the depth and implications of the system, including:

Aging and outdated facilities, changes in the law that add unfunded mandates year after year, a decrease in state funding to accomplish those changes, a General Fund unable to keep up with the rising costs of service delivery and complex changes in workload.<sup>1</sup>

Critical needs across the full spectrum of this system – much of which is mandated by state law – are addressed with targeted General Fund allocations, including:

- A proposed allocation of \$700,000 together with \$1.4 million additional state funding to bring the Community Corrections Center from its current 96-bed usage to full capacity at 215 beds. This vital alternative to incarceration within the Public Safety system of service ensures a structured residential environment for justice involved individuals and enables them to integrate back into the community with support strategies such as employment, housing, education, mentoring and counseling.
- In the 2024 legislative short-session, one circuit court judicial position was added to Washington County, effective July 1, 2024. Per Oregon statute, the county in which a circuit court is located shall provide “suitable and sufficient” courtrooms. This proposed budget invests \$3 million to build one additional courtroom in the Law Enforcement Center (LEC) and provide for the subsequent moves required of Sheriff’s Office personnel currently located in that space.
- A total investment of \$360,289 to the Sheriff’s Office, including 1) \$209,200 to the state-mandated Court Security fund to sustain its solvency; 2) a General Fund contribution of \$30,249 for a new position, partially paid for with Public Safety Local Option Levy funds, to help certified personnel maintain mandated training; and 3) a \$20,840 allocation to assist with a re-classification for a Management Analyst position supporting the Data, Analytics and Technology Assistance (D.A.T.A.) Unit handling this growing category of criminal evidence. Each of these additions would preserve important aspects of the public safety system, particularly in how they provide stability and value for agencies beyond the Sheriff’s Office.<sup>2</sup>
- Replacement funds amounting to \$336,000 to support the upfit costs (outfitting vehicles with equipment) and purchases for multiple Sheriff’s Office vehicles.
- Support totaling \$169,000 for a campus-wide Facilities Security Coordinator position in the Facilities, Fleet and Parks Services Department to improve safety for employees and the public whenever they work in-person or visit County buildings. Incidents involving potentially dangerous behavior or suspicious activity in and around County buildings have been increasing in recent years, just as in-person service has become more frequent in the post-pandemic era.
- Washington County’s investment in specialty courts as effective alternative programming, produce good outcomes (low recidivism) and avoids potential prison costs. However, specialty courts are not mandated, and with the exception of some grant funding provided to the court and several County departments, many of the costs needed to operate the multiple specialty courts are absorbed by the General Fund. With caseloads increasing to unsustainable levels for the District Attorney’s Office, many of the current specialty courts were at risk of elimination. This would have a significant negative impact on several County departments, staff and programming as well as the ability of individuals to participate in the program. This

---

<sup>1</sup> Washington County Administrative Office “Public Safety and Justice Briefing Paper” November 2023  
<https://washingtoncounty.civicweb.net/document/285539/Public%20Safety%20%20Justice%20Briefing%20Paper%20Version%20.pdf?handle=4B288FFBB06462CB785FC3320C82D7A>

<sup>2</sup> It is important to note that, when viewed together with reductions at the 5% level, the net effect of General Fund dollars proposed for the Sheriff’s Office would be a \$526,661 reduction, largely involving freezing vacant patrol positions while nonetheless maintaining staffing commensurate with current population estimates.

# Budget Summary

---

proposed budget invests in additional positions in the District Attorney's Office to balance the workload which includes the ability to operate specialty courts.

These immediate investments are intended to meet state mandates and address acute aspects of the crisis, but a longer-term, One Washington County approach is needed for the years ahead. The continuing fentanyl crisis, workforce shortages throughout the system, implementation of recent legislation regarding drug possession (Measure 110/HB 4002), court rulings such as the "aid and assist" decision regarding criminal defendants in the Oregon State Hospital and other topics will require future discussions around policy and resource decisions.

## Capital Investments

The capital expenditure portion of the proposed budget is the result of a new, comprehensive capital improvement planning process. A Capital Improvement Plan (CIP) is a best practice in local government and reflects sound financial management and benefit to the public by identifying infrastructure, technology, facilities and large equipment needs for the organization into the future. The CIP enables the Board to prioritize and identify funding sources for each project over a five-year planning horizon. The first CIP was approved by the Board of Commissioners in June 2023 and an expanded and updated CIP is scheduled for approval in April 2024. Highlights from this planning process include the following:

- Critical Facilities Maintenance – Nearly \$66 million in critical maintenance is needed in buildings that serve community members and employees, including the Jail, Community Corrections Center, Harkins House Juvenile Shelter and the Justice Services Building. The Board has allocated \$33.4 million in ARPA dollars to fund a portion of the projects with the balance to come from Gain Share, Strategic Investment Program or other sources.
- Multi-modal Transportation Improvements – Delays and inflationary impacts on legacy Major Streets and Transportation Improvement Program (MSTIP) 3d and 3e projects and the commitment to fund high-growth bonding cost share program projects will require funding levels beyond what can be supported by current annual property tax allocation cash flows. Total cost to complete the work is estimated at \$150 million over the next several years. The Board approved debt financing for this work and funding future debt service payments with a portion of property tax currently committed to transportation improvements.
- Enterprise Resource Planning System – This multi-year project will replace the County's legacy business management system that provides core business functions including payroll, human resources, procurement, accounting and financial reporting. By replacing the existing 23-year-old system, the new enterprise resource planning tool will improve the efficiency and effectiveness of organization-wide operations. The initial cost estimate for the project is \$19.7 million of which the Board has partially funded using \$11 million in ARPA funds. The balance of \$8.7 million would come from a combination of Gain Share and Strategic Investment Program funds. Implementation of the new system is planned to begin in early FY 2024-25 and be completed in FY 2025-26.
- Center for Addiction Triage and Treatment – A total of \$31.6 million is budgeted for this project, largely from a prior allocation of Oregon Health Plan dollars for local mental health services that has been set aside to be combined with new revenue, including statewide funds for addiction treatment and opioid settlement funds. These dollars are being consolidated in the Prevention, Treatment and Recovery (formally the Tri-county Risk Reserve) fund. These funds are initially dedicated to the development of the Center for Addictions, Treatment and Triage (CATT). This new service will provide a comprehensive Substance Use Disorder (SUD) program offering assessment, sobering, withdrawal support, residential treatment, stabilization services, peer mentoring and outpatient services. The model is centered on the values of rapid access, racial equity, family

# Budget Summary

---

inclusion, mental health support and person-centered services. The CATT will bring together systems to provide a central access point into various social services, including supported housing and health services.

Although not yet part of the Capital Improvement Plan, considerable effort will begin soon on a Jail Capacity and Expansion Study. The Board of County Commissioners has directed staff to undertake this examination of current and future needs, revisiting the Washington County Corrections Master Plan which was published in 2007. The new study will take into consideration population growth estimates and projected future capacity needs. The project will also evaluate community and justice system factors in determining both Jail and Community Corrections Center bed space requirements through 2055. The proposed budget dedicates \$200,000 to begin Jail Expansion Schematic Design to incorporate best practices and recommendations identified in the Jail Capacity and Expansion Study.

## **Additional Milestones**

Financial Policies – In January 2024, Kristine Adams-Wannberg, the elected County Auditor, presented findings and recommendations of her office’s audit of the County’s financial policies. The scope of the audit was to review and compare existing County financial policies to those identified as best practice policies by the Government Finance Officers Association (GFOA) and make recommendations to improve existing or develop new policies that reflect GFOA recommended criteria.

The audit found that only one current County financial policy compared well to the 13 basic GFOA policies, while five needed improvement and seven didn’t exist. Staff agreed with the findings and recommendations and are on track to have the new and updated policies in place within the Auditor’s suggested timeframe.

The first two policy improvements, regarding budget contingencies and reserves, were approved by the Board of Commissioners in February 2024.

# Strategic Plan Update

2024-2028

## INTRODUCTION

Washington County's 610,101 population is the second largest in Oregon and among the state's most diverse. Washington County is home to Oregon's largest county population of Latino/a/x community members and the highest percentage of Asians and Pacific Islanders. Nearly one in four Washington County residents speaks a language other than English. After English, Spanish is spoken by the largest segment of the county (one in eight county residents speak Spanish). The organization is supported by a budget of \$1.7 billion and is staffed by 2,392 full-time equivalent employees serving a diverse and growing population on the western side of the Portland metropolitan area. More information about Washington County can be found at [washingtoncountyor.gov](http://washingtoncountyor.gov).

The intent of this document is to illuminate the current state and the path forward for Washington County government. In the Strategic Plan Update that follows, you will read about what we mean when we say, "One Washington County." It is our hope that this document lives and provides foundational information and direction to the Washington County organization as we navigate our way forward together into 2028.

This "Strategic Plan Update" contains both documentation of our vision, mission, values and approach and a comprehensive listing of goals by the five areas of Washington County government. These elements are meant to provide direction and an overview of the core responsibilities and strategies to be implemented over the next five years across every department and office in Washington County.

With the adoption and publication of this Strategic Plan Update 2024-2028, a set of next steps is also incorporated to operationalize the organization's goals. It is our expectation that, over the coming years, Washington County will continue to implement and build the foundational systems needed to continuously improve our organization in service to our community.

## VISION

### The Washington County Community – Our Vision

**One Washington County is our unifying effort that produces a vision for a special community and mission-focused organization that can better serve the community now and in the years ahead.**

Our Washington County vision is to be a community that works together to achieve the best for everyone in our community.

Washington County is a vibrant community where people care for one another and our shared experiences. Meeting the needs of residents of this community requires the planning, innovation and action of everyone—across various sectors and organizations. The fulfillment of our community vision requires everyone and our collective will to align passion and resources to serve our residents. This involves uniting community efforts and organizations with the talent, diversity and capacity of the public servants of Washington County to cultivate a thriving, equitable and inclusive community.

For our part, we value our “collaborative community” that recognizes the role, contribution, responsibility and interdependence of residents and institutions. We envision a Washington County community in which:

- Our community is inclusive and every resident feels a sense of belonging and opportunity;
- Our individuals, children and families have access to the resources and support to reach their full potential;
- Our housing is safe and affordable meeting the needs of our diverse community with opportunities embedded throughout vibrant neighborhoods with access to work, school, services and transportation;
- Our educational system provides a consistent level of excellence from preschool through graduate-level higher education, and residents have life-long access to a variety of educational opportunities;
- Our community-based organizational non-profits are known for their strength and dedication to the needs of their constituents, working in concert with government, business and faith-based partners;
- Our residents and visitors are safe and our public safety and justice system is coordinated, balanced, efficient and responsive;

- Our abundant natural resources are nurtured for their inherent beauty, and their contribution to the health and well-being of our residents now and for generations to come;
- Our environment and neighborhood livability is maintained, enhanced and balanced with our community's growth and development;
- Our community recognizes the social, economic and environmental factors that contribute to the health and well-being of residents and works together to prevent illness, disease and injury;
- Our economy is known for its diversity, future orientation, vitality and commitment to the local community; and
- Our private and public institutions work together to identify and problem solve critical community issues.

## MISSION

### Washington County the Organization – Our Mission

Washington County is a leading-edge, mission-focused organization that successfully serves the community now and in the years ahead. We are a human-centered organization that integrates equity into decision-making and supports the health, effectiveness, creativity and talents of our employees as public servants and the residents whom we serve.

## GUIDING PRINCIPLES

### Mission Driven

We commit ourselves to serving the community, providing a wide range of services, including mandated and regulated services while actively engaging others. The County will continue to evolve as a modern, effective and efficient organization. Innovation and calculated risk-taking are essential. We commit ourselves to best practices and professional standards and to continuous improvement and creativity in ways that reduce longer-term costs and mitigate risks.

### Accountability and Stewardship

We will ensure public funds provide priority services. We will strive to get the most benefit from available resources through sound business practices. We will act in accordance with the law, with integrity and in the public interest; ensuring accountability throughout the organization. We commit ourselves to the efficient use of public resources. We will invest in our people, systems and facilities.

### Integrity and Trust

We believe ethical conduct is paramount and it will be a trademark of our organization. We will strive to create and maintain an environment of trust and civility that comes from open, honest and direct interactions with each other and our residents.

### Equity and Inclusion

We are committed to an inclusive culture that values and celebrates the diversity of the county's residents and employees. We are committed to fostering, supporting and strengthening equity and inclusion in Washington County's programs, practices and policies.

### Valued Employees

We will hire and develop employees and provide them with the tools to perform their duties. We will enable employees and teams to manage their work and expect them to be accountable for their decisions and actions. We commit ourselves to employee development and active performance management.

### Collaboration

We will enhance and support teamwork and team building in our organization and with other public organizations. We will strive for a professional and cooperative working relationship with residents, organizations and other public agencies.

## FOUR FUNDAMENTALS

### Washington County Government's Four Fundamentals

Washington County continues to evolve its strategies and practices based on the vision of One Washington County and the mission of Design the Future. With the 2024-2028 Strategic Plan Update, we revised these fundamentals to guide our work and approach to community problem-solving. Consistent with the guiding principles, these four fundamentals further detail the County's role and approach to services.

#### FUNDAMENTAL 1:

##### **We operate with a collective mindset – One Washington County**

What makes Washington County special is the acknowledgement that our diversity is an asset, and we all need each other. Our community is stronger because we recognize the power and promise of every resident. We value collaboration and cooperation and utilize this approach in all of our relationships amongst other local governments, community-based nonprofits, businesses and civic and faith-based organizations. The County relies on both the participation of these organizations as well as individuals and families to provide the range of services needed in our community.

#### FUNDAMENTAL 2:

##### **We build capacity and a positive culture**

To effectively serve Washington County residents, we recognize that the employees of Washington County are key drivers of excellence and customer service. To support employees in these roles, we will continue to invest in the development and empowerment of staff to perform their day-to-day activities while also providing opportunities to learn new skill sets. We will also continue to support organizational work to build a positive culture of inclusion and belonging where employees feel seen, heard and valued. We endeavor to be the employer of choice of mission-oriented employees committed to serving the public in a positive workplace.

#### FUNDAMENTAL 3:

##### **Washington County is a dynamic partner**

To better serve our community and meet the needs of the people, the County government will assume various roles as set by the Board of Commissioners. Those roles include provider, partner or supporter. In those roles, the County endeavors to bring integrity, best practices and an equity-diversity-and-inclusion (EDI) lens to ensure the success of our priorities and mission.

#### FUNDAMENTAL 4:

##### **We prioritize critical needs**

The County recognizes it must balance its aspirations with its long-term financial sustainability. Policies and services are resourced according to the direction of the Board of Commissioners and their expressed priorities. The County will continue to focus on resourcing countywide services defined by utilization and benefit to a broad range of county residents. Countywide property tax dollars will be primarily expended on countywide services.

## ORGANIZATIONAL GOALS

The following organizational goals provide a broad overview of Washington County's services and responsibilities. In this section you will find goals for the primary areas of government administered by the County.

In the Spring of 2024, Washington County leaders will develop 2024-25 Department and Office Work Plans that correspond to the Board's direction and adoption of these organizational goals. These work plans will inform a comprehensive One Washington County Work Plan and corresponding dashboard that annually tracks organization-wide goal attainment, key performance indicators and outcomes.

**HOUSING, HEALTH AND HUMAN SERVICES:** Washington County will develop and provide a system of program delivery options that emphasizes prevention and response to ensure conditions in which every resident has access to safe, affordable housing, can live well and be healthy.

Department/Office and Description	Goal
<p><b>HEALTH AND HUMAN SERVICES</b> This department provides services for people, animals and the environment to foster a healthy, equitable and supportive community.</p>	<p>Washington County Health and Human Services (HHS) increases opportunities for individuals, families and their animals, at every stage of life in the community to achieve health and well-being by influencing policies, systems and environments; advancing racial equity; providing education, programs and services; and responding to the needs of vulnerable populations. It does this by partnering with the State of Oregon and the community to protect the public's health while striving to improve the ability to fund and sustain new and ongoing services, including state and federal mandated services, that impact community members' daily lives.</p>
<p><b>HOUSING</b> This department administers the housing activities and programs of Washington County and the Housing Authority. The Housing Authority remains a separate legal entity and contracts with the County to implement and administer Housing Authority programs and all support services.</p>	<p>The Washington County Housing Department and Housing Authority increases housing stability and creates pathways out of homelessness for low-income residents and their families. This is done through an integrated and coordinated system of housing and shelter strategies, such as affordable housing, rent assistance, Section 8 vouchers, various shelter options and support services.</p>

Department/Office and Description	Goal
<p><b>LIBRARY SERVICES</b></p> <p>This office provides funding for public library operations, central support and outreach services for the libraries who serve the people of Washington County.</p>	<p>Washington County Cooperative Library Services partners with locally operated public libraries, connecting residents to countywide library services through basic centralized infrastructure, operational funding and support services such as information technology, internet connectivity, digital collections and materials movement. This is done by supporting the values of intellectual freedom and to create a curious, engaged and literate community where everyone is welcome and thrives.</p>
<p><b>COMMUNITY DEVELOPMENT</b></p> <p>This office administers the Community Development Block Grant Program (CDBG) and the HOME Investment Partnerships Program (HOME) for Washington County.</p>	<p>The Office of Community Development administers federal and local funds to provide critical services to low-income community members to make neighborhoods accessible and safe, keep homes habitable and healthy, help individuals and their families find and retain employment and help households find and remain stable in housing and thrive in the community. This work is done in partnership with community-based organizations and local jurisdictions.</p>

**PUBLIC SAFETY:** Washington County will operate and maintain a Public Safety and Justice system that is professional, respectful and coordinated to prevent crime, manage escalating situations, respond to community safety needs, provide corrections and supervision, behavior change, court services, criminal prosecution and victims services programs.

Department/Office and Description	Goal
<p><b>SHERIFF'S OFFICE</b></p> <p>This office is directed by an elected County Sheriff and is responsible for calls for police services in the rural and unincorporated areas of the county, investigations of major crimes, managing the County Jail and providing a range of other support services that assist law enforcement and public safety.</p>	<p>The Washington County Sheriff's Office provides patrol to rural and unincorporated areas of the county, operates a countywide jail, investigates major crimes and provides other support services to the community to ensure public safety. It does this by prioritizing the recruitment and retention of high-quality staff; conducting ongoing evaluations of jail capacity and booking criteria; providing fingerprinting, civil processing and documentation services; maintaining criminal records; and using trauma-informed approaches to emergency response while fostering a culture of professionalism and compassion for enhanced public safety.</p>

Department/Office and Description	Goal
<p><b>COMMUNITY CORRECTIONS</b></p> <p>This department works to prevent the recurrence of crime among adult justice-involved individuals by supervising and connecting clients with the resources they need to change problem behavior.</p>	<p>The Washington County Department of Community Corrections aims to prevent the recurrence of crime in the County by promoting behavior change of individuals under supervision of parole and probation and in the Community Corrections Center; and provides services to crime victims. It does this by centering the department's five core values of respect, equity, accountability, collaboration and heart.</p>
<p><b>JUVENILE</b></p> <p>This department protects the public by reducing delinquency and restores victims and the community by holding youth accountable. The Juvenile Department creates opportunities for change through swift and decisive use of effective practices, building on the strengths of youth and families.</p>	<p>The Washington County Juvenile Services Department protects the public by reducing delinquency and restoring victims and the community. This is done by creating equitable opportunities for change for youth who have received law enforcement referrals through swift and decisive use of effective evidence-based practices, cognitive behavioral therapy, skill building, addressing risk, building on the strengths of youth and families and giving clients opportunities to forge new pathways so that they can move out and stay out of the justice system.</p>
<p><b>DISTRICT ATTORNEY'S OFFICE</b></p> <p>This office is directed by an elected District Attorney and its mission is to seek justice and to protect the community.</p>	<p>The Washington County District Attorney's Office seeks justice and prosecutes dangerous offenders and those who harm quality of life by protecting the community in Washington County. It accomplishes this mission in a variety of ways including holding people accountable who commit all levels of crime, addressing root causes of crime through specialty courts and treatment programs and by protecting victims and vulnerable populations.</p>
<p><b>LAW LIBRARY</b></p> <p>This office provides free access to print and digital collections of statutes, case law, subject treatises covering state and federal jurisdictions and historical Oregon legislative materials.</p>	<p>The Washington County Law Library strives to ensure legal information, resources and tools are available and accessible to everyone in order to enhance equal access to justice. It does this by providing available and accessible legal information.</p>

Department/Office and Description	Goal
<p><b>JUSTICE COURT</b></p> <p>This court is directed by an elected Justice of the Peace and has jurisdiction over most violations of the State Motor Vehicle Code and over certain misdemeanor offenses. The court also has jurisdiction over civil and small claims for money and damages not exceeding \$10,000.</p>	<p>The Washington County Justice Court hears violations, including traffic citations, small claims not to exceed \$10,000 and eviction cases. This is done by providing just, fair and equitable resolutions while treating all participants with dignity, empathy and respect.</p>

**LAND USE, TRANSPORTATION AND ECONOMIC DEVELOPMENT: Washington County will deliver services and planning to promote a thriving community that meets the housing, economic development, transportation, safety and natural resource needs of residents.**

Department/Office and Description	Goal
<p><b>LAND USE AND TRANSPORTATION</b></p> <p>This department is committed to meeting the needs of Washington County communities by addressing growth while supporting mobility, safety, livability, environmental stewardship and quality of life in a fiscally sustainable and responsible manner.</p>	<p>The Washington County Department of Land Use and Transportation supports complete, equitable and welcoming urban unincorporated and rural communities through planning and permitting services that balance growth, housing needs and economic goals with safety and natural resources; farm and forest land protection; and by planning, building and maintaining a safe and connected County-managed transportation system. The department does this by improving internal systems, enhancing staff capabilities and capacity, providing excellent service, ensuring transparent and inclusive community engagement and enhancing collaboration with other County departments and other partners.</p>
<p><b>ECONOMIC DEVELOPMENT</b></p> <p>The Economic Development Program works to create and implement equitable economic development plans, programs and services that promote shared economic prosperity in partnership with business support organizations, local cities and regional economic development agencies.</p>	<p>Washington County's Economic Development Program advances equitable economic prosperity countywide through strategic initiatives, capacity building and collaborations focused on business growth and workforce development. This is done by collaborating closely with other County departments, local city and community partners, regional agencies, and private businesses to foster a strong and inclusive economic ecosystem countywide so that all businesses can thrive and all community members can access meaningful employment.</p>

**ASSESSMENT AND TAXATION:** Washington County will honor and build public trust in democracy through effective financial administration, fair and accurate assessment and taxation and conduct free and fair elections.

Department/Office and Description	Goal
<p><b>ASSESSMENT AND TAXATION (INCLUDING ELECTIONS AND RECORDING)</b></p> <p>This department conducts appraisal and assessment of property in Washington County, collects and distributes property taxes, conducts elections, records documents, provides mapping services, issues marriage licenses and passports and many other services.</p>	<p>The Washington County Department of Assessment and Taxation provides essential countywide services of stewardship such as records which define land and ownership; efficient generation and collection and distribution of property tax revenues across every taxing district and for every single property in Washington County; issuance of marriage licenses and passports. It also perform the duties of the County Clerk by retaining and preserving public records as well as transparently administering open, free and fair elections. This is done by providing accessible information and using sound methodologies to ensure the highest standard for community trust and to enhance public confidence.</p>

**COUNTY GOVERNMENT:** Washington County will operate a modern, effective and efficient, One Washington County organization that delivers county government services that are equitable and human centered.

Department/Office and Description	Goal
<p><b>HUMAN RESOURCES</b></p> <p>This department finds and develops people and processes essential to the success of the Washington County organization and helps to provide a safe and inclusive place to work and live.</p>	<p>The Washington County Department of Human Resources develops leading-edge human resources systems in support of organizational evolution to allow County employees to better serve communities. It does this by leading transformational change through the implementation of innovative and equitable strategies that manage the employee life cycle and by ensuring the County’s personnel policies and practices are compliant with federal, state and local laws and regulations.</p>

Department/Office and Description	Goal
<p><b>FACILITIES, FLEET AND PARKS</b></p> <p>This department provides efficient and effective planning, acquisition, construction, operation, maintenance and repair of all County-owned or operated facilities and vehicles. The department oversees three parks, Eagle Landing, Metzger Park and Scoggins Valley Park, that together make up over 2,500 acres of parkland. It provides safe, dependable, cost-effective vehicles and equipment used to support Washington County services.</p>	<p>The Washington County Facilities, Fleet and Parks Department aims to maximize the value and use of existing County assets of buildings, equipment and land to ensure health and safety, center equity and inclusion and meet future demands. It does this by planning for the total cost of ownership through Board-approved capital plans; leveraging revenue-generating opportunities to offset expenses; extending the useful life of equipment, vehicles, and buildings; and optimizing the community's use and access of County-owned or operated greenspaces, parks and buildings.</p>
<p><b>WESTSIDE COMMONS</b></p> <p>Westside Commons, home of the annual Washington County Fair, is a multi-use campus located in Hillsboro, Oregon, that is dedicated to serving the entire community by hosting and producing national-class events on a local scale.</p>	<p>Washington County Westside Commons provides a gathering place for public and private events and provides community gathering points during natural disasters and unforeseen emergencies. It does this by efficient, effective and equitable management and operations of facilities, community engagement and marketing to maximize revenue opportunities for Westside Commons which also includes the Wingspan Event and Conference Center and the fairgrounds.</p>
<p><b>FINANCE</b></p> <p>This department manages the accounting system and financial records of the County and reports on the County's fiscal affairs.</p>	<p>The Washington County Department of Finance provides day-to-day centralized, countywide fiscal services including budget planning; procurement and contract processing; payroll; accounts receivable and payable; general ledger accounting and reporting; debt management; annual audit coordination; and cash flow and investment portfolio management. It does this by developing a best-in-class fiscal plan that supports the allocation of resources in accordance with the goals and objectives of the County's Strategic Plan Update while increasing the transparency and improving the general understanding of the budget-strategic plan relationship through a redesign of budget practices, fiscal planning methods, internal procedures, accounting practices, management reporting and forecasting and decision-support techniques toward those considered best financial practices in local government.</p>

Department/Office and Description	Goal
<p><b>INFORMATION TECHNOLOGY SERVICES</b>            This department is the centralized provider of support and strategic leadership for technology serving all Washington County programs, offices and departments.</p>	<p>The Washington County Department of Information Technology Services (ITS) is dedicated to advancing the County's mission by delivering trusted and innovative technical solutions that embrace new technologies to provide community members, businesses and County staff with efficient, effective and equitable services which enhance operational efficiency, streamline processes and improve data accuracy. It does this through initiatives like the replacement of the County's enterprise resource planning (ERP) solution to foster agile, transparent, security-focused and modern technology solutions to better meet the diverse needs of the community.</p>
<p><b>COUNTY COUNSEL</b>            This office provides legal advice and represents the Washington County government and affiliated agencies in civil litigation, administrative and enforcement proceedings.</p>	<p>The Office of Washington County Counsel provides legal services to assist the Washington County government in achieving its goals and resolving legal and contractual issues, drafting County legislation and representing Washington County in civil litigation and in administrative and County code enforcement proceedings. The County Counsel Office accomplishes this by delivering quality legal services and creative solutions at a reasonable cost while adhering to the highest ethical standards.</p>
<p><b>EQUITY, INCLUSION AND COMMUNITY ENGAGEMENT</b>            This office provides leadership and support to the County to advance equity, inclusion and community engagement policies and practices so that all Washington County residents thrive.</p>	<p>The Washington County Office of Equity, Inclusion and Community Engagement (OEICE) works through County government policies and practices to dismantle systemic barriers and eliminate racial disparities countywide. It does this by using an integrated approach to providing educational and technical support for County staff and by supporting inclusive community engagement practices so everyone has culturally and linguistically appropriate access to the County's services, programs and opportunities to participate in decision making.</p>

Department/Office and Description	Goal
<p><b>EMERGENCY MANAGEMENT</b></p> <p>This office works to minimize the effects of major emergencies and disasters on the community.</p>	<p>The Washington County Emergency Management Office is responsible for coordinating risk reduction and preparedness efforts across Washington County for the purpose of implementing efficient, effective and equitable natural and human-made disaster response and recovery operations in close collaboration with partners across local, state and national jurisdictions and all sectors. It does this by coordinating planning and preparedness activities that reduce risks and continuously improve Washington County’s response and recovery capabilities.</p>
<p><b>SUSTAINABILITY</b></p> <p>This office provides guidance for sustainable best practices and supports work to reduce the County’s footprint.</p>	<p>The Washington County Office of Sustainability provides a framework for the organization to serve the public to improve resource conservation, promote equity and reduce harm to the environment in support of future generations. It does this by proposing County actions that build resilience to a changing climate and collaborating and contributing to regional groups and community organizations on solutions to achieve County goals.</p>

## LOOKING FORWARD

### How this update will be used

With the documentation completed of our vision, mission, values and approach and a comprehensive listing of goals by the five areas of Washington County government, these elements will now provide direction and an overview of the organization's core responsibilities and strategies. With implementation over the next five years, this work will be happening across every department and office in Washington County.

Upon the Board of County Commissioners' adoption of the Strategic Plan Update, Washington County staff, under the direction of the County Administrator, will work to operationalize the organizational goals through the development and implementation of several important management systems (see Appendix B: Strategic Update and Washington County Management Systems Diagram). These include Financial Plan/Budget, Capital Improvement Plan, Service Level Assessment, Employee Engagement Surveys and Single Department Work and Strategic Plans. Taken together, the goals outlined in the Board-adopted Strategic Plan Update 2024-2028 will inform the insights and implementation of the recommendations contained in each management system. Each of these systems, outlined in the Management Systems Diagram, are considered best practices in local government administration.

These management systems will infuse key data points into a unified "One Washington County" work plan that the organization will develop. The work plan will detail important performance indicators to inform system outcomes and how the organization's resources will align to achieving those outcomes. This work plan will also be tracked quarterly and progress against our goals will be publicly available via a dashboard on our website. This means that every Washington County resident will be able to access information that describes the work of the Washington County government while also accessing information that shows our progress towards achieving the goals outlined in the Strategic Plan Update 2024-2028.

## GLOSSARY

**County, county** – “Washington County” refers to either the local government organization or the territory. In this document, the up-cased term “County” refers to the government organization and the low-cased term “county” refers to the land area or community.

**Design the Future** – An initiative focusing on building a leading-edge, mission-focused organization that can better serve the community now and in the years ahead.

**enterprise resource planning (ERP)** – An integrated technology system that connects critical business processes, people and technologies. ERP enables data-driven decision making, transparency and visibility throughout the Washington County organization.

**equity, diversity and inclusion** – The body of work, programs, policy reforms and other actions aimed at re-shaping communities and organizations so that race can no longer be used to predict life outcomes and outcomes for all groups are improved.

Although the term “diversity, equity and inclusion” is also widely used, Washington County is intentionally using a different order of these words to lead with equity as the ultimate outcome.

**Equity Resolution** – Resolution and Order 20-30, adopted unanimously by the Board of County Commissioners on February 25, 2020, that established an equity framework for the organization, including the creation of the Office of Equity, Inclusion and Community Engagement to be led by a Chief Equity Officer.

**One Washington County** – The vision of departments and offices operating together as a single organization.

**unincorporated area** – Territory that is outside of any city boundary. In Washington County, these unincorporated areas include rural and natural areas, but also urbanized communities inside the urban growth boundary and yet outside of city boundaries.

# Trends and Initiatives

---

## General Topics

### Economic Conditions

Washington County's economy continues to see improvement and growth in the gradual post-pandemic recovery. Over the past year, the County's unemployment rate has hovered around 3 to 4 percent; a level that is near historic lows and a promising sign of recovery.<sup>1</sup> The county's manufacturing base, which makes up over 16% of local employment,<sup>2</sup> continues to grow with several prominent companies announcing substantial expansion plans. These include LAM Research in Sherwood, Analog Devices in the Beaverton area and Intel in Hillsboro.

In fact, with the recent passing of the federal and state CHIPS Acts, Washington County could be poised for even more substantial growth in the coming years. These bills, combined with local and state incentives like the Strategic Investment Program (SIP)<sup>3</sup> are designed to propel investment in the domestic semiconductor industry. Should Washington County companies receive these awards and incentives, the region could see billions of dollars of new investment and the creation of thousands of new jobs, including industries with lower-barrier career pathways such as construction and manufacturing. These investments are poised to generate new economic opportunities for community members and businesses for years to come.

In their latest report, the State's Office of Economic Analysis describes how the economy has started to settle and rebalance. The report discusses how inflation has cooled and productivity is looking up. In the longer-term, population growth is looking to slow.<sup>4</sup> However, as other recent studies have shown,<sup>5</sup> our region and Washington County in particular, are estimated to continue to see population growth as a result of in-migration. As a foundation for economic expansion, continued population growth is a positive sign for Washington County's economy for the years ahead.

### Maintaining Competitive Compensation for Employees

The proposed budget includes funding for a 4.1% cost-of-living adjustment (COLA) in step with the consumer price index-West Coast (CPI-W) measure of inflation.

In addition, although not in this proposed budget, the Human Resources and Finance departments will examine options to address the 6% "pick up" of employee retirement contributions for all employees. Oregon Public Employees Retirement System (PERS) requires that 6% of the wages of each employee be paid into the system by the employee, but PERS provides employers the option of paying this amount on behalf of employees, a practice referred to as the "PERS pick up." Washington County provides the PERS pickup for Sheriff's Office deputies who are members of the Washington County Police Officers' Association as negotiated in their collective bargaining agreement. All other County employees pay their 6% required personal contribution through payroll deductions.

The Human Resources Department is expected to conduct a full classification and compensation study for all County classifications. The study and implementation of the recommendations that come out of the study are expected to span multiple years from start to completion. The study will review internal equity between positions as well as external competitiveness to the relevant market of comparable agencies. The first step will be to select a consultant to support the

---

County in this initiative through a competitive procurement process. The Request for Proposal is expected to be issued in May. The \$250,000 budget for this project is part of this proposal.

Maintaining Washington County's competitive posture in the labor market is critical to our human-centered approach toward supporting our employees.

## General Fund Transfers

Since the passage of Measure 50 in 1997, Washington County has transferred property tax revenue to Washington County Cooperative Library Services (WCCLS) and to the Major Streets Transportation Improvement Program (MSTIP) based on the pre-Measure 50 levy amounts. Generally, these transfers were increased annually at the same rate as countywide assessed value and property tax revenue increased.

In FY 2023-24 over \$24 million in reductions were made to balance the General Fund budget including a 7% or \$3.6 million reduction in the transfer to MSTIP and 7% or \$1.7 million reduction in the transfer to WCCLS. For FY 2024-25 the reductions are 5% or \$2.5 million for MSTIP and 7% or \$1.6 million for WCCLS. The reductions are taken after the assessed value growth rate is applied to the prior year transfer amount. This means the *actual* year-over-year reductions for FY 2024-25 are 0.5% (\$258,955) for MSTIP and 2.6% (\$588,126) for WCCLS.

Although this reduces the incoming General Fund revenue for the MSTIP for the next fiscal year, cost escalation continues to be an even more impactful challenge to the delivery of current transportation project commitments. As part of the transition to an organization-wide Capital Improvement Plan (CIP), capital projects, including transportation, will need to be balanced and prioritized given funding constraints and escalating costs. Land Use & Transportation, Finance and the County Administrative Office are looking to the future and working collaboratively to identify a sustainable long-term strategy for funding transportation capital improvement needs that may rely on a combination of funding methods, rather than solely on General Fund transfers. This work will be done in keeping with the Board of County Commissioners' budget principle to balance long-term capital and operating needs.

For the Washington County Cooperative Library Services (WCCLS), the 7% reduction amounts to \$1.6 million, but once again the year-over-year actual reduction would be 2.6% (\$588,126) given the assessed value growth that is taken into account before to these General Fund reductions are applied. The majority of public library operating funds come from this reduced amount of the County General Fund, but a significant percentage (44%) comes from a five-year local option levy approved for renewal by the voters in May of 2020 at a rate of \$0.22 per \$1,000 of assessed value. The fiscal year 2023-24 budget reflects the third year of the renewed levy which ends June 2026. WCCLS is leading a structured process with partner agencies in preparation for the next levy cycle (FY 2026-27 to FY 2030-31). This strategic process includes evaluating library service levels, performing data analysis, including community indicators, and assessing which library service delivery methods best meet community needs in Washington County. The Cooperative would evaluate governance structures to support those needs, explore sustainable funding mechanisms, and agree upon equitable funding distribution models. The process will support the collective exploration of important policy questions, including the role of the County, cities, and nonprofits in public library service delivery, how WCCLS can distribute funding to partner agencies to create more equitable outcomes for our community, and how WCCLS supports accountability for the effective use of taxpayer funds supporting our public library system. The goal of this collaborative effort is to chart a path to long-term sustainability for our public library system with important policy questions being brought to the Board of County Commissioners in FY 2024-25 and coming years.

## **OPERATING BUDGET**

### **General Government**

#### Direct Services

The departments and offices within this category of direct services to the community are nearly 100% funded by the General Fund, including Assessment and Taxation, the Board of County Commissioners, County Administrative Office, County Counsel,

## Trends and Initiatives

---

County Auditor and the Office of Equity, Inclusion and Community Engagement. To arrive at a balanced General Fund in this proposed budget, a combination of cuts has been made using options offered at both the 3% and 5% reduction levels for most organization units in this category, totaling an estimated \$546,000 in savings to be realized over the course of FY 2024-25 across all County funds including the General Fund. The dynamics of internal cost recovery, first established in FY 2023-24, provides the context for how these savings will be generated.<sup>6</sup>

A common theme across each organization units' reduced General Fund allocations involves cuts to contracted professional services, thereby reducing programmatic capacity. Support for litigation defense, contracted auditing capacity, equity-related training and culturally specific consulting to support standing up Employee Resource Groups are all significantly reduced in this proposed budget. An exception to this trend involves the sustained base budgets for Assessment and Taxation, including positions facilitating property assessment and tax collection as well as interpretation and translation services supporting access to the services of the Elections Division. The Board of County Commissioners organization unit are funded at the base level, i.e., without reductions, in this proposed budget.

### Indirect Services

Several of the departments and offices within this category of indirect services supporting the County organization are also largely funded by the General Fund through internal cost recovery including, Facilities, Fleet and Parks Services; Information Technology Services; County Emergency Management; Finance and Human Resources. Achieving a balanced General Fund budget for these organization units involved a combination of cuts at both the 3% and 5% reduction levels totaling \$748,000 in savings across all County funds including the General Fund. Once again, internal cost recovery will produce these savings during FY 2024-25.

The common thread for each of these organization units involves a drawing back of current levels of service, strategically eliminating vacant positions and cutting contracted support. Exceptions include County Emergency Management which would receive General Fund resources commensurate with the base budget for FY 2024-25.

The COVID-19 Response and Recovery fund would not be affected by General Fund reductions, but this clearing house of federal and some state grants is facing challenges of its own. The American Rescue Plan Act (ARPA) and other state and federal grants have provided necessary funding to meet the needs of the organization and the community as a result of the COVID-19 pandemic. ARPA funds in this proposed budget are appropriated to meet minimum compliance with public health mandates for outbreaks, making vaccines available and so forth. Parallel to continued response, the Board of County Commissioners allocated funds toward resilience efforts in the 2023-2026 ARPA Workplan. Major projects include efforts to mitigate disease transmission within County 24/7/365 congregate care facilities through heating, ventilation and air conditioning improvements, as well as economic development projects in workforce development small business support, and broadband infrastructure.

Even with significant progress in the design and implementation of these projects, there will be a need for the County to make additional determinations on funding allocation and re-allocation for ARPA. As of the January 2024 quarterly report data, the County has obligated 54% of all ARPA funds. Especially among projects newly adopted in 2023, staff are working expediently to obligate as fast as possible; however, ARPA allocation plans may evolve in the spring and summer of 2024 to ensure full obligation. To allow for appropriate time to solicit and finalize contracts and agreements with external partners in advance of the federal December 2024 obligation deadline, the County will need to finalize reallocation plans summer 2024 and plan to set an internal obligation deadline in late summer.

### **Public Safety & Justice**

---

<sup>6</sup> See the description of internal cost recovery provided in the Trends and Initiatives section of the FY 2023-24 adopted budget. <https://www.washingtoncountyor.gov/finance/budget>

## Trends and Initiatives

---

As mentioned in this fiscal year's Budget Message, the entire Public Safety and Justice system continues to experience challenges even as overall crime rates remain low when compared regionally or statewide. Despite this overall trend, changes in the rates of particular categories of crime are cause for alarm. As described in Washington County's white paper on the status of the criminal justice system:

Washington County's Major Crimes team responds to and investigates murders committed in the County and maintains historical data. From 2013 to 2020, there were a total of 50 murder cases. In the last two years (2021 and 2022), that number is 35—more than the last five years combined.

For overall person crimes, the most recent National Incident-Based Reporting System (NIBRS) data shows the County below the state and national average, but the rate rose 98% from 2013 to 2022, and 30% in the most recent five-year period. For the 10-year period ending in 2022, the county person crime rate grew 30% compared to the Oregon average of 18%.<sup>7</sup>

The paper goes on to show alarming trends in the juvenile system as well:

Since the onset of the pandemic, the Juvenile Department has seen an increase in the volume of middle-school-aged youth committing crimes that are more violent than in the past. According to the Oregon Youth Authority Juvenile Justice Information System (JJIS) Report, in 2022, 14.4% of criminal referrals were for youth 12 and younger. This number is up from 10.5% in 2021....Anecdotally, the referrals coming from middle schools are more violent than in the past. Additionally, the number of assaults and violent offenses have risen each year since 2020.<sup>8</sup>

Additionally, adults being booked into the Washington County Jail and juveniles being referred to the juvenile justice system are disproportionately Black or Hispanic, according to County data. As the briefing paper states,

These trends raise critical questions about the factors influencing law enforcement practices and potential systemic issues contributing to the observed disparities. Addressing these concerns requires a comprehensive approach, encompassing community engagement, police training, and broader societal efforts to promote equity in the criminal justice system.<sup>9</sup>

Strain on the system from the influx of fentanyl and other addictive substances, an underfunded mental health care system, workforce shortages and a pattern of unfunded mandates being handed down from both legislation and judicial rulings are having a combined negative effect. Some of the challenges this proposed budget is attempting to face include:

### Operating Critical Facilities

Washington County operates three 24/7 residential facilities and detention capabilities supporting different aspects of the criminal justice system: the Jail and Community Corrections Center on the adult side and Harkins House on the juvenile side, with critical juvenile detention beds being leased from both Multnomah and Yamhill counties.

In the post-pandemic era, both the Jail and Community Corrections Center have faced critical labor shortages resulting in both facilities having to operate at less than full capacity. A significant driver of the problem involves the challenge of recruiting, training and retaining personnel needed to keep each facility operating.

*Jail* – This facility was designed to hold 572 adults in custody, but since the onset of the pandemic has had to close three of its nine housing units, called “pods,” for a total of 388 available beds. This draw-down in capacity is largely due to the struggle to recruit, train and retain the staff needed for full operations. Shutting down pods is a temporary solution to the workforce and financial struggle but undermines the effectiveness of the entire public safety system and undermines trust in the system

<sup>8</sup> Ibid.

<sup>9</sup> Ibid.

## Trends and Initiatives

---

when those facing assault, domestic violence and other serious offenses are “force released” due to lack of capacity. Budgeted positions have gone unfilled for multiple fiscal years, putting strain on existing personnel, producing expensive overtime costs and causing other unsustainable outcomes. The proposed budget includes funding for these same vacant positions and shields the Jail organization unit from reduction scenarios needed to balance the overall General Fund.

*Community Corrections Center* – With a different mission than that of a jail, this facility was designed to house up to 215 justice involved individuals as part of their transition out of the criminal justice system and back into the community. By following evidenced-based practices, the Community Corrections Department, including the staff and programs at this transitional residential facility, has succeeded year after year in reducing recurring offenses, called “recidivism,” through a secure, structured living environment focusing on accountability, employment, treatment and skill building. With the onset of the pandemic, capacity at the Community Corrections Center dropped from 215 beds to just 96, largely due to implementation of disease-preventing protocols. The staffing needed to safely manage residents at this lower capacity level has remained the same over the last three years, however. With the proposed budget for FY 2024-25, including new revenue from the State of Oregon, the Community Corrections Center may now a return to pre-pandemic capacity while also relieving cost pressure on the General fund.

From a longer-term perspective, the future of these two facilities, with a combined physical capacity of 787 beds, and the costs of operating them are fundamentally linked. A recent report by the Oregon Public Safety Taskforce shows Washington County with one of the lowest number of jail beds per capita in Oregon.<sup>10</sup> When taking Washington County’s growing population and other factors into account, the last significant prediction of Washington County’s in-custody and residential capacity called for 1,453 to 2,047 beds by 2030.<sup>11</sup> Although population growth has been slower than this 2007 master plan report anticipated, the trends suggest an on-going need for expansion of both forms of facilities and annual operational costs now and into the decades ahead.

*Juvenile System Detention Capacity* – The last of the critical detention and residential components to the County’s public safety system of service includes strained capacity managed by the Juvenile Services Department. This capability involves leased detention beds with partner counties and the 14-bed, lower-security residential capacity provided by the Harkins House Juvenile Shelter. As the primary provider of detention beds in the region, Multnomah County has historically contracted with Washington County for 14 such secured beds. Due to higher costs being charged by Multnomah County, a new intergovernmental agreement has drawn this bed-count down to 11. An add package to the proposed budget reflects the increased costs for dedicated overflow bed space with Yamhill County in addition to the existing Multnomah County contract. Looking at the long-term situation, the Juvenile Services Department has begun implementing promising prevention and diversion programs aimed at reducing crime and other forms of harm, particularly that experienced in historically underserved parts of the community. The department began the diversion program (RAICES) within the 2021-22 fiscal year, and continues to operate through a contract with our community partner, Latino Network. This program is for low-level first-time offenders, ages 11-17, who have been charged by law enforcement with misdemeanor and violation offenses. The goal of the diversion program is for youth referred to receive a response that will support them to take responsibility for their actions and to refrain from further referrals or deeper involvement in the juvenile justice system. Due to the ongoing success of this program, Public Safety Local Option Levy funding is planned to continue this service into its fourth year.

### District Attorney’s Office Caseload Burden

Another critical component in the public safety and justice system includes the prosecutorial function and victim services support provided by the Washington County District Attorney’s Office. In a typical year, this office reviews and processes over 10,000 cases and obtains court orders for more than \$5 million in victim restitution. In 2023, the office served 16,252 crime

---

<sup>10</sup> Oregon Criminal Justice Commission, “Oregon Public Safety Task Force Report,” December 4, 2020. <https://digital.osl.state.or.us/islandora/object/osl%3A960700/datastream/OBJ/view>

<sup>11</sup> Washington County and Bennett Consulting, “Washington County Corrections Master Plan,” 2007.

# Trends and Initiatives

---

victims, including 3,160 victims of domestic violence, 1,996 child abuse victims, 471 sexual assault victims, and 177 elder abuse victims. This represents increases in all categories compared to the previous year, 2022.<sup>12</sup>

This budget reflects efficient use of limited county resources, creative use of alternate funding sources, and collaborative partnerships that maximize efficiency while meeting the needs of the community. Grant funding is used to help operate initiatives such as the Bias and Hate Crimes Multidisciplinary Team, the Veterans Treatment Court, Justice Reinvestment Program specialty and treatment courts, and the District Attorney's Cold Case Unit. These are important initiatives that have been implemented when additional county funding was not available.

## Support for Specialty Courts

The Washington County District Attorney's Office is a statewide leader in the use of specialty courts and treatment programs using General Fund contributions included in this proposed budget. These evidence-based programs are designed to promote rehabilitation and community safety by focusing on accountability and addressing root causes of criminal behavior, such as mental health, addiction, and trauma. Depending on the particular specialty court, the programs function in partnership among the courts, Health & Human Services, Community Corrections, the District Attorney's Office and the Sheriff's Office, and include several community-based providers. These specialty courts include the Integrative Re-Entry Intensive Supervision Services (IRISS) Program, Family Sentencing Alternative Pilot (FSAP) Program, Adult Recovery Court (drug court), Juvenile Drug Court, Mental Health Court, Rapid Fitness to Proceed Program, Veteran's Treatment Court, Domestic Violence Deferred Sentencing Program, Early Case Resolution Court, Mental Health Diversion Pilot Program and a variety of court diversion programs for lower-level offenses.

## Public Safety Local Option Levy

A critical part of Washington County's strategy to meet growing community needs within Oregon's constrained property tax system has been the use of five-year, voter-approved local option levies. This limited-duration revenue source has grown over time to support approximately 16% of the public safety system, easing the financial burden on the General Fund. With the current local option levy due to expire in June of 2026, the Board of County Commissioners has given direction to begin planning for a new five-year levy proposal for Board consideration and eventual placement before the voters participating in November 2025 election.

## **Land Use & Transportation**

### Community Planning

This program is responsible for the preparation, maintenance and periodic update of the County Comprehensive Plan. For the past few years, this program's staff resources have been devoted primarily to addressing a series of legal challenges to the County's development regulations for urban wildlife habitat areas and significant changes to state rules related to housing, climate and other topics. Work to implement new state rules is expected to continue for the next several years. Though the program is experiencing a 5% reduction in General Fund support, staffing will essentially remain flat. Land Use & Transportation and Government Relations staff have been actively advocating for additional state funding to help local agencies pay for the significant staff and consultant costs incurred to update local plan and code documents as well as implement these state mandates.

### Development Review/Current Planning and Building Services

The Development Review-Current Planning program provides land use planning review in accordance with state, regional and local codes and requirements for proposed development activities. The Building Services program provides permitting and inspection of construction to ensure compliance with building safety codes. These programs are fee-supported. In FY 2023-

---

<sup>12</sup> 2022 numbers were: 15,731 crime victims including 2,754 victims of domestic violence, 1,901 child abuse victims, 426 sexual assault victims, and 118 elder abuse victims.

## Trends and Initiatives

---

24, fees for both programs were increased by 50% in order to achieve full cost recovery because revenue had not kept up with increasing costs since FY 2017-18. Due to increasing personnel and other costs, an 8.5% fee increase with the continued goal of achieving full cost recovery is included in the FY 2024-25 budget. Development activity has decreased over the last few years and the budget has been prepared based on an assumption that this trend will continue. Both programs will continue to manage expenditures diligently and fill essential positions only as needed to continue meeting target service levels.

### Road Fund

*Road Fund Administration* – The long-term forecast of Road fund revenues, which come from a share of state and County gas taxes, state and County vehicle registration fees and state road usage fees, does not keep pace with anticipated growth in expenditures. Yearly average costs for materials, personnel, internal services and professional services are growing at a higher rate than the revenue sources. Land Use & Transportation and Government Relations staff are actively seeking and advocating for additional state and federal funding for a variety of transportation needs.

*Capital Project Services* – This workgroup is currently managing about 80 transportation capital improvement projects funded by MSTIP, Transportation Development Tax, Road fund, grants and other sources. Overall staffing remains flat, though future project delivery needs may require additional personnel. The program expects to achieve Local Public Agency certification from the Oregon Department of Transportation this year, which is needed to support our efforts to seek and manage federal transportation grants.

*Operations & Maintenance* – Costs for materials, personnel, professional services and supplies continue to outpace the growth rate of Road fund revenue. Pavement Condition Index projections for County-managed roads over the next 10 years show the potential for a significant decline without large increases in spending. As the department continues to advocate for additional state and federal transportation funding, this team continues to expand its asset management capabilities and to explore and utilize cost-effective preventive maintenance treatments to extend pavement life and stretch limited funding as far as possible.

*Transportation Planning* – This service is funded primarily by the Road fund. For that reason, beginning this fiscal year, the Transportation Planning program shifts from being housed within the General Fund (Fund 100) to the Road fund (Fund 168). Staffing remains essentially flat. Compared to last fiscal year, there is a significant decrease in external revenue due to the end of the planning phase of a grant-funded trail project. There is an increase in Road fund support.

## **Housing, Health & Human Services**

### Developmental Disabilities

The Developmental Disability Services program has grown dramatically over the past few years due to changes in eligibility requirements by the State Legislature, which significantly increased the number of individuals eligible to be served.

Alongside several years of dramatic growth due to client eligibility expansion by the Oregon State Legislature, state funding levels are below that needed to effectively serve residents. Carryforward funds will allow the County to maintain state-mandated services in the short-term. However, current spending and staffing levels are unsustainable. Funding decisions at the state level will be key to continued financial stability for these services. If funding remains flat, the program will be forced to reduce staff in subsequent fiscal years.

### Behavioral Health

Behavioral Health is a collective fund that provides division administration, operations and management. This organizational unit houses several activities including adult and child mental health programs and addictions programs. The division is also investing in developing new supports for unhoused individuals with mental health and addiction disorders, utilizing unrestricted carryforward revenue.

# Trends and Initiatives

---

## Mental Health Crisis Services

Hawthorn Walk-in Center is fully funded and revenue from multiple funding sources is stable at this time. Any unanticipated changes in state funding could result in less funds available to support crisis services. This uncertainty has led to conservative management of funds with reserves available to mitigate any unanticipated decreases in funding.

## Tri-County Risk Reserve

On December 31, 2019, the contract for Washington County to provide administrative management of the behavioral health benefit for Health Share of Oregon (HSO) was ended and this function transitioned to another organization. In early 2020, Washington County entered into an agreement with the new administrative manager of the behavioral health benefit. This new agreement transferred certain assets and liabilities to the new organization, CareOregon. As a result, funds are no longer needed to cover risk associated with claims incurred but not received.

This organization unit will now be utilized for Prevention, Treatment and Recovery and appropriations available will be invested in new behavioral health programs and infrastructure prioritized with community input that aligns with the original intent of these funds.

## Housing Services

Housing Services envisions a Washington County where everyone has an affordable home with the supports and opportunities they need to thrive. Housing aims to continue providing equitable access to housing opportunities through affordable housing development, preservation, rent assistance, supportive services and solutions to homelessness. The department plans to expand operations by employing a Homeless Services Business Operations Program Specialist for improved invoice processing, Landlord Liaison Senior Program Coordinator for increased landlord recruitment and retention, and Case Conferencing Senior Program Coordinator to effectively monitor and manage enrollments.

## Metro Affordable Housing Bond

The Metro Affordable Housing Bond is focused on rapidly increasing the number of affordable housing units in the tri-county region. Washington County has continued to exceed the milestones set forth by the Local Implementation Strategy and our Unit Production Goals. The County is on track to build 339 homes for the extremely low income, 464 family homes and 136 permanent supportive housing. As the Metro Affordable Housing bond matures, the development process is winding down and Washington County is budgeting \$11,515,000 in development for FY 2024-25. Additionally, the department aims to partner with other agencies and funding sources to purchase a hotel for conversion to low-income affordable housing units.

## HOME

Office of Community Development manages the HOME program on behalf of the County and its twelve city HOME consortium members. HOME funds are used throughout the County to finance the development of affordable housing including rental housing new construction, acquisition and/or rehabilitation or homeownership. In FY 2024-25, two large development projects will be funded although the projects will not start expending funds during this fiscal year. The office also manages additional HUD funds received for HOME-ARP activities.

## Supportive Housing Services

FY 2024-25 represents year four of implementing the Supportive Housing and Services (SHS) measure approved by regional voters in 2020. The proposed budget would combine deeper infrastructure investment in the homeless system of care with stabilizing operations of previous commitments in housing and shelter strategies.

While state and national trends show upticks in homelessness, the number of people experiencing homelessness in Washington County is trending downward, and most importantly, declined 22% among people experiencing chronic homelessness.

## Trends and Initiatives

---

The coordinated community response to the problem includes 10 coordinated outreach teams with “by-name lists” to connect people to immediate shelter and housing services; 440 shelter beds with specific programs for families, youth, couples, individuals and their pets; homes for more than 2,000 formerly homeless households with wrap-around services and rent assistance; and immediate housing solutions with funds to prevent eviction, cover deposits and provide housing search supports.

Over the next two years, the system is planned to grow to include four access centers open seven days a week for the unsheltered across Washington County; hundreds of transitional housing units with onsite recovery and behavioral health care; capacity-building for the network of 25 community-based providers who create livable wage jobs; and support to help hundreds graduate from programs and make room for others in need.

The proposed budget reflects the expansion of regional long-term rent assistance (RLRA) by \$19,910,342 to maintain housing for the over-1,000 households currently housed and expand the capacity to serve 1,650 households annually. The department is also exploring to offer Shelter Only and Shallow Subsidy programs to service a wider variety of underserved population with varying levels of rental assistance needs. Additionally, the budget expands funding for the 25 community-based service providing organizations by \$15,459,889, many of which provide culturally specific services throughout our community.

### Housing Production Opportunity Fund

The Housing Production Opportunity Fund (HPOF) was approved by the Board of County Commissioners prior to the passage of regional affordable housing and supportive housing services tax measures in 2018 and 2020, respectively. The County created the HPOF in FY 2016-17 with General Fund resources. A recent plan for HPOF resources was formally approved by the Board on February 2, 2021. Three affordable housing programs are eligible for funding through HPOF: Rental Housing, Homeownership and Special Needs projects. A total commitment of \$20 million in strategic investment was made for a five-year period. The program operated with carryforward funds from program start up for FY 2022-23 and FY 2023-24 when a \$4 million General Fund transfer for these two fiscal years was suspended. There are two years remaining to be funded under a revised plan for a total of \$8 million. This year’s request has been reduced to \$1.1 million and proposed to be funded from Strategic Investment Program funds.

## **Culture, Education & Recreation**

### Parks

Parks revenues are funded primarily by sales of parking passes, facility rentals, permit fees, state revenue share of Recreation Vehicle license fees, and a matching grant from the Bureau of Reclamation. These sources of income are perpetually unstable due to external forces such as weather and the economy (including the annual number of licenses purchased for recreational vehicles). Without a starting contingency, Parks may operate in a deficit at the beginning of FY 2024-25 until revenues stabilize.

### Cooperative Library Services

Washington County Cooperative Library Services (WCCLS) is a partnership between the County, nine cities and three nonprofit organizations. The majority of public library operating funds come from the County general fund, but a significant percentage (44%) comes from a five-year local option levy approved for renewal by the voters in May of 2020 at a rate of \$0.22 per \$1,000 of assessed value. The fiscal year 2023-24 budget reflects the third year of the renewed levy which ends June 2026.

WCCLS is leading a structured process with partner agencies in preparation for the next levy cycle (FY 2026-27 to FY 2030-31). This strategic process includes evaluating library service levels, performing data analysis, including community indicators, and assessing which library service delivery methods best meet community needs in Washington County. The cooperative would evaluate governance structures to support those needs, explore sustainable funding mechanisms and agree upon equitable funding distribution models.

# Trends and Initiatives

---

The process will support the collective exploration of important policy questions, including the role of the County, cities, and nonprofits in public library service delivery, how WCCLS can distribute funding to partner agencies to create more equitable outcomes for our community, and how WCCLS supports accountability for the effective use of taxpayer funds supporting our public library system. Staff intends for this collaborative effort with partners to chart the path to long-term sustainability for the public library system as guided by answers to important policy questions from the Board of County Commissioners in FY 2024-25 and coming years.

## County Fair Complex/Westside Commons

The findings from the recent business and operations review for the Wingspan Event and Conference Center (Wingspan) identified several key areas to improve Wingspan's financial and operational sustainability. Implementing funding mechanisms remain critical to supplement Wingspan's operations, including sales and marketing, and to fund future capital improvements.

The updated Fairgrounds Master Plan, completed and approved by the Washington County Board of Commissioners in 2019, envisions a regional event destination complementing the new Wingspan Event and Conference Center and the annual County Fair. Funding/financing has not yet been identified to complete any part of the three-phase project.

In FY 2024-25, staff will continue to work on Wingspan financial and operational sustainability and options for funding/financing the Fairgrounds Master Plan. This work will include bringing policy options to the Board of County Commissioners.

## West Slope Library

A request for proposals (RFP) was issued to select a consultant to plan and execute the transition plan for West Slope Library, pending Board of County Commissioners' approval. In addition, the West Slope Library is contracting with the Garden Home Community Library Association for subject matter expert staff support for the transition project. These expenses are funded by using an equivalent amount from contingency.

## **Non-departmental**

### Non-departmental

Expenditures decrease, membership dues to the Government Alliance on Race and Equity (GARE) have been transferred to the Office of Equity, Inclusion and Community Engagement (OEICE) fund 530-311003. In addition, a program concludes that had been receiving one-time, unsolicited allocations to nonprofit organizations in Washington County as directed by each member of the Board of County Commissioners. No such allocation is budgeted for FY 2024-25.

### Community Network

This program had provided facilities maintenance and other support to nonprofit organizations in past years. Most of these allocations have been reduced, eliminated or moved to relevant departmental budgets. Support for the remaining nonprofit, 211info, continues in this program for the FY 2024-25 proposed budget. A plan will be developed after FY 2024-25 for this remaining allocation.

## **CAPITAL BUDGET**

### **Capital Projects**

#### ITS Capital Projects and System Replacement

Fund 354 historically received \$1 million in Gain Share revenue, \$1 million in ITS Systems Replacement program interfund transfer revenue, \$2 million General Fund and varying special fund revenues to support a wide array of IT capital projects.

## Trends and Initiatives

---

Fund 354 received an ongoing General Fund revenue cut of 73% in FY2023-24, in part due to implementation of internal cost allocation, leaving a remaining fund source of \$545,729 available for IT capital projects. The proposed FY 2024-25 ongoing reduction eliminates an additional \$306,605 in General Fund revenue, which leaves \$239,124 in ongoing General Fund resources to support all County requests for capital technology projects.

Due to the ongoing reductions from FY 2023-24 and proposed reductions for FY 2024-25, ITS will need to work quickly to revise its funding model to ensure longevity for investments in technology capital projects. In the interim, Contingency will support immediate approved needs. In the future a new process for vetting requests will need a robust review for necessity, urgency and sustainability.

A related story is underway with the ITS Systems Replacement Program fund 242, in the Non-operating section of the proposed budget. With the 94% reduction to revenue for this replacement fund, a new funding model needs to be considered to meet the unfunded replacement needs for IT systems infrastructure. ITS estimates having a minimum of \$3 million worth of IT systems assets to be included in a replacement lifecycle model, of which ITS could address perhaps \$1.5 million annually. With the proposed FY 2024-25 reduction, ITS does not have sufficient funds to support future replacement needs. This also impacts fund 354 Capital Projects, mentioned above, given that fund 242 Systems Replacement would transfer funds to support replacement projects as expensed in the Capital Fund. Once again, ITS will need to use Contingency within fund 354 to backfill this gap as an interim approach until a new funding model for organization-wide IT infrastructure is operationalized.

### Transportation Capital Projects

While beginning to abate, the collective impact of changing regulatory requirements and escalating material, personnel, right-of-way and contractor costs continues to increase the total cost of each project. This is driving the need to seek additional and more diversified sources of funding and to become a certified Local Public Agency by the Oregon Department of Transportation in order to deliver federally funded grant projects.

The MSTIP budget reflects a 5% (\$2.5 million) General Fund transfer reduction, but includes \$150 million in one-time revenue from issuing bonds to fund completion of MSTIP 3d, 3e and Bonding Cost-sharing projects.

For the past two years, Land Use & Transportation staff have been working with the Board of County Commissioners, our cities (through the Washington County Coordinating Committee) and the public in shaping a proposed MSTIP 3f package of projects and programs. Board approval of the MSTIP 3f package is needed to move forward with new MSTIP projects.

# GENERAL FUND

# OVERVIEW

Property tax revenue raised from the County's \$2.2484 permanent rate is accounted for in the General Fund. This fund is the County's main operating fund and accounts for the Resources and Requirements for countywide activities.

# DISCRETIONARY REVENUE DEFINITIONS

---

The following describes the various discretionary revenue sources accounted for in the General Fund.

## TAXES

**Property Taxes** are revenues generated by a \$2.2484 permanent fixed rate levied against a property owner's taxable assessed value on land and structures. As a result of the voters approving ballot measures 47 and 50, in 1996 and 1997, respectively, the state has a property tax rate system; prior to 1996 the state had a property tax base system. A permanent tax rate was determined for each taxing jurisdiction and then applied to a taxable assessed value that is limited to a 3% annual increase plus any exceptions allowed by state statute. The fiscal year 2023-24 taxable assessed values in Washington County were approximately 44% of real market value.

**Delinquent Taxes** refers to the collections of property taxes not paid in the year in which the taxes were levied. The amount budgeted for each year is estimated by using recent historical collection rates on the outstanding delinquent property tax balance from each year's levy.

**Additional Tax – Current** includes payments from properties that are disqualified from a special assessment program including farm and forest land and historic property as well as fees charged for personal property returns filed after the due date.

**Hotel/Motel Tax** or Transient Lodging Tax is a tax collected from lodging guests (daily or weekly renters at hotels, motels and other lodging establishments). This tax has been in existence since 1972. On March 31, 2000 the tax rate within Washington County was increased to 7% and on July 1, 2006 the tax rate increased to 9%. The tax is distributed as follows: 26% goes to the Washington County Visitors Association, 28% goes to the General Fund of Washington County, 11% goes to the Washington County Fair Grounds, 7% goes to the Events Center project and 28% is split among the cities within Washington County.

**Real Property Transfer Tax** is revenue from the County's 1/10<sup>th</sup> of 1% tax on real estate transfers within Washington County.

**Other Tax** revenue accounts for miscellaneous taxes including the Small Tract Forestland (STF) Option developed to accommodate the varying needs of small woodland owners. This program allows the landowner to delay paying part of their annual property taxes until after the landowner harvests timber. The 2003 legislature established the Forestland Program as a special tax assessment. This reduced tax assessment was intended to recognize the importance of forestland to Oregon's economy and to respond to the growing pressures urban growth was putting on natural resource lands.

## LICENSES & PERMITS

**Liquor License** fees are charged for Oregon Liquor Control Commission applications for license renewals, original applications and change in ownership, location or privilege (type of license).

**Cable TV Franchise Fees** are collected from cable television companies within unincorporated Washington County.

## INTERGOVERNMENTAL REVENUES

**Cigarette Tax** is a state shared revenue from the tax on the sale of cigarettes and allocated to counties based on their pro-rata share of the total population in the state.

**Liquor Tax** is a state shared revenue from the tax on the sale of alcoholic beverages and allocated to counties based on their pro-rata share of the total population in the state. Another portion of the liquor tax is dedicated and distributed to the County for use in mental health programs. These dedicated monies are included in the Human Services budget, a special fund.

**Marijuana Tax** is a state shared revenue from the sale of recreational marijuana and allocated to counties based on the total available grow canopy size and number of licensees. An additional 3% tax was approved by voters for retail sales in licensed shops in unincorporated areas of the County. Another portion of the marijuana tax is dedicated and distributed to the County for use in mental health programs. These dedicated monies are included in the Behavioral Health Division budget, a special fund.

**Oregon and California (O&C) Railroad Timber Sale Revenue** is distributed by the U.S. Treasury to counties in western Oregon from the sale of timber cut on the lands originally granted to the O&C Railroad by the federal government. Monies are distributed based on a formula defined in the act.

# DISCRETIONARY REVENUE DEFINITIONS

---

**State Timber Receipt** revenues account for the County's share of timber tax distributions made by the state of Oregon for managing state forest lands within the County.

**Amusement Device Tax** is revenue raised by the state-wide collection of a flat fee per amusement device (pinball game, etc). The state retains 60% of the tax and distributes the remaining 40% among counties based on their pro-rata share of the total population.

**Video Lottery** revenue is raised from monies generated by video poker machines located throughout the state. According to state law, counties receive their pro-rata share of the 2.5% of net receipts for economic development.

## FINES & PENALTIES

**Court Surcharge** revenue is received from the County Assessment levied per ORS 137.309. County Assessments are additional charges placed by circuit and traffic courts on top of fines imposed by the courts. Fines are placed in the General Fund and used to support Community Corrections and Juvenile programs.

## MISCELLANEOUS REVENUES

**Interest Earnings** on the County's temporarily idle funds invested as authorized by the County's Investment Policy and Oregon Revised Statutes.

**Reimbursement of Expenses** is money received from County departments to repay the General Fund for a lump sum payment made in fiscal year 2001-02 to the Public Employees Retirement System (PERS) to retire a portion of the County's unfunded actuarial liability. This payment is being recovered from the benefited departments over a 25-year period.

**Other Revenues** include charges to the state courts, public defender and the bar association for facilities and information services provided by the County.

## TRANSFER REVENUES

**Transfer from Fund 222** (Indirect Cost Reimbursement) is revenue generated from the County Cost Plan which reimburses the General Fund for overhead support provided to the non-General Fund programs.

**Transfer from Fund 204** (SIP Fund). Strategic Investment Plan (SIP) is revenue from qualified companies based on agreements negotiated as part of the state's economic development program. The County currently has three active strategic investment plans – 2005 Intel, 2006 Genentech and 2014 Intel.

**Transfer from Fund 205** (Gain Share Fund). Gain Share is revenue anticipated from personal state income tax associated with SIP project related employment.

**Transfer from Fund 504** (Liability Fund). The General Fund contributed \$2 million dollars to the Liability Fund to stabilize the fund balance in fiscal year 2017-18. The Liability Fund allocates costs through the County Cost Allocation Plan (CAP). The CAP calculation includes a fund building component to reimburse the General Fund for the contribution.

# DISCRETIONARY REVENUE

# TAXES

Property taxes are generated by a fixed rate levied against the assessed value of all taxable land and structures in the County. The County's permanent tax rate is \$2.2484. Under state law, assessed values on existing property can increase up to 3% annually, plus exceptions. Voters approved an increase of 2% in the Countywide Hotel/Motel tax, increasing the tax from 7% to 9% effective July 1, 2006. The County administers the program on behalf of the cities within Washington County; the tax supports the County Fair and tourism. Additional tax - current include payments from properties that are disqualified from a special assessment program including farm and forest land and historic property.

# OPERATING BUDGET

# OVERVIEW

Operating expenditures are the recurring costs associated with providing public services to County residents. All staffing costs are reflected in the Operating budget. Examples of expenditures included in this budget include the purchase of office supplies and computers, gravel for roads, vaccines for health clinics, vehicles and fuel for the Sheriff's patrol deputies and postage for mailing voter ballots.

## Total Operating Requirements

**Assessment and Taxation**

*How does this budget scenario advance the County's equity and inclusion priorities?*

This proposed budget package advances the County's equity and inclusion priorities by providing sufficient resources for accurate property assessments and preventing disparities that could disproportionately affect specific demographics. The proposed budget allocates language access such as translation services and multilingual translation of communication material, to help community members with various language proficiencies understand complex processes around appraising, levying and collecting property taxes.

*How does this budget scenario negatively or positively impact our goals of (a.) Civil Rights Act compliance and language access and/or (b.) recruitment and retention of bilingual and BIPOC staff?*

This proposed budget package positively impacts our goal of Civil Rights Act compliance, language access and recruitment and retention of bilingual and BIPOC staff by providing funding that enables efforts to recruit and retain a diverse workforce. Bringing different perspectives can enhance the department's ability to address the needs of a multicultural community.

*How does this budget scenario provide mitigations for any negative impacts?*

This proposed budget package provides mitigations by ensuring adequate funding for all Assessment and Taxation operations and will directly support the County's ongoing initiatives for equity and inclusion including funding for the recruitment of bilingual and BIPOC staff. An appropriate budget in assessment and taxation will contribute to a more equitable and inclusive community by ensuring fairness in property assessments, transparent communication, language accessibility and diverse representation within the department.

*Do you foresee any unintended consequences and potential ways to mitigate?*

There are no foreseen unintended consequences of this proposed budget.

**Board of County Commissioners**

*How does this budget scenario advance the County's equity and inclusion priorities?*

The proposed budget advances the County's equity and inclusion priorities by identifying specific funds for assuring translation and interpretation services are available at Board meetings. There are no reduction packages for this budget.

*How does this budget scenario negatively or positively impact our goals of (a.) Civil Rights Act compliance and language access and/or (b.) recruitment and retention of bilingual and BIPOC staff?*

This package improves our compliance with the Civil Rights Act by identifying specific resources to assure interpretation and translation services are available at Board meetings. There are no reduction packages proposed for this budget.

*How does this budget scenario provide mitigations for any negative impacts?*

The proposed budget provides mitigation for any negative impacts by providing interpretation and translation services to improve community engagement and participation. This helps to mitigate inability for communities to attend and communicate during Board meetings.

*Do you foresee any unintended consequences and potential ways to mitigate?*

The proposed budget provides interpretation and translation services to improve community engagement and participation. One possible unintended consequence would be the under-utilization of the resources. This unintended consequence can be mitigated by our "One Washington county" approach to facilitating and encouraging community

engagement for all language speakers. Another unintended consequence may be a lack of resources for the interpretation and translation services. This can be mitigated by careful accounting as resources are requested and potential partnerships with bilingual staff from all County departments, should the resources be inadequate.

### **County Administrators Office**

*How does this budget scenario advance the County's equity and inclusion priorities?*

The 5% reduction proposal will reduce professional services by \$120,279. This will reduce County Administrative Office consulting services and leadership coaching.

The base budget and the reductions maintain the County Administrative Office resources for culturally specific training and funds for translating material as needed. Most of the funds specific to equity, diversity and inclusion are within the Communications; Office of Equity, Inclusion and Community Engagement; and the Board of County Commissioners' budgets.

*How does this budget scenario negatively or positively impact our goals of (a.) Civil Rights Act compliance and language access and/or (b.) recruitment and retention of bilingual and BIPOC staff?*

Although the base budget and the reduction packages have not made advances toward the County's EDI goals, there are no reductions in resources supporting Civil Rights Act compliance, language access or recruitment and retention goals for BIPOC staff.

*How does this budget scenario provide mitigations for any negative impacts?*

The base budget and the reduction packages have not made advances toward the County's equity goals; however, the proposed budget does not reduce resources for Civil Rights Act compliance, language access or recruitment and retention goals for BIPOC staff.

*Do you foresee any unintended consequences and potential ways to mitigate?*

The proposed budget and reduction packages impede the ability to make further strides toward the County's EDI goals but maintains a status quo.

### **County Auditor**

*How does this budget scenario advance the County's equity and inclusion priorities?*

The 3% reduction scenario in the proposed budget involves cutting contracted services for a performance audit as well as specialty expertise that the audit may need for in-house performance audits. The reduction scenario would hinder the County's equity and inclusion priorities by reducing money available for contracting with minority-owned, women-owned, emerging small business (MWESB) and service-disabled veteran business enterprises (SDVBE) for external, professional audit services.

*How does this budget scenario negatively or positively impact our goals of (a.) Civil Rights Act compliance and language access and/or (b.) recruitment and retention of bilingual and BIPOC staff?*

This reduced budget does not explicitly impact Civil Rights Act compliance, language access or recruitment and retention. The package does, however, reduce money that could help MWESB and SDVBE enterprises a fair opportunity to compete for government contracts.

*How does this budget scenario provide mitigations for any negative impacts?*

This reduction scenario has no mitigations for any negative impacts. The positive contracting opportunities would not be available because of the reduction in funds.

*Do you foresee any unintended consequences and potential ways to mitigate?*

There are no foreseen unintended consequences of this reduced budget, other than what is described above.

### **County Counsel**

*How does this budget scenario advance the County's equity and inclusion priorities?*

The 3% reduction scenario would cut a vacant paralegal position, leaving less support for attorneys. This in turn would provision less attorney support for County departments.

Nonetheless, the office has a workforce that is closely representative of the Washington County community per the workforce data compared to demographics from the U.S. Census Bureau and allows the office to retain its diverse workforce.

*How does this budget scenario negatively or positively impact our goals of (a.) Civil Rights Act compliance and language access and/or (b.) recruitment and retention of bilingual and BIPOC staff?*

The 3% reduction scenario impedes the ability to make further strides toward the County's Civil rights goals but maintains a status quo. County Council will continue to support compliance with the Civil Rights Act through the provision of legal advice and litigation across all County departments.

*How does this budget scenario provide mitigations for any negative impacts?*

The reduced budget maintains currently filled staffing levels to assist the County with compliance and enforcement of civil rights laws in the workplace.

*Do you foresee any unintended consequences and potential ways to mitigate?*

There are no foreseen unintended consequences of this proposed budget.

### **County Emergency Management**

*How does this budget scenario advance the County's equity and inclusion priorities?*

The proposed budget package advances the County's equity and inclusion priorities by adequately funding a team of 8.50 full-time equivalent employees. This staffing level ensures the program can address equity objectives in all phases of whole community emergency management. The requested budget will allow Emergency Management to make progress on its equity action plan (updated in 2023).

*How does this budget scenario negatively or positively impact our goals of (a.) Civil Rights Act compliance and language access and/or (b.) recruitment and retention of bilingual and BIPOC staff?*

This proposed budget has limited support for meeting Civil Rights Act compliance and language access. Only \$1,500 in the budget is explicitly set aside for translation services which is likely not enough to address all needs for translation of emergency planning, preparedness education and emergency public information messages. There is no funding explicitly prescribed in this budget to provide special accommodations for the involvement of community-based organizations and other representatives of under-represented populations in emergency planning and preparedness initiatives.

*How does this budget scenario provide mitigations for any negative impacts?*

The budget provides mitigations for the limitations listed above. Staff can use translated materials available through other organizations (e.g., Regional Disaster Preparedness Organization, Oregon Department of Emergency Management, regional partners) and staff will continue to both lead and support regional, externally funded projects that provide preparedness education and emergency public messages in many or all of the County's safe harbor languages. Where possible, grant funded projects will include funding to accommodate the inclusion of under-represented populations and provide accommodations for people with limited English proficiency.

Emergency incidents may require translation and interpretation services. Given the criticality of emergency information, special appropriations may be necessary to cover these costs.

*Do you foresee any unintended consequences and potential ways to mitigate?*

No unintended consequences are foreseen with the proposed budget.

### **Elections**

*How does this budget scenario advance the County's equity and inclusion priorities?*

This proposed budget advances the County's equity and inclusion priorities by providing sufficient funding for comprehensive voter education and outreach programs, ensuring that voters are well-informed about candidates, ballot measures and the election process.

*How does this budget scenario negatively or positively impact our goals of (a.) Civil Rights Act compliance and language access and/or (b.) recruitment and retention of bilingual and BIPOC staff?*

This proposed budget positively impacts our goal of Civil Rights Act Compliance, language access and recruitment and retention of bilingual and BIPOC staff by ensuring funds for language access to multilingual materials and interpretation assistance. The proposed budget helps bridge language gaps and ensure diverse communities can participate fully in the electoral process. The proposed budget allows for bilingual staff to provide translation and interpretation and effectively communicate with voters in various languages, promoting understanding and inclusivity.

*How does this budget scenario provide mitigations for any negative impacts?*

This proposed budget package provides mitigations by ensuring adequate funding for all Elections functions and will directly support the County's ongoing initiatives for equity and inclusion priorities.

*Do you foresee any unintended consequences and potential ways to mitigate?*

There are no foreseen unintended consequences of this proposed budget.

### **Facilities Operations**

*How does this budget scenario advance the County's equity and inclusion priorities?*

The 3% reduction scenario would cut spending on contracted custodial services, preventative maintenance, annual inspections on some equipment, reduce supplies and training for personnel.

Under a 3% reduction scenario, Facilities Operations would significantly slow efforts to improve on Americans with Disabilities Act-related accessibility by limiting the ability to contract building-wide deficiency surveys and reducing

resources required to correct known barriers to access that are technically allowed to persist by law as existing conditions.

*How does this budget scenario negatively or positively impact our goals of (a.) Civil Rights Act compliance and language access and/or (b.) recruitment and retention of bilingual and BIPOC staff?*

Under this reduction scenario, the quality and number of Civil Rights Act notices would be reduced to meet minimum compliance levels.

*How does this budget scenario provide mitigations for any negative impacts?*

The department would be unable to mitigate negative impacts to physical access and informational signage.

*Do you foresee any unintended consequences and potential ways to mitigate?*

Fewer capital projects and reduced contracted services resulting from this reduction scenario could negatively impact the County's utilization of COBID firms.

### **Finance**

*How does this budget scenario advance the County's equity and inclusion priorities?*

The 5% reduction scenario would involve a reduction of a vacant 1.00 FTE Accounting Assistant Senior position and a reclassification of a Treasury Analyst position to an Accountant II. The resulting reduction of overtime and other costs would save \$122,881. Part of this budget reduction scenario will increase workload for existing staff including existing BIPOC staff. Finance strives to maximize staff capacity and achieve full efficiency with a lean structure.

*How does this budget scenario negatively or positively impact our goals of (a.) Civil Rights Act compliance and language access and/or (b.) recruitment and retention of bilingual and BIPOC staff?*

Management will determine workload balance to not negatively impact staff. Retention of BIPOC staff is important to Finance and workload will be reviewed accordingly.

*How does this budget scenario provide mitigations for any negative impacts?*

This budget reduction scenario will impact existing staff with additional workload. Management will determine workload balance to not negatively impact staff. Finance will strive to continually assess workload to ensure no negative impact affecting BIPOC staff retention. Actions could include system automation to reduce workload.

The Procurement Division's budget is geared towards building relationships with Black, Indigenous and People of Color (BIPOC)-owned businesses, encouraging ongoing procurement efforts with those businesses, participating in industry initiatives that make the industry more accessible to women and people of color, partnering with community groups that represent women or communities of color and attending and holding events to support entrepreneurship and jobs with groups that represent communities of color.

*Do you foresee any unintended consequences and potential ways to mitigate?*

No unintended consequences are foreseen with this reduction scenario.

### **Fleet Services**

*How does this budget scenario advance the County's equity and inclusion priorities?*

Fleet Services' budget is established to promote Washington County's equity and inclusion priorities by providing equitable base standards for training and ensuring inclusiveness in all the County's equity priorities.

*How does this budget scenario negatively or positively impact our goals of (a.) Civil Rights Act compliance and language access and/or (b.) recruitment and retention of bilingual and BIPOC staff?*

Fleet Services' budget had held flat and complies with all County standards with regard to Civil Rights Act and recruitment and retention of bilingual and BIPOC staff. Fleet Services is exempt from budget reduction scenarios and does not have any Budget Decision Packages (BDP).

*How does this budget scenario provide mitigations for any negative impacts?*

Fleet Services' budget mitigates negative impacts by maintaining and supporting current service levels to all departmental customers and should not impact the division.

*Do you foresee any unintended consequences and potential ways to mitigate?*

Fleet Services does not foresee any unintended consequences with the proposed budget.

### **Human Resources**

*How does this budget scenario advance the County's equity and inclusion priorities?*

The 3% reduction scenario would involve cutting 2.00 FTE positions, department dues and memberships, training and education and Risk Management travel expenses. The 3% reduction scenario would slow progress toward the County's equity and inclusion priorities by reducing the resources needed for the Human Resources Department to develop, implement and sustain human-centered human resources approaches.

*How does this budget scenario negatively or positively impact our goals of (a.) Civil Rights Act compliance and language access and/or (b.) recruitment and retention of bilingual and BIPOC staff?*

This budget reduction scenario would negatively impact the department's goal of Civil Rights Act compliance, language access and/or recruitment and retention of bilingual and BIPOC staff. Specifically, the reductions would decrease staffing capacity needed to ensure the timely and effective application of policies and procedures that conform with standards of fair treatment, equal protection and a workplace free of discrimination and harassment. The reduction scenario would also reduce Human Resources staffing capacity to develop systems and processes supporting employee learning and development and in launching workforce and succession planning tools and resources for the County. The reduction of the intern position eliminates the ability of Human Resources to provide growth opportunities for the community's future workforce. The reduction scenario would limit the pathways available to develop and maintain cutting-edge human resources expertise in the areas outlined above.

*Do you foresee any unintended consequences and potential ways to mitigate?*

The budget reduction scenario provides mitigations for some of the negative impacts listed above in the way it preserves funding for support of investigation services for more complex civil rights investigations when the necessary level of expertise to perform the work exceeds that of Human Resources personnel or when a conflict of interest exists preventing Human Resources from engaging in the work directly.

*Do you foresee any unintended consequences and potential ways to mitigate?*

There may be unintended consequences of this budget reduction scenario such as increasing the County's risk of liability in circumstances where an employee or manager is not properly trained in civil rights compliance. Other

unintended consequences are the inability to invest in sustainable work systems and an increased strain on existing resources, culminating in backwards movement and loss of progress.

### **Information Technology Services Operations**

*How does this budget scenario advance the County's equity and inclusion priorities?*

The selected reduction scenario reduces the General Fund transfer to ITS Capital Projects by \$306,605, including eliminating a contracted resource for SharePoint administration. This scenario also reduces the ITS Operation budget for Client Services and other small line items by \$58,560 (ongoing). This scenario minimizes negative impacts to the County's equity and inclusion priorities by holding harmless as many IT services that would be a detriment to those efforts. This scenario also maintains funding for ITS' equity, diversity and inclusion training for staff and continues to support County initiatives via capital projects, website maintenance and constituent engagement efforts.

*How does this budget scenario negatively or positively impact our goals of (a.) Civil Rights Act compliance and language access and/or (b.) recruitment and retention of bilingual and BIPOC staff?*

This scenario would negatively impact ITS' goal of Civil Rights Act compliance for language access and accommodations. Impacts would include 1) delays to website features and technology projects that support under-served communities and updates for language translation technologies and 2) \$7,500 reduction for ergonomic hardware and accessories.

*How does this budget scenario provide mitigations for any negative impacts?*

This reduction scenario mitigates the negative impacts listed above because ITS is not cutting services completely. Instead, ITS is attempting to find balance to meet reduction guidelines, maintain ITS staff and keep core services, all while minimizing impacts to equity goals. Instead, ITS is highlighting the potential for delays and reductions.

*Do you foresee any unintended consequences and potential ways to mitigate?*

There may be some unintended consequences of this reduction scenario, however the department intends to make every effort to minimize these impacts.

### **Office of Equity, Inclusion and Community Engagement (OEICE)**

*How does this budget scenario advance the County's equity and inclusion priorities?*

This 5% reduction scenario would involve a \$112,539 cut to Professional Services. The OEICE budget supports equity and inclusion priorities in fund 530 and all three organizational units under this fund provide financial tracking of all activities related to the office. This includes three organization units: 311003 Equity, Diversity, Inclusion; 311005 Community Engagement; 311010 Community Participation Organization.

OEICE began in FY 2020-21 with the goal of providing leadership, policy guidance and project management support for the implementation of Washington County's equity, diversity and inclusion (EDI) and community engagement strategies. These include internally and externally focused engagement to support policy and procedure development related to organization-wide equity strategies. Specific focus areas for the coming year are Civil Rights Act (Title VI and Title VII) compliance, re-envisioning of community Participation Organizations, Limited English Assistance Plan implementation, organization-wide civil rights and EDI training, Equity Leadership Council committees and enhancing ongoing equitable community engagement. The 5% reduction scenario would extremely limit funding available to adequately administer programs to effect change, carry out directives outlined in the Board's Equity Resolution of 2020 and attain positive outcomes for communities of impact and the organization.

*How does this budget scenario negatively or positively impact our goals of (a.) Civil Rights Act compliance and language access and/or (b.) recruitment and retention of bilingual and BIPOC staff?*

The 5% reduction scenario for the 311003 organization unit would significantly impact OEICE's ability to contract with culturally specific and responsive organizations that provide equity, diversity and inclusion training and facilitation. Provision of these types of services is intended to benefit the entire organization by providing needed support to departments to build their own capacity. This reduction would also impact the amount of financial support that OEICE could provide to County employee resource groups (ERGs) upon the adoption of that policy and formalization of these groups. This would have significant impact to BIPOC and LGBTQIA+ identified staff as ERGs are a known best practice in recruitment and retention of diverse employees. Without ERGs that are adequately resourced, the County may become a less supportive and desirable place for diverse employees to thrive.

*How does this budget scenario provide mitigations for any negative impacts?*

The negative impacts from the 5% reduction scenario would primarily be related to a reduction in Professional Services which would limit the ability to provide EDI training, facilitation support and Employee Resource Group (ERG) support across the organization. Staff is not able to mitigate for the impacts beyond limiting OEICE staff training, travel for training and supply usage.

*Do you foresee any unintended consequences and potential ways to mitigate?*

Unintended consequences of reductions would result in fewer training and education opportunities which would limit professional development and program expansion. This would negatively affect employee retention and the ability to provide enhancement and refinement of the language access program.

As reduction scenarios are mostly realized in the Professional Services category, another unintended consequence would be the reduction in opportunities for culturally specific and responsive organizations to build capacity and strengthen their infrastructure. OEICE has also served, in past years, as a "safety net" among County departments for coordination and funding last-minute or unplanned language access services. With a reduction to Professional Services, this ability to pay for interpretation and translation for other departments would be limited or eliminated entirely depending on the reduction scenario. OEICE would maintain funding for language access for its own programming but not be able to step in for other departments as needed.

# GENERAL GOVERNMENT

# BUDGET OVERVIEW

General Government includes organization units that establish and administer overall County goals and policies, provide executive leadership and legal advice and representation, conduct program audits and analysis, assess and collect property taxes for all taxing jurisdictions within Washington County, conduct countywide elections and provide centralized support to the entire organization.

## Total Budget

The responsibilities of the Department of Assessment and Taxation include appraisal and assessment of property; collection of property taxes for all taxing entities; recording documents and land plats, issuing marriage licenses, records retention and administration of Elections. For budgetary purposes, Elections is a separate organization unit (100-3010).

**Budget Analysis**

Total Resources decrease \$262,773 (8%). Total Requirements increase \$1,349,937 (7%). General Fund subsidy increases \$1,612,710 (10%).

Total Resources decrease overall mainly due to a reduction in the County Assessment Function Funding Assistance (CAFFA) grant, while some revenue streams reflected in Miscellaneous revenues are incrementally increasing.

Personnel Services expenditures increase due to increases in salaries, retirement costs, and health benefits.

Materials & Services expenditures increase primarily due to costs associated with the County's Cost Allocations Plan (CAP).

<b>Total Requirements</b>	<b>\$ 12,554,460</b>	<b>13,060,678</b>	<b>19,009,716</b>	<b>20,359,653</b>	<b>20,359,653</b>	<b>20,359,653</b>	<b>7%</b>

**Programs**

1. **Tax Division (100-302005)** Collects property taxes, makes special assessments and local improvement district assessments. Performs tax accounting and ensures preparation and control of refunds. Provides foreclosure proceedings and collection of warrants. Coordinates data processing needs for the department. Administers Oregon State law programs such as the veteran's exemption, property tax relief, and senior citizens' deferral.
2. **Appraisal (100-302010)** Appraises real market value and derives taxable values for real property, manufactured homes and business personal property. Administers programs for special assessed and exempt properties. Produces annual ratio studies and performs as an expert witness for contested valuation appeals. Maintains an accurate County portfolio of all properties including land changes and new construction.
3. **Mapping and Recording (100-302015)** Maintains the County's tax lots base map, tracks property ownership, adjusts taxing district boundaries and assigns tax codes. Records land-based documents including deeds, mortgages, and liens and files certain other records. Issues marriage licenses and registrations for domestic partnerships. Administers the Board of Property Tax Appeals. Secures and preserves critical documents, provides document digitization services, and advises on County records management and retention.
4. **Administration Division (100-302020)** Administration for the Department of Assessment, Taxation, Elections and Recording. Ensures statutory compliance and implements Board of County Commissioners initiatives as well as County policies and objectives. Provides operational oversight and support with a goal of collaborative customer services instilling a One Washington County philosophy among our community, jurisdictions and districts.

As the elected representatives of the citizens, the Board of Commissioners serve as the governing body for Washington County government, setting the direction for the organization by defining and approving goals, priorities and policies.

\*Effective FY 2023-24, General Fund organization unit Legislation & Policy (100-1010) is moved to this new internal service fund.

**Budget Analysis**

Total Resources increase \$74,427 (4%). Total Requirements, excluding Contingency, increase \$122,016 (6%). Contingency increases \$72,613 (119%). Beginning fund balance increases \$120,202 (0%).

Total Resources increase slightly to reflect Cost of Living Adjustments (COLA).

Personnel Services expenditures increase primarily due to the addition of the FY 2023-24 COLA approved by the Salary Commission, as well as increases in retirement costs and health benefits.

Materials & Services expenditures increase due to increased Cost Allocation Plan (CAP) expenditures.

**Adopted Budget**

As part of the FY 2023-24 budget reduction strategy, four members of the Board of Commissioners decided to postpone their FY 2023-24 COLA increase until FY 2024-25. However, while the FY 2024-25 Approved Budget included the FY 2024-25 COLA increase, it did not include the postponed FY 2023-24 COLA increase. This oversight was discovered and corrected with the Adopted Budget.

**Programs**

1. **Legislation and Policy (100-101005)** \*Effective FY 2023-24 this program's new number is 514-101005.

The County Administrative Office serves as the administrative arm of the Board of Commissioners, functioning as liaison between the Board and Washington County departments and offices, interpreting Board goals and policies and providing executive leadership to departments. This organization unit has the following programs: County Administration, Intergovernmental Relations, Economic Development, Communications and Sustainability.

\*Effective FY 2023-24, General Fund organization unit County Administration (100-3515) is moved to this internal service fund and now includes the Sustainability Program (formerly 100-351010).

**Budget Analysis**

Total Resources decrease \$848,831 (10%). Total Requirements, excluding Contingency, decrease \$400,373 (5%). Contingency increases \$842,143 (112%). Beginning fund balance increases \$1,290,601 (0%).

Personnel Services sees increases primarily in salaries, retirement costs, health benefits and a reclassification in the Communications program. However, due to constraints on the General Fund, a vacant 1.00 FTE position in the Office of Sustainability is frozen to contain costs, thereby resulting in a net decrease to Personnel Services requirements.

Materials and Services decrease largely due to changes to the County's Cost Allocation Plan (CAP). All other Material and Services costs are reduced due to constrained General Fund revenue, including Professional Services expenditures which are reduced by \$100,000.

**Programs**

1. **County Administration (522-151005)**: Includes interpreting and implementing Board of Commissioners policies; overseeing Washington County departments and offices; selecting and evaluating the performance of appointed department directors; overseeing day to day operations of County government; preparing and administering the annual budget and providing administrative support to the Board of Commissioners. \*This program's number through FY 2022-23 was 100-151005.
2. **Intergovernmental Relations and Communications (522-151015)**: Encompasses all of the activities associated with representing Washington County's interests on legislative matters as well as those associated with establishing and maintaining external relationships and working cooperatively with other jurisdictions. \*This program's number through FY 2022-23 was 100-151015.
3. **Economic Development (522-151020)**: Collaborates with city partners, businesses, community representatives and others on strategic initiatives intended to maintain Washington County's economic competitiveness and sense of place. The County is committed to providing economic opportunity (jobs, education, training, business development, and urban redevelopment) for its residents, especially traditionally marginalized communities. \*This program's number through FY 2022-23 was 100-151020.
4. **Communications (522-151025)**: Includes internal and external outreach activities intended to support the Board of Commissioners and the County Administrative Office communications priorities and initiatives. Services include distributing traditional and social media content, developing and publishing web content, designing and printing hard copy materials, planning and coordinating outreach events and maintaining standards for graphics and logo usage. \*This program's number through FY 2022-23 was 100-151025.
5. **Sustainability (522-351010)**: Provides guidance for best sustainable practices throughout the organization and leads development and implementation of Washington County's sustainability plan, policies and programs.\*Effective FY 2023-24, General Fund program Sustainability (100-351010) has been reorganized under the new County Administrators Office Internal Service Fund (ISF) 522.

\*Effective FY 2023-24, this General Fund organization unit and several others moved to individual internal service funds. It's new organization unit is County Administrators Office 522-1510.

<b>Total Requirements</b>	<b>\$ 1,369,972</b>	<b>461,074</b>	<b>-</b>	<b>-</b>	<b>-</b>	<b>-</b>	<b>-%</b>

**Programs**

1. **Support Services Administration (100-351005)** Provides administrative support to division managers; assists in the development, planning and implementation of department goals and objectives; recommends and administers policies & procedures. This program closed in FY 2023-24 and appropriations can be found in Finance (522-3515) and Human Resources (536-3520).
2. **Sustainability (100-351010)** \*Effective FY 2023-24, this General Fund program has been reorganized under the County Administrators Office (522-1510). It's new program number is 522-351010.

The County Auditor, as a charter-mandated elective office, serves to independently evaluate the effectiveness and results achieved by Washington County programs and activities. The costs and resources used to achieve those results are also evaluated. The results of these evaluations, including recommendations and the County Administrator's response, are reported to the Board of Commissioners and the public. The Auditor makes recommendations that assist the Board and management to clarify policy as well as improve program performance, management practices, and operating efficiency.

\*General Fund organization unit County Auditor (100-2510) moved to this internal service fund eff. FY 2023-24..

**Budget Analysis**

Total Resources increase \$12,697 (1%). Total Requirements, excluding Contingency, increase \$34,792 (4%). Contingency increases \$162,652 (247%). Beginning fund balance increases \$184,747 (0%).

Beginning fund balance increases from carryover from FY 2023-24 and is entirely budgeted to contingency.

**Key Issues**

The County Auditor requested two staff positions (2.00 FTE) and related Materials and Services. According to the County Auditor, her Office is understaffed when compared to other regional auditor's offices and their service populations. However, these positions are not added in the Adopted Budget.

**Total Budget**

<b>Budgeted FTE's</b>	<b>4.00</b>	<b>1.00</b>	<b>-</b>	<b>-</b>	<b>-</b>	<b>-</b>	<b>0%</b>

**Programs**

1. **Internal Audit (100-251005)** \*Effective FY 2023-24 this program's new number is 528-251005.

County Counsel provides full legal services to Washington County government and affiliated agencies. County Counsel represents clients in civil litigation and administrative enforcement proceedings.

\*Effective FY 2023-24, General Fund organization unit Legal Services (100-1010) is moved to this Internal Service Fund.

**Budget Analysis**

Total Resources increase \$219,222 (5%). Total Requirements, excluding Contingency, decrease \$28,989 (1%). Contingency increases \$304,705 (4,997%). Beginning fund balance increases \$56,494 (0%).

Total Resources increase due to an increase in the Cost Allocation Plan (CAP).

Personnel expenditures increase slightly compared to FY 2023-24 due to increases in salaries, retirement costs, and health benefits. This is partially offset by a \$129,256 reduction in General Fund support resulting in the reduction of 1.00 FTE Paralegal position.

Materials and Supplies decrease due to reductions in the CAP for expenditures.

The budget also includes expenditures related to expert witnesses, court reporters, videographers, trial consultants, and other miscellaneous litigation-related activities.

**Key Issues**

The impact of the 3% reduction scenario results in one less paralegal position to provide support to the attorneys. The County Counsel Office workload has consistently increased over the years, meanwhile approved increases in personnel based on office assessments by Alan Rappleyea and Tom Car have been cut. The office lost a 1.00 FTE Sr. Assistant County Counsel position for the FY 2023-24 budget and this year is losing the above-mentioned Paralegal position. An Investigator position that was approved and subsequently moved to HR/Risk was cut as well. County Counsel asked for an additional Assistant County Counsel position in this budget cycle that was not forwarded. Workloads in "novel" litigation as well as Public Records Requests and other challenges continue to increase. General Counsel support for the Housing Department has increased as well as their services expand.

**Programs**

1. **Legal Services** (526-201005) Provides legal representation of Washington County, including the Board of Commissioners, the Sheriff, County departments and employees as well as the Washington County Housing Authority, Fair Board, Enhanced Sheriff's Patrol District, Urban Road Maintenance District, Service District for Lighting No. 1, North Bethany County Service District for Roads, and Cooperative Library Services. \*This program's number through FY 2022-23 was 100-201005.

\*Effective FY 2023-24, this General Fund organization unit and several others moved to individual internal service funds. It's new organization unit is County Counsel 526-2010.

**Total Budget**

**Programs**

1. **Legal Services (100-201005)** \*Effective FY 2023-24 this program's new number is 526-201005.

The County Emergency Management office prepares Washington County and the community to respond to emergencies through planning, training, exercising, public education and outreach, and coordination with other agencies, businesses and the public. Emergency Management also coordinates hazard mitigation planning and supports and coordinates the County's emergency response and recovery activities.

\*Effective FY 2023-24, General Fund organization unit County Emergency Management (100-3210) was moved to this Internal Service Fund.

**Budget Analysis**

Total Resources decrease \$35,012 (2%). Total Requirements, excluding Contingency, decrease \$96,092 (5%). Contingency increases \$308,091 (440%). Beginning fund balance increases \$247,011 (0%).

For the first time, the Emergency Management Cooperative (EMC) project fund balance was transferred to the Emergency Management budget. In previous years, EMC revenue was maintained separately.

Grant revenues decrease due to receiving fewer and smaller grant awards compared to FY 2023-24.

Personnel Services increase due to Cost of Living Adjustments (COLA), salary step increases, retirement costs and health benefits.

Materials and Services expenditures decrease due to reduced expenditures on grant-funded projects as well as on training, education, and communications services. To meet budget constraints, there is a 65% decrease in training and education expenditures, a 31% decrease in communications services, and a 41% decrease in travel.

**Key Issues**

Budget reductions will limit the ability of staff to participate in emergency management and professional development courses. The reduction in communications services will eliminate the satellite wifi system service that provides a backup pathway to the internet.

**Total Budget**

## Programs

1. **County Emergency Management (532-321005)** This program develops emergency management plans, coordinates planning with and between departments and divisions, maintains County emergency operations facilities, coordinates training and exercises for County staff, provides preparedness guidance and resources for the public, and manages financial accounting for County emergency management staff. When emergency incidents occur, Emergency Management supports and coordinates the County's response and recovery activities. Emergency Management also hosts the Washington County Emergency Management Cooperative (EMC) which consists of contributing city and special district members. The EMC conducts emergency management projects of common benefit to its members and the community. \*This program's number through FY 2022-23 was 100-321005.

\*Effective FY 2023-24, this General Fund organization unit and several others moved to individual internal service funds. It's new organization unit is County Emergency Management 532-3210.

**Programs**

1. **County Emergency Management (100-321005)** \*Effective FY 2023-24 this program's new number is 532-321005.

Washington County is responsible for tracking internal and external COVID-19 response revenue and expenditures including the US Department of the Treasury Coronavirus Relief Fund (CRF) from the Corona Virus Aid, Relief, and Economic Security (CARES) in April 2020, other federal and state funds, and other funding sources for COVID-19 response. The CRF funds have been fully expended as of June 30, 2021, and there will be no additional CRF funds coming to the County. For FY 2024-25, two primary sources of funding from the American Rescue Plan Act (ARPA) are tracked for the County, namely the State and Local Fiscal Recovery Fund (SLFRF) and the Emergency Rental Assistance Program 2.0 (ERAP2) that will be used for COVID-19 response, recovery and resilience throughout Washington County.

### ***Budget Analysis***

Total Resources increase \$21,759,261 (70%). Total Requirements, excluding Contingency, increase \$6,266,759 (20%). Contingency increases \$15,606,459 (733%). Beginning fund balance increases \$113,957 (5%).

The COVID-19 pandemic and related grant funding have continued to evolve since 2020. There have been numerous grant awards in Fund 155 from the federal government and from the State of Oregon that are dedicated to COVID-19 response, recovery, and resilience, summarized below.

Revenue has been granted to Washington County from the US Department of the Treasury Coronavirus Relief Fund (CRF) Corona Virus Aid, Relief, and Economic Security (CARES) Act from FY 2019-20, as well as from the Emergency Rental Assistance Program 1.0 (ERAP1) from the Consolidated Appropriations Act in FY 2020-21. The Oregon Department of Administrative Services and the Oregon Health Authority (OHA) also awarded emergency COVID-19 response funding in FY 2020-21. These funds will have been fully expended by the end of FY 2022-23.

The American Plan Act provided funds via SLFRF and ERAP2 in FY 2020-21. The Oregon Department of Administrative Services awarded funds dedicated to COVID-19 response and recovery from the State of Oregon's allocation from the SLFRF. This budget contains anticipated carryforward revenue from advanced payments for the above awards, as well as fund balance from reimbursements received from the Federal Emergency Management Agency (FEMA) during FY 2022-23 and FY 2023-24, for expenditures in FY 2020-21 and FY 2021-22.

The Fund 155 FY 2024-25 budget primarily consists of anticipated ARPA project spending, with the anticipated FY 2025-26 and FY 2026-27 spending placed in contingency. All ARPA funds were allocated in spring 2023 in the Board of County Commissioners (BCC)-adopted 2023-2026 ARPA Framework; with the closeout of select pandemic response programs, the potential for changes in public health programs, and a fast-approaching December 2024 obligation deadline, it is likely fall and winter budget adjustments will be needed. Aligned with these changing conditions, it is anticipated the BCC will consider ARPA fund reallocation options in spring/summer 2024. It is recommended final ARPA SLFRF obligations are made no later than mid-summer 2024 in advance of the federal December 2024 deadline.

### ***Key Issues***

ARPA and other state and federal grants have provided necessary funding to meet the needs of the organization and the community as a result of the COVID-19 pandemic. However, key issues exist as the County continues to obligate and expend funds amid changing public health conditions, fast-approaching grant deadlines, and uncertainty.

Washington County as the Local Public Health Authority had statutory responsibility (OAR 333-014-0550) in investigating reportable diseases, responding to outbreaks, making vaccines available, and much more. ARPA SLFRF funds in this budget are appropriated to meet these mandates at a minimum compliance level. Uncertainty in COVID-19 response continues to impact ARPA and budgeting processes.

Parallel to continued response, the Washington County Board of Commissioners allocated funds toward resilience efforts in the 2023-2026 ARPA Workplan. Major projects include efforts to mitigate disease transmission within County 24/7/365 congregate care facilities through heating, ventilation, and air conditioning improvements, as well as economic development projects in workforce development small business support, and broadband infrastructure.

Even with significant progress in the design and implementation of these projects, there will be a need for the County to make additional determinations on funding allocation and re-allocation for ARPA SLFRF. As of January 2024 quarterly report data, the County has obligated 54% of all ARPA SLFRF funds. Especially among projects newly adopted in 2023, staff are working expediently to obligate as fast as possible; however, ARPA SLFRF allocation plans may evolve in the spring and summer of 2024 to ensure full obligation. To allow for appropriate time to solicit and finalize contracts and agreements with external partners in advance of the federal December 2024 obligation deadline, the County will need to finalize reallocation plans before summer 2024 and plan to set an internal obligation deadline in late summer.

**Programs**

1. **COVID-19 CARES Act-Operating (155-164505)** This program is intended to cover internal expenditures authorized by the Corona Virus Aid, Relief, and Economic Security Act (CRF). This is specific to internal expenditures to the Protect Public Health principle. This funding source has been fully expended and will not have any budget for FY23 or future years.
2. **COVID-19 Continued Response (155-164520)** This program is responsible for tracking all non-grant funded Washington County COVID-19 response that may or may not be eligible for future funding.
3. **US Treasury ARPA - COVID-19 Cat A Necessary Eligible Expenditures (155-164521)** This program tracks the expenditures related to the State and Local Fiscal Recovery (SLFRF) fund provided through ARPA distributed through US Department of the Treasury. This is a COVID-19 response and recovery assistance award, and this program tracks only the eligible activities under Negative Public Health or Economic Impact due to COVID-19.
4. **OR State ARPA PT - COVID-19 Response Projects (155-164522)** This program tracks the state-legislated pass-through award from Oregon Department of Administrative Services for the discretionary funds provided to district representatives. The awards are for funds to pass-through or use in relation to Tualatin Hills Park & Recreation District bathroom remodeling, Tualatin shuttle / public transportation improvements, and Tualatin Small Business Support, as defined and directed by the legislature.
5. **US Treasury ARPA - Facilities Capital HVAC Replacement Projects (155-164523)** This program contains the portion of the ARPA - State and Local Fiscal Recovery Fund (SLFRF) allocation to the Congregate Facilities HVAC replacement projects.
6. **FEMA COVID-19 Continued Response (155-164525)** This program is intended to track known FEMA COVID eligible costs to ensure all eligible costs were identified for FEMA reimbursement. As of the start of FY 2022-23, no expenditures will be tracked or claimed for FEMA Reimbursement, however, revenue was received in FY 2022-23 for previous fiscal year expenditures that were requested for reimbursement.

7. **OHA FAA COVID-19 Response (155-164530)** Administers funds distributed by the Oregon Health Authority (OHA) Financial Assistance Award (FAA) to the County Public Health Division to assist with COVID-19 response expenditures. Washington County does not have any additional COVID-19 response funding from OHA being tracked in Fund 155 for FY 2024-25 and the previous awards were fully expended in previous fiscal years.
8. **OHA COVID-19 Vaccine Equity Plan Program (155-164531)** This program tracks the Equity Plan Grant from the Oregon Department of Administrative Services for vaccine equity work. This has been fully expended as of 12-31-2021.
9. **US Treasury COVID-19 Emergency Rental Assistance (155-164535)** This program tracks revenue and expenditures related to the Federal Consolidated Appropriations Act - Emergency Rental Assistance Program 1.0 (ERAP1) for individual households. This grant was awarded additional funds through the ERAP1 reallocation process in FY 2022-23 and will be fully spent out by June 30, 2023.
10. **US Treasury COVID-19 Emergency Rental Assistance 2.0 ARPA (155-164536)** This program tracks the activities for the Emergency Rental Assistance Program 2.0 (ERAP2) distributed through US Department of the Treasury from ARPA through a grant separate from ARPA SLFRF. Funds are used to provide household rental and utility assistance during the Covid-19 pandemic. This grant is expected to be fully spent out in the first half of FY 2024-25.

This organization unit is responsible for conducting all federal, state and local elections for Washington County, as well as maintains voter registration records, verifies petitions, and establishes and maintains precincts and election boards.

**Budget Analysis**

Total Resources decrease \$111,203 (16%). Total Requirements increase \$274,511 (7%). General Fund subsidy increases \$385,714 (12%).

Total Resources primarily decrease due to a reduction in anticipated Elections fees eligible for reimbursement to the County, while a few other revenue streams are incrementally increasing.

Personnel Services increase due to increases in salaries, retirement costs, and health benefits.

Materials & Services increase primarily due to costs associated with the County's Cost Allocations Plan (CAP).

**Key Issues**

The Elections Division anticipates a significant voter turnout for the 2024 election year due to US Presidential race, breadth of candidate contests, and measures to be resolved. The budget has been thoughtfully reviewed to adequately reflect additional staffing, materials, printing, and mailing service requirements.

**Programs**

1. **Election Services (100-301005)** Responsible for the coordination of County election activities. There are two regularly scheduled statewide elections in every even-numbered year, the primary election in May and the general election in November. There are four regularly scheduled elections at the local level each year. A jurisdiction may or may not need to hold an election on those dates. The Legislature may choose to call a special election at any time. In 1998 Oregon voters passed a ballot measure to allow all elections in the state to be conducted by mail. Registered voters are mailed a ballot and must return it on or before election day.

The Facilities Division operates, maintains, and repairs County-owned and leased facilities and properties consisting of 1.75 million square feet of building space and associated grounds. The work of the division is accomplished with a blended complement of County staff and outside contractors. The division has the following programs: Operations, Maintenance, and Real Property.

\*Effective FY 2023-24, General Fund organization unit Facilities Operations (100-3535) is moved to this new internal service fund.

**Budget Analysis**

Total Resources increase \$236,880 (1%). Total Requirements, excluding Contingency, increase \$1,046,114 (5%). Contingency increases \$539,894 (81%). Beginning fund balance increases \$1,349,128 (0%).

Facilities is budgeting its second year as an Internal Service Fund (ISF) housed separately from the General Fund. This organizational change results in the revenue allocation identified as ISF County's Cost Allocation Plan (CAP) - Internal and captured in the Charges for Services row below. This revenue increases slightly while Rental income is projected to increase significantly compared to the prior year. The latter reflects new lease opportunities entered into with external sources within the last year.

Personnel Services expenditures increase due to increases in salaries, retirement costs, and health benefits. New this year is the addition of a 1.00 FTE Safety and Security Coordinator position to assist in improving the safety and preparedness of the County organization. The position would support workplace violence prevention, preparedness and response capabilities, and coordinate all security functions.

Materials & Services increases are almost exclusively related to the increase in utility costs countywide. Portland General Electric implemented a double-digit increase in January 2024, resulting in the need for additional utility expense appropriations. Facilities continues to implement energy saving strategies to offset the utility rate increases.

The Facilities budget also includes \$294,500 in reductions to certain categories of Materials & Services expenditures, including supplies (\$100k), professional services (\$170K), furniture (\$20K) and training (\$4.5K). Because this is the second year of reductions in these categories, the impacts will be more far-reaching and may include discretionary expenditures request denials, increased risk of building and equipment needs not being met in a timely fashion, increases in the number of years before furniture can be replaced, and increased staff workloads where contracted services can no longer be afforded.

# Mail and Print Services 516-3545

# Budget Detail

Mail and Print Services (MPS) is a special fund that provides services to County departments and associated agencies, including: U.S. mail; parcel and freight deliveries; ordering and delivery of office supplies; printing services and coordination of the internal copier program.

\*Effective FY 2023-24, MPS was been reorganized under the new Facilities, Fleet, and Parks Department, but will remain fund 516.

## Budget Analysis

Total Resources decrease \$37,882 (2%). Total Requirements, excluding Contingency, decrease \$284,613 (14%). Contingency increases \$265,995 (75%). Beginning fund balance increases \$19,264 (3%).

Personnel expenditures increase slightly due somewhat to cost-of-living-adjustments (COLA), as well and increases in salaries, retirement costs, and benefits, but also to an increase of shared Personnel expenditures. Accounting staffing adjustments were made when MPS was moved to the Facilities, Fleet and Parks Department in FY 2023-24. Due to higher-than-anticipated accounting support needed for this program, the percentage of a departmental Financial Analyst position allocated to this program will increase 5% in FY 2024-25. This change is partially offset through projected increases in revenues.

MPS continues to research cost saving strategies to further assist in meeting the financial needs of the county while maintaining a high degree of both internal and external customer service.

## Total Budget

	Actuals 2021-22	Actuals 2022-23	Modified 2023-24	Proposed 2024-25	Approved 2024-25	Adopted 2024-25	Change %

<b>Total Requirements</b>	<b>\$ 1,677,104</b>	<b>1,767,711</b>	<b>2,421,167</b>	<b>2,402,549</b>	<b>2,402,549</b>	<b>2,402,549</b>	<b>-1%</b>

**Programs**

1. **Internal Services Contingency** (516-354505) Accounts for the Contingency and interest earnings for the entire Mail and Print Services fund.
2. **Mail Messenger** (516-354510) Pickup and delivery for U.S. mail, UPS, Federal Express, state shuttle and non-mail items; as well as posting and accounting for all outgoing U.S. mail, UPS and Federal Express.
3. **Printing and Copiers** (516-354520) Provides printing services, including forms, letterhead, envelopes, business cards, booklets, multiple color specialty jobs and high-speed printing.
4. **Photocopy Services** (516-354525) Closed in FY 2014-15

The Finance Department is responsible for preserving and maintaining Washington County's financial integrity and trustworthiness.

\*Effective FY 2023-24 General Fund organization unit Finance (100-3515) moved to this new Internal Service Fund and now includes Purchasing Services (former organization unit 100-3530).

**Budget Analysis**

Total Resources increase \$463,812 (8%). Total Requirements, excluding Contingency, increase \$126,949 (2%). Contingency increases \$493,551 (949%). Beginning fund balance increases \$156,688 (0%).

Total Resources increase due to an Internal Service Fund (ISF) increase in Cost Allocation Plan (CAP) revenue.

Personnel Services expenditures increase due to increases in salaries, retirement costs, and health benefits. However, these increases are largely offset by the elimination of a 1.00 FTE Accountant II position, a 1.00 FTE Financial Analyst position, a 0.25 FTE Management Information Systems position, and a 0.05 FTE Payroll Specialist position.

Materials and Services expenditures increase mainly due to an increase in CAP costs.

Other expenditures decrease, mainly due to a reduction in projected bank service charges based on FY 2022-23 and FY 2023-24 actuals.

1. **Purchasing Services 100-353005** \*Effective FY 2023-24 this program's new number is 534-353005.
2. **Personal Property Disposition 100-353010** \*Effective FY 2023-24 this program's new number is 534-353010.

Fleet Services is responsible for the procurement of safe, dependable, and cost-effective vehicles and equipment, and the management and maintenance of these assets through quality service programs.

**Budget Analysis**

Total Resources decrease \$174,740 (2%). Total Requirements, excluding Contingency, increase \$37,627 (1%). Contingency increases \$24,356 (5%). Beginning fund balance increases \$236,723 (60%).

Fleet Services is funded by fees charged to departments and other agencies. The FY 2024-25 requested total revenues and associated FY 2024-25 revenue rates are established each fiscal year to provide sufficient funding for operations and to maintain an adequate fund balance.

Personnel Services increases due to salaries, retirement costs and health benefits.

Budgeted Materials and Services expenditures decrease largely due to the assessment that Vehicle Budget Decision Package (BDP) requests and associated operating costs over-inflated the Fleet operations budget in FY 2023-24. For FY 2024-25 it has been determined that no operational costs will be generated from the initial Vehicle Addition BDP requests.

Capital Outlay carries forward a budget request amount of \$45,000 for a shared Facilities project with Land Use & Transportation (LUT) to replace the external video cameras at Walnut Street Center.

The contingency is established at a level sufficient to provide for one month's funds to conduct services and purchase supplies until the billing cycle process is completed at month end. A healthy contingency amount is approximately 8.3% or 1/12 of the requested expenditure budget not including the contingency. The requested amount is within a range adequate to support operations and reflects Fleet Services' trim operations.

**Programs**

1. **Fleet Services** (500-354005) Fleet Services provides scheduled and unscheduled maintenance and repair of County vehicles and equipment in the following areas: 1) Vehicle and Equipment Acquisition and Disposal: provides specification development, acquisition process management, up-fitting and in-service preparation, modifications, decommissioning and disposal; 2) Fuel: provides fuel supply and support for County vehicles and equipment; 3) Motor Pool: provides short-term rental of passenger vehicles to County departments; 4) Contract Administration: provides a wide variety of contracts in support of the above services and 5) Policy Development: provides oversight for the acquisition and operation of vehicles and equipment through administration of the County Vehicle and Equipment Use Policy.

The Human Resources (HR) Department provides leadership and support to Washington County for all human resource related activities. The Risk Management Division of the Department of Human Resources is responsible for management of the County's insurance programs and safety programs.

In building a leading-edge organization through the Design the Future initiative, HR will bolster support to employees through a continued investment in HR structures and systems. The transformation during FY 2024-25 will focus on two critical areas: The first will consist of HR processes; the second will be to review the County's classification and compensation structure.

\*Effective FY 2023-24 General Fund organization unit Human Resources (100-3520) moved to this new Internal Service Fund and now also includes Risk Management (former organization unit 100-3575).

**Budget Analysis**

Total Resources increase \$530,729 (6%). Total Requirements, excluding Contingency, increase \$546,885 (6%). Contingency increases \$896,125 (742%). Beginning fund balance increases \$912,281 (0%).

Total Resources increase due to a Cost Allocation Plan (CAP) revenue increase and a transfer from the Strategic Investment Program (SIP) which will fund a classification and compensation study.

Personnel Services expenditures increase primarily due to increases in salaries, retirement costs and health benefits. The increase is partially offset by the elimination of a 1.00 FTE Human Resources Analyst II position and a 1.00 FTE Intern position.

Materials and Services expenditures increase primarily due to a one-time professional services contract for a classification and compensation study, along with an increase in software licenses and the transfer of a professional services contract from the Finance Department. This increase is partially offset by reductions in other completed professional services contracts and a reduction in the TriMet program.

**Programs**

1. **Risk Management** (100-357505) \*Effective FY 2023-24 this program's new number is 536-357505.

The Department of Information Technology Services (ITS) manages and maintains the end user technology environment, business applications, internet and intranet technologies, Washington County websites and Geographic Information System (GIS) functions.

\*Effective FY 2023-24, General Fund organization unit ITS Operations (100-3525) was converted to this new internal service fund.

### ***Budget Analysis***

Total Resources increase \$727,463 (3%). Total Requirements, excluding Contingency, decrease \$1,010,019 (4%). Contingency increases \$1,737,482 (0%).

Total Resources increase due to an increase in transfer from the Cost Allocation Plan (CAP) and increases in direct charge revenues which reimburse the Department of Information Technology Services' (ITS) personnel costs for staff assigned to work on projects specifically for the Land Use and Transportation Department.

Personnel expenditures increase due to increases in Cost of Living Adjustments (COLA), retirement costs, health benefits, as well as \$35,000 towards the implementation of ITS' After-Hours Call Service Support program. Personnel costs are also impacted by the reclassification of a vacant 0.50 FTE variable hour position to a full 1.00 FTE, replacing a long-term PC build bench contractor, adding 0.50 FTE and \$17,619 to budgeted Personnel costs. The increase in personnel costs is largely offset by reductions in professional services costs.

The decrease in Materials and Services (M&S) expenditures is the net impact of mandated reductions, contractually obligated increases for software subscriptions and maintenance, decreases in direct charges, and changes to the County's Cost Allocation Plan (CAP).

The FY 2024-25 reduction scenario results in a \$58,560 decrease in M&S expenditures for Fund 518. A majority is from printer, monitor, small hardware and software replacement costs, and the remainder is the result of two software subscription cancellations.

Starting in FY 2024-25, ITS moves some software licenses and maintenance expenditures from the ITS Operating budget to a direct-charge structure which charges these costs to user department's budgets. This will result in greater transparency and more accurate forecasting.

The Building Depreciation funding methodology changes as the result of ITS becoming an Internal Service Fund (ISF). In FY 2023-24, the CAP charged \$1,170,082 in Building Depreciation to the ITS Operating Fund (Fund 518) and transferred \$1,228,755 in Building Depreciation revenue to the ITS Systems Replacement Fund (Fund 242). In FY 2024-25, the Building Depreciation expenditure to Fund 518 decreases by 95% and the corresponding revenue transfer to Fund 242 decreases by 94% as a result. This unanticipated change has direct impact on the budgeted Contingency level for the ITS Operating Fund, ITS Capital Projects Fund, and Replacement Fund.

### ***Key Issues***

ITS implemented a \$365,165 reduction for FY 2024-25. These reductions are in addition to the 7% reduction implemented in FY 2023-24 across both this fund and fund 354 (Capital Projects). These reductions and the ongoing, unanticipated reduction of \$1,150,586 to fund 242 (Replacement Fund) result in an ongoing department reduction of \$3,158,522 in just two years' time. These reductions, coupled with allowed average annual increases of 3% to maintain existing levels of technology services continue to place pressure on the department to maintain baseline technology services.

**Programs**

1. **ITS Operations (518-352510):** This program supports all ITS functional areas with Chief Information Officer leadership, administration functions, and with all shared costs throughout ITS Operations.
2. **ITS Land, Spatial, and Digital (518-352515):** This program accounts for the cost of Internet and Intranet technologies such as County websites, land-oriented technologies including permitting and taxation, and engineering and geographic information (mapping) related systems and services.

3. **ITS Enterprise Application and Engineering** (518-352520): This program is responsible for ongoing maintenance, support, and subscriptions of line-of-business applications and enterprise tools in departments throughout the County. Funding in this area is used to ensure County application systems remain stable, supported, and compliant, and that subscriptions remain active.
4. **ITS Maintenance Client Services** (518-352525): This program accounts for the operating costs, maintenance and lifecycles of client-supported software and computer hardware for all County employees.
5. **ITS Security** (518-352530): This program accounts for the ongoing maintenance, information security support and subscriptions, and auditing and compliance expenses for ITS and the County. Funding of the ITS Security program is critical in ensuring a secure and compliant environment.
6. **ITS Project Management** (518-352540): This program accounts for the ongoing operating costs involved in the implementation of the ITS project portfolio. Working with the ITS Functional Managers, the Project Management Office directs, coordinates, and supervises staff in all aspects of project and portfolio management.
7. **ITS Infrastructure Services** (518-352545): This program accounts for the ongoing cost of supporting the network, server, virtualization, cloud, and voice infrastructure needed to support all other digital functions for ITS and the County.

# Office of Equity, Inclusion & Community Engagement

## 530-3110

## Budget Detail

This organization unit provides leadership to ensure Washington County is more equitable and inclusive by fostering, supporting and strengthening equity and inclusion in the County's programs. The program supports the volunteer-led activities of the geographic-based Community Participation Organization program, the Committee for Community Involvement, organization-wide departmental efforts for comprehensive community engagement and collaboration with community partners to foster pathways to participation in civic engagement for communities of color and historically underrepresented groups.

\*General Fund organization unit Equity, Diversity and Inclusion (100-3110) was moved to this new Internal Service Fund effective FY 2023-24.

### Budget Analysis

Total Resources increase \$215,899 (7%). Total Requirements, excluding Contingency, increase \$49,765 (2%). Contingency increases \$166,134 (128%).

Total Resources increases due to an increase in Cost Allocation Plan (CAP) funding.

Personnel costs decrease as the result of transitioning 1.00 FTE Senior Program Coordinator, (funded by Housing), back to Housing, and then adding a 1.00 FTE Program Coordinator position to OEICE, (also funded by Housing). The result is a net decrease in personnel costs.

Materials and Services decrease significantly because of a 5% reduction in General Fund support to two of OEICE's three programs. This decrease resulted in the elimination of professional services which reduces EDI training, support for employee resources groups and costs associated with community engagement events. It also eliminates the bulk of funds for language access services, as well as for staff travel and training, and for general supplies.

*How does this budget scenario advance the County's equity and inclusion priorities?*

This proposed budget advances the County's equity and inclusion priorities with continued support for community outreach events to reach underserved communities and to show presence throughout unincorporated Washington County. These outreach efforts incorporate translation in flyers or interpretation services at events.

The proposed budget also utilizes advertising and marketing tools and professional consultant support for recruitment campaigns that can be created to target diverse communities.

*How does this budget scenario negatively or positively impact our goals of (a.) Civil Rights Act compliance and language access and/or (b.) recruitment and retention of bilingual and BIPOC staff?*

This proposed budget positively impacts the department's goal of Civil Rights Act compliance, language access and recruitment and retention of bilingual and BIPOC staff by 1) funding language support services, such as Language Line, which provides interpretive support for law enforcement and corrections officers; 2) incorporating funding for translation services to support community meetings and programs; and 3) supporting recruitment efforts and marketing with materials translated into multiple languages as needed.

*How does this budget scenario provide mitigations for any negative impacts?*

The Sheriff's Office does not foresee any negative impacts due to the proposed budget.

*Do you foresee any unintended consequences and potential ways to mitigate?*

The Sheriff's Office does not foresee any unintended consequences of this proposed budget.

**District Attorney's Office**

*How does this budget scenario advance the County's equity and inclusion priorities?*

The mission of the District Attorney's Office — seeking justice and protecting our community—serves all members of the community. While crime impacts everyone, it can have a disproportionate impact on financially vulnerable and members of marginalized groups. The proposed budget will enhance our ability to meet our mission and will also advance the County's goals.

*How does this budget scenario negatively or positively impact our goals of (a.) Civil Rights Act compliance and language access and/or (b.) recruitment and retention of bilingual and BIPOC staff?*

The additional positions will allow the District Attorney's Office to continue building on the positive work related to language access and cultural competency. Additionally, the office will be able to recruit personnel who represent the diverse Washington County community.

*How does this budget scenario provide mitigations for any negative impacts?*

There are no known negative impacts.

*Do you foresee any unintended consequences and potential ways to mitigate?*

No unintended consequences are foreseen as a result of this proposed budget.

**Juvenile Services**

*How does this budget scenario advance the County's equity and inclusion priorities?*

This proposed budget advances the County's equity and inclusion priorities by prioritizing community contracts with culturally specific organizations. It is widely known that the juvenile justice system disparately impacts youth and families of color. In fact, in 2022, African American youth were nearly five times more likely to have a law enforcement referral than White youth, with Hispanic youth being 2.62 times more likely to have a law enforcement referral. Hispanic youth were also 3.72 times more likely to experience secure confinement. In an effort to support youth in the community, the Juvenile Services Department has a number of programs led by community-based, culturally specific organizations including the Family Navigator program, mentoring contracts and two community-based diversion programs aimed at preventing youth from moving further into the system.

This budget supports the growing number of bilingual caseloads. While Hispanic youth, ages 10-17, make up 26.7% of Washington County's young people, law enforcement referrals for Hispanic youth made up 37.3% of the referrals that the Juvenile Services Department received in 2022. Many of these families have parents or youth whose primary language is Spanish. Because of this, the department has worked to develop the bilingual capacity to serve clients. While there is still a need to build capacity to effectively serve this growing population, this budget would keep the department on the path, both in direct service and support/management for direct service, to meet its goals.

*How does this budget scenario negatively or positively impact our goals of (a.) Civil Rights Act compliance and language access and/or (b.) recruitment and retention of bilingual and BIPOC staff?*

This budget positively impacts the department's goal of Civil Rights Act compliance, language access and recruitment and retention of bilingual and BIPOC staff in how it maintains direct service staff as well as leadership positions to support caseload sizes and daily operations. High caseloads with complicated needs and mitigating factors can be challenging and stressful. By maintaining sufficient staffing to distribute these cases, along with the leadership positions to support daily operations and guide staffing, the department would offer the support to help retain bilingual and BIPOC staff.

*How does this budget scenario provide mitigations for any negative impacts?*

This proposed budget and add package provides mitigations for any negative impacts listed above by providing the support needed to serve the department's client base well, although continuous analysis would be required and resource capacity would need to be developed based on those needs.

*Do you foresee any unintended consequences and potential ways to mitigate?*

No unintended consequences are foreseen as a result of this proposed budget.

**Juvenile Conciliation**

*How does this budget scenario advance the County's equity and inclusion priorities?*

The Juvenile Services Department has prioritized and is able to maintain the culturally specific programs that address the behavioral health needs of youth and families with higher risk issues in the Latino/a/x community. This is evidenced by the growing number of bilingual caseloads for both the Juvenile Counselors and the Conciliation Counselors. There continues to be a strong commitment to equity, diversity and inclusion based on this proposed budget by prioritizing community contracts with culturally specific organizations to assist counselors in removing language barriers both verbally and in written form. Conciliation Services has two Spanish bilingual/bicultural staff members who support the program. When needed, the division contracts with translation services for all other language needs.

*How does this budget scenario negatively or positively impact our goals of (a.) Civil Rights Act compliance and language access and/or (b.) recruitment and retention of bilingual and BIPOC staff?*

This proposed budget positively impacts Civil Rights Act compliance, language access and recruitment and retention of bilingual and BIPOC staff by maintaining direct service staff as well as leadership positions to support caseload sizes and daily operations. High caseloads with complicated needs and mitigating factors can be challenging and stressful. By maintaining staff to distribute these cases as well as the leadership positions to support staff with daily operations and guidance, the division will offer the support that will help retain bilingual and BIPOC staff.

*How does this budget scenario provide mitigations for any negative impacts?*

This proposed budget mitigates for any negative impacts listed above by providing the support needed to serve the division's client base well, although continuous analysis would be required and resource capacity would need to be developed based on those needs.

*Do you foresee any unintended consequences and potential ways to mitigate?*

We do not foresee any unintended consequences of this proposed budget.

### **Justice Court**

*How does this budget scenario advance the County's equity and inclusion priorities?*

The Justice Court proposed budget with a 3% reduction scenario meets and supports the County's equity and inclusion policies and procedures, as best it can, by eliminating the reclassification and recruitment for an open 0.50 FTE position and reallocating the remaining balance of approximately \$23,000. This reallocated balance would allow the department to set a goal of translating our commonly used forms and web pages into Spanish as well as set up and implement an On-Demand translation and interpretation service that the County offers free of charge to the community we serve.

*How does this budget scenario negatively or positively impact our goals of (a.) Civil Rights Act compliance and language access and/or (b.) recruitment and retention of bilingual and BIPOC staff?*

The Justice Court 3% reduction scenario would have fewer positive impacts to toward the goal of Civil Rights Act compliance and language access, in that the Court would not be able to add an additional bilingual staff member. The remaining payroll balance from postponing the reclassification of the open 0.50 FTE to a bilingual administrative position would allow the department to re-invest in On-Demand translation services thereby removing any additional language barriers which may occur when such services are not offered on the spot. However, not reclassing the open 0.50 FTE position to a bilingual position creates continued strain on two bilingual administrative staff members assisting the community at the front counter and may result in employee turnover.

*How does this budget scenario provide mitigations for any negative impacts?*

The Justice Court 3% reduction scenario provides a challenge in mitigating the negative impact listed above, but the Court would aim to reduce possible employee turnover by fostering open and consistent communication with staff. By so doing, the Court hopes to enhance employee engagement, foster inclusivity, clarify expectations and strengthen team cohesion. Furthermore, the Court would set up On-Demand translation and interpretation services to reduce the workload burden experienced by current front counter administrative staff.

*Do you foresee any unintended consequences and potential ways to mitigate?*

The Justice Court 3% reduction scenario may provide some unintended consequences such as employee burnout leading to employee turnover. Without filling the open 0.50 FTE position with a bilingual staff member to alleviate the

volume, the Court's current staff will continue to experience the greater stress that accompanies a higher workload volume. However, the implementation of On-Demand translation services and translating commonly used documents into Spanish will offset some of this concern.

### **Law Library**

*How does this budget scenario advance the County's equity and inclusion priorities?*

This proposed budget advances the County's equity and inclusion priorities by funding the Law Library at existing service levels. Current service levels will allow the Law Library to continue to provide access to legal information to everyone. Some examples of this are providing legal information resources to everyone, including solo/small firm practitioners and pro se litigants who would not otherwise have access, knowledgeable staff to help people navigate legal resources and programming such as the library's "Now What?!" series that brings lawyer volunteers in to discuss legal topics for non-legal professionals.

*How does this budget scenario negatively or positively impact our goals of (a.) Civil Rights Act compliance and language access and/or (b.) recruitment and retention of bilingual and BIPOC staff?*

This proposed budget positively impacts the Law Library's goal of language access by budgeting for telephonic interpretation services. As requests for this service are minimal, the Law Library has included this in the total professional services budget line. This budget request for interpretation services remains the same as last year.

*How does this budget scenario provide mitigations for any negative impacts?*

This proposed budget provides mitigation for recruitment and retention of diverse staff as the Law Library anticipates potential turnover. With current vacancies and looking ahead to future staffing models, the library may have the opportunity to increase diverse recruitment and retention.

*Do you foresee any unintended consequences and potential ways to mitigate?*

There may be some unintended consequences of this proposed budget in that the Law Library is drawing on fund balance in a non-sustainable fashion. After this fiscal year, the library will not be able to maintain current service levels for an additional fiscal year without additional funding. Another unintended consequence of this request is that this maintains the current service levels, which have not been keeping up with the needs and demands of the community. These may be mitigated by a planned legislative effort in the 2025 legislative long session.

### **Community Corrections**

*How does this budget scenario advance the County's equity and inclusion priorities?*

The Community Corrections Department prioritizes equity and inclusion in daily operations, recognizing clients do not have all the same needs and have unique circumstances, affording the department with opportunities to uniquely design case plans to help meet the needs of marginalized populations. The department uses evidence-based assessments for clients that can identify additional services, such as housing resources, employment assistance, educational support and other pro-socially based case planning, to meet client needs.

The department seeks to improve analytics and utilize data to adjust programming to best meet the needs of all clients. Equity and inclusion priorities and measures include focusing on sanctions by race/ethnicity, subsidy for services by race/ethnicity and collecting better client engagement feedback based on race/ethnicity.

Community Corrections, in partnership with the Local Public Safety Coordinating Council, applied and received additional funding to focus on BIPOC clients, with case plans that center on lived experiences and expertise. This initiative has granted the department with two additional Probation/Parole Officers as well as provided additional revenue for specific training of personnel involved with BIPOC communities.

Finally, the department's management team and equity, diversity and inclusion team continue to support the organization-wide equity initiatives. This includes being involved with the County Leadership Council and committees as well as utilizing the department's internal EDI team to coordinate next steps. This work is helping the department to continue strengthening its EDI goals and outcomes.

*How does this budget scenario negatively or positively impact our goals of (a.) Civil Rights Act compliance and language access and/or (b.) recruitment and retention of bilingual and BIPOC staff?*

This budget request is a positive impact to Community Correction's goals to meet the County's priorities for equity and inclusion, including grant funding for two Probation/Parole Officers to focus in these areas. These positions will ensure that the department is investing its resources to match the ethnicities of staff members with those of clients.

In addition, Community Corrections continues to translate all of its key documents into the "safe harbor" languages of households within Washington County where English may represent a barrier to services. The proposed budget would continue this funding to finish these efforts.

Finally, Community Corrections has increased the number of positions receiving the bilingual pay differential, and evaluates each vacancy to determine the need for additional bilingual staff. These efforts help to proportionately match the population served, providing not only language support, but also increasing cultural competency.

*How does this budget scenario provide mitigations for any negative impacts?*

Community Corrections has not reduced any positions that directly impact or are related to the goals of equity and inclusion.

The clientele served have been historically marginalized by the public because of their criminal history, anti-social patterns of behavior, non-conformance to social norms and have otherwise challenged the homeostasis of public order. Hence, clients served by the department are often not prioritized to be offered the same level of services as a non-justice-involved individual would be. The department's budget is designed to offer assistance, support, coaching, motivational interviewing, case planning, accountability and strategic engagement of the clientele served. The negative impacts to clients and public safety have been minimized with intentional strategic planning.

*Do you foresee any unintended consequences and potential ways to mitigate?*

Community Corrections does not see unintended consequences as a result of the proposed budget. Because departmental resources prioritized equity and inclusion in the fiscal year's budget, the department did not have to reduce any positions or services in the FY 2024-25 budget request.

In addition, the department was awarded additional funding from the Criminal Justice Commission specifically to expand BIPOC programs for clientele engagement and supervision strategies.

This organization unit provides executive direction and support for the entire Sheriff's Office operation and includes administrative programs: Executive Administration, Business Support Services, Training, Data, Analysis, Technical Assistance (D.A.T.A.), and Internal Affairs.

### ***Budget Analysis***

Total Resources decrease \$813,289 (14%). Total Requirements increase \$1,270,434 (12%). General Fund subsidy increases \$2,083,723 (47%).

Miscellaneous revenues in this program reflect an increase due to revenue from city contracts for law enforcement services overhead costs. Interdepartmental revenues reflect a substantial decrease due to a reduction in the Sheriff's Office indirect administrative cost revenues from supported funds (District Patrol (fund 182) and Public Safety Local Option Levy (fund 234).

Personnel Services expenditures increase due to increases in salaries, retirement costs, and health benefits. FTE changes in this organization include the addition of two 1.00 FTE limited duration Background Investigators to support recruitment efforts, and an increase of 0.50 FTE in Training, offset by the elimination of a temporary position split by General Fund and Public Safety Local Option Levy (LOL). The creation of the Commander classification resulted in a reduction of a Lieutenant and addition of a Commander with no financial impact. Also reflected are additional costs to add a 0.50 FTE administrative support position supported by Public Safety Community Corrections.

Materials & Services reflect increases in the County's Cost Allocation Plan (CAP) direct charges and contract obligations. Other expenditures reflect the distribution of costs associated with the Washington County Consolidated Communications Agency (WCCCA).

Interfund expenditures are a direct reflection of the Washington County CAP related to legal services for forfeitures.

### ***Key Issues***

In January 2024, the Sheriff's Office Services Division was reorganized into two Divisions, a Services Division and a Professional Standards Division. A new, non-certified Services Division Manager position was established. This reorganization alleviated span-of-control challenges for a very diverse set of services. The Services Division retains Records, Evidence and the Civil Unit, and is now led by a non-certified Services Division Manager. Professional Standards Division is responsible for the Training Section, Accreditation & Policy Section, Hiring, Backgrounds and Volunteer Section, and the Internal Affairs Unit.

The Sheriff's Office is experiencing significant vacancies in both law enforcement and corrections certified personnel. Recruiting, hiring and retention are top priorities. Improving background check throughputs is a critical aspect of shortening the hiring process in order to keep qualified recruits from going to other agencies that can hire more quickly. This budget provides for two limited duration full time Background Investigators to help improve the throughput and timeliness of background checks. Other marketing and outreach efforts are also ongoing to improve the hiring process and experience for applicants and potential new recruits.

The Accreditation & Policy Section recently led efforts in Commission on Accreditation for Law Enforcement Agencies (CALEA) remote web-based assessment and on-site visit. While on-site the CALEA team conducted thorough review of the Sheriff's Office, observing standards and interviewing employees, partner agencies, and community members for feedback. Some areas of interest included recruitment and selection, performance evaluation process, and de-escalating critical incidents. The final report is due in the fall of 2024. The Sheriff's Office is proud to be nationally accredited since 2004.

**Programs**

1. **Sheriff's Office Executive Administration (100-401005)** Provides direction for the Sheriff's Office including leadership, strategic planning, policy development and enforcement, and labor negotiations.
2. **Sheriff's Office Business Support Services (100-401010)** Provides business support to the Sheriff's Office including budget development/monitoring/control, cost accounting, purchasing, inventory control, inmate banking, cash control, contract negotiation/administration, personnel and payroll activities, grant administration and facilities liaison.
3. **Sheriff's Office Training (100-401015)** Provides support personnel in the training unit to coordinate, facilitate, document, register and assist in employee correspondence for the purposes of certification, re-certification and documentation with the state Department of Policy Safety Standards and Training (DPSST).

- 
4. ***Sheriff's Office Data, Analysis, Technical Assistance*** (100-401020) Collects, analyzes and presents information in support of effective management decision making; provides operations analysis and support including intelligence data and crime analysis.
  5. ***Internal Affairs*** (100-401025) Conducts internal affairs investigations and background investigations of potential employees, vendors, etc.; responds to citizen complaints; coordinates recruitment, testing and the hiring of employees.

This organization unit provides Washington County's Sheriff's Office (WCSO) law enforcement services which are supported by either the General Fund or special fee-based revenues for the following service programs: Patrol Operations, Investigations, Records, Public Affairs, and Civil.

### ***Budget Analysis***

Total Resources decrease \$3,951,550 (72%). Total Requirements decrease \$2,289,704 (6%). General Fund subsidy increases \$1,661,846 (5%).

Total Resources are anticipated to decrease at the organization level. Charges for Services reflect the decrease of revenue received from city contracts with moving these contracted law enforcement services over to Sheriff's Office Contract Services. Miscellaneous revenue reflects a decrease in revenue received from the Land Use and Transportation department with moving two 1.00 FTE contracted motor carrier officers and law enforcement services over to the Sheriff's Office Contract Services organization unit.

Personnel Services expenditures decrease due to the movement of 18.50 FTE associated with the Sheriff's Office contracted law enforcement services and 2.00 FTE associated with motor carrier officer services out of the General Fund and into the Sheriff's Office Contract Services organization unit. The Patrol Program also reflects a reduction of 4.00 deputies and 1.00 Criminal Records Specialist II due to General Fund support reductions.

Materials & Services expenditures increase due to inclusion of items that were previously budgeted by the Information Technology Services department for software licenses, direct costs for computer equipment, and maintenance of computer software requirements.

Other expenditures reflect the distribution of costs associated with the Washington County Consolidated Communications Agency (WCCCA). Transfers to Other Funds reflects a decrease with the removal of vehicle upfit expenditures.

### ***Key Issues***

**Recruitment and Hiring.** Recruitment and hiring is a top priority. This budget provides resources for marketing and advertising to reach prospective applicants to continue the robust recruiting efforts.

In October 2023, the Sheriff's Office held a Career Open House. Due to its success, open house events will be conducted on a periodic basis. More than 100 prospective applicants attended the event, and 31 submitted job applications. The event showcased the Public Safety Training Center and dedicated workforce. Demonstrations of law enforcement capabilities were provided to enhance the experience and showcase the values and skills that can be gained through Washington County job opportunities. This scale of recruiting event required planning, outreach (through social media and advertising and support of our contracted consultant), as well as more than 60 staff members to participate in planning and executing tours and demonstrations at the event.

In FY 2023-24, a marketing firm was hired to boost recruitment through updated marketing material and a robust advertising plan. As of January 2024, this is beginning to yield some results. Since July 2023, the Sheriff's Office has received 509 applications for all positions, more than double from the previous six-month period, January 2023 to June 2023. These initial results are promising, but there is a long way to go to reach full staffing.

**Retention.** Given the challenges of hiring critical positions, it is even more imperative that the Sheriff's Office retain employees. The Sheriff's Office is focused on mental health and wellness of employees, maintaining and improving facilities, and working with Human Resources to acquire fitness equipment as well as to promote programs to improve fitness and quality of life.

In FY 2023-24 the Sheriff's Office worked with the Washington County Police Officers Association (WCPOA) to rebrand the education and certification incentive pay structure in the WCPOA Enforcement / Corrections Unit (ECU) union agreement. Employees previously could earn an incentive for either education credentials (Associates, Bachelors, Master or PhD degrees) or having intermediate or advanced Department of Public Safety Standards & Training (DPSST) certifications; the longevity incentive will allow employees to earn both incentives upon reaching ten years of service. This rebranding and increase in incentives will help keep pace with similar incentives offered by agencies, supporting both retention and recruiting efforts.

Public Affairs and Community Outreach. Connecting with the public is an essential aspect of showing a presence and building confidence in public safety and countywide law enforcement. Public Affairs is instrumental in coordinating events throughout the County. In calendar year 2023, WCSO participated in 239 total outreach events. This outreach allows direct interaction with the public and ensures balance in connecting with all communities with a view toward enabling diversity, equity and inclusion opportunities. Some key activities and events include: Shop with a Cop; Latino community outreach; an event sponsored by the Get Hooked Organization; Dia de los Ninos (Children's Day) event; Washington County Chamber of Commerce's Latino Cultural Festival; launching of a Spanish language WCSO Community Resources and Education webpage titled Educacion y recursos comunitarios (Education and Community Resources); Power Curve classes on personal safety for women 14-years of age and older; and the annual Washington County K9 Trials.

Law Enforcement Service Levels. Service levels for law enforcement services are based on staffing levels. A metric of officers per thousand County residents (population) has been the long-standing standard for meeting law enforcement service obligations and providing 24/7 patrol coverage across both urban and rural sections of unincorporated Washington County. Staffing levels provided by the General Fund are augmented by the Public Safety Local Option Levy (LOL) and the Enhanced Sheriff's Patrol District. Over time, the ability of the General Fund to maintain adequate funding for staffing has continued to decline. This budget defunds and holds vacant four 1.00 FTE deputy positions from the General Fund. The positions will not be filled in FY 2024-25, but will be reassessed in the next budget cycle. This reduction is absorbable in the short-term as there are currently 29 deputy vacancies across deputy positions in all Funds (General Fund (Fund 100), Public Safety Local Option Levy (Fund 234) and District Patrol (Fund 182)). Over the longer term, as retention, recruiting and hiring improves, filling these positions as well as adding positions to meet service level metrics will be essential to maintaining public safety services throughout unincorporated Washington County.

Investigations. In the fight against illicit drugs, the Sheriff's Office leads the Westside Interagency Narcotics (WIN) Team. In 2023 WIN seized 716,000 counterfeit pills containing Fentanyl, more than 25 kilograms of powdered Fentanyl, and 519 pounds of liquid containing Fentanyl. WIN also seized 1.6 metric tons of liquid Heroin. It is very likely had the seized Fentanyl made it to the streets that more people would have overdosed and potentially died. It is difficult to determine the exact amount of Fentanyl that is a fatal dose, but the amount of Fentanyl seized in 2023 was well more than a million individual doses.

Investigations into reported child abuse are required by law. In 2023, 3,263 cases of child abuse were evaluated, 816 cases were assigned for criminal investigation/evaluation, and 375 cases were assigned to detectives. Two detective sergeants are assigned to review the more than three thousand child abuse cases received through the Department of Homeland Security joint reporting system. When cases are determined to have a possible crime related to the abuse report they are assigned to a police officer for follow-up and/or to one of the 29 violent crimes detectives in Investigations. These can add an additional 12 cases to each detective's case load on top of the cases that come through the 911 reporting system. The average detective carries a case load of approximately 20 cases.

Forensics Accreditation. The Sheriff's Office Forensic Science Unit (FSU) was initially awarded accreditation in 2020 by the American National Standards Institute (ANSI) National Accreditation Board (ANAB) for meeting the International Organization for Standardization/International Electrotechnical Commission (ISO/IEC) 17020:2012 requirements for forensic inspection with a scope in friction ridge and scene investigation. This award exemplifies international standards and best practices and is based on the assessment of an agency's technical qualifications and competence for conducting inspection activities within the scope. A review is conducted each year with a full reassessment performed every four years.

In January 2024, ANAB renewed the accreditation in the field of Forensic Inspection. The Sheriff's Office FSU is one of only six forensically accredited laboratories in the state of Oregon; and one of only three accredited in scene investigation and friction ridge. FSU is accredited as a forensic inspection laboratory while the remaining five labs are accredited as forensic testing laboratories.

**Programs**

1. **Patrol Operations (100-402005)** Provides traffic enforcement and accident investigation services; responds to citizen generated calls for service; patrol county roads, neighborhoods and businesses to prevent criminal activity.
2. **Investigations (100-402010)** Investigates crimes and criminal organizations related to Washington County by utilizing both traditional and undercover investigative methodologies. Investigations are conducted internally and through participation on interagency teams/task forces; investigators perform crime analysis and case management functions. The division also provides countywide services with regard to narcotics enforcement, gang activity suppression, criminal intelligence, auto theft enforcement, sex offender registration, child abuse and violent crimes.
3. **Records (100-402015)** Collects, maintains, distributes and stores criminal and jail records; accepts citizen crime reports over the phone; collects fees for service from the public; processes inmate bail and processes warrants.
4. **Public Affairs (100-402020)** Communicates and promotes the values and mission of the agency with its various stakeholders. Responsible for all media relations and strategic communication. Represents the Sheriff's Office at various community events, groups and organizations. Regularly assesses the agency's communications needs and provides community based public safety education through a variety of communication channels. The unit works closely with patrol deputies to address neighborhood livability issues, nuisance properties and provides citizens aged 65 and older with assistance in reducing incidence and fear of criminal victimization.
5. **Civil (100-402030)** Processes and services protective orders and subpoenas. Enforces eviction orders, restraining orders, child custody orders and orders to seize and sell property. Responds to abandoned vehicle complaints.
6. **Permits (100-402035)** Administers the County alarm ordinance by processing alarm permit applications, tracks alarm incidents and regulates false alarm actions. Processes state mandated concealed handgun applications and licenses and provides fingerprint services to the public.
7. **Forensics (100-402040)** Provides collection and analysis of forensic evidence from crime scenes.
8. **Evidence (100-402045)** Provides logging, tracking, and disposition of evidence inventory related to criminal cases.
9. **Sheriff's Office Services Administration (100-402050)** Provides management and administrative support for direct services programs; coordinates Sheriff's Office volunteer program; and administers the tow contract program.

This organization unit provides Washington County's Sheriff's Office (WCSO) jail services which are supported by the General Fund and other departmental revenues and includes programs: Administration; Housing, and Intake and Release.

### ***Budget Analysis***

Total Requirements decrease \$1,070 (0%). General Fund subsidy decreases \$1,070 (0%).

Total Resources reflect an increase across the Jail organization. Reimbursement from the State of Oregon per Measure 73 (Repeat felony sex offenders and repeat Driving under the Influence of Intoxicants - DUII) is reflected in Intergovernmental revenues. Interdepartmental revenues reflect an increase based on indirect cost revenues from supported fund 234- Public Safety Local Option Levy. Miscellaneous revenues increase with reallocation of tablet revenue from jail commissary to the jail operating program. Operating transfers-in reflect an increase with a transfer from Strategic Investment Program (SIP) funds via a budget decision package for the purposes of purchasing of a jail body scanner.

Personnel costs increase due to increases in salaries, retirement costs, and health benefits. A 1.00 FTE increase is more than offset by the elimination of two temporary positions.

Materials & Services increase due to contractually obligated increases for jail meals and kitchen management, increased contract costs for employee body armor, Yamhill County bed rental, jail meals and kitchen management, mattresses and hearing tests. Materials & Services also increase with the inclusion of items that were previously budgeted by Information Technology Services for software licenses, direct costs for computer equipment and maintenance of computer software requirements.

Capital Outlays increase with the inclusion of a budget decision package for a jail body scanner that is partially offset by jail video commission revenue.

### ***Key Issues***

Jail staffing crisis. As of March 2024, there are forty jail deputy vacancies (32% vacancy rate) and three pods are closed (reducing jail capacity from 572 to 388). Jail staffing is funded by both the General Fund (supports 90% of jail personnel costs) and the Public Safety Local Option Levy (LOL) (supports 10% of jail personnel costs). Until staffing levels improve, the Sheriff's Office is renting jail beds from Yamhill County, adjusting booking criteria as needed when the jail is nearing capacity, and for the first time is lodging pre-sentenced adults-in-custody at the Community Corrections Center. The short staffing takes its toll on the available staff with most everyone working overtime to meet shift minimums on a consistent basis. Excessive overtime is not sustainable over the long term; retention, recruiting, and hiring is a top priority.

Jail Capacity. The Washington County Jail has 572 beds. It supports every component of the justice system and is a requirement of the Oregon Constitution. The Jail serves 16 cities as well as the urban unincorporated and rural areas of the County, with land spanning about 724 square miles. According to a 2020 report by the Oregon Public Safety Task Force, the Washington County Jail is the second smallest per 1,000 population in any Oregon county, with only 0.9 beds per 1,000 residents. The Portland State University Population Research Center estimates the County's population will grow to 694,830 by 2030. With support and direction from the Board of Commissioners, the Sheriff's Office is revising a nearly 20-year-old capacity study that will inform jail expansion requirements taking into account population projections, mental health needs, substance abuse disorders, and current best practices.

Keeping illicit drugs out of the jail. With the increased prevalence of Fentanyl and use of illicit drugs, there are challenges in ensuring drugs are kept out of the jail. This budget provides funding to replace the current body scanner utilized in jail intake.

Facilities and Capital Projects. Critical projects are ongoing or in planning for the Jail. To improve quality of life, the staff dining facility area is undergoing a long overdue refurbishment and the quality of the food available 24/7 for jail staff has improved. Major roof repair, HVAC replacement, shower refurbishment, locker room carpeting, and other critical maintenance projects are being addressed in the Facilities department budget. (These projects are included in the Facilities Capital Budget)

**Programs**

1. **Jail Administration (100-403005)** Provides administrative support to the jail.
2. **Jail Housing (100-403010)** Performs evaluations of inmates to determine their appropriate security classification which defines the pod an inmate is incarcerated in and provides facility security, meals, janitorial and laundry services, mental health and substance abuse counseling, basic adult education and law library services to inmates.

3. **Jail Intake and Release** (100-403025) Processes the booking (intake) and release of offenders; provides for the transportation of prisoners to and from court as well as other correctional facilities; provides court security services; coordinates the work-in-lieu of jail and electronic home monitoring programs.

Jail Health Care ensures the delivery of health care to Washington County adults in custody consistent with standards of the community and the National Commission on Correctional Health Care. These services are provided via a private health care provider.

**Budget Analysis**

Total Requirements decrease \$1,070 (0%). General Fund subsidy decreases \$1,070 (0%).

Materials & Services expenditures increase due to the jail nurse practitioner contract that went into effect during FY 2023-24. This category also includes limited funds for training and education for the part-time nurse practitioner funded in this program.

**Programs**

1. **Jail Health Care (100-403505)** Provides financial activities in support of Jail Health Care.

The District Attorney (DA) is responsible for the prosecution of individuals charged with crimes and other violations of state statutes within Washington County. The DA reviews police reports, prepares arrest warrants, reviews search warrant materials, directs and assists in criminal investigations, interviews witnesses, prepares charging instruments and fugitive complaints, attends and participates in all court proceedings relating to criminal prosecution, prepares and directs all extradition proceedings in the county and provides on-call assistance to police agencies in a variety of multi-agency teams including Major Crimes Team (MCT), Crash Analysis and Reconstruction Team (CART), Child Abuse Multidisciplinary Team, Bias Crime Multidisciplinary Team as well as other after-hours assistance. The DA is also responsible for criminal law legal advice to the Juvenile Department, the preparation of legal documents relating to all matters brought before the juvenile court and participation in court proceedings; the establishment, modification and enforcement of child support judgments; public outreach and awareness efforts; and informing crime victims of their constitutional rights and working to protect them.

### ***Budget Analysis***

Total Resources increase \$60,731 (1%). Total Requirements increase \$4,204,188 (20%). General Fund subsidy increases \$4,143,457 (26%).

Total Resources increase due to additional federal funding for Child Support Enforcement meant to offset a portion of annual Personnel Services cost increases detailed below.

Personnel Services increase due to increases in salaries, retirement costs, health benefits, as well as the reclassification of two positions and the addition of 12.50 FTEs. The new positions include four 1.00 FTE Deputy District Attorney IV positions, two 1.00 FTE Senior Legal Specialist positions, a 1.00 FTE and 0.50 FTE Victim Assistant Specialist positions, two 1.00 FTE Digital Evidence Technician I positions, two 1.00 FTE Paralegal positions, and a 1.00 FTE District Attorney Investigator position.

Materials & Services expenditures increase due to inclusion of items that were previously budgeted by Information Technology Services for software licenses, direct costs for computer equipment, and maintenance of computer software requirements.

The proposed budget is an important step to begin to address a community need that has outpaced available resources over multiple years. These challenges, compounded by an increase in unfunded State mandates, have resulted in increased and unsustainable caseload sizes for Prosecutors and Victims' Assistant Specialists. The increase in Digital Evidence Technicians supports a workload that continues to grow due to the proliferation of digital evidence, including body worn cameras, phones, tablets, computers, cloud devices, and digital surveillance. This budget allows for the continuation of investments in multiple specialty court programs that work with the court collaboratively within the public safety ecosystem, with other County departments, and with community-based providers to deliver effective services to meet community needs. This budget maintains current service levels.

### ***Key Issues***

The mission of the Washington County District Attorney's Office (WCDA) is to seek justice and protect our community.

The Washington County District Attorney's Office pursues this mission vigorously and are proud to report that Washington County is one of the safest counties in Oregon. The combined crime rate is approximately 30% lower than the state average and well over 50% lower than neighboring Multnomah County. Washington County is a safe place to live, work, and raise a family.

In a typical year, the WCDA reviews and processes over 10,000 cases and obtains court orders for more than \$5 million in victim restitution. In 2023, the WCDA served 16,252 crime victims, including 3,160 victims of domestic violence, 1,996 child abuse victims, 471 sexual assault victims, and 177 elder abuse victims. This represents increases in all categories compared to 2022.

Multiple factors are placing a strain on public safety in Washington County. These include the ongoing addiction crisis, the mental health crisis, increased crime from Portland, changes to State laws that impose unfunded mandates, and a strained and under-resourced justice system.

This budget reflects an efficient use of resources, creative use of alternate funding sources, and collaborative partnerships that maximize efficiency. Grant funding is used to help operate initiatives such as the Bias and Hate Crimes Multidisciplinary Team, the Veterans Treatment Court, Justice Reinvestment Program specialty and treatment courts, and the WCDA Cold Case Unit.

Additionally, this budget takes an important step toward addressing the need for greater resources and funding to support the mission of the WCDA. WCDA prosecutors and victim advocates have the highest caseloads in the tri-county area and Washington County courts report the highest number of criminal case filings. Additionally, a 2023 study using a national standard from the Association of Prosecuting Attorneys concluded that additional WCDA personnel is needed at all levels including additional prosecutors, victim advocates, support staff, and investigators.

The WCDA is a statewide leader in the use of specialty courts and treatment programs. These evidence-based programs are designed to promote rehabilitation and community safety by focusing on accountability and addressing root causes of criminal behavior, such as mental health, addiction, and trauma. Programs include the following: Integrative Re-Entry Intensive Supervision Services (IRISS) Program, Family Sentencing Alternative Pilot (FSAP) Program, Adult Recovery Court (drug court), Juvenile Drug Court, Mental Health Court, Rapid Fitness to Proceed Program, Veteran's Treatment Court, Domestic Violence Deferred Sentencing Program, Early Case Resolution Court, Mental Health Diversion Pilot Program, and a variety of court diversion programs for lower-level offenses.

The WCDA engages in a variety of internal and external efforts to engage the community. Examples of these efforts include: ongoing work with the Building Bridges of Understanding event series; leading a collaborative statewide initiative to support the Oregon Diversity Legal Professional Job Fair, engaging in continuing legal and ethics education and mandatory bias training, a WCDA conviction integrity committee, legislative outreach to promote responsible criminal justice policy, a hate/bias crime multidisciplinary team; community outreach in multiple languages, a trauma-informed victim's assistance program, providing support for U-Visa applications; spearheading new specialty programs and treatment courts; and sponsorship of the Hillsboro High School Mock Trial Team.

A key initiative of the WCDA remains supporting services for vulnerable victims, especially child abuse and domestic violence victims. The WCDA is working with a broad coalition of community partners and agencies to lead an effort to establish the Family Peace Center of Washington County. This initiative seeks to address the impact of Adverse Childhood Experiences (ACE's) and trauma as a form of transformative criminal justice reform.

With our mission statement as a guide, the WCDA prioritizes ensuring Washington County is a safe community for everyone. We recognize that while crime impacts all members of the community, it often has a disproportionate impact on those who are financially vulnerable or who identify as members of marginalized groups.

While the breadth and scope of the work of the WCDA is difficult to capture in a single document, this summary provides a high-level overview of our commitment to seeking justice and protecting our community.

**Programs**

1. **District Attorney Child Support Enforcement (100-451005)** This program establishes, modifies and enforces child support judgments, including: interviewing witnesses, examining support payment records, preparing necessary legal documents, attending child support court hearings and initiating Uniform Reciprocal Support Enforcement cases for possible criminal action. Child Support Enforcement is also responsible for establishing paternity for cases that meet certain statutory guidelines and for establishing orders of support in those cases. The program is funded mainly by federal funds.

2. **District Attorney Prosecution Services (100-451010)** This program conducts prosecution of felony and misdemeanor crimes, violations, major traffic offenses and restraining order violations occurring in Washington County, including the processing of all probation revocations and extraditions and working with the Attorney General's Office on criminal appeals. This program also prosecutes all juvenile crime in the County, provides guidance on criminal law issues to the Juvenile Department, reviews police and social service reports for juveniles, processes juvenile court actions involving criminal delinquency and child dependency including child abuse and neglect. Support for the internal administrative functions and operations of the DA's office including reception and clerical relief is included in this unit along with the overall managerial control and direction and public outreach and awareness. Finally, review and processing for all cases, including those handled through the County's special prosecution programs are included in this budget. Specialty programs supported by the DA's Office include Integrative Re-Entry Intensive Supervision Services (IRISS) program, Family Sentencing Alternative Pilot (FSAP) program, Adult Drug Court, Juvenile Drug Court, Mental Health Court, Rapid Fitness to Proceed program, Veteran's Treatment Court, Domestic Violence Deferred Sentencing program, Early Case Resolution court, and a variety of court diversion programs for lower-level offenses, including a new Mental Health Diversion Pilot program.
3. **District Attorney Victim Assistance (100-451015)** This program provides assistance to victims who have come into contact with the criminal justice system. The DA's Office informs victims of their constitutional rights as required and works to protect them as well. The DA's Office keeps victims up to date on the status of cases, both through formal notification and personal interaction. The DA's Office may provide referral of victims to other sources for assistance and may also contact victims who have suffered from personal injury or property loss to assist with their receiving restitution from various sources. This program also works in conjunction with other community partners who provide services to crime victims including the Family Justice Center (FJC), CARES NW, the Sexual Assault Resource Center (SARC), Safety Compass and various legal aid organizations.
4. **District Attorney Child Abuse Multi. Intervention (Cami) (100-451020)** This program provides education and support to victims of child abuse and their families and serves as a liaison for victims in dealing with police officers, attorneys, physicians and others throughout the criminal investigation and prosecution process. The program also provides staff support to the County's multidisciplinary child abuse intervention team, child fatality review committee, and coordinates services through contract relationships with other social service agencies and medical facilities.

The Juvenile Department has the responsibility to assure that any youth coming within the jurisdiction of the juvenile court receives care, guidance and control, preferably in their own home, to ensure their welfare and the best interests of the public. The Department also assists the juvenile court when a youth is removed from their parents' control by ensuring that the best care that meets youth's needs is secured.

**Budget Analysis**

Total Requirements increase \$508,061 (5%). General Fund subsidy increases \$508,061 (5%).

Total Resources remain flat for restitution to victims.

Personnel Services expenditures increase due primarily to the Cost of Living Adjustments (COLA) as well as increases in salaries, retirement costs, health benefits.

Due to General Fund reductions, the Juvenile Department must reduce their dependence on the General Fund by 3%. To meet this target, Juvenile Services must move the Harkins House Juvenile Services Supervisor position from this General Fund organization unit to fund 228 State High Risk Prevention Fund. To absorb this expense, another fund 228 position (a vacant Sr. Mental Health Specialist) must be eliminated. The eliminated position would have served the mental health needs of the youth at the residential facility, Harkins House. By losing that position, the department is unable to fully serve the needs of the youth population in this residential setting. Additional savings are realized by eliminating a vacant temporary Residential Manager position that was created during the recruitment period for the permanent position, and moving a portion of a Sr. Legal Specialist position that supports the Expunction program from the General Fund organization unit to fund 196 Juvenile Grants, which is where that revenue is housed. The total savings to the General Fund realized from these reductions add up to \$321,994.

Materials and Services increase due to the second year of the negotiated Intergovernmental Agreement (IGA) between Washington County and Multnomah County pertaining to the incremental increases in detention beds costs. The FY 2023-24 cost per bed / per day for all 11 beds was \$477.01. Effective July 1, 2024 that cost goes up to \$543.79 per bed / per day, resulting in \$262,875 in additional detention base costs. There is an additional \$20,000 charge for exceeded bed space for use of beds beyond the 11 contracted spaces dedicated to Multnomah County.

**Key Issues**

Increased costs of juvenile detention beds have been a growing concern for the department over the past few years. The department submitted a budget add package request to reflect those increased costs through a contract for dedicated bed space with Yamhill County in addition to the existing Multnomah County contract, which is reflected in this organizational unit. The costs of that add package were added to the 228-5050 Organizational Unit.

The loss of the Sr. Mental Health Specialist position will force Juvenile Services staff to investigate other ways to meet those population needs at Harkins House.

### Programs:

1. **Basic Services (100-501005)** Conducts an investigation of every youth brought before the juvenile court and represents the youth's interests when their case is heard. Takes charge of any youth before and after the hearing as directed by the court. Furnishes information and assistance as the juvenile court requires.
2. **Shelter Care (100-501010)** Harkins House Shelter program provides care, supervision and behavioral support in a residential setting for qualifying youth.
3. **Secure Detention (100-501015)** Provides secure facilities for holding youth considered to be immediately endangering themselves or others and are alleged to have committed a major crime. Services are purchased from the Donald E. Long detention facility in Multnomah County.
4. **Home Detention (100-501025)** Provides for close supervision of youth in their own homes as an alternative to detention as a least restrictive alternative as required by law.

This organization unit provides management and administrative services to the following Juvenile Department service areas: basic services, shelter services, secure detention, electronic monitoring, conciliation services, juvenile grants and the Juvenile High Risk Prevention Funds.

**Budget Analysis**

Total Resources increase \$13,608 (8%). Total Requirements increase \$105,886 (5%). General Fund subsidy increases \$92,278 (4%).

Total Resources slightly increases due to an internal service fund (ISF) reimbursement increase through cost allocation plan (CAP) adjustments associated with the administrative staff who are housed in this organization unit.

Personnel Services increase due to salaries, retirement costs, health benefits and Cost of Living Adjustments (COLA). This is partially offset by cost savings from a portion of the Sr. Legal Specialist who supports the Expunction program and is funded by the General Fund moving to special fund 196 where the Expunction Revenue is housed. This move results in the cost savings that was required by the 3% reduction scenario for the Juvenile Department.

**Programs**

1. **Juvenile Administration (100-503005)** Provides financial activities and operational administration for the Juvenile Department.

The Washington County Justice Court is the last of four (4) justice courts established in 1915. Despite being a state court, it is the only court administered by the County and provides services in connection with both civil and criminal actions as well as hearing Forcible Entry and Detainer (FED) cases. The court is presided over by an elected Justice of the Peace.

The County Justice Court has jurisdiction over most violations of the state motor vehicle code, certain misdemeanor offenses, and a number of other statutorily defined criminal offenses such as simple theft and assault. The court also has jurisdiction over civil claims for money and damages not exceeding \$10,000, claims for the recovery of personal property subject to the same dollar limitation, and claims for the recovery of penalties and forfeitures, again limited to \$10,000 in value.

### ***Budget Analysis***

Total Resources increase \$25,237 (3%). Total Requirements increase \$59,638 (4%). General Fund subsidy increases \$34,401 (6%).

Fines revenues is projected to be similar to last fiscal year due to the number of citations filed by the Washington County Sheriff's Office (WSCO) in recent years totaling much less than 10,000 per year. This is significantly lower compared to FY 2011-12 through FY 2017-18 when they averaged over 17,000 citations per year. This budget more closely aligns revenue with current citation estimates.

Personnel Services increase due to increases in salaries, retirement costs and health benefits. However, due to General Fund reductions, the Justice Court is required to take 3% (\$41,042) reduction to their budget, resulting in the elimination of a vacant 0.50 FTE Management Analyst II position. This reduces Personnel Services expenditures by \$63,806 which more than covers the required reduction. The amount in excess of the mandated budget reduction is \$22,764.

The excess Personnel Services reduction amount of \$22,764 is reallocated to Material and Services (M&S). This balance will be used for translating commonly used forms and web pages, as well as setting up and implementing On-Demand translation and interpretation services.

Overall, Personnel Services expenditure increases account for nearly two-thirds of the total requirements increase compared to FY 2023-24, while increases in M&S costs account for most of the remaining one-third.

### ***Key Issues***

A reduction in General Fund support has necessitated a 3% reduction to the base budget, which translates to a \$41,042 cut in expenditures. This reduction has resulted in the elimination of a vacant 0.50 FTE Management Analyst II position, which had been targeted to be reclassified to a bilingual Administrative Specialist II position. This reclassification and recruitment was intended to alleviate the workload on the two bilingual administrative staff who provide frontline support to the community.

**Total Budget**

**Programs**

1. **Washington County Justice Court (100-801005)** Provides financial activities in support of the County Justice Court.

The Washington County Law Library was established in 1926 and strives to enhance equal access to justice by ensuring legal information, resources, and tools are available and accessible to everyone. This is done by providing: 1) research training and legal reference assistance and 2) access to a variety of general and specialized legal information, resources and tools in a comfortable, welcoming and usable space for anyone engaged with the justice system, including litigants and those facing legal issues, attorneys, court staff, the judiciary and other governmental organizations. The Law Library is governed by the Washington County Board of Commissioners in consultation with the Circuit Court Presiding Judge and advised by the Washington County Bar Association's Law Library Committee.

**Budget Analysis**

Total Resources decrease \$57,009 (12%). Total Requirements, excluding Contingency, increase \$37,450 (6%). Contingency decreases \$174,121 (69%). Beginning fund balance decreases \$79,662 (174,121%).

Total Resources are set by the State's 2023-2025 biennium budget cycle. Resources are budgeted with a minor increase from last year due to the same minor increase in the state appropriation.

Total Requirements increases are driven by statutory and negotiated Personnel Services cost increases and increases in Cost Allocation Plan (CAP) charges.

Beginning fund balance and Contingency both decrease. The Contingency balance enables the Law Library to maintain service levels despite costs increasing at a higher rate than revenues. However, without additional resources, the Contingency will be exhausted after this fiscal year and will no thus unable to continue covering this gap in funding. This will inevitably result in reduced services in future fiscal years.

**Key Issues**

Oregon Revised Statute 9.815 requires each county to provide free law library services.

The Washington County Law Library receives an annual appropriation from the Oregon Judicial Department set by the State of Oregon Legislature.

The Law Library continues to draw increasingly from reserves to maintain service levels in the face of flat or decreasing state revenues since 2011, significant increases to indirect charges, and inflationary increases to print and online resources and personnel costs. The Law Library saw a minor increase in appropriation in the last budget cycle, but it is not enough to offset the years of stagnant revenue and is not enough to cover increased costs. The Law Library will not be able to cover costs in FY 2025-26 without additional funding. In the absence of additional funding in future years, the Law Library will likely see reductions to services, staffing, and/or hours.

## Programs

1. **Law Library (176-851005)** Provides financial activities in support of the Law Library.

This budget houses the operating budget for the Enhanced Sheriff's Patrol District (ESPD). Since the Enhanced Sheriff's Patrol District is a separate government entity, this District Patrol operating budget (organization unit 182-4020) is funded by transfers from the District's own (and separate) fiscal accounting entity, organization unit 210-1680 (ESPD) and is included in the Service District section of this document.

### ***Budget Analysis***

Total Resources increase \$843,812 (2%). Total Requirements increase \$843,812 (2%).

FY 2024-25 is the second year of a five-year property tax Local Option Levy (LOL) passed by the voters in May of 2022. The levy rate of \$0.83 per \$1,000 of assessed value supplements the ESPD permanent tax levy of \$0.64 per \$1,000 of assessed value. Total Resources include the transfer from ESPD (fund 210), to support District Patrol activity in Miscellaneous revenue. Charges for Services reflects a decrease for uniformed security fees due to inactivity in this work. Interdepartmental Revenues reflect support provided by the County Fair for law enforcement services provided during the event. Operating Transfers In reflect an increase from an approved add package with revenue for FY 2024-25.

Personnel Services expenditures increase due to increases in salaries, retirement costs, health benefits and the addition of 1.00 FTE to meet the officers / per thousand people based on Washington County population. Materials & Services expenditures are flat. Other expenditures include the distribution of costs associated with the Washington County Consolidated Communications Agency (WCCCA).

Interfund transfers decrease because Sheriff's Office indirect administrative cost charges have been transferred to the Sheriff's Office Administration organization unit (100-4010). Transfers to Other Funds decrease due to vehicle upfitting and replacement costs moving to Capital Outlay. Capital Outlay expenditures increase due to approved packages for scheduled vehicle replacements and associated upfitting costs.

There is no beginning fund balance or contingency; these are housed in the ESPD fund (210), the district's fiscal accounting entity.

### ***Key Issues***

Law Enforcement Service Levels: Patrol operations, investigations, records, and public affairs are funded by the General Fund (100), the Public Safety Local Option Levy (LOL) (234), and the ESPD fund (210). There have been multiple successive reductions in the General Fund budget while the ESPD Levy has continued to support service levels commensurate with population growth. Reductions in one fund impacts the ability of the whole to meet combined service levels. Staffing levels funded by ESPD provide law enforcement services throughout urban unincorporated Washington County. In this budget, both ESPD and Levy funds add one deputy position commensurate with the projected population growth. However, General Fund constraints have resulted in freezing four General Fund-funded deputy positions.

**Programs**

1. **Patrol Operations (182-402005)** The program prevents and responds to criminal activity by motor patrol, and provides traffic enforcement, burglary suppression, follow-up crime investigations, and other duties typical of patrol officers under the authority of the Sheriff. The District Patrol geographic boundaries include the urban unincorporated areas of Washington County, as approved by the voters.

This organization unit houses Washington County's Sheriff's Office (WCSO) contract-for-services programs. Services are provided to specific geographical areas of the county with accompanying funding from the government jurisdictions or organizations desiring those services.

**Budget Analysis**

Total Resources increase \$4,906,882 (688%). Total Requirements increase \$4,906,882 (688%).

Resources increase significantly with substantial increases in Charges for Services revenues. This is due to some Sheriff's Office law enforcement contracts with the Cities of Cornelius, North Plains, Gaston and Banks being moved from the General Fund (100) into this fund with its 18.50 FTE. In addition, two 1.00 FTE Deputy positions performing motor carrier operations are also being moved from the General Fund into this fund. Interdepartmental revenues increase as well with additional support for the airplane funded by the Civil Forfeiture fund (238).

Personnel Services expenditures increase due to increases in salaries, retirement costs, health benefits and the movement of 18.50 FTE associated with the WCSO contracted law enforcement services, and 2.0 FTE associated with motor carrier officer services into this fund.

Materials & Services reflects an increase with the addition of contract cities, and increases in the County's Cost Allocation Plan (CAP) costs.

**Programs**

1. **TriMet Services (186-406005)** Provides certified officers to TriMet's law enforcement team for Metropolitan Area Express (MAX) and other transit-related services.
2. **Gaston (186-406030)** This program provides law enforcement services for the City of Gaston.
3. **Banks (186-406035)** This program provides law enforcement services for the City of Banks.
4. **WIN Contracts (186-406050)** This program houses expenditures related to forfeitures reimbursable to the Westside Interagency Narcotics (WIN) team for drug enforcement activities.
5. **Taskforce Reimbursables (186-406060)** This program houses revenues and expenditures for various Sheriff's Office task forces where specific costs are reimbursable.
6. **Cornelius (186-406065)** This program provides law enforcement services for the City of Cornelius.
7. **Nike Services (186-406070)** Provides in-person law enforcement and general public safety related services for Nike facilities and Nike-sponsored events, and employees, customers and other guests at such facilities or events.
8. **North Plains (186-406075)** This program provides law enforcement services for the City of North Plains.
9. **Motor Carrier Officer (LUT) Contract (186-406080)** This program provides motor carrier law enforcement services in Washington County funded by Land Use and Transportation.

The Washington County Community Corrections Department is responsible for providing probation, parole, post-prison supervision and residential services to the adult offender population in the Community Corrections Center.

### ***Budget Analysis***

Total Resources increase \$3,430,942 (16%). Total Requirements, excluding Contingency, increase \$2,340,331 (10%). Contingency increases \$499,994 (0%). Beginning fund balance decreases \$590,617 (24%).

Personnel Services costs increase due to increases in salaries, retirement costs, health benefits, and the reinstatement of 3.00 FTE which were frozen due to budget constraints during FY 2023-24. Reinstated positions support the goal to reach expanded capacity at the Community Corrections Center, returning the Center to its full capacity of 215 beds. Community Corrections General Fund support decreases this fiscal year due to General Fund constraints, resulting in the elimination of 3.10 FTE in vacant positions. This reduction includes a 1.40 FTE Probation and Parole Officer II position, a 0.50 FTE Probation and Parole Officer I position, a 0.40 FTE Residential Mental Health Specialist position, a 0.20 FTE Safety Specialist position, and a 0.60 FTE Community Corrections Case Monitor position.

Materials and Services expenditures increase due to the return to full operations within the Community Corrections Center. The expansion from the 96-bed capacity of FY 2023-24 to the maximum capacity of 215 beds means increases in contracts, supplies and support expenditures.

Interdepartmental expenses increase due to this organization unit's support in funding the Deputy District Attorney position through the Justice Reinvestment Program.

Because Community Corrections is reopening the Community Corrections Center to its full capacity of 215 beds, add packages have been approved to add associated resources to offset increased expenditures for this project. This includes additional revenue from the State of Oregon, and increases in Personnel Services and Materials and Services to support the expansion. This result of all of the FTE changes detailed above is a net increase of 1.90 FTE.

### ***Key Issues***

The Community Corrections Department's FY 2024-25 budget are influenced by directives from the County Administrator's Office to maintain the FY 2023-24 base budget while expanding the Community Corrections Center to its capacity of 215 beds. This budget allows Community Corrections to focus on key initiatives relative to the department's goals and mission:

- \*Focus on key performance indicators
- \*Adhere to statutory mandates and Oregon Administrative Rules
- \*Develop a strategic plan to prioritize efficiency and effectiveness of performance and resources
- \*Work to collaborate with community partners to serve clientele and promote public safety
- \*Align the budget with the industry's core values

The Counseling and Victims' Services Program (CVS) continues to provide counseling services to victims of crime, members of the community, and clients under supervision in Washington County. All CVS counseling services are free of charge.

**Programs**

1. **Community Corrections Center 188-551005)** Provides a structured residential environment for adult offenders and integrates them back into the community with support strategies that include: employment, housing, education, counseling and a variety of life skill programs. The Community Corrections Center initiates program and post-release plans for residents to measure progress, improve adherence to court orders, and to assist with community integration. The Center also provides transition services to the resident prior to release into the community. Program staff monitor and supervise all employment, passes, and other outside activities, and maintain accurate documentation, data, reports and files on all residents.(
2. **Community Corrections Field Services 188-551010)** The Field Services Division provides community supervision of adult probation, parole and post-prison-supervision offenders who reside in the county. This division also performs investigation services for the courts, the state Department of Corrections, and the Oregon State Board of Parole. The division uses risk assessment, community values, and research to prioritize services and resources to provide a graduated system of offender supervision treatment, sanctions; minimal progression of offenders into the system and efficient movement of offenders out of the system.(
3. **Community Corrections Program Services 188-551015)** The Program Services Division, through management of grants and contracts, provides resources to assist staff in transitioning offenders through the system to successful completion of supervision conditions. The agency contracts with professionals in the community to provide mental health services, chemical dependency treatment, life skills training, employment services, pre-release services, subsistence for offenders in crisis situations and specialized staff training to develop skills necessary in dealing with the offender population.(
4. **Community Corrections Victims Services 188-551025)** Provides coordination of the County's center for victims' services.(
5. **Community Corrections Administration 188-551030)** This division is responsible for the development of department goals and objectives; represents Washington County in the development of state and local criminal justice policies and programs; prepares annual reports, evaluations and special studies; manages fiscal activities, personnel, payroll and management information systems.(

The Juvenile Grants budget operates as an adjunct to existing Juvenile Department programs, utilizing state and/or federal grant funds for a variety of prevention-related services. The goal of this organization unit is to provide enhanced evaluation and treatment services to youth at risk of further involvement in the juvenile justice system or of being committed to the state youth correctional facilities.

**Budget Analysis**

Total Resources increase \$19,107 (2%). Total Requirements, excluding Contingency, increase \$8,352 (1%). Contingency increases \$91,524 (0%). Beginning fund balance increases \$80,769 (185%).

Total Resources increase due to higher than anticipated State funding for mandatory record expunctions.

Personnel Services increases are due primarily to Cost of Living Adjustments (COLA), and increases in salaries, retirement costs, health benefits. There is also a slight increase due to a portion of a Sr. Legal Specialist position being moved to this organization unit in order to comply with the mandatory 3% reduction in General Fund support. The higher than anticipated expunction revenue will offset this slight increase in Personnel Services.

Materials and Services decrease due to reduced contract expenditures for family navigator and mentorship services.

**Programs**

1. **Diversion (196-504005)** This program is designed to reduce the population of delinquent youth committed to the State's juvenile correction facilities. The state will attain their goal by instituting correctional facilities bed space 'caps' for Washington County while providing local funds to provide enhanced evaluative and diagnostic services to those youth that would be most susceptible to being committed to the correctional facilities.
2. **Flex Funds (Juvenile) (196-504015)** This program houses funding from the Oregon Youth Authority to support a range of services for youth including counseling, education, residential care, skill training and transportation. These services are designed to promote youth accountability and successful completion of probation and are tailored to the individual needs of youth.
3. **Juvenile Restitution (196-504020)** This program houses funding from the Oregon Department of Transportation (ODOT) to support removal of road litter by juvenile clients, whose work is credited to make restitution payments to victims of juvenile crime.
4. **Donations (196-504040)** Donations to the juvenile shelter are accounted for through this program. Funds are expended to enhance recreational opportunities and for educational scholarships to former residents.
5. **State Record Expunction Funds (196-504060)** Revenue and Expenditures related to mandatory record expunction pursuant to ORS 190.110 and ORS 420A.010 (6).

Conciliation Services operates as an arm of the Juvenile Department, providing services to parents in domestic relations conflicts before the circuit court and who are entering child custody agreements. Orientation to the domestic relations court processes is provided. Counseling is provided to any individual for issues concerning divorce and custody agreements. Mediation services are offered to allow parties in the process of dissolution of marriage to take an active role in determining the custody of their children.

**Budget Analysis**

Total Resources increase \$95,071 (13%). Total Requirements, excluding Contingency, increase \$53,739 (7%). Contingency increases \$164,802 (0%). Beginning fund balance increases \$123,470 (1,083%).

Total Resources continue to increase significantly due to a fee schedule increase to Conciliation Services clients for services that include: mediation, counseling services, parenting classes, and expert witness testimony. There is also a small bump in domestic relations fees.

Personnel Services expenditures increase slightly due primarily to Cost of Living Adjustments (COLA) and increases in salaries, retirement costs, health benefits. Additionally, this organization unit no longer received cost-sharing support for an Administrative Specialist II position in this organization unit. This change does not affect FTE levels.

Materials and Supplies increase primarily due to the increases in the County's Cost Allocations Plan (CAP) charges.

Interdepartmental expenses increase due to a \$20,000 upgrade to the Conciliation Services database.

**Total Budget**

**Programs**

1. **Conciliation** (197-502005) This program provides for financial activities related to these services.

Since FY 1994-95, the State of Oregon has mandated that counties provide security services for local state court facilities. Responsibility for planning and administering the court security programs rests with local court security committees and funding comes from a portion of each county's assessments that are attached to fines as imposed by the circuit and justice courts.

These security services primarily include metal detectors, x-ray machines, and security staff at the entrances to the Justice Services, Juvenile Services, and county courthouse buildings. Services are currently provided via agreement with a contract-for-service provider.

**Budget Analysis**

Total Resources increase \$209,200 (52%). Total Requirements, excluding Contingency, increase \$99,810 (13%). Contingency decreases \$259,487 (31%). Beginning fund balance decreases \$368,877 (30%).

Court Security Total Resources from state and local agency court fines is not anticipated to increase. Operating Transfers In include a transfer from the General Fund to support the contracted court security entrance costs.

Materials & Services reflect an increase in the contracted court security entrance expenses to support the same level of service.

Capital Outlay includes an approved add package for a replacement x-ray machine in the Juvenile security entrance.

Contingency is available for unforeseen expenditures such as additional court security or entrance security equipment repairs. Contingency funds are monitored in coordination with the Court Administrator. Target fund balance is not more than \$1 million dollars.

**Key Issues**

Local and state agency court fine distributions do not fully support the cost of court entrance security. This fund is subsidized by a General Fund transfer.

**Total Budget**

## Programs

1. **Court Security Fund (202-404005)** Accounts for the receipt and expenditure of County fine assessments earmarked for court security programs. Funds are spent on programs and services detailed in the court security plan approved by the court security committee.

This fund houses the Washington County Sheriff's Office (WCSO) special grant-funded programs as recommended by financial audit recommendations. These recommendations require the placement of dedicated grant programs in distinct fiscal entities for better identification and control of related resources and requirements.

**Budget Analysis**

Total Resources decrease \$380,512 (25%). Total Requirements decrease \$380,512 (25%).

Grant funding allows the WCSO to support a variety of initiatives. Examples include: overtime funding for traffic enforcement, the DNA collection initiative, resources to support digital forensics laboratory training, and leadership training for supervisory level staff. Donations from the Sheriff's Office Foundation provides support of special programs such as the K9 Team, Shop with a Cop program, employee wellness initiatives, and Search and Rescue.

The WCSO receives funding from several recurring annual Federal and State grants that support improving public safety and serve community needs. Grants are applied for annually based on WCSO needs and available grant funding. Some grants are based on a formula distribution (where dollars are allocated based on the grantor's formulas) whereas other grants are competitive and more restricted in their duration and use. Grant funds do not replace and cannot supplant budgeted requirements. Current grants include: Bureau of Justice Assistance grants; State Homeland Security Program grants; Urban Area Security Agreement grant; and traffic enforcement grants provided through the Oregon Department of Transportation.

Personnel Services expenditures increase mainly due to increases in overtime funded by traffic enforcement grants. Materials & Services expenditures decrease mainly due to the completion of the State Homeland Security Program grant for equipment, and the Urban Area Security Initiative grant that funded training.

Interfund revenues increase due to higher reimbursements for WCSO staff assigned to support the District Attorney's (DA) Office, funded by their Cold Case grant which funds work on cold cases by detectives from the WCSO.

Intergovernmental revenues decrease due to the completion of the Paul Coverdell Forensic Science Improvement Grant and Urban Area Security Initiative grant.

Capital Outlay expenditures include funding for the Sheriff's Office Foundation efforts, including the addition of a K9 and K9 vehicle to support the Jail.

**Key Issues**

With the increased prevalence of Fentanyl and use of illicit drugs, there are challenges in ensuring drugs are kept out of the jail. The WCSO Foundation is providing funds for a dedicated pre-trained narcotic detection dog for the jail as well as the required transport vehicle for the assigned dog handler. Having a dedicated K9 assigned to the jail will play a critical role in keeping illicit drugs out of the jail.

## Programs

1. **Donations** (224-405025) This program houses donations or small, non-profit grants that are used to purchase miscellaneous small tools and equipment.
2. **State Homeland Security** (224-405030) This is a federally funded program providing financial support for additional cyber security equipment, communications equipment, training and administration requests from other county agencies.
3. **Justice Assistance Grant (JAG) previously known as LLEBG-1** (224-405035) The Justice Assistance Grant (JAG) previously known as the Local Law Enforcement Block Grant (LLEBG) is a federally funded program providing financial support for various law enforcement programs, services and equipment.
4. **UASI** (224-405045) This program is a federally funded program providing support for equipment and cyber-security efforts for all Washington County agencies. The funding source is the Urban Area Security Initiative.
5. **ODOT** (224-405055) This program is the accounting entity for grant-funded programs for work-zone compliance enforcement efforts and multi-agency traffic enforcement efforts as established by the Oregon Department of Transportation (ODOT).
6. **Oregon Impact** (224-405060) Oregon Impact is a federally funded program providing support for occupant safety compliance enforcement efforts for all Washington County agencies

The Jail Commissary fund was established to provide fiscal control for the goods, services and monies associated with the Jail Commissary. Funds received/expended are restricted to activities that provide for the welfare of jail adults in custody. Examples of such activities include rehabilitation and custody programs for individuals leaving the jail on home supervision, mental health programs for inmates in custody, and equipment/supply purchases that ensure safety and enhance the general welfare of adults in custody.

**Budget Analysis**

Total Resources decrease \$50,000 (16%). Total Requirements, excluding Contingency, increase \$207,708 (79%). Contingency decreases \$227,293 (17%). Beginning fund balance increases \$30,415 (2%).

Jail Commissary Resources are used to provide inmate services, including mentoring, GED testing, and library services. Revenues received from telephone, video, and commissary commissions are anticipated to remain stable based on current revenue forecasts. There is a decrease in revenue resulting from tablet revenue moving to the General Fund.

Personnel Services expenditures increase due to increases in salaries, retirement costs, and health benefits.

Materials & Services expenditures support jail program services as well as TriMet tickets for adults released from custody, and other services directly supporting inmate welfare. Additional funding is provided to fund commissary accounts for adults in custody. A decrease in the Contingency is anticipated to bring the balance to a more appropriate level and the balance will be used for future needs directly related to inmate welfare programs.

**Programs**

1. **Jail Commissary** (226-403035) The program accounts for resources generated by inmate commissary activity. Expenditures are used for activities and/or programs that directly benefit inmates.

Juvenile High Risk Prevention Funds are utilized to provide comprehensive programming for youth in the various stages of involvement with the juvenile justice system that reduces the risk of re-involvement.

**Budget Analysis**

Total Resources decrease \$57,439 (2%). Total Requirements, excluding Contingency, increase \$150,055 (4%). Contingency increases \$193,457 (0%). Beginning fund balance increases \$400,951 (54%).

Total Resources increase due primarily to additional Behavioral Rehabilitation Services (BRS) revenue from increased occupancy in the residential program.

Personnel Services expenses increase due to Cost of Living Adjustments (COLA) as well as increases in salaries, retirement costs, health benefits. There is also a slight increase from moving the Juvenile Services Supervisor position from the General Fund to this fund as part of the mandated 3% reduction to General Fund support in Juvenile Services. This increase is offset by the elimination of a Sr. Mental Health Specialist position in this fund.

Materials and Services increase due to higher County Cost Allocation Plan (CAP) costs, and a higher contracted payment to the Department of Human Services (DHS) for their portion of BRS funds. Professional Services increase as a result of an approved add package that funds increased costs for the County's agreement with Yamhill County for guaranteed youth detention beds.

**Key Issues**

The fund balance in this organization unit continues to decrease. This is due to increasing Personnel Services costs which lack regular funding, increasing CAP costs, and lower than anticipated resources in areas outside of BRS. The Juvenile Department remains hopeful that the Federal Family First Act through the Department of Human Services becomes a reality, which will increase the revenue through the Title IV-E program.

## Programs

1. **State High Risk Prevention-Administration (228-505005)** This program houses reserve (Contingency) funds, indirect costs, Juvenile Crime Prevention (JCP) Basic Services funding, Title IV-E revenue, and provides for the distribution of federal Behavioral Rehabilitation Services (BRS) funds to the Oregon Department of Human Services through an intergovernmental agreement.
2. **Community Prevention Contracts (228-505010)** Provides funding for contracted prevention services in schools and private non-profit organizations.
3. **Substance Abuse (228-505015)** Houses funding for substance abuse prevention services and the Drug Treatment Court program, funded through Federal and State revenue.
4. **State High Risk Prevention Community and Victim Services (228-505020)** This program augments existing County victims and community services programs with additional staff and resources to provide increased services to victims of crime and for community service work by those who commit those crimes.
5. **Shelter Care Supplement (228-505025)** This program augments and expands existing County residential shelter services in the County's Juvenile Shelter Care facility.
6. **Early Intervention (228-505030)** This program augments and expands existing County early intervention services for juveniles with additional staff and resources to provide increased services to youth in the early stages of involvement with the Juvenile Justice System.

Consistent with the approach used in the General and Road fund budgets, all of the organization units in the Public Safety Local Option Levy (LOL) fund will require resources from the levy fund to balance their respective budgets. The LOL Administration organization unit (234-1690) is the central fiscal entity for all levy proceeds and disburses levy proceeds to the remaining LOL organization units.

In May 2020, voters approved a replacement levy raising the rate to \$0.47 per \$1,000 of assessed value for five fiscal years (FY 2021-22 through FY 2025-26). These funds are dedicated to improving/restoring service levels in existing County public safety and justice programs. The increased rate will provide additional funding for staff and countywide services. Details of levy service commitments can be found in the Board approved levy document entitled Proposal For a Five-Year Local Option Levy FY 2021-22 through FY 2025-26, adopted by the Board on February 4, 2020.

This budget is the central fiscal entity for all levy proceeds derived from the Public Safety Local Option Levy (LOL) approved by Washington County voters in November of 2000, 2006, 2010, 2015 and in May of 2020. This budget will be the third year of a five-year replacement levy where voters approved raising the rate to \$0.47 per thousand Assessed Value.

**Budget Analysis**

Total Resources increase \$2,488,777 (7%). Total Requirements, excluding Contingency, increase \$111,804 (6%). Contingency increases \$179,903 (1%). Beginning fund balance decreases \$65,700 (0%).

Property taxes increase based on the assessed value forecast and countywide projections. Other revenues are anticipated to remain stable.

Contingency continues to be available to provide cash flow between July and November when taxes are received; and to ensure long term stability of the fund.

Support for community partners and other organization units are detailed in the breakdown following this organization unit summary:

**Programs**

1. **LOL Administration (234-169005)** This program accounts for all levy tax revenues, reserve (Contingency), general levy administration and support related expenses.
2. **Local Option Levy - Emergency Shelter (234-169010)** Provides funding for four emergency shelter/services programs: Domestic Violence Resource Center, Hillsboro Homeless Shelter, Good Neighbor Center in Tigard, Family Promise and Boys and Girls Aid's Safe Place Program.
3. **Local Option Levy - 911 Capital (234-169015)** Provides funding for equipment upgrades for the County's 911 Center, Washington County Consolidated Communications Agency (WCCCA).

The Washington County's Sheriff's Office (WCSO) Administration Public Safety Local Option Levy (LOL) budget provides a separate accounting entity to track LOL funds that will augment existing WCSO programs: Executive Administration, Training, and Data, Analysis, Technical Assistance (DATA).

**Budget Analysis**

Total Requirements increase \$50,878 (1%). Local Option Levy Fund subsidy increases \$50,878 (1%).

Personnel Services expenditures increase due to increases in retirement costs, health benefits and a 0.50 FTE increase split with the General Fund offset by the elimination of a temporary position.

Materials & Services decrease in the County's Cost Allocation Plan (CAP) direct charges. Other expenditures reflect the distribution of costs associated to the Washington County Consolidated Communications Agency (WCCCA).

Interfund expenditures decrease in the Sheriff's Office indirect administrative cost charges being transferred to 100-4010.

**Programs**

1. **Sheriff's Office Executive Administration (234-401005)** Provides leadership, strategic planning, policy development and enforcement, hiring, and financial management support.
2. **Sheriff's Office Training (234-401015)** Provides materials and services in support of the training unit to coordinate, facilitate, document, register and aid in certified employee correspondence for the purposes of certification, re-certification and documentation with the state Department of Policy Safety Standards and Training (DPSST).
3. **Sheriff's Office Data, Analysis, Technical Assistance (234-401020)** This program provides operational and administrative decision-making support, monitors reliability, accessibility and validity of internal and external databases. In addition, the program also develops countywide agency collaboration to create shareable data access for records management systems as well as other databases that benefit the law enforcement community, improves communication between agencies and performs crime analysis.

This organization houses Public Safety Local Option Levy (LOL) funds for: 1) restoration of countywide base patrol and investigations service levels to 0.54 officers per 1000 residents; 2) increased capacity for civil enforcement (the serving of legal court orders and warrants countywide); 3) increased scientific evidence gathering and records services for more efficient use of existing investigative and 4) provides patrol resources and additional capacity for crime prevention program and education.

**Budget Analysis**

Total Resources decrease \$22,933 (47%). Total Requirements increase \$261,672 (2%). Local Option Levy Fund subsidy increases \$284,605 (2%).

Total Resources decrease. Charges for Services decrease for uniformed security fees due to inactivity in this work. Interdepartmental Revenues decrease with the removal of County Fair reimbursement for law enforcement services being realized in other programs.

Personnel Services increase due to increases in salaries, retirement costs, and health benefits. There is a 1.00 FTE decrease in this organization unit with the movement of a Jail Sergeant into 234-4030 offset by a 1.00 FTE increase to meet the officers per thousand needs based on county population.

Materials & Services expenditures increase due partially to the inclusion of items that were previously budgeted by Information Technology Services for software licenses, maintenance of computer software requirements, and direct costs for computer equipment. The contractual price of employee body armor is also rising and is budgeted based on scheduled replacement. Other expenditures reflect the distribution of costs associated with the Washington County Consolidated Communications Agency (WCCCA).

Interfund expenditures decrease because the Sheriff's Office indirect administrative cost charges have been transferred to Sheriff's Office Administration (100-4010). Transfers to Other Funds decrease with the movement of vehicle upfitting costs to the capital category. Capital Outlay increase due to approved add packaged for capital vehicle expenditures.

**Key Issues**

Law Enforcement Service Levels. Patrol operations, investigations, records, and public affairs are funded by the General Fund (100), the Public Safety Local Option Levy (LOL) (234), and the Enhanced Sheriff's Patrol District fund (234). There have been multiple successive reductions in the General Fund budget while the LOL has continued to support service levels commensurate with population growth. Reductions in one fund impacts the ability of the whole to meet combined service levels. With the General Fund reductions to Patrol Operations, the rural unincorporated service levels drop below 0.5 officers per thousand. Service levels below 0.5 officers per thousand serving in rural unincorporated may begin to impact ability to maintain minimum staffing across all shifts and increase response times.

**Programs**

1. **Patrol Operations (234-402005)** Provides traffic enforcement and accident investigation services; responds to citizen generated calls for service; patrols county roads, neighborhoods, and businesses to prevent criminal activity.
2. **Investigations (234-402010)** Investigates crimes and criminal organizations related to Washington County by utilizing both traditional and undercover investigative methodologies. Investigations are conducted internally and through participation on interagency teams/task forces; investigators perform crime analysis and case management functions. The division also provides countywide services with regard to narcotics enforcement, fraud and identity theft enforcement, gang activity suppression, criminal intelligence, auto theft enforcement, sex offender registration and violent crimes.
3. **Records (234-402015)** Maintains, distributes and stores criminal and jail records; accepts citizen crime reports over the phone; collects fees for service from the public; processes inmate bail and processes warrants.

- 
4. **Public Affairs** (234-402020) Communicates and promotes the values and mission of the agency with its various stakeholders. Responsible for all media relations and strategic communication. Represents the Sheriff's Office at various community events, groups and organizations. Regularly assesses the agency's communications needs and provides community based public safety education through a variety of communication channels. The unit works closely with patrol deputies to address neighborhood livability issues, nuisance properties and provides citizens aged 65 and older with assistance in reducing incidence and fear of criminal victimization.
  5. **Civil** (234-402030) Processes and services protective orders and subpoenas. Enforces eviction orders, restraining orders, child custody orders and orders to seize and sell property. Responds to abandoned vehicle complaints.
  6. **Forensics** (234-402040) Provides collection and analysis of forensic evidence from crime scenes.
  7. **Evidence** (234-402045) Provides logging, tracking, and disposition of evidence inventory related to criminal cases.

This budget houses Public Safety Local Option Levy (LOL) funds earmarked for the opening of an additional jail pod (56 new beds) in the Washington County jail. The jail provides booking and incarceration services for all law enforcement agencies in the county. Also provided are medium and maximum security housing for individuals awaiting trial and those sentenced by state courts to periods of incarceration up to one year. Additionally, the jail provides transport services to other facilities and to the courts.

**Budget Analysis**

Total Requirements increase \$928,825 (17%). Local Option Levy Fund subsidy increases \$928,825 (17%).

Personnel Services expenditures increase due to increases in salaries, retirement costs, and health benefits. There is a 1.00 FTE increase in this organization unit with the movement of a Jail Sergeant from the LOL Law Enforcement organization unit (234-4020).

Materials & Services expenditures increase due to inclusion of items that were previously budgeted by Information Technology Services for software licenses, maintenance of computer software requirements, and direct costs for computer equipment. Contractual obligations for jail meals and kitchen management costs are also higher, as well as contract costs for employee body armor.

Interfund Expenditures reflect a decrease in Sheriff's Office indirect administrative cost charges being transferred to the General Fund-funded Sheriff's Office Administration organization unit (100-4010). Capital Outlay costs decrease due to fewer capital vehicle requirements.

**Key Issues**

Jail staffing crisis. As of March 2024, there are 40 jail deputy vacancies. This is a 32% vacancy rate. This has caused three jail pods to be closed, reducing the jail's capacity from 572 to 388. Jail staffing is funded by both the General Fund (90%) and the LOL (10%). Until staffing levels improve, the Sheriff's Office is renting jail beds from Yamhill County, adjusting booking criteria as needed when the jail is nearing capacity, and for the first time is lodging pre-sentenced adults-in-custody at the Community Corrections Center. The short staffing takes its toll on the available staff with most everyone working overtime to meet shift minimums on a consistent basis. Excessive overtime is not sustainable over the long term, therefore retention, recruiting, and hiring and is a top priority.

**Programs**

- 1, **Jail Housing** (234-403010) Provides for the evaluation and incarceration of adults in custody; facility security; meals, janitorial and laundry services; provides mental health and substance abuse counseling; basic adult education and law library services to adults in custody for a single 56-bed pod.

This budget houses the District Attorney's Public Safety Local Option Levy (LOL) funds earmarked for service level enhancements targeted at maintaining current District Attorney caseload standards and service levels (also see the General Fun-funded District Attorney organization unit 100-4510).

**Budget Analysis**

Total Resources increase \$29,572 (4%). Total Requirements increase \$459,924 (9%). Local Option Levy Fund subsidy increases \$430,352 (10%).

Revenues increase due to additional federal funding for Child Support Enforcement meant to offset a portion of annual Personnel Services cost increases.

Personnel Services increase due to increases in salaries, retirement costs, and health benefits.

Materials and services are down slightly due to lower charges from the County's Cost Allocation Plan.

**Key Issues**

See District Attorney in the General Fund for Key Issues (100-4510).

**Programs**

1. **District Attorney Child Support Enforcement** (234-451005) This program accounts for the activities related to the enforcement and modification of child support judgments, establishing paternity for cases that meet certain statutory guidelines, and for establishing orders of support in those cases.
2. **District Attorney Prosecution Services** (234-451010) Activities related to the prosecution of all felony and misdemeanor crimes, violations, major traffic offenses and restraining order violations occurring in Washington County are accounted for in this program.
3. **District Attorney Victim Assistance** (234-451015) This program accounts for the assistance provided to crime victims who have come into contact with the criminal justice system.

This organization unit budget houses Public Safety Local Option Levy (LOL) funds earmarked for the maintenance of current Juvenile Department caseload standards and service levels. It also aims to reduce recidivism rates as county youth population grows (see also organization unit Juvenile 100-5010 for the General Fund portion of this departmental budget).

**Budget Analysis**

Total Requirements increase \$21,604 (1%). Local Option Levy Fund subsidy increases \$21,604 (1%).

Personnel Services increase due to Cost of Living Adjustments (COLA) as well as increases in salaries, retirement costs, health benefits and the .

Material and Supplies and Interdepartmental expenses both increase due to higher County Cost Allocation Plan charges.

**Key Issues**

The Juvenile Department began the diversion program (RAICES) within the 2021-22 fiscal year, and continues to operate through a contract with our community partner, Latino Network. This program is for low-level first-time offenders, ages 11-17, who have been charged by law enforcement with misdemeanor and violation offenses. The goal of the diversion program is for youth referred to receive a response that will support them to take responsibility for their actions and to refrain from further referrals or deeper involvement in the juvenile justice system. Due to the ongoing success of this program, Levy funding is planned to continue this service into its fourth year.

<b>Total Requirements</b>	<b>\$ 1,836,279</b>	<b>2,053,953</b>	<b>2,316,291</b>	<b>2,337,895</b>	<b>2,337,895</b>	<b>2,337,895</b>	<b>1%</b>

**Programs**

1. **Basic Services** (234-501005) Accounts for the funding to support additional assessment, early intervention and probation and court services.
2. **Secure Detention** (234-501015) Accounts for the funding to support additional secure juvenile detention beds (from 14 to 18 beds, as needed) and related juvenile program contracted services.

This budget houses Public Safety Local Option Levy (LOL) funds dedicated to the enhancement and maintenance of a wide array of Community Corrections services, in all major department areas (also see organization unit Community Corrections 188-5515 for the General Fund-funded portion of this departmental budget.)

**Budget Analysis**

Total Requirements increase \$415,106 (6%). Local Option Levy Fund subsidy increases \$415,106 (6%).

Personnel Service increase due to Cost of Living Adjustments (COLA) as well as increases in salaries, retirement costs, and health benefits.

Material and Services expenditures increase in support of Levy targets, and include additional resources to support Parole and Probation Services as well as staff training.

**Key Issues**

The Community Corrections Department's FY 2024-25 budget and proposed services are influenced by directives from the County Administrator's Office to maintain the base budget from FY 2023-24, except for expanding the Community Corrections Center to its capacity of 215 beds. This base budget allows Community Corrections to focus on key initiatives relative to the department's goals and mission:

- \*Focus on key performance indicators
- \*Adhere to statutory mandates and Oregon Administrative Rules
- \*Develop a strategic plan to prioritize efficiency and effectiveness of performance and resources
- \*Work to collaborate with community partners to serve clientele and promote public safety
- \*Align the budget with the industry's core values

The Counseling and Victim's Services Program (CVS) continues to provide counseling services to victims of crime, members of the community, and clients under supervision in Washington County. All CVS counseling services are free of charge.

**Programs**

1. **Comm Corr- Program Svs LOL (234-551505)** Funding in this program is earmarked for additional services such as counseling, education, treatment, and other support services for offenders.
2. **Comm Corr- Parole/Probation LOL (234-551510)** Funding for this program is targeted at the maintenance of high and medium caseloads in the probation/parole programs.
3. **Comm Corr- Expansion LOL (234-551530)** Funds were specifically included in the Public Safety Levy for the expansion of the existing corrections center facility from 167 to 215 beds.
4. **Comm Corr- Drug Court Services LOL (234-551535)** This program was added in FY 2007-08 based on the recommendation of the Washington County Justice System Manager's Group. Funds will be used to support existing drug court and mental health court programs.

This fund was created in FY 2003-04 to accommodate financial audit requirements for the placement of all civil forfeiture activities in distinct budget/accounting entities. Prior to FY 2003-04, civil forfeiture activities were housed in various Washington County's Sheriff's Office (WCSO) investigations and law enforcement programs.

Resources derived from asset-forfeiture programs typically come from the sale of real and/or personal property seized from offenders involved in drug-related criminal activity and can originate from either federal, state or local law enforcement authorities. Specific state and federal guidelines govern the use of all forfeiture proceeds. Since these laws change periodically, funds accumulated under the various stages of funding laws are subject to varying legal requirements for their use. As a result, this budget has separate programs that cover assets received during these various legal stages.

**Budget Analysis**

Total Requirements, excluding Contingency, decrease \$87,372 (12%). Contingency decreases \$76,087 (19%). Beginning fund balance decreases \$163,459 (14%).

Forfeiture guidelines prohibit budgeting anticipated revenue. Total requirements are approved by the Westside Interagency Narcotics (WIN) user board and reflect the use of currently available resources for the most appropriate purchases of goods and services allowed by forfeiture guidelines.

Personnel Services expenditures reflect the elimination of overtime paid to our interagency partners' participation in WIN team activities. Materials & Services increase due to higher County Cost Allocation Plan direct charges, as well as computer equipment needed to support the efforts of the WIN team.

Other expenditures decrease due lower distributions of state forfeited funds. When money is forfeited, state statute requires distribution of funds to the pre-determined asset forfeiture distribution contacts. Interfund expenditures reflect a minimal reduction in expenses in support of the Air Support Unit and overtime expenses in excess of federal cap or not reimbursed by High Intensity Drug Trafficking Area or the Organized Crime Drug Enforcement Task Force.

Capital Outlay decreases with a reduction in capital vehicle requirements. Contingency is allocated in this fund for the pre-judgement required fees and expenses and for post-judgement distributions required by state statute.

**Total Budget**

Programs

1. **Federal Forfeitures (238-409010)** All resources from federal forfeiture seizure activities that occurred from December 7, 2000 to present are accounted for in this program
2. **Federal Non-Department of Justice Forfeitures (238-409011)** This program houses all resources from federal forfeiture seizure activities that occurred from December 7, 2000 to present.
3. **State Criminal Forfeitures (238-409025)** All resources from state forfeitures seizure activity that occurred after August 23, 1993 but before December 6, 2000 are accounted for in this program.
4. **State Civil Forfeitures (238-409030)** All resources from state forfeiture activities that occurred after December 6, 2000 are accounted for in this program.

**Long Range Planning**

*How does this budget scenario advance the County’s equity and inclusion priorities?*

The 5% General Fund reduction scenario involves moving 0.65 FTE of a full-time Senior Planner position to Transportation Planning (supported by the Road fund), saving \$66,756. The 5% General Fund reduction does not significantly affect the division’s ability to advance the County’s equity and inclusion priorities.

*How does this budget scenario negatively or positively impact our goals of (a.) Civil Rights Act compliance and language access and/or (b.) recruitment and retention of bilingual and BIPOC staff?*

The 5% reduction does not significantly affect the County’s goals of Civil Rights Act compliance and language access and/or recruitment and retention of bilingual and BIPOC staff. Language access services will be provided as needed, and no staffing reductions are proposed.

*How does this budget scenario provide mitigations for any negative impacts?*

There is no known negative equity and inclusion impacts to mitigate with this reduction.

*Do you foresee any unintended consequences and potential ways to mitigate?*

There are no foreseen, unintended equity and inclusion consequences of this reduced budget.

**Watermaster**

*How does this budget scenario advance the County’s equity and inclusion priorities?*

The 5% reduction scenario would amount to a \$2,683 reduction to this program, reducing the availability of supplies and materials needed to support the work of the Watermaster. The reduction does not impact the County’s equity and inclusion priorities.

*How does this budget scenario negatively or positively impact our goals of (a.) Civil Rights Act compliance and language access and/or (b.) recruitment and retention of bilingual and BIPOC staff?*

The proposed reduction scenario would not have an impact on the County’s goal of Civil Rights Act compliance, language access and/or recruitment and retention of bilingual and BIPOC staff.

*How does this budget scenario provide mitigations for any negative impacts?*

There are no known negative equity and inclusion impacts to mitigate.

*Do you foresee any unintended consequences and potential ways to mitigate?*

There are no foreseen, unintended equity and inclusion consequences of this reduced budget.

**Road Fund**

**Engineering Services**

*How does this budget scenario advance the County’s equity and inclusion priorities?*

This requested budget advances the County’s equity and inclusion priorities by funding programs and projects that help facilitate reasonably safe transportation access connecting community members with jobs, goods and services whether driving, walking, biking or accessing transit.

Many underserved community members live in areas where transit and non-motorized modes of transportation are unavailable, infrequent, impractical or inaccessible. Engineering Services works to maintain and improve safety and quality of life for our community through services such as designing, implementing and maintaining traffic and pedestrian signals, signs, striping, crosswalks, streetlights and other transportation infrastructure, and implementing traffic calming.

This budget provides resources needed for translation and language access services and for staff diversity and equity trainings. Engineering Services is also implementing updated procurement guidelines to assist COBID-certified contractors to provide quotes or bid on projects and services.

*How does this budget scenario negatively or positively impact our goals of (a.) Civil Rights Act compliance and language access and/or (b.) recruitment and retention of bilingual and BIPOC staff?*

This requested budget positively impacts the County's goals of Civil Rights Act compliance and language access and/or recruitment and retention of bilingual and BIPOC staff. It funds language access and translation services, and it fully funds all staff positions, allowing the program to retain and recruit bilingual and/or BIPOC staff to fill vacancies. While not limited to BIPOC participants, the budget funds employment of up to four civil engineering interns each year through the Oregon State University CECOP program, provides opportunities for a diverse student body to gain valuable work experience in Engineering. This provides opportunities for more diverse recruitment as program graduates seek long-term employment.

This budget also funds our work to improve pedestrian accessibility (ADA) in County-managed rights-of-way through road standards, design review of public and private transportation infrastructure projects, and traffic control devices.

*How does this budget scenario provide mitigations for any negative impacts?*

There are no known negative equity and inclusion impacts to mitigate.

*Do you foresee any unintended consequences and potential ways to mitigate?*

There are no foreseen, unintended equity and inclusion consequences of this reduced budget.

### **Administration**

*How does this budget scenario advance the County's equity and inclusion priorities?*

The department's requested budget advances the County's equity and inclusion priorities by funding capital projects that help facilitate reasonably safe transportation access connecting community members with jobs, goods and services whether driving, walking, biking or accessing transit.

It also funds current staff positions and programs that provide essential local government services to Washington County's diverse and growing community. Guided by the County's Equity Resolution, Land Use and Transportation continues to integrate equity considerations and outcomes into the department's work. This is done through intentional community engagement, incorporating equity considerations into capital project prioritization and expenditures and allocating adequate resources to translation services and language access.

Land Use and Transportation is implementing updated procurement guidelines to assist COBID-certified contractors to provide quotes or bid on projects and services. The department is using B2GNow to effectively track utilization of minority and women-owned businesses and COBID-certified firms in capital construction projects to help drive more equitable contracting outcomes.

The department has developed and is using an equity framework and equitable community engagement tool to guide long range planning and transportation projects. Work continues on improving community engagement, translation and language access services.

This budget includes funding for department-wide, equity-focused staff trainings and two equity-focused department team members are expected to be hired within the coming year. This proposed budget retains all of those ongoing department equity-focused efforts.

*How does this budget scenario negatively or positively impact our goals of (a.) Civil Rights Act compliance and language access and/or (b.) recruitment and retention of bilingual and BIPOC staff?*

The department's requested budget positively impacts progress toward goals of Civil Rights Act compliance, language access and/or recruitment and retention of bilingual and BIPOC staff by funding language access and translation services, and by providing ongoing funding for all staff positions, allowing LUT to retain and recruit bilingual and/or BIPOC staff to fill vacancies.

This budget also provides funding for transportation capital projects that improve pedestrian accessibility (ADA) in County-managed rights-of-way through curb ramp replacements and related transportation accessibility improvements.

*How does this budget scenario provide mitigations for any negative impacts?*

There are no known negative equity and inclusion impacts to mitigate.

*Do you foresee any unintended consequences and potential ways to mitigate?*

There are no foreseen, unintended equity and inclusion consequences of this reduced budget.

**Road Fund Administration**

*How does this budget scenario advance the County's equity and inclusion priorities?*

This program primarily tracks Road Fund revenues, such as the County's State Highway Fund apportionment, county gas tax and vehicle registration fee, interest earnings, debt, etc. as well as transfers to the Road Capital Projects fund. This program has no staff.

This requested budget advances the County's equity and inclusion priorities by funding capital projects that help facilitate reasonably safe transportation access connecting community members with jobs, goods and services whether driving, walking, biking or accessing transit.

Many underserved community members live in areas where transit and non-motorized modes of transportation are unavailable, infrequent, impractical or inaccessible. The Road Capital Projects fund and other capital funds pay for projects that improve safety and quality of life for our community by providing road and street improvements, including traffic and pedestrian signals, signs, striping, crosswalks, streetlights and other transportation infrastructure.

*How does this budget scenario negatively or positively impact our goals of (a.) Civil Rights Act compliance and language access and/or (b.) recruitment and retention of bilingual and BIPOC staff?*

This requested budget positively impacts our goals of Civil Rights Act compliance, language access, and/or recruitment and retention of bilingual and BIPOC staff by funding language access and translation services, and by providing funding for staff positions, allowing LUT to retain and recruit bilingual and/or BIPOC staff to fill vacancies.

This budget also provides funding for projects that improve pedestrian accessibility (ADA) in County-managed rights-of-way through curb ramp replacements and related transportation accessibility improvements.

*How does this budget scenario provide mitigations for any negative impacts?*

There are no known negative equity and inclusion impacts to mitigate.

*Do you foresee any unintended consequences and potential ways to mitigate?*

There are no foreseen, unintended equity and inclusion consequences of this reduced budget.

### **Capital Project Management**

*How does this budget scenario advance the County's equity and inclusion priorities?*

This requested budget advances the County's equity and inclusion priorities by funding staff that support programs and projects that help facilitate reasonably safe transportation access connecting community members with jobs, goods and services whether driving, walking, biking or accessing transit.

Many underserved community members live in areas where transit and non-motorized modes of transportation are unavailable, infrequent, impractical or inaccessible. Personnel in Capital Project Services support the ongoing capital road and street, bridge, and active transportation projects housed in various capital funds, including MSTIP (Fund 362), Road Capital (Fund 368), TDT (Fund 374), North Bethany County Service District for Roads (Fund 215) and others. We work to improve safety and quality of life for our community by managing the design and construction of road and street improvements, including traffic and pedestrian signals, signs, striping, crosswalks, streetlights and other transportation infrastructure.

This budget provides resources needed for translation and language access services and for staff diversity and equity trainings. The department is also implementing updated procurement guidelines to assist COBID-certified contractors to provide quotes or bid on projects and services. B2GNow is also being implemented in capital construction projects to effectively track our usage of minority and women-owned businesses and COBID-certified firms.

*How does this budget scenario negatively or positively impact our goals of (a.) Civil Rights Act compliance and language access and/or (b.) recruitment and retention of bilingual and BIPOC staff?*

This requested budget positively impacts the County's goals of Civil Rights Act compliance, language access, and/or recruitment and retention of bilingual and BIPOC staff by funding language access and translation services, and by fully funding all staff positions, allowing the program to retain and recruit bilingual and/or BIPOC staff to fill vacancies. The department is striving to increase the diversity of our applicant pool by shifting some positions from engineering-focused job classifications to project/program management and process-focused classifications and improving recruitment outreach.

This budget also provides for staffing needed to implement projects that improve pedestrian accessibility (ADA) in County-managed rights-of-way through curb ramp replacements and related transportation accessibility improvements.

*How does this budget scenario provide mitigations for any negative impacts?*

There are no known negative equity and inclusion impacts to mitigate.

*Do you foresee any unintended consequences and potential ways to mitigate?*

There are no foreseen, unintended equity and inclusion consequences of this reduced budget.

**Operations and Maintenance**

*How does this budget scenario advance the County’s equity and inclusion priorities?*

This requested budget advances the County’s equity and inclusion priorities by funding programs and projects that help facilitate reasonably safe transportation access connecting community members with jobs, goods and services whether driving, walking, biking or accessing transit.

Many underserved community members live in areas where transit and non-motorized modes of transportation are unavailable, infrequent, impractical or inaccessible. Operations and Maintenance works to maintain and improve safety and quality of life for our community through services such as maintaining County roads and streets, including bike lanes and some sidewalks, signs, striping, stormwater drainage and other transportation infrastructure.

This budget provides resources needed for translation and language access services and for staff diversity and equity trainings. Operations and Maintenance is also implementing updated procurement guidelines to assist COBID-certified contractors to provide quotes or bid on projects and services.

*How does this budget scenario negatively or positively impact our goals of (a.) Civil Rights Act compliance and language access and/or (b.) recruitment and retention of bilingual and BIPOC staff?*

This requested budget advances the County’s equity and inclusion priorities by funding programs and projects that help facilitate reasonably safe transportation access connecting community members with jobs, goods and services whether driving, walking, biking or accessing transit.

Many underserved community members live in areas where transit and non-motorized modes of transportation are unavailable, infrequent, impractical or inaccessible. We work to maintain and improve safety and quality of life for our community through services such as maintaining County roads and streets, including bike lanes and some sidewalks, signs, striping, stormwater drainage and other transportation infrastructure.

This budget provides resources needed for translation and language access services and for staff diversity and equity trainings. We are also implementing updated procurement guidelines to assist COBID-certified contractors to provide quotes or bid on projects and services.

*How does this budget scenario provide mitigations for any negative impacts?*

There are no known negative equity and inclusion impacts to mitigate.

*Do you foresee any unintended consequences and potential ways to mitigate?*

There are no foreseen, unintended equity and inclusion consequences of this reduced budget.

**Public Land Corners**

*How does this budget scenario advance the County’s equity and inclusion priorities?*

This requested budget advances the County’s equity and inclusion priorities by helping the program maintain positive relationships with stakeholders who also have EDI policies and contribute to the budget for Public Land Corners, as well as deliver services to external stakeholders that provide jobs for migrant communities.

*How does this budget scenario negatively or positively impact our goals of (a.) Civil Rights Act compliance and language access and/or (b.) recruitment and retention of bilingual and BIPOC staff?*

This requested budget positively impacts the County’s goals of Civil Rights Act compliance, language access, and/or recruitment and retention of bilingual and BIPOC staff by funding language access and translation services, and by fully funding all staff positions, allowing the program to retain and recruit bilingual and/or BIPOC staff to fill vacancies.

*How does this budget scenario provide mitigations for any negative impacts?*

There are no known negative equity and inclusion impacts to mitigate.

*Do you foresee any unintended consequences and potential ways to mitigate?*

There are no foreseen, unintended equity and inclusion consequences of this reduced budget.

**Current Planning and Building Services**

*How does this budget scenario advance the County’s equity and inclusion priorities?*

This requested budget advances the County’s equity and inclusion priorities by funding current staff positions to implement the County’s Community Development Code and provide development assistance to community members. This budget provides resources needed for translation and language access services and for staff diversity and equity trainings.

*How does this budget scenario negatively or positively impact our goals of (a.) Civil Rights Act compliance and language access and/or (b.) recruitment and retention of bilingual and BIPOC staff?*

This requested budget positively impacts the County’s goal of Civil Rights Act compliance, language access, and/or recruitment and retention of bilingual and BIPOC staff by funding language access and translation services, and by fully funding all staff positions, allowing the program to retain and recruit bilingual and/or BIPOC staff to fill vacancies.

*How does this budget scenario provide mitigations for any negative impacts?*

There are no known negative equity and inclusion impacts to mitigate.

*Do you foresee any unintended consequences and potential ways to mitigate?*

There are no foreseen, unintended equity and inclusion consequences of this reduced budget.

**Statewide Transportation Improvement**

*How does this budget scenario advance the County’s equity and inclusion priorities?*

This requested budget advances the County’s equity and inclusion priorities by providing free transit services that improve access and connect community members with jobs, goods and services. Many underserved community members live in areas where traditional transit service is unavailable, infrequent, impractical or inaccessible. Demographic data provided by our transit service provider partner, Ride Connection, indicates that riders are on average older, more likely to have a disability, and more likely to be non-white and non-English speakers than countywide population averages. This budget also includes funding for translation and interpretation services for users of the transit service.

Priorities for use of these transit funds are established through the Transit Advisory Committee, with diverse community engagement and input.

*How does this budget scenario negatively or positively impact our goals of (a.) Civil Rights Act compliance and language access and/or (b.) recruitment and retention of bilingual and BIPOC staff?*

This requested budget positively impacts the County’s goal of Civil Rights Act compliance and language access by providing transit service that is accessible to people with disabilities and by providing funding for translation and interpretation services for users of the transit service.

*How does this budget scenario provide mitigations for any negative impacts?*

There are no known negative equity and inclusion impacts to mitigate.

*Do you foresee any unintended consequences and potential ways to mitigate?*

There are no foreseen, unintended equity and inclusion consequences of this reduced budget.

**Maintenance Improvement**

*How does this budget scenario advance the County’s equity and inclusion priorities?*

This requested budget advances the County’s equity and inclusion priorities by providing resources for translation and language access services as needed.

*How does this budget scenario negatively or positively impact our goals of (a.) Civil Rights Act compliance and language access and/or (b.) recruitment and retention of bilingual and BIPOC staff?*

This requested budget positively impacts the County’s goal of Civil Rights Act compliance and language access by providing resources for translation and language access services and by funding necessary maintenance and/or upgrades for pedestrian accessibility (ADA) on streets and roads funded through the LIDs. There are no staff in this program.

*How does this budget scenario provide mitigations for any negative impacts?*

There are no known negative equity and inclusion impacts to mitigate.

*Do you foresee any unintended consequences and potential ways to mitigate?*

There are no foreseen, unintended equity and inclusion consequences of this reduced budget.

**Surveyor**

*How does this budget scenario advance the County’s equity and inclusion priorities?*

This requested budget advances the County’s equity and inclusion priorities by providing resources needed for translation and language access services and for staff diversity and equity trainings.

*How does this budget scenario negatively or positively impact our goals of (a.) Civil Rights Act compliance and language access and/or (b.) recruitment and retention of bilingual and BIPOC staff?*

This requested budget positively impacts the County’s goals of Civil Rights Act compliance and language access and/or recruitment and retention of bilingual and BIPOC staff. It funds language access and translation services, and it fully funds all staff positions, allowing the program to retain and recruit bilingual and/or BIPOC staff to fill vacancies.

*How does this budget scenario provide mitigations for any negative impacts?*

There are no known negative equity and inclusion impacts to mitigate.

*Do you foresee any unintended consequences and potential ways to mitigate?*

There are no foreseen, unintended equity and inclusion consequences of this reduced budget.

# LAND USE & TRANSPORTATION

# BUDGET OVERVIEW

Land Use & Transportation is committed to the needs of the citizens of Washington County by addressing growth while managing issues of community livability, the environment and maintaining quality of life.

Long-Range Planning (LRP) is responsible for the preparation, maintenance and periodic update of Washington County land use planning documents and ordinances, including the comprehensive framework plan, rural/natural resource plan, all community plans and the transportation system plan. This workgroup also assists with various economic and demographic analyses for County departments and outside agencies.

\*Effective FY 2024-25 the Transportation Planning program (100-601010) within this organization unit moves under the Road Fund and is now program 168-601010.

### ***Budget Analysis***

Total Resources decrease \$2,776,828 (64%). Total Requirements decrease \$2,808,874 (45%). General Fund subsidy decreases \$32,046 (2%).

Effective FY 2024-25 the Transportation Planning program (100-601010) moves under the Road Fund and is now program 168-601010, which reduces Total Resources and Requirements for this organization unit.

Revenues are down substantially due to the afore-mentioned change to Transportation Planning. Also, Charges for Service revenues decrease slightly due to fluctuations in staffing committed to annexations and plan amendments. Reimbursement received from Transportation Planning in the Road Fund to support a Senior Planner in Community Planning increases slightly.

Personnel Services expenditures are also down significantly due to the afore-mentioned transfer of the Transportation Planning program. Costs for the remaining staff are up slightly due to Cost Of Living Adjustments (COLA) and increases in salaries, retirement costs, and health benefits. A required 5% percent reduction in General Fund support was achieved by redistributing the budgeted cost of a Senior Planner position. The position was 100% allocated to Community Planning (100-601005) within this organization unit, but this organization unit's share has been reduced to 0.35 FTE going forward, with the remaining 0.65 FTE being funded by the new Transportation Planning program (168-601010). The cost amount being shifted is approximately \$77,000.

After the budgeted Materials and Services costs are moved out of this organization unit, the remaining expenditures decrease slightly due to reduced County Cost Allocation Plan (CAP) charges. Professional Services also decrease due to a reduction related to the Quarry Plan Amendment project.

There is slight increase in the reimbursement of expenses to the Road Fund for the Long Range Planning program's share of the Land Use & Transportation (LUT) department's support for Administration services, as identified in the LUT Department CAP.

### ***Key Issues***

For the past few years, Community Planning staff resources have been devoted primarily to completing mandatory ongoing tasks identified in the Planning Work Program, as well as addressing a series of challenges to Washington County development regulations for urban wildlife habitat areas, significant changes to state legislation related to middle housing, and administrative rules related to climate and other topics. While Community Planning is facing budget constraints, which has not allowed them to fill some vacant positions, there are more community projects needing its support. As a result, there is a need to fill those positions so that the departments can provide the expected level of support for those projects.

**Programs**

- Community Planning (100-601005)** This program is responsible for the preparation, maintenance and periodic update of the County Comprehensive Plan (Plan). This includes assisting cities with planning of lands added to the regional Urban Growth Boundary (UGB). This program performs the Plan monitoring and maintenance tasks necessary to ensure conformance with state law and regional planning requirements such as Metro's regional 2040 Growth Concept plan and Urban Growth Management Functional Plan. These responsibilities include direct involvement with community members, community organizations, cities and affected state and local agencies. Additionally, this program helps coordinate the County's involvement in a variety of regional and countywide planning activities.
- Transportation Planning (100-601010)** \*Effective FY 2024-25 the Transportation Planning Program (100-601010) moves under the Road Fund and is now program 168-601010.

The Watermaster is responsible for the: 1) enforcement of water laws; 2) administration of water rights; 3) collection of hydrologic data; 4) provision of water right information and hydrologic data to the public and water users and 5) inspection of wells and dams within Watermaster District No.18.

**Budget Analysis**

Total Resources increase \$6,986 (4%). Total Requirements increase \$12,928 (4%). General Fund subsidy increases \$5,942 (3%).

Revenue collection from cooperators of the Surface Water Management Program is projected to increase by \$6,986. These revenues fund the Assistant Watermaster position, the Water Resources Aide, materials and supplies, and a portion of the indirect costs.

The General Fund subsidy supports the Administration Assistant position, along with the balance of the program's indirect costs.

The General Fund subsidy increase is primarily driven by a rise of personnel expenses due to Cost of Living Adjustments (COLA) and increases in salaries, retirement costs, and benefits for positions already approved with staff in place. The total increase includes a \$2,683 (5%) reduction to General Fund support.

This budget includes \$2,000 for training and translation services associated with the Equity, Diversity, and Inclusion (EDI) initiatives. The team continues to look for ways to best meet the needs of our diverse Washington County population.

\*Effective FY 2024-25 this Transportation Planning Program moves from the General Fund (100-601010) to here within the Road Fund.

Long-Range Planning (LRP) is responsible for the preparation, maintenance and periodic update of County land use planning documents and ordinances, including the comprehensive framework plan, rural/natural resource plan, all community plans and the transportation system plan. This workgroup also assists with various economic and demographic analyses for County departments and outside agencies.

**Budget Analysis**

Transportation Planning Total Resources drop significantly compared to FY 2023-24 because the multi-year grant for County Creek Regional Trail (CCRT) planning ends during this fiscal year FY 2024-25. As a result, this program needs more support from the Road Fund to meet expected levels of support.

Personnel Services increase due to increases in salaries, retirement costs, and health benefits. Also, this organization unit takes on the majority share of a cost-sharing arrangement with the General Fund for a 1.00 FTE Senior Planner Position. 35% of the costs and FTE will be allocated to the General Fund Community Planning organization unit (100-601005), and 65% of the costs and FTE are allocated to this organization unit. This is due to a 5% percent reduction in General Fund support for the Community Planning organization unit. This saves nearly \$77,000 for the General Fund, shifting those costs to this budget.

Materials and Services has a moderate decrease due to the reduction in the Professional Services cost. The majority comes from the reduction in expenditure in CCRT projects ending in FY 2024-25. The expenditure for the new multi-year project, Safe Streets for All, starting in FY 2024-25 is significantly lower than that of CCRT.

**Key Issues**

Total Resources are down significantly compared to FY 2023-24. Total requirements decrease slightly due to the reduction in Professional Services. Land Use & Transportation and Government Relations staff have been actively advocating for additional state funding to help local agencies pay for the significant staff and consultant costs incurred to update local plan and code documents as well as implement these state mandates. Because the grant is ending in FY 2024-25, this program will need more support from the Road Fund.

# Transportation Planning 168-6010

# Budget Detail

	Actuals	Actuals	Modified	Proposed	Approved	Adopted	Change
	2021-22	2022-23	2023-24	2024-25	2024-25	2024-25	%
Budgeted FTE's	-	-	-	12.83	12.83	12.83	0%

## Programs

1. **Transportation Planning (168-601010)** This program is responsible for the preparation, maintenance and periodic update of the County transportation plans. This program covers a range of policy and strategic planning issues, transportation (roadway and transit) corridor studies, individual project support and planning through the project development level. Additionally, this program participates in countywide, regional, state and federal transportation planning and funding activities.

\*This program's number through FY 2023-24 was 100-601010.

This organization unit provides engineering design and review, project development, traffic management, surveying and related engineering support for road, bridge, signal, sidewalk and pathway projects.

**Budget Analysis**

Total Resources decrease \$230,102 (8%). Total Requirements increase \$873,795 (7%). Road Fund subsidy increases \$1,103,897 (12%).

Total Resources decrease from last fiscal year due to a reduction in staff work on capital projects, offset by a modest increase in subdivision administration for plan review.

Personnel Services increase due to Cost of Living Adjustments (COLA) and increases in salaries, retirement costs, and health benefits. Vacancies are anticipated to be filled to meet project delivery assignments for internal engineering design on capital projects.

Materials and Services increase primarily due to increases in professional services and internal fleet charges.

Interdepartmental expenditures decrease because of lower County Cost Allocation Plan charges.

Capital Outlay reflects an increase due to delivery timing of equipment needed for servicing streets and traffic signals. A bucket truck, on backorder for several years due to supply chain issues, is now expected to arrive in July, 2024.

**Total Budget**

## Programs

1. **Engineering Administration (168-603001)** Provides leadership, management, public information, and support for road, bridge, signal, sidewalk and pathway projects.
2. **Engineering Design Review (168-603005)** Prepares plans, specifications, and estimates (contract documents) for public capital improvements including roadways, drainage, bridge, signals, and intersections. Reviews plans for construction improvements within County roads, including subdivisions, roadways, and sidewalks.
3. **Traffic Engineering (168-603010)** Performs and reviews traffic analysis related to public capital improvements and land use actions. Prepares plans, specifications and estimates for public capital improvements including traffic signals, illumination, signing and striping. Maintains, operates and reviews County-owned street lighting, traffic control signals, traffic signs, striping and other electronic devices on County maintained roads including the intelligent transportation system infrastructure. Administers the Neighborhood Streets Program for the county neighborhood routes and local roads.
4. **Survey Road (168-603020)** Facilitates and administers legal processes associated with both public and County roads, including legal descriptions and preparing land use waivers, restrictive covenants, and agenda items for vacation of the public interest. Provides location services for claims regarding work performed outside the right-of-way or for encroachments into the roadway. Maintain a vertical control network to support engineering design review and ongoing maintenance efforts. Provides survey support of engineering plans prepared by the County design group and others.

This organization unit provides regional transportation financing coordination for the County and direction for the department, including strategic planning and policy development.

**Budget Analysis**

Total Resources increase \$142,539 (8%). Total Requirements increase \$119,524 (0%). Road Fund subsidy decreases \$23,015 (1%).

Total Resources received are generated primarily from Cost Allocation Plan (CAP) reimbursement for the department's support for Administrative Services.

Personnel Services increase due to Cost of Living Adjustments (COLA) and increases in salaries, retirement costs, and health benefits.

Professional services fund preparation of the Department strategic plan, translation/interpretation, professional and team coaching, and a consultant for department-wide training in equity, diversity and inclusion.

**Total Budget**

**Programs**

1. **LUT Administration (168-604005)** This program provides operational analysis, leadership, management, and support for all department services; coordinates public information, communication and media relations; provides business support, including budget development and control, cost accounting, purchasing, personnel and payroll activities, grant administration and liaison services.

This organization unit houses the Road Fund Administration activities related to revenues and expenditures such as gas tax, interest earnings, debt, and remediation payments.

**Budget Analysis**

Total Resources increase \$2,265,334 (4%). Total Requirements decrease \$2,953,699 (6%). Road Fund subsidy decreases \$5,219,033 (109%).

State Motor Vehicle Apportionment revenues reflect a very small increase in FY 2024-25. Vehicle Registration Fee revenue numbers are expected to inconsistently climb slowly in the coming years. Road Fund Total Resources are anticipated to climb at about 1% per year.

Materials and Services expenditures decrease due to anticipated reductions in Bridgeport Village emissions monitoring costs. Transfers to other Funds reflect a large one-time expenditure for the Timber Road slide-repair project, normal expenditures on an ADA ramp, pedestrian/bicycle lane improvements, and the inclusion of the ongoing Stringtown Road Bridge project. Director's Projects that require consultant support include the transportation priority funding packets and grant application preparation. Support for methane monitoring at Bridgeport and Durham North (Pac Trust Business Center) continues. With careful planning, the contingency for the Road Fund will remain at levels adequate enough to maintain resiliency in the event of an emergency, and provide flexibility to respond to unforeseen high priority transportation needs.

**Key Issues**

The long-term forecast for Total Resources does not keep pace with the anticipated growth in Total Requirements. Yearly averages in Personnel Services, Internal Services, and Professional Services are growing at a much higher rate than all of the revenue sources.

**Total Budget**

<b>Total Requirements</b>	<b>\$ 9,740,976</b>	<b>11,180,620</b>	<b>47,053,575</b>	<b>44,099,876</b>	<b>44,099,876</b>	<b>44,099,876</b>	<b>-6%</b>
<b>Road Fund Subsidy</b>	<b>\$ (44,786,683)</b>	<b>(40,758,790)</b>	<b>(4,781,425)</b>	<b>(10,000,458)</b>	<b>(10,000,458)</b>	<b>(10,000,458)</b>	<b>109%</b>

**Programs**

1. **Road Fund Administration (168-604501)** This program primarily tracks and accounts for Road Fund revenues and expenditures related to administrative activities.

This organization unit provides project management, coordination, right-of-way acquisition, construction management and administrative support for transportation capital improvement projects through the following programs: Right of Way, Project Delivery, and Project Delivery Support.

**Budget Analysis**

Total Resources increase \$878,410 (11%). Total Requirements increase \$153,617 (1%). Road Fund subsidy decreases \$724,793 (34%).

Intradepartmental revenues increase due to fluctuations in the capital project delivery schedule.

Personnel Services increase due to Cost of Living Adjustments (COLA) and increases in salaries, retirement costs, and health benefits. A 1.00 FTE Program Manager position, a 1.00 FTE Program Specialist position, and a 1.00 FTE Right of Way Agent I position were added, offset by the elimination of a 1.00 FTE Senior Project Manager, a 1.00 FTE Engineering Technician II position, and a 1.00 FTE Administrative Specialist II position. The net impact to this budget is -\$15,285. These position changes will begin to provide the needed staffing for these increased workloads.

Materials and Services decrease slightly due to reduced cost allocations. Interdepartmental Charges decrease primarily due to the ITS Capital charges moving to Materials & Services.

Capital Outlay decreases due to the removal of the purchase of a Survey Tablet in previous fiscal years. No new vehicles will be purchased in FY 2024-25.

An add package worth \$5,700 to install laptop mounts in three vehicles for Engineering Technicians working in the field is included in this budget.

Three additional add packages were approved to assist Capital Project Services move toward Local Public Agency certification. There will be additional work required with securing federal and state grant funding.

**Key Issues**

As Capital Project Services moves forward, a clear need for additional support for acquiring federal and state grants to fund projects emerges. In order to achieve this goal, staffing changes are required. The staffing changes in FY 2024-25 result in a savings of \$15,285, but future changes may require additional FTE.

## Programs

1. **CPM Administration** (168-605005) Manages and coordinates capital improvement project funding and expenditures.
2. **Right of Way** (168-605015) Provides right-of-way acquisition support for capital improvement projects.
3. **Project Delivery** (168-605025) Provides management and inspection functions for all phases of capital transportation project delivery.

The Operations & Maintenance organization unit mission is to maintain and operate a safe and efficient county transportation system comprised of roads, bridges, drainage systems and bike paths in a cost effective and environmentally sound manner through the following programs: Roadway Surfaces, Operations Engineering, Traffic Maintenance, Vegetation Maintenance, Bridge Operations, Drainage Operations, and Landscape Maintenance.

**Budget Analysis**

Total Resources increase \$278,872 (13%). Total Requirements increase \$4,299,621 (12%). Road Fund subsidy increases \$4,020,749 (12%).

Total Resources increase primarily due to additional expected operations support needed for the Urban Road Maintenance District (URMD), Overlay/Slurry program, and maintenance projects in the new year. Actual Total Resources varies depending on the support needed as situations arise, driven by service requests and circumstances in the field.

Total Requirements increase primarily driven by adding back scope to Operations Engineering materials and services from prior reductions of contracted pavement overlay, pavement markings, and surface stabilization programs. Personnel services have also increased due to cost-of-living adjustments for salaries, retirement contributions, and health care costs. Capital outlay expenditure increases from approved addition of 12 items of fleet equipment, including trailers and platforms, will assist operations of grading, plowing, and other maintenance and emergency activities.

**Key Issues**

Operations & Maintenance faces long term financial challenges as personnel, professional services, and supplies costs outpace the growth rate of Road Fund revenue. The Pavement Condition Index projections over the next eight years show a significant decline without large increases in revenues.

**Total Budget**

<b>Total Requirements \$</b>	<b>29,236,482</b>	<b>31,534,974</b>	<b>34,811,568</b>	<b>39,111,189</b>	<b>39,111,189</b>	<b>39,111,189</b>	<b>12%</b>

## Programs

- Operations Administration (168-606005)** Provides leadership, management and support of operations within the division.
- Roadway Surfaces (168-606010)** Protects the structural integrity of county roads. Performs maintenance on roadways, including asphalt overlays, patching, surface sealing, street sweeping, gravel applications and grading.
- Operations Engineering (168-606015)** Assures all construction on roads, bridges, drainage systems and miscellaneous structures within the county rights-of-way are built in accordance with approved plans and specifications; reviews plans, and issues permits for utility construction in roadways, monitors subdivision improvements and field- inspects construction. Maintains and updates necessary management information for design and maintenance schedules. Processes the formation of local improvement districts, investigates citizen complaints, and provides quality assurance for all divisional maintenance activities.
- Traffic Maintenance (168-606020)** Performs installation, repair and replacement of traffic signs, application of pavement striping, school-crossing stencils and raised pavement markers.
- Vegetation Management (168-606025)** Provides vegetation control within county rights-of-way through brush cutting, mowing, herbicide spraying, landscape maintenance and related activities. Administers Adopt-a-Road program.
- Bridge Operations (168-606030)** Protects the structural integrity of county bridges through bridge repairs and replacements. Additional tasks include work on major culverts and guardrails, bridge and culvert inspections.
- Drainage Operations (168-606035)** Provides repair, maintenance and installation of county drainage systems such as ditches, culverts and catch basins, ditch and culvert cleaning and the evaluation of erosion-control compliance.
- Landscape Maintenance (168-606040)** Provides vegetation and litter management within urban county rights-of-way through brush cutting, mowing, herbicide spraying, landscape maintenance, litter patrol and related activities.

This organization unit is charged with all activities required for the re-monumentation of Washington County's 3,400 public land corners. This involves locating the corners established in previous government surveys and documenting their location through modern surveying practices, including the establishment of coordinates essential for mapping control in the County's Geographical Information System (GIS).

**Budget Analysis**

Total Resources decrease \$170,000 (30%). Total Requirements, excluding Contingency, increase \$45,028 (5%). Contingency decreases \$422,892 (22%). Beginning fund balance decreases \$207,864 (9%).

The Public Land Corner fee revenue is expected to decline in FY 2024-25 based on current economic activity, along with a decrease for project related work as the team struggles to stay fully staffed.

Personnel Services increase due to Cost of Living Adjustments (COLA) and increases in salaries, retirement costs, and health benefits.

Materials and Services expenditures remain at nearly the same amount as the prior year.

Interfund Expenditures is also slightly lower.

A suitable level of reserve is maintained in fund balance to mitigate the impact of a future economic downturn.

**Programs**

1. **Surveying Public Land Corner** (170-603030) The program provides for the preservation of public land corners, which are necessary for determining the proper location of property boundaries by public agencies, private surveyors, and citizens. The establishment and subsequent coordination of these corners is critical for the protection of private and public property rights.

Current Planning encompasses Development Review and Development Assistance activities pertaining to land development in the unincorporated areas of Washington County. The section provides Development Compliance and Code Enforcement activities as they relate to enforcement of the County's Community Development Code and related ordinances.

This fund operates primarily on an enterprise basis supported by fees from service users.

**Budget Analysis**

Total Resources increase \$425,578 (16%). Total Requirements, excluding Contingency, increase \$172,029 (6%). Contingency increases \$538,094 (1,547%). Beginning fund balance increases \$284,545 (81%).

For FY 2024-25, most development review fees have been raised 8.5% to improve cost recovery and avoid further reduction in the already-low fund balance. This increase comes after projected activity levels remain flat. Investment Interest income is included in budgeted Total Resources.

Total Requirements increase mainly from personnel cost due to salaries, health benefits, and retirement costs, Information Technology Services (ITS) department costs, and ITS staff support costs.

Materials and Services expenditures are estimated to be lower mainly due to decrease in County's Cost Allocation Plan (CAP) charges, and Other expenditures are in line with the FY 2023-24 budget. Additionally, a \$,1250 (5%) reduction in General Fund support has been applied to Professional Services.

Interfund expenditures increase due to the ITS costs associated with moving the Accela permit system to the cloud. Transfer to the Road Fund decreases slightly for department administrative costs.

**Key Issues**

Fee revenues have not supported Current Planning operational costs since FY 2017-18. Fee increases in FY 2023-24 and FY 2024-25 are offset by an ongoing downturn in development activity.

Staff are still considering implementing a future technology fee surcharge to help recover the cost of technology systems including hardware, software and technology staff support. The implementation of this surcharge has been delayed for one additional year (until FY 2025-26) as per staff recommendations in order to provide more time to evaluate current and future technology needs and costs.

Staff will monitor the financial condition of this fund and provide updates to the Board as needed.

Code Maintenance & Code Enforcement	183,688	228,890	265,242	247,262	247,262	247,262	-7%
<b>Total Requirements \$</b>	<b>2,641,668</b>	<b>2,657,522</b>	<b>2,987,392</b>	<b>3,697,515</b>	<b>3,697,515</b>	<b>3,697,515</b>	<b>24%</b>

## Programs

1. **Development Review (172-602030)** Reviews and processes all land development requests in unincorporated Washington County. Ensures that all development proposals comply with all applicable plans and codes.
2. **Development Assistance (172-602035)** Provides development assistance to customers at the counter and over the telephone. Reviews all building permits and provides copies of land development related documents to the public.
3. **Code Maintenance & Code Enforcement (172-602040)** Reviews land development projects in final stages to ensure compliance with conditions of approval. Investigates all land use complaints that are enforceable via the Community Development Code. Prepares code amendments and makes recommendations concerning code interpretations.

Building Services provides plan review, issues permits and conducts inspections relative to conformance with state building, mechanical, electrical, plumbing and mobile home codes in the unincorporated areas of the county and via contract to some of the smaller cities.

**Budget Analysis**

Total Resources increase \$2,051,435 (19%). Total Requirements, excluding Contingency, increase \$1,303,641 (11%). Contingency increases \$4,392,438 (124%). Beginning fund balance increases \$3,644,644 (89%).

Total Resources increase, main due to 8.5% increases to most fees. The purpose of these increases is to sustain operations, maintain cost recovery for the program, and rebuild a severely depleted fund balance. The projections for future development activity is conservative. Investment Interest Income is included in budgeted Total Resources.

Personnel Services costs increase mainly due to increases in salaries, retirement costs, and health care costs. Total FTEs increase due to the addition of two 1.00 FTE Inspector positions, (added to maintain our inspection timeline commitment), and one 0.30 FTE Principal Planner position. These additional FTEs are fully supported by permit revenue.

Materials and Services are slightly lower due to lower County's Cost Allocation Plan (CAP) charges, and Other expenditures are consistent with FY 2023-24 budget levels. Interfund expenditures increase due to the ITS costs associated with moving the Accela permit system to the cloud. Transfer to the Road Fund goes up slightly for department administrative costs.

Budgeted Capital vehicle costs increase for the two additional inspectors and are funded by permit revenue.

**Key Issues**

Fee revenues have not supported Building Services costs since FY 2017-18, but the 50% increase realized in FY 23-24 mostly filled that gap and translated to cost recovery for FY 2023-24.

Staff are still considering implementing a future technology fee surcharge to help recover the cost of technology systems including hardware, software and technology staff support. The implementation of this surcharge has been delayed for one additional year (until FY 2025-26) as per staff recommendations in order to provide more time to evaluate current and future technology needs and costs.

## Programs

1. **Building Inspection (174-602005)** Performs site inspections of construction on private property relative to conformance with the state building, mechanical and mobile home codes.
2. **Plan Review (174-602010)** Reviews plans and issues permits for construction on private property relative to conformance with the state building and mechanical codes and maintains a record of construction within the unincorporated areas of the County.
3. **Plumbing Inspection (174-602015)** Reviews plans and performs site inspections of construction on private property relative to conformance with the state plumbing code.
4. **Electrical Inspection (174-602020)** Reviews plans and performs inspections of all construction on public and private property relative to conformance with state statutes and the national electrical code.

5. **Building Code Compliance & Enforcement** (174-602025) Oversees the building enforcement program by investigating complaints and reported code violations. Performs enforcement actions in those cases where code conformance cannot be achieved voluntarily.

The Statewide Transportation Improvement Fund (STIF) provides a dedicated source of funding to improve or expand public transportation service under House Bill (HB) 2017. The funds are eligible to be used in transit planning, capital, and operations to improve service in underserved areas, as well as reduce service fragmentation as defined in the STIF administrative rules.

STIF is a dedicated source of funding for improving or expanding public transportation services in Oregon through a statewide one-tenth of one percent employee payroll tax. The legislation designated Washington County as a public transportation provider eligible to receive a portion of the STIF fund commensurate with the tax revenue generated in the area outside TriMet and South Metro Area Regional Transit (SMART) service districts. Washington County also receives pass-through funds from TriMet for community and job connector shuttles inside the TriMet District and accounts for the largest share of Washington County's STIF program.

TriMet as the Qualified Entity (QE) for the tri-county region is responsible for submitting the Tri-County Public Transportation Improvement Plan (PTIP) for approval by the Oregon Transportation Commission, and receiving and distributing STIF funds for Clackamas, Multnomah and Washington counties. The PTIP identifies priority capital and operational improvements to be implemented by public transportation providers over a two-year period.

Washington County's priorities were developed in collaboration with and reflect broad consensus of the Washington County Transit Committee. Program management, administrative oversight and planning support is provided by the Land Use & Transportation (LUT) Department. STIF discretionary grants are accounted for in program 209-607010.

### ***Budget Analysis***

Total Resources decrease \$1,768,507 (30%). Total Requirements, excluding Contingency, decrease \$488,362 (8%). Contingency increases \$606,729 (0%). Beginning fund balance increases \$1,886,874 (0%).

STIF is growing and some unspent FY 2023-24 revenues have been deferred or carried forward to this fiscal year. FY 2024-25 STIF Formula Fund revenue is slightly reduced, but significant carry-forward revenues offset that and raise the Total Resources significantly. STIF total requirements are gradually increasing from year to year, but some smaller STIF projects have been slowed by supply chain and hiring challenges.

Washington County and Ride Connection Inc. have been successful receiving STIF discretionary grants, which are accounted for in this fund within the Non-Formula Discretionary Grants program (209-607010). Matching funds totaling 20% are required. These matching funds come from the Major Streets Transportation Improvement Program (MSTIP 3) fund (174-6020), STIF Formula Funds, and the American Rescue Plan Act (ARPA) fund (155-1645), if available. Past and current discretionary grants include the following projects: technology upgrades to improve safety and Ride Connection's operational efficiency, a micro-transit pilot project, and community connector shuttle stop signage and passenger shelters.

Discretionary grant revenue is reimbursed only after incurred costs are reported. Some STIF Discretionary Grants were not awarded or were delayed, reducing discretionary grant revenue and expenditures dramatically. Discretionary grant project activity is slower than expected, sometimes including multiple contracted parties and requiring contract amendments to extend contracts. Despite these factors, eventual growth is anticipated in project spending.

This program administers transit funding received through the State Transportation Improvement Fund and is used to provide local transit service that supplements TriMet service within TriMet's district providing rural and intercity services. This program has no dedicated staff but receives some reimbursement for other department staff costs billed to it.

# Statewide Transportation Improvement 209-6070

# Budget Detail

## Total Budget

	Actuals	Actuals	Modified	Proposed	Approved	Adopted	Change

## Requirements by Program

	Actuals	Actuals	Modified	Proposed	Approved	Adopted	Change
	2021-22	2022-23	2023-24	2024-25	2024-25	2024-25	%
<b>Programs</b>							
Transit Coordination	\$ 1,456,379	1,596,933	3,744,365	5,639,165	5,639,165	5,639,165	51%
Non Formula - Discretionary Grants	436,455	183,601	2,129,552	353,119	353,119	353,119	-83%
<b>Total Requirements</b>	<b>\$ 1,892,834</b>	<b>1,780,534</b>	<b>5,873,917</b>	<b>5,992,284</b>	<b>5,992,284</b>	<b>5,992,284</b>	<b>2%</b>

**Programs**

1. **Transit Coordination** (209-607005) Originally funded in 2019 with authorization by the Oregon Transportation Commission (OTC), the County submits requests for funding. Future funding increases are tied to increases in employee payroll tax in the areas of the county outside of SMART and Tri-Met service districts, and an allocation increase by TriMet to the County for Regional Service Coordination and OTC awards of competitive STIF Discretionary Grants.

Washington County contracts with Ride Connection, Inc., a private, non-profit organization, to provide transit services funded by STIF. Ride Connection has provided public transportation services in Washington County for decades using state and federal funding along with private contributions. The partnership with Ride Connection leverages STIF funds with these other resources to maximize the benefit and utility of enhanced public transportation services in Washington County.

This program does not include STIF Discretionary Grants; they are included in the Non-Formula Discretionary Grants program (209-607010)

2. **Non Formula - Discretionary Grants** (209-607010) Revenue for STIF Discretionary Grants is received on a reimbursement basis from Oregon Department of Transportation (ODOT). Matching funds of 20% are required; these may come from ARPA Fund 155, MSTIP III Fund and STIF Formula Funds.

This fund provides road maintenance activities undertaken through Maintenance Local Improvement Districts (MLIDs) established in the county.

**Budget Analysis**

Total Resources increase \$20,136 (75%). Total Requirements, excluding Contingency, decrease \$22 (0%). Contingency increases \$56,911 (13%). Beginning fund balance increases \$36,753 (9%).

There are five active Maintenance Local Improvement Districts (MLID's). This organization unit has no dedicated staff but administers funds collected from property owners for maintenance of specific roads and streets.

Budgeted assessment revenues are consistent with the prior year, but budgeted interest revenues are higher than in years past. Total requirements remain flat.

Interfund appropriations are budgeted due to scheduled work included in the Operations and Maintenance Work Program for vegetation management within the active maintenance local improvement districts. There are no major projects scheduled for FY 2024-25.

The contingency has grown slightly but remains consistent with previous fiscal years.

**Total Budget**

<b>Ending Fund Balance</b>	<b>\$ 407,872</b>	<b>447,225</b>	<b>-</b>	<b>-</b>	<b>-</b>	<b>-</b>	

**Programs**

1. **Maintenance Local Improvement District (212-607505)** This program provides the financial activities related to local roads within the district. The funds are primarily used to reimburse programs for road maintenance work completed in specific MLIDs.

This organization unit is responsible for the duties and responsibilities of the County Surveyor which include: filing and maintaining public survey records; reviewing and approving plats and surveys; maintaining the County address system; performing court-ordered surveys; surveying County-owned property, and public assistance.

**Budget Analysis**

Total Resources increase \$245,473 (34%). Total Requirements, excluding Contingency, decrease \$79,280 (7%). Contingency increases \$710,902 (101%). Beginning fund balance increases \$386,149 (33%).

Total Resources increase due to updated fees and consistent development activity.

A required 5% reduction in General Fund support eliminates \$3,647 of the previously planned transfer.

Personnel Services increase slightly to reflect increases in salaries, retirement costs, and health benefits. All positions are currently filled in this program.

Materials and Services rise marginally due to increases in Cost Allocation Plan (CAP) charges. Interdepartmental expenditures decrease significantly because this fully-staffed group is no longer paying other Survey programs to support as much of its work. Transfers to the Road Fund rise due to increased Land Use & Transportation (LUT) departmental CAP charges. The budgeted contingency is higher than the previous fiscal year, reflecting an increase in Total Resources.

**Total Budget**

	Actuals 2021-22	Actuals 2022-23	Modified 2023-24	Proposed 2024-25	Approved 2024-25	Adopted 2024-25	Change %

*This page intentionally left blank*

**Public Health**

*How does this budget scenario advance the County's equity and inclusion priorities?*

This 5% reduction scenario involves a \$252,094 cut in General Fund transfer, largely affecting contracted services. This reduction scenario would have mixed effects on the County's equity and inclusion priorities. In lieu of General Fund subsidy, the Healthy Birth Initiative would have its key components addressed by the perinatal continuum of care work that uses expanded Health Share funding and Office of Minority Health grant funding. Therefore, Public Health does not anticipate any negative impacts on the community associated with this specific change. Nonetheless, this reduction scenario would continue to underfund additional workforce training and provide staff capacity to complete a more global re-structure of services to equitably meet the needs of all Washington County residents.

*How does this budget scenario negatively or positively impact our goals of (a.) Civil Rights Act compliance and language access and/or (b.) recruitment and retention of bilingual and BIPOC staff?*

This proposed budget negatively impacts the County's goal of Civil Rights Act compliance, language access and recruitment and retention of bilingual and BIPOC staff in that it does not fund additional staff support, resources and professional development. These investments are needed to expand Civil Rights Act compliance infrastructure, further develop language access programming, and offer competitive employee growth opportunities.

*How does this budget scenario provide mitigations for any negative impacts?*

This proposed budget has no mitigations for any negative impacts.

*Do you foresee any unintended consequences and potential ways to mitigate?*

There may be some unintended consequences of this proposed budget. While this budget maintains current staff positions, the reprioritization and redistribution of workload to maintain core community services will challenge staff capacity and possibly lower staff retention over time.

**Health and Human Services Administration**

*How does this budget scenario advance the County's equity and inclusion priorities?*

The 5% reduction scenario involves cutting \$6,716 in General Fund transfer to this organization unit. This reduction scenario would not advance the County's equity and inclusion priorities. While the Health and Human Services (HHS) Department can deliver core services, this budget would not fund additional workforce training or provide staff capacity to re-structure services to equitably meet the needs of all Washington County residents.

*How does this budget scenario negatively or positively impact our goals of (a.) Civil Rights Act compliance and language access and/or (b.) recruitment and retention of bilingual and BIPOC staff?*

The reduced budget would hinder the department's ability to support underrepresented community groups through sponsorships. These sponsorships are critical for promoting departmental work and division employment opportunities. Reduction in these resources would affect the department's recruitment pipeline.

*How does this budget scenario provide mitigations for any negative impacts?*

This proposed budget has no mitigations for any negative impacts.

*Do you foresee any unintended consequences and potential ways to mitigate?*

There may be some unintended consequences of this reduced budget such as prolonged challenges with staff capacity. While current department employees will continue to work at their highest capabilities, the reprioritization and redistribution of work may result in gaps or delays in services.

### **Animal Services**

*How does this budget scenario advance the County's equity and inclusion priorities?*

The 5% General Fund reduction scenario involves a \$89,151 cut in General Fund subsidy that would be offset by increases from dog license revenue as well as gifts and donations. This proposed budget would not advance the County's equity and inclusion priorities. Animal Service's efforts to improve programs, advance equity, inclusion and diversity and accommodate basic services to keep pace with the County's growing need, is currently hindered by this proposed budget. This reduced budget only includes those expenses required to maintain public safety, education, animal welfare and stray and injured animal intake.

*How does this budget scenario negatively or positively impact our goals of (a.) Civil Rights Act compliance and language access and/or (b.) recruitment and retention of bilingual and BIPOC staff?*

This proposed budget would not affect the County's goal of Civil Rights Act compliance, language access and recruitment and retention of bilingual and BIPOC staff. Animal Services' efforts and associated resources will remain comparable to FY 2023-24.

*How does this budget scenario provide mitigations for any negative impacts?*

This proposed budget has no mitigations for any negative impacts.

*Do you foresee any unintended consequences and potential ways to mitigate?*

There may be some unintended consequences of this proposed budget, including continued staff work distribution and capacity challenges.

### **Veterans Services**

*How does this budget scenario advance the County's equity and inclusion priorities?*

The 5% General Fund reduction scenario would decrease General Fund transfer by \$53,501, largely in personnel services. The reduced proposed budget would not advance the County's equity and inclusion priorities as it would eliminate the Disability and Aging Services Coordinator position. This position is shared with Agency on Aging to provide housing navigation support for veterans, older adults and people with disabilities experiencing homelessness or who are at risk of homelessness.

*How does this budget scenario negatively or positively impact our goals of (a.) Civil Rights Act compliance and language access and/or (b.) recruitment and retention of bilingual and BIPOC staff?*

This reduced budget does not affect the County's goals for Civil Rights Act compliance, language access and/or recruitment and retention of bilingual and BIPOC staff.

*How does this budget scenario provide mitigations for any negative impacts?*

This proposed budget has no mitigations for any negative impacts.

*Do you foresee any unintended consequences and potential ways to mitigate?*

There may be some unintended consequences of this proposed budget such as prolonged challenges with staff capacity. While current Health and Human Services employees will continue to work at their highest capabilities, the reprioritization and redistribution of work may result in gaps or delays in service.

### **Community Development Block Grant**

*How does this budget scenario advance the County's equity and inclusion priorities?*

The 5% General Fund reduction scenario would involve a \$24,223 reduction, reducing by half the current annual Community Development funding to Worksystems, Inc. This reduced budget scenario would advance the County's equity and inclusion priorities by continuing support of critical services and projects benefiting low- and moderate-income households and areas in the County. People of color disproportionately experience poverty and housing instability. The federal and local funds administered by the Office of Community Development address those inequalities. Nonetheless, this reduction would cause a moderate decrease in funding for a workforce development program.

*How does this budget scenario negatively or positively impact our goals of (a.) Civil Rights Act compliance and language access and/or (b.) recruitment and retention of bilingual and BIPOC staff?*

This proposed budget scenario would have a slight negative impact on goals around Civil Rights Act compliance, language access and recruitment/retention of bilingual and BIPOC staff by supporting the regulation compliance required by the federal funds our Office administers. This budget includes support for translation services for clients and training for staff at a slightly decreased level.

*How does this budget scenario provide mitigations for any negative impacts?*

The negative impacts of this budget scenario are minimal They are mitigated by prioritization of programs and projects serving low- and moderate-income households.

*Do you foresee any unintended consequences and potential ways to mitigate?*

A potential unintended consequence of this scenario would be that workforce development programs focused on people of color may not have sufficient funding. A potential mitigation strategy is to explore expanding outreach for federal workforce requirements by posting opportunities on the Office of Community Development website.

### **Children, Youth and Families; Developmental Disabilities; Behavioral Health; Mental Health Crisis Services; Coordinated Care Organization; Tri-County Risk Reserve; Emergency Medical Services**

*How does this budget scenario advance the County's equity and inclusion priorities?*

This proposed budget does not advance the County's equity and inclusion priorities. While the Health and Human Services (HHS) Department can deliver core services, this budget does not fund additional workforce training or provide staff capacity to re-structure services to equitably meets the needs of all Washington County residents.

*How does this budget scenario negatively or positively impact our goals of (a.) Civil Rights Act compliance and language access and/or (b.) recruitment and retention of bilingual and BIPOC staff?*

This proposed budget negatively impacts the County's goal of Civil Rights Act compliance, language access, and recruitment and retention of bilingual and BIPOC staff in that it does not fund additional staff support, resources, and

professional development. These investments are needed to expand Civil Rights Act compliance infrastructure, further develop language access programming, and offer competitive employee growth opportunities.

*How does this budget scenario provide mitigations for any negative impacts?*

This proposed budget has no mitigations for any negative impacts.

*Do you foresee any unintended consequences and potential ways to mitigate?*

There may be some unintended consequences of this proposed budget. While this budget maintains current staff positions, the reprioritization and redistribution of workload to maintain core community services will challenge staff capacity and possibly lower staff retention over time.

### **Aging Services**

*How does this budget scenario advance the County's equity and inclusion priorities?*

This 5% General Fund reduction scenario involves the elimination of a 1.00 FTE Disability and Aging Services Coordinator position. The reduced proposed budget would not advance the County's equity and inclusion priorities due to this decreased programmatic capacity. This full-time equivalent position is shared with Veterans Services to provide housing navigation support for veterans, older adults and people with disabilities experiencing homelessness or who are at risk of homelessness.

*How does this budget scenario negatively or positively impact our goals of (a.) Civil Rights Act compliance and language access and/or (b.) recruitment and retention of bilingual and BIPOC staff?*

The reduced budget scenario would not affect the County's Civil Rights Act compliance, language access and/or recruitment and retention of bilingual and BIPOC staff.

*How does this budget scenario provide mitigations for any negative impacts?*

This proposed budget has no mitigations for any negative impacts.

*Do you foresee any unintended consequences and potential ways to mitigate?*

There may be some unintended consequences of this reduced budget such as prolonged challenges with staff capacity. While current Health and Human Services employees will continue to work at their highest capabilities, the reprioritization and redistribution of work may result in gaps or delays in services.

### **Housing Services; Metro Affordable Housing Bond; Supportive Housing Services Revenue; Supportive Housing Services**

*How does this budget scenario advance the County's equity and inclusion priorities?*

This proposed budget advances the County's equity and inclusion priorities by funding the continued equity and inclusion priorities of the Department of Housing Services. Staff support these priorities through focused creation and implementation of policies and practices that improve internal structures and employee experiences, as well as through innovative solutions to ensure the department's operations and delivery of services reflect the diversity of the County's population.

The current fiscal year equity analysis reflects an increased rate of service for individuals identifying as Native American/Indigenous and Native Hawaiian/Pacific Islander in the Supportive Housing Services Program when compared to

the last program year. The Enhanced Rapid Rehousing Program demonstrated higher service rates for individuals identifying as Black, African American or African when compared to the equity analysis from the 2022-23 program year. Additionally, analysis indicates that Eviction Prevention Services are particularly effective at serving Asian/Asian American households and Latino/a/ae households.

The Homeless Services Division currently contracts with seven culturally specific providers to administer a variety of homeless services. Each culturally specific partner receives \$50,000 in Culturally Specific Administrative funds for three years totaling an investment of \$150,000 per organization. These investments are intended to provide organization support and flexibility to support the needs of culturally specific partners that have traditionally seen a lack of investment.

In FY 2024-25, the department is once again budgeting \$250,000 for staff training around leadership skills, equity and fair housing. Finally, the proposed budget supports the work of the department's 11-member Diversity Inclusion and Belonging (or DIBs) Council, a team that works to create and implement policies and practices that improve the equity, diversity, inclusion and belonging of department employees at every level.

*How does this budget scenario negatively or positively impact our goals of (a.) Civil Rights Act compliance and language access and/or (b.) recruitment and retention of bilingual and BIPOC staff?*

This proposed budget positively impacts the County's goal of Civil Rights Act compliance, language access, and/or recruitment and retention of bilingual and BIPOC staff. Descriptions of the department's priorities around Civil Rights Act compliance, language access, investments in staff and our internal Diversity Inclusion and Belonging Council include 1) staff investment to include two new Community Engagement Coordinators and an Advisory Bodies Coordinator supported in partnership with the Office of Equity, Inclusion, and Community Engagement to ensure community engagement and advisory body activities are aligned with equity and inclusion best practices.

*How does this budget scenario provide mitigations for any negative impacts?*

Staff does not foresee negative impacts in the County's equity and inclusion priorities as a result of this proposed budget.

*Do you foresee any unintended consequences and potential ways to mitigate?*

Staff do not foresee any unintended consequences of this proposed budget.

## HOME

*How does this budget scenario advance the County's equity and inclusion priorities?*

This proposed budget scenario advances the County's equity and inclusion priorities by supporting critical services and projects benefiting low- and moderate-income households and areas in the County. People of color disproportionately experience poverty and housing instability. The federal and local funds administered by the Office of Community Development address those inequalities.

*How does this budget scenario negatively or positively impact our goals of (a.) Civil Rights Act compliance and language access and/or (b.) recruitment and retention of bilingual and BIPOC staff?*

This proposed budget scenario positively impacts goals around Civil Rights Act compliance, language access and recruitment/retention of bilingual and BIPOC staff by supporting the regulation compliance required by the federal funds our Office administers. This budget includes support for translation services for clients and training for staff.

*How does this budget scenario provide mitigations for any negative impacts?*

This proposed budget does not have negative impacts to the Office of Community Development's current level of service.

*Do you foresee any unintended consequences and potential ways to mitigate?*

Staff does not foresee any unintended consequences of this proposed budget scenario.

### **Housing Production Opportunity Fund**

*How does this budget scenario advance the County's equity and inclusion priorities?*

This reduction scenario involves a roughly \$2.9 million reduction of General Fund transfer based on a plan approved by the Board of County Commissioners prior to the passage of regional affordable housing and supportive housing services tax measures in 2018 and 2020, respectively. The County created the Housing Production Opportunity Fund (HPOF) in FY 2016-17 with General Fund resources. This fund was created to allow completion of multi-family affordable housing projects that experienced gaps in funding due to unforeseen circumstances such as construction cost increases, changes to tax credit financing, loss of other sources of funding, etc. In FY 2019-20, the Board approved adding \$20 million over five years to further these goals and expand policy guidelines to provide assistance for affordable multi-family housing assistance, a homeownership program and innovative special needs housing programs. The \$4 million transfer during FY 2022-23 and FY 2023-24 was suspended, and there are two years remaining to be funded under the revised plan for a total of \$8 million. This year's request has been reduced to a partial amount of \$1.1 million.

This reduced budget scenario advances the County's equity and inclusion priorities by supporting critical services and projects benefiting low- and moderate-income households and areas in the County. People of color disproportionately experience poverty and housing instability. The federal and local funds administered by the Office of Community Development address those inequalities.

*How does this budget scenario negatively or positively impact our goals of (a.) Civil Rights Act compliance and language access and/or (b.) recruitment and retention of bilingual and BIPOC staff?*

This reduced, proposed budget scenario positively impacts goals around Civil Rights Act compliance, language access and recruitment/retention of bilingual and BIPOC staff by supporting the regulation compliance required by the federal funds our Office administers. This budget includes support for translation services for clients and training for staff.

*How does this budget scenario provide mitigations for any negative impacts?*

This reduced budget scenario does not have negative impacts to the Office of Community Development's current level of service.

*Do you foresee any unintended consequences and potential ways to mitigate?*

Staff does not foresee any unintended consequences of this proposed budget scenario.

# HOUSING, HEALTH & HUMAN SERVICES

# BUDGET OVERVIEW

Housing, Health & Human Services provides prevention, protection and support services and activities so that all people who live, work, study and play in Washington County can be healthy, self-sufficient and safe. Educating people through public health efforts, providing safety to vulnerable children and adults, addressing addictions, enabling people to live independently, and providing affordable housing are just a few examples of how this is accomplished. Throughout Washington County, Housing, Health & Human Services offers a wide variety of programs, services and resources which serve to inform, educate and empower.

\*Effective FY 2024-25, Public Health moves from the General Fund (100-7030) to this newly created special fund (189-7030).

This organization unit is responsible for administering and enforcing all Oregon public health laws; adopting, implementing, monitoring, evaluating, and modifying a local public health modernization plan that includes implementation of all foundational programs; and administering local public health programs or activities that the local public health authority considers necessary to protect public health and safety.

### ***Budget Analysis***

Effective FY 2024-25 Public Health has moved from the General Fund (100-7030) to this special fund. Activities previously budgeted in Children Youth and Families (CYF) organization unit (166-7050) also move into this new organization unit, either to existing Public Health programs or to one of two newly created programs: Child & Family Services (189-703055) and Prevention & Parenting Services (189-703060).

Revenue from Licenses and Permits increases relating to Solid Waste and Recycling (SWR) franchise fees and Environmental Health licensing fees. Intergovernmental revenues increase in existing Public Health programs due to additional State, federal and coordinated care organization funding for public health modernization and infrastructure, community health improvement, healthy families program management and community-based maternal support services. Charges for Services related to Medicaid and commercial insurance billings for home visiting services increase and this activity moves from CYF to the Maternal and Child Health program. Operating Transfers In include resources historically received by CYF (166-7050) from the Human Services organization unit (192-7060) as well as resources from CYF to support activities moved to this new organization unit, but they consist primarily of a transfer from the General Fund to support operations and establish contingency funds which are held in reserve for future appropriations.

Personnel Services increase due to increases in salaries, retirement and health benefit costs, various reclassifications, the addition of 1.00 FTE, and the net transfer of 22.70 FTE from other organization units. Materials & Services increase due to increased spending on professional services and supplies related to new funding for public health modernization and infrastructure and community health improvement as well as healthy families program management and community-based maternal support services. Despite an increase in interfund expenditures for the existing Public Health programs due to the HHS Administration division (100-7040) beginning to charge allocated costs in full to other HHS divisions, interfund expenditures and revenues for the combined activities decrease as charges to CYF activities for Public Health Administration will now occur within the same fund. Similarly, transfers from Public Health to CYF are eliminated as the activities are now combined. Capital outlay increase by \$41,000 for an additional vehicle needed for the Medical Examiner's Office.

Reductions to General Fund support in the amount of \$225,000 for Healthy Birth Initiative will be supported by the perinatal continuum of care work that uses expanded Health Share funding and Office of Minority Health grant funding, therefore there are no negative impacts on the community associated with this change. Reductions to General Fund support in the amount of \$19,094 impacts funding for additional workforce training and staff capacity to complete a more global re-structure of services to equitably meet the needs of all Washington County residents.

**Programs**

1. **Environmental Health (189-703005)** Provides education to the public and regulated community, enforces environmental public health regulations and provides environmental health surveillance to prevent the spread of communicable diseases and protect the environment. Non-regulatory work in this program is also important to promote the health and safety of the community including efforts to improve air quality, climate adaptation and community resiliency. \*This program's number through FY 2023-24 was 100-703005.
2. **Communicable Disease (189-703010)** Provides health services to high-risk and general population at the earliest point of intervention so that communicable diseases can be identified and controlled, such as tuberculosis, access to sexually transmitted disease services and HIV. This program monitors compliance with childhood immunization requirements and promotes access to health services including administering contracts with federally qualified health centers to ensure population access to immunizations. \*This program's number through FY 2023-24 was 100-703010.
3. **Medical Examiner (189-703015)** Provides enforcement and implementation of statutes relating to investigation of violent and unattended deaths, including death scene investigation and documentation. Works closely with law enforcement agencies, hospitals, private medical providers and funeral homes. \*This program's number through FY 2023-24 was 100-703015.
4. **Solid Waste and Recycling (189-703020)** Provides enforcement of the County solid waste and nuisance and the noise ordinances and carries out the County's responsibilities regarding the metropolitan regional recycling program. \*This program's number through FY 2023-24 was 100-703020.
5. **Maternal Child & Family (189-703025)** Provides evidence-based home-visiting services for eligible mothers, children, and families to promote self-sufficiency and resilience. Coordinates activities of the Reproductive Health Coalition of Washington County and works to assure equitable access to reproductive health services. \*This program's number through FY 2023-24 was 100-703025.
6. **Public Health Administration (189-703030)** Provides supervision for all Public Health programs except Solid Waste and Recycling. This includes Research, Analytics, Informatics & Data program and the new Strategy Program that focuses on public health modernization and public health leadership and communication. \*This program's number through FY 2023-24 was 100-703030.
7. **Public Health Strategy (189-703035)** Provides programs impacting communitywide health issues including tobacco prevention and education and chronic disease prevention. Leads the Community Health Needs Assessment and the Community Health Improvement Plan in concert with community partners. \*This program's number through FY 2023-24 was 100-703035.
8. **Vital Records (189-703040)** Receives and provides information on births and deaths within the County. \*This program's number through FY 2023-24 was 100-703040.
9. **Women, Infants and Children (WIC) (189-703045)** Administers the federal WIC program which provides nutrition education, breast feeding support and financial assistance to eligible families for food purchases. \*This program's number through FY 2023-24 was 100-703045.
10. **Public Health Emergency Preparedness (189-703050)** Provides guidance and support to improve the emergency readiness of County Public Health programs and augments the community's preparedness and resilience through outreach, education, risk mitigation, response and incident management. \*This program's number through FY 2023-24 was 100-703050.
11. **Child & Family Services (189-703055)** Provides supports for children, youth, and families through a coordinated referral system, home visiting and early care, and social, emotional and health related education activities.

12. **Prevention & Parenting Services** (189-703060) Promotes, coordinates, and builds community capacity for prevention supports and parenting education through classes, workshops and family-friendly activities.

\*Effective FY 2024-25, this General Fund organization unit moved to a special fund. It's new organization unit is Public Health 189-7030.

This organization unit is responsible for the delivery of community behavioral health services including treatment and support for persons with mental illness and individuals with Substance Use Disorders (SUD).

**Budget Analysis**

Total Resources decrease \$4,986,698 (6%). Total Requirements, excluding Contingency, decrease \$5,053,618 (6%). Contingency decreases \$245,849 (5%). Beginning fund balance decreases \$312,769 (6%).

Interfund revenues increase in intra-department transfers from Coordinated Care Organization (CCO) unit (203-7087) for Behavioral Health division allocated costs and from Housing Services organization unit 221-6530 for Supportive Housing Liaison. Miscellaneous revenues increase in interest earnings and in Opioid Settlement funding to support Center for Addictions Triage and Treatment (CATT) development.

Operating transfers in revenues decrease due to transfers from Prevention, Treatment and Recovery program unit 207-7086 to support CATT. This is offset by an increase in General Fund transfer because allocated costs are charged in full to all organization units. General Fund also supports mental health services for crisis response and mental health response team (Hawthorn walk-in center); civil commitment investigations and hearings; a mental health liaison within the jail; the coordination of mental health services with the Juvenile department; and Child Abuse Response and Evaluation Services (CARES).

Personnel Services expenditures increase due to salaries, retirement costs, and health benefits, which is offset by a decrease of a 0.48 full-time equivalent position that moved to Coordinated Care organization unit (203-7087) to align staff appropriately with care coordination loads to effectively serve community members.

Materials and Services expenditures increase due to the County's Cost Allocation Plan (CAP). Other expenditures increase, which represents mental health and addictions sponsorships and future grant appropriations.

Interfund expenditures decrease in Facilities capital and reflect planned CATT development costs, which is offset by an increase in Information Technology Services (ITS) requests. Transfers to other fund expenditures increase in transfer to Mental Health Crisis unit (199-7089) to support the crisis safety net system and transfer to Public Health unit (189-7030) to support parenting together partnership and social emotional learning activities.

Contingency decreases and represents funds held in reserve for future appropriations.

**Key Issues**

Behavioral Health is a collective fund that provides division administration, operations and management. This organization unit houses several activities including adult and child mental health programs and addictions programs. The division is also investing in developing new supports for unhoused individuals with mental health and addiction disorders, utilizing unrestricted carryforward revenue.

## Programs

- Behavioral Health Administration (192-706005)** Provides needs assessment, planning, contracting, monitoring and evaluation of all mental health and SUD services. Develops and implements needed services in the community and provides input in statewide service development.
- Mental Health Services (192-706010)** Assures services that range from outpatient treatment including brief crisis response to more intensive residential treatment skill training, vocational and medication management for adults with chronic mental illness. County staff also investigates petitions regarding the civil commitment of an alleged mentally ill person.
- Children's Behavioral Health (192-706015)** Services range from outpatient mental health treatment for children and adolescents to brief mental health crisis services for adolescents.
- Alcohol & Drug Services (192-706020)** Provides prevention and treatment services to youth and adults for alcohol and drug abuse related issues.
- Center for Addictions Triage & Treatment (192-706030)** A split campus program that provides comprehensive substance use treatment for adults.

Provides management and administrative services to the divisions and programs of Health and Human Services including: Public Health (Emergency Medical Services, Environmental Health, Communicable Disease & Prevention, Medical-Legal Death Investigators, Maternal Child & Family (including Children, Youth & Families), Public Health Admin, Health Equity, Policy & Planning, Vital Records, Women, Infants & Children, and Public Health Emergency Preparedness), Solid Waste & Recycling, Behavioral Health, Developmental Disabilities Services, Disability, Aging & Veterans Services, and Animal Services.

**Budget Analysis**

Total Resources increase \$1,229,583 (53%). Total Requirements increase \$719,149 (24%). General Fund subsidy decreases \$510,434 (80%).

Personnel costs increase due to increases in salaries, retirement and health benefits and the reclassification of one position.

Materials and Services expenses increase due to increases in allocated costs, new charges from Information Technology Services (ITS) organization unit (518-3525) and the centralization of charges from certain internal service funds which had previously been charged directly to divisions. In turn, Intradepartmental revenues increase due to the need to recover increased costs as well as the HHS Administration division beginning to charge allocated costs in full to other Health and Human Services (HHS) divisions which include the new ITS charges and mail messenger costs.

Reductions to General Fund support in the amount of \$14,716 will impact funding and capacity to support community-based organizations. These impacts cannot be mitigated within this organization unit.

**Total Budget**

**Programs**

1. **HHS Administration (100-704005)** Provides management and administrative services to the divisions and programs of HHS.

The Animal Services organization unit includes the operation of the small animal shelter and enforcement of the County code regarding dog licensing, loose nuisance dogs, aggressive or biting dogs, cruelty, neglect, barking and other livability issues. Key programs are dog license sales, education and outreach services, adoption of stray and abandoned dogs and cats and impoundment of dogs in violation of the code. Other services include the operation of an active volunteer program, spay/neuter education programs, and operation of an in-house spay/neuter clinic.

**Budget Analysis**

Total Resources increase \$126,151 (7%). Total Requirements increase \$227,966 (5%). General Fund subsidy increases \$101,815 (4%).

The Operating Transfer In from the Animal Services Gifts and Donations Fund 154-7095 will be done on an as needed basis to cover operating costs.

Personnel Services increase by 8% due to increasing salaries, retirement costs and health benefits.

Excluding Cost Allocation Plan (CAP) costs, materials and supplies increased by 8%.

Reductions to General Fund support in the amount of \$89,151 through an increased revenue transfer from gifts and donations by \$35,660 and an increase in dog license revenue by \$53,491. Increased dog license revenue is based on a history of revenue exceeding budget and expected improvements in promotion and sales management.

Budgeted supplies increased which allows Animal Services to maintain current service levels as costs for medical supplies and animal care have increased. Professional services also increased to maintain current service levels for emergency or urgent pet care and diagnostics not available in house.

**Programs**

1. **Animal Services**(100-709005) Operates the animal shelter and enforces the County code regarding dog licensing, loose nuisance dogs, aggressive or biting dogs, cruelty, neglect, barking and other livability issues.

This fund accounts for financial contributions from private donors to support current operations and future capital improvements of the Animal Services program and animal shelter.

**Budget Analysis**

Total Requirements, excluding Contingency, increase \$39,348 (5%). Contingency increases \$787,627 (44%). Beginning fund balance increases \$826,975 (60%).

Total Resources remain unchanged from FY 2023-24. Up to \$240,000 will be transferred to the Animal Services general operating budget to cover operating costs. This transfer will be done only on an as needed basis and will be used in alignment with donation policies. Use of all gifts and donations will be made in conformance with Animal Services donation policies and the intent of the donors.

Materials and services expenditures increase from FY 2023-24 due to Cost Allocation Plan (CAP) charges.

Contingency increases and represents funds held in reserve for future appropriations.

**Programs**

1. **Animal Services Gifts & Donations** (154-709505) Provides financial activities related to accounting for gifts and donations provided by private donors.

Veteran Services assists veterans and their dependents to obtain federal, state and local benefits and services. This is accomplished through assistance in filing claims for veterans' benefits with the federal and state Veteran Affairs department; acting as a representative for veterans in disputes on claims against the U.S. Department of Veterans Affairs and developing new programs and services to educate and assist veterans, their dependents and other veteran representatives, groups and organizations.

**Budget Analysis**

Total Resources decrease \$49,065 (10%). Total Requirements increase \$9,559 (1%). General Fund subsidy increases \$58,624 (4%).

Total Resources decrease due to a decrease in Grant Carryforward revenue. Veterans accumulated carry forward revenue during the pandemic when activities slowed. This carry forward revenue is planned to be spent down in FY 2023-24 and FY 2024-25 per the guidance of Oregon Department of Veteran Affairs.

Materials and services expenditures decrease by 21%. Personnel services costs increase by 5% from increased salaries, retirement costs and health benefits. Total FTEs decrease by 0.32 due to moving 0.02 of a Senior Program Coordinator to Aging and removing 0.30 of a Disability and Aging Services Coordinator.

Reductions to General Fund support in the amount of \$53,501. Veterans reduced materials and supplies by \$13,434 and personnel services by \$40,067. The reduction in personnel services is seen in the removal of 0.30 FTE for a Disability and Aging Services Coordinator position shared with Aging. This position provided housing navigation support for veterans, older adults and people with disabilities experiencing homelessness or who are at risk of homelessness; housing navigation support is now done in Housing.

Budgeted revenue and expenditures for Veterans Treatment Court increased to provide benefits to veterans including enrichment, basic needs, and mental health supports.

**Total Budget**

**Programs**

1. **Veteran Services** (100-751005) Assists veterans and their dependents to obtain federal, state and local benefits and services.

This organization unit develops, administers, and evaluates several children, youth, and family services. Although this program still exists as an organization unit and special fund within the budgeting system, operationally this unit in FY 24-25 is now a part of the Maternal Child and Family Program within the Public Health Division.

**Budget Analysis**

Total Resources decrease \$7,721,528 (88%). Total Requirements, excluding Contingency, decrease \$7,482,583 (83%). Contingency decreases \$137,455 (11%). Beginning fund balance increases \$101,490 (7%).

Intergovernmental revenues, Charges for Services, Interfund revenues and Operating transfers decrease due to resources moving to Public Health unit (189-7030) and represent carryforward revenue to be transferred to public health.

Personnel Services expenditures decrease due to 18.65 FTE positions moved to Public Health.

Materials and Services, Other expenditures decrease, which is offset by an increase in Transfer to other funds due to activities transferred to Public Health.

Contingency decreases and represents funds held in reserve for future appropriations.

**Key Issues**

Starting FY 2024-25, resources and activities in this organization unit moved to Public Health unit (189-7030) to combine operations within the Public Health Division into a single organization unit.

Children, Youth and Families program was moved into the Public Health Division during FY 2020-21. The supervision of Children, Youth and Families program and Maternal Child and Family program were combined under one program supervisor. This restructure has resulted in reassignments of work activities, reclassifications of positions, and opportunities for enhanced collaborative work.

This program is fully supported by the infrastructure and services of the Public Health Division. The program is currently engaging in a strategic planning process to determine a plan spend a portion of fund balance on community identified priorities.

## Programs

1. **Children, Youth & Families (166-705010)** Improves the quality of life for children prenatal to 18 and their families in the County through a combination of system improvements, strengthening coordination across sectors, engaging families in collaborative planning, and capacity building for providers and direct services. An underlying driver of the team's efforts is the pursuit of equity by addressing gaps and root causes.
2. **Prevention & Parenting Services (166-705015)** Promotes, coordinates, and builds community capacity for prevention and parenting education classes, workshops and family-friendly activities.
3. **Family Services (166-705020)** Provides supports for families through a coordinated referral system which includes home visiting services and parenting support.

This organization unit administers support services to operate the Community Developmental Disabilities Program (CDDP) serving persons experiencing intellectual and developmental disabilities.

**Budget Analysis**

Total Resources increase \$1,944,622 (11%). Total Requirements, excluding Contingency, increase \$1,945,122 (11%). Contingency decreases \$28,919 (57%). Beginning fund balance decreases \$28,419 (56%).

Intergovernmental revenues increase due to allocations from the State mental health grant revenue for persons with intellectual developmental disabilities. Operating transfers in revenues increase in General Fund transfer because allocated costs are charged in full to all organization units.

Personnel Services expenditures increase due to salaries, retirement costs, and health benefits.

Materials and Services expenditures increase largely due to increased County Cost Allocation Plan (CAP) expense. Other expenditures increase due to bank service charges.

Interfund expenditures increase due to allocated costs, which is offset by a decrease in Information Technology Services (ITS) requests.

Contingency decreases and represents funds held in reserve for future appropriations.

**Key Issues**

The Developmental Disability Services program has grown dramatically over the past few years due to changes in eligibility requirements by the State Legislature, which significantly increased the number of individuals eligible to be served.

Alongside several years of dramatic growth due to client eligibility expansion by the Oregon State Legislature, state funding levels are below that needed to effectively serve residents. Carryforward funds will allow the County to maintain state-mandated services in the short-term. However, current spending and staffing levels are unsustainable. Funding decisions at the state level will be key to continued financial stability for these services. If funding remains flat, the program will be forced to reduce staff in subsequent fiscal years.

## Programs

1. **Developmental Disabilities Services (191-706505)** Provides needs assessment, planning, monitoring and evaluation services for persons with intellectual developmental disabilities.

\*This fund has not been active since FY 2022-23.

The Oregon Health Plan - Mental Health Program previously provided mental health services to Washington County residents enrolled in the Oregon Health Plan (OHP). Beginning in September 2012, this program was replaced by Health Share of Oregon (HSO) as part of Oregon health care transformation. Health Share of Oregon is a separate organization unit for the provision of OHP mental health services.

**Programs**

1. **OHP Mental Health Organization (193-708005)** Provide mental health services to Washington County residents enrolled in the plan.

Beer and wine tax revenues are designated for alcohol and drug prevention, treatment, and rehabilitation services. The purpose of this organization unit is to assure that all beer and wine tax revenues received by the County, which are not fully expended in a given year, are set aside to be expended for chemical dependency programs in subsequent years.

### **Budget Analysis**

Total Requirements, excluding Contingency, decrease \$32,639 (35%). Contingency decreases \$70,396 (8%). Beginning fund balance decreases \$103,035 (11%).

Materials and Services expenditures increase due to the County's Cost Allocation Plan (CAP). Transfers to other funds decrease for the transfer to BH unit 192-7060 to support the deficit of Beer and Wine tax for addiction related services.

Contingency decreases and represents funds held in reserve for future appropriations.

### **Total Budget**

### **Programs**

1. **Mental Health HB 2145 (194-707005)** This program assures that beer and wine tax revenues received and not spent during the year are set aside to be expended for chemical dependency programs in subsequent years.

Health Share of Oregon (HSO) is a large, Coordinated Care Organization (CCO) that operates a tri-county Medicaid system of care through multiple partners including the three counties of the Portland metropolitan area. Washington County is a founding member of this organization.

This fund consists of Medicaid dollars used to manage Oregon Health Plan (OHP) mental health and addiction benefits for Washington County residents enrolled in HSO for the period between September 1, 2012, through December 31, 2019. As of January 1, 2020, the three metro counties role managing the behavioral health benefits was transitioned to another organization and the County's care coordination services moved to Fund 203 Coordinated Care Organization (CCO2.0).

This fund is no longer active and not budgeted in FY 2024-25.

**Programs**

1. **Health Share of Oregon (HSO) (195-708505)** This program manages mental health benefits for OHP members in Washington County.

Aging Services helps older adults and people with physical disabilities access in-home and community-based resources that address basic needs and enhance their quality of life. This mission is fulfilled through the development of a comprehensive, coordinated system of services and programs. The division and its advisory council focus on addressing the concerns of those persons in greatest social and economic need to maximize their ability to live in community, as independently as possible.

**Budget Analysis**

Total Resources decrease \$272,146 (3%). Total Requirements, excluding Contingency, decrease \$220,767 (3%). Contingency decreases \$359,845 (70%). Beginning fund balance decreases \$308,466 (74%).

Total Resources decrease from FY 2023-24 levels due largely to a decrease in one-time Service Equity and Washington County American Rescue Plan Act (ARPA) funds. ARPA funds were strategically prioritized in FY 2023-24 to soften the impact of service levels as pandemic relief funds decline. This planned trajectory continues as ARPA funds spend out in 2024.

Personnel services decrease by 2% due to the removal of 2.43 FTE. An Administrative Specialist II at 1.00 FTE, a part-time Program Specialist at 0.75 FTE and a Disability and Aging Services Coordinator at 0.70 FTE were all removed. A portion of a Sr. Program Coordinator was added from Veterans at 0.02 FTE. Staffing in OPI, OPI-Pilot and Medicaid Waiver may need to be adjusted throughout the year as more is learned about the implementation of the Medicaid Waiver program.

Materials and supplies decrease by 8% from FY 2023-24 in alignment with revenue decreases in Service Equity and ARPA.

Contingency decreases and reflects funds held in reserve for future appropriations.

To better align Total Resources and Requirements, Aging removed the Housing Coordinator Program which included 0.70 FTE for a Disability and Aging Services Coordinator. This position was shared with Veterans and provided housing navigation support to veterans, older adults and people with disabilities experiencing homelessness or who are at risk of homelessness.

Aging increased professional services in OPI by \$20,000, Oregon Project Independence pilot by \$104,442 and Medicaid Waiver by \$269,529. These budgeted expenditure increases are offset by a matching revenue increase. The additional budgeted expenditures will allow Aging to meet increasing demands for professional services.

## Programs

- Aging - In-Home Services (198-752020)** Provides home care, personal care, home delivered meals, adult daycare, assisted transportation, medical equipment, home repair and respite care related to Oregon Project Independence (OPI) for older adults.
- Aging - Administration (198-752025)** Provides planning and program coordination, program implementation, maintenance of records; fulfillment of requirements of federal and state rules, regulations, policies and procedures and support to the advisory councils.
- Aging - Program Development (198-752040)** Provides support for existing programs and the development of new services which utilize service providers, staff and volunteers; including Medicare counseling, options counseling, information and assistance, benefit enrollment, homeless coordination efforts, money management, health promotion training, Gatekeeper and a pilot for Oregon Project Independence for clients under 60.
- Aging - Older Americans Act/NSIP (198-752050)** Combines Older American Act (OAA) support services, congregate meals, home delivered meals, disease prevention/health promotion, national family caregiver and elder abuse prevention for budgetary and financial reporting purposes. OAA and nutrition services incentive program include in home supportive services, transportation, home repair, congregate and home delivered meals, elder abuse prevention, outreach, advocacy, minor home repair, and respite care.
- Aging - Housing Coordination (198-752060)** Housing Coordination is aimed at housing older adults through grants and staff specializing in this area.

This organization unit is a core component of the behavioral health safety net system of care managed by the County. This unit includes the Hawthorn Walk-In Center, mental health response team, crisis line, and mobile crisis team. Services include rapid assessment, crisis stabilization, referral and connection to mental health and addictions treatment for residents of the County.

**Budget Analysis**

Total Resources increase \$453,845 (5%). Total Requirements, excluding Contingency, increase \$406,258 (5%). Contingency increases \$89,839 (12,460%). Beginning fund balance increases \$42,252 (87%).

Intergovernmental revenues increase due to city agreements for mental health response team activity. Charges for Services revenues increase due to Medicaid revenue from agreements with coordinated care organizations. Operating transfers in revenues increase from Behavioral Health unit (192-7060) to support the crisis safety net system.

Materials and Services expenditures increase due to an increase for contracted and professional services for crisis safety net system.

Interfund expenditures increase due to changes in the County's Cost Allocation Plan (CAP).

Contingency increases and represents funds held in reserve for future appropriations.

**Key Issues**

Hawthorn Walk-in Center is fully funded and revenue from multiple funding sources is stable at this time. Changes in state funding could result in less funds available to support crisis services. This uncertainty has led to conservative management of funds with reserves available to mitigate any decreases in funding.

**Total Budget**

**Programs**

1. **Mental Health Crisis Services** (199-708905) This program includes costs for the operations of the Hawthorn Walk-in Center and other mental health and addictions crisis services.

With the State's implementation of Coordinated Care Organization 2.0 (CCO) contracts, the role of the Behavioral Health program has changed significantly to focus on care coordination rather than plan management. Washington County contracts with Health Share of Oregon, CareOregon, Trillium Community Health Plan, and Yamhill Community Care Organization to provide care coordination services to community members within the Oregon Health Plan (OHP).

**Budget Analysis**

Total Resources increase \$1,658,619 (26%). Total Requirements, excluding Contingency, increase \$1,624,499 (26%). Contingency increases \$896,809 (109%). Beginning fund balance increases \$862,689 (103%).

Charges for Services revenues increase due to adjustments in Medicaid revenue from agreements with coordinated care organizations to support care coordination and community-based services. Miscellaneous revenues increase in interest earnings.

Personnel Services expenditures increase due primarily to salaries, retirement costs, and health benefits, and the addition of 2.48 full-time equivalent positions to align staff appropriately with care coordination loads to effectively serve community members: 0.48 FTE that moved from Behavioral Health unit (192-7060) for fiscal year 2024-25; 1.00 FTE Senior Mental Health Services Coordinator and 1.00 FTE Program Coordinator added during FY 2023-24.

Materials and Services expenditures increase in contracted and professional services for care coordination. Other expenditures increase in care coordination member engagement.

Interfund expenditures increase in intra-department transfers to Behavioral Health unit (192-7060) for Behavioral Health division allocated costs and in Information Technology Services (ITS) requests.

Contingency increases and represents funds held in reserve for future appropriations.

**Key Issues**

Washington County bears no financial risk for clinical treatment service costs under the new agreements with Health Share, CareOregon, Trillium, and Yamhill CCO. Changes to the economy and Coordinated Care Organization agreements by the State of Oregon may impact funding levels provided for staffing and service contracts. This will be monitored closely by the Behavioral Health Division.

**Total Budget**

**Programs**

1. **Coordinated Care Organization CCO 2.0 (203-708705)** This program provides care coordination, crisis services, and other community-based services for OHP members in Washington County.

The purpose of this organization unit is to assure that all earned appropriations are set aside to be expended for prevention, treatment and recovery in subsequent years. This organization unit includes consolidated appropriations dedicated to support the Center for Addictions Triage and Treatment (CATT) development in a single organization unit.

### **Budget Analysis**

Total Resources increase \$409,215 (0%). Total Requirements, excluding Contingency, decrease \$6,448,144 (32%). Contingency increases \$6,333,363 (786%). Beginning fund balance decreases \$523,996 (3%).

Miscellaneous revenues increase in interest earnings.

Interfund expenditures decrease in transfer to Behavioral Health unit (192-7060) to support planned Center for Addictions Triage and Treatment (CATT) development costs.

Contingency increases and represents funds held in reserve for future appropriations.

### **Key Issues**

On December 31, 2019, the contract for Washington County to provide administrative management of the behavioral health benefit for Health Share of Oregon (HSO) was ended and this function transitioned to another organization. In early 2020, Washington County entered into an agreement with the new administrative manager of the behavioral health benefit. This new agreement transferred certain assets and liabilities to the new organization, CareOregon. As a result, funds are no longer needed to cover risk associated with claims incurred but not received.

This organization unit will now be utilized for Prevention, Treatment and Recovery and appropriations available will be invested in new behavioral health programs and infrastructure prioritized with community input that aligns with the original intent of these funds.

### **Total Budget**

**Programs**

1. **Tri-County Risk Reserve for HSO (207-708605)** This program assures that revenues received and not spent are set aside to support prevention, treatment and recovery in subsequent years, which includes the Center for Addictions Triage and Treatment (CATT) development.
2. **Prevention, Treatment and Recovery (207-708610)** This program assures that revenues received and not spent are set aside to support prevention, treatment and recovery in subsequent years, which includes the CATT development.

The Washington County Emergency Medical Services (EMS) program is responsible for oversight of ambulance and wheelchair car services in Washington County and a small border portion of Clackamas County, including ambulance and wheelchair ambulance inspections, support to the EMS Alliance and development of service standards.

**Budget Analysis**

Total Resources increase \$37,104 (4%). Total Requirements, excluding Contingency, decrease \$15,785 (1%). Contingency decreases \$145,286 (14%). Beginning fund balance decreases \$198,175 (15%).

Total Resources increase due primarily to increases in ambulance franchise fees.

Personnel Services increase due to the net effect of the addition of 1.00 full-time equivalent Epidemiologist, the transfer of 0.20 FTE Public Health Program Supervisor from the Public Health organization unit (this unit moved from the General Fund in FY 23-24 to special fund 189 for FY 2024-25) and increases for salaries, retirement costs, and health benefits.

Materials & Services costs decrease due primarily to reductions to supplies, while Interfund Expenditures increase. Contingency decreases and represents funds held in reserve for future appropriations.

**Key Issues**

Revenue is insufficient to support capacity related to systemwide data analyses, quality improvement initiatives, and growing community needs (e.g., trainings). Thus, the Emergency Medical Services program will work to identify additional revenue opportunities.

**Total Budget**

## Programs

1. **Emergency Medical Services (208-701005)** Manages the EMS Franchise agreement and provides oversight of ambulance services in Washington County including ambulance and wheelchair car inspections, support to the EMS Alliance and development of service standards.

The Office of Community Development manages the Community Development Block Grant (CDBG) program on behalf of the urban County and its ten city CDBG consortium members. The funds are used for the development of viable urban communities, decent housing, a suitable living environment, and expanding economic opportunities for persons with low to moderate incomes. All program activities must meet one of three national objectives: 1) benefit low to moderate income persons, 2) prevent or eliminate slum or blight, or 3) meet other urgent community development needs which pose a serious threat to the community's health or welfare. In addition to the CDBG program, the Office of Community Development also administers the Emergency Solutions Grant (ESG) Program which provides support (outreach, shelter operations, prevention and re-housing assistance) for homeless and at-risk households.

### ***Budget Analysis***

Total Resources decrease \$995,711 (20%). Total Requirements decrease \$591,952 (11%). Beginning fund balance increases \$403,759 (116%).

Total Resources decrease primarily due to the completion of several prior year public facility and infrastructure CDBG projects. Interfund revenues remain flat with some carryover of administrative funds from the Department of Housing Services for the Eviction Prevention program. General Fund transfers decrease due to last year's request including an additional amount of \$200,000 to allow the Office of Community Development to perform the five-year Consolidated Plan study required by Department of Housing and Urban Development (HUD). This results in no new additional General Fund transfer requests. Additionally, a 5% reduction to General Fund support in the amount of \$24,223 was implemented resulting in a decrease of funding for workforce development programs.

Personnel Services increase slightly due to expected expenditures related to work associated with the Consolidated Plan, but with no expected increase or decrease to staffing levels.

Materials and Services decrease slightly due to a reduction in anticipated professional services expenditures.

Project expenditures decrease due to the completion of several prior year public facility and infrastructure CDBG projects.

### ***Key Issues***

The Office of Community Development's mission is to support, directly and indirectly, people in vulnerable or marginalized communities and those with low incomes through services, facilities, affordable housing, and neighborhood revitalization projects. In addition to its primary community development activities, the Office of Community Development conducts the fair housing testing in rental properties, an action called out in our Analysis of Impediments to Fair Housing Choice. This year's budget includes \$63,277 in General Fund support for the fair housing testing program and to enhance economic opportunity for very low-income individuals. The Office of Community Development will also continue the five-year Consolidated Plan effort in coordination with the City of Hillsboro and the City of Beaverton.

Community Development Block Grant 164-9010

**Programs**

1. **Community Development - Administration & Development (164-901005)** Ensures compliance with federal programs and cross-cutting regulations; informs community members of funding cycle opportunities and ways to engage in assessing housing and community development needs and informing actions and priorities; provides technical assistance to potential sponsors; provides planning, program and activity design; and ensures accountability and control of HUD federal funding.
2. **Community Development – COVID-19 (164-901006)** Provides funds for critical services to those impacted by COVID-19 pandemic.
3. **Community Development - Project Administration (164-901010)** This program accounts for the expenditure of all CDBG project activities carried out by the department and sub recipients related to public services, infrastructure development, public facilities and affordable housing.
4. **Community Development - Housing (164-901015)** Provides for the project administration of rehabilitation of existing housing for low-to-moderate income residents. The components of this functional area include: deferred payments loans; low interest-bearing loans; and Home Access and Repair for the Disabled and Elderly (HARDE) grant program.
5. **Community Development - Emergency Solutions Grant (164-901025)** The ESG program provides homeless persons with basic shelter and essential supportive services. ESG also provides short-term homelessness prevention and rapid re-housing assistance to persons who are homeless or are at imminent risk of losing their housing due to eviction, foreclosure or utility shutoffs.
6. **Community Development – ESG – COVID-19 (164-901026)** This program expended all available funds during FY 2022-23. Provides homeless persons with basic shelter and essential supportive services related to COVID-19 pandemic. Services include street outreach, homeless prevention and rapid rehousing activities. Funds also support emergency shelter operations.
7. **Community Development - Hillsboro Housing Rehabilitation (164-901045)** The City of Hillsboro allocates a portion of its CDBG funds to Washington County Office of Community Development to manage the city's housing rehabilitation program. The funds are used for administration, project management and the hard costs of construction for approximately 16 households annually.
8. **Community Development - Eviction Prevention Assistance (164-901050)** The Eviction Prevention program is a partnership between Washington County Department of Housing Services and Office of Community Development. This is a program developed to assist households facing eviction and supplements the Emergency Rent Assistance program that is ending in 2023, using funds from Supportive Services Housing.

The Department of Housing Services (DHS) manages County and Housing Authority programs. Housing Authority programs are managed under the terms of an intergovernmental agreement between the County and the Authority.

### ***Budget Analysis***

Total Resources increase \$4,143,753 (12%). Total Requirements increase \$4,104,724 (12%). Beginning fund balance decreases \$39,029 (43%).

Intergovernmental Revenues comprises \$4,985,062 in federal funding the department receives from the US Department of Housing and Urban Development (HUD) to carry out the continuum of care and other homeless programs. In FY 2024-25, the department expects to receive an additional \$7,635,170 allocated from Senate Bill 5511, Senate Bill 5506 and the Long-Term Rental Assistance Grant. These State funds are earmarked to increase outreach efforts, shelter availability and to offer long-term rental assistance.

Miscellaneous Revenues are a transfer from other DHS programs to reimburse for personnel and indirect costs. These programs include Housing Authority programs, Fund 218 Department of Housing Services programs, Fund 219 Metro Affordable Housing Bond program, and Fund 221 Metro Supportive Housing Services program. This reflects available resource increases to provide housing related assistance to the community from all programs.

In terms of incoming operating transfers, the General Fund transfer was reduced due to it no longer being able to support the Community Housing Fund during FY 2024-25. The department will look for other alternatives to continue support for the Community Housing Fund. The Public Safety Local Option Levy (LOL) transfer increased to accommodate the increased costs of Sojourner's House and the liaison position (operation) for which the funding was earmarked. The Metro Supportive Housing Services (SHS) transfer amount also increased to cover programmatic and administrative costs for the Homeless Programs that were not covered by federal funding (U.S. Department of Housing and Urban Development) and other funding sources mentioned.

Personnel Services increase due to salaries, retirement costs, health benefits, and the addition of 9.40 FTE positions approved by the Board in FY 2023-24. For FY 2024-25, the department will add 3.00 FTE. Specifically, a Business Operations Program Specialist, a Senior Landlord Liaison Program Coordinator, and a Senior Program Implementation Coordinator. The department aims to increase the efficiency of processing service provider invoices by 30%, landlord recruitment by 15%, and case conferencing efficiency by 15%.

Materials and Services increase due primarily to increases in the County's Cost Allocation Plan (CAP) and the housing cost allocation plan. Additionally, the department budgets all personnel costs in two programs and then allocates those costs to other funds and programs in the department and the Housing Authority. This personnel cost reimbursement is increasing due to salary step increases and Cost of Living Adjustments (COLA).

The department is clarifying roles and improving staff efficiency. A Senior Program Coordinator is moving from the Office of Equity, Inclusion and Community Engagement (OEICE) to the Department of Housing Services (DHS) and a Program Coordinator is moving from DHS to OEICE to better align programmatic efforts. Both positions were previously funded by DHS and do not have a budgetary impact.

Other expenditures increase to reflect the increase in housing assistance payments and other Continuum of Care project costs, such as Sojourner's House, Hillsboro Graduated Independent Living, Transitional Living, Rapid Rehousing for Families, et cetera.

The transfers to other funds includes carrying forward the FY 2023-24 vehicle outfitting budget appropriation to FY 2024-25 as the work is not scheduled to be completed until July 2024.

**Key Issues**

The DHS envisions a Washington County where everyone has an affordable home with the supports and opportunities they need to thrive. DHS aims to continue providing equitable access to housing opportunities through affordable housing development, preservation, rent assistance, supportive services and solutions to homelessness. The department plans to expand operations by employing a Homeless Services Business Operations Program Specialist for improved invoice processing, Landlord Liaison Senior Program Coordinator for increased landlord recruitment and retention, and Case Conferencing Senior Program Coordinator to effectively monitor and manage enrollments.

## Programs

- Housing General Administration (218-651005)** Includes staff and operating costs associated with the administration of the Department's Continuum of Care and Homeless programs, and the Housing Authority's Low Rent Public Housing, Section 8 Program, Local Fund and Affordable Housing portfolio.
- Housing General Maintenance (218-651010)** Includes staff to maintain and the Housing Authority's Low Rent Public Housing, Section 8 Program, Local Fund and Affordable Housing portfolio.
- Continuum of Care-Shelter Plus Care (218-651025)** Includes Housing and Urban Development (HUD) funds to pay for seven Continuum of Care grants to local service providers to provide services to the homeless. Funds are provided to local providers fund housing assistance payments and other supportive services.
- Continuum of Care-Supportive Housing (218-651030)** Includes HUD funds for rental assistance administered by local providers of services. Funds support services, operating costs and other eligible expenses.
- Homeless Programs (218-651035)** Primarily funded by the General Fund to administer homeless programs aligned with the County's homeless services plan. The County invests in Mary Mac Transitional Housing, case management supports for individuals experiencing chronic homelessness, Renters Rights Hotline, and Rural Assistance in Transition from Homelessness Program. This program provides a match for HUD funded projects.
- Kaiser Metro 300 (RSHIF) (218-651045)** Closed
- OHCS EO 23 Homeless Program (218-651050)** The Governor's Executive Order (EO), House Bill 5019, appropriated \$7,994,011 of funding to Washington County for Shelter and Rehousing efforts in FY 2022-2023. Three more tranches of funding are being appropriated between FY 2023-24 and FY 2024-25 to sustain the 22-23 EO goals and households:
  - \$3,193,750 to sustain outreach and shelter strategies and operations;
  - \$3,529,249 in Long Term Rent Assistance; and
  - \$912,171 for Rapid Rehousing Assistance.

These programs are administered by Oregon Housing Community Services, which requires all eligible expenses and revenues received to be tracked separately.

- Kaiser Permanente Funded Programs (218-651061)** A two-year grant between Kaiser Permanente and DHS to support the Recuperative Care Pilot. Once the grant ends in FY 2024-2025, this program might retire or be used for other subsequent grants received from Kaiser Permanente.
- CareOregon Funded Programs (218-651062)** A two-year grant agreement between CareOregon, Inc. and DHS for the development of Permanent Supportive Housing (approximately 50 apartment homes) using Strategic Initiative Funds (SIF). Once the grant expires by the end of FY 2024-2025, this program may be deactivated or reused for any future grant agreements between CareOregon Inc. and Washington County.

This organization unit houses revenues and expenditures for the Metro Affordable Housing Bond Program, approved by Metro- area voters in November 2018. The bond will create affordable homes for seniors, veterans, people with disabilities, and working families. Total available funding over five to seven years for Washington County is anticipated to be \$119,864,517 which includes \$117,412,611 for project development activities and \$2,451,906 for program administration.

**Budget Analysis**

Total Resources decrease \$7,538,443 (29%). Total Requirements decrease \$7,466,611 (28%). Beginning fund balance increases \$71,832 (0%).

The County will recognize \$178,812 program administration revenue for fiscal year 2024-25, due to the program beginning to wind down, and anticipates disbursing \$11,515,000 project development funds to four projects approved by Metro.

Operating Transfers In remain the same amount as FY 2023-24 to offset the County's Cost Allocation Plan (CAP) impacts and for the insufficient administration fee provided by Metro.

Material and supplies include professional services for project development activities, \$230,962 staff payroll cost, \$117,775 Department of Housing Services' internal cost allocation and \$91,468 from CAP.

Development revenue and development expenditure both decrease by \$4,068,526, reflecting the development cost change in different stages of the multi-year project schedules. The County is budgeting \$6,760,000, in partnership with other departments and agencies, to fund a hotel that will be converted to affordable housing units. With this acquisition the County aims to increase the availability of low-income transitional housing by 50 units and permanent supportive housing by 24 units.

**Key Issues**

The Metro Affordable Housing Bond is focused on rapidly increasing the number of affordable housing units in the tri-county region. Washington County has continued to exceed the milestones set forth by the Local Implementation Strategy and our Unit Production Goals. The County is on track to build 339 homes for the extremely low income, 464 family homes and 136 permanent supportive housing. As the Metro Affordable Housing bond matures, the development process is winding down and Washington County is budgeting \$11,515,000 in development for FY 2024-25. Additionally, the department aims to partner with other agencies and funding sources to purchase a hotel for conversion to low-income affordable housing units.

## Programs

1. **General Housing Bond Program Administration (219-652005)** This program accounts for administrative costs associated with the implementation of the Metro Affordable Housing Bond Program, including development and administration, financial administration, and monitoring and oversight functions.
2. **Housing Bond Project Development (219-652010)** This program accounts for capital costs, including costs associated with acquisition, construction, improvement, remodeling, furnishing, equipping, maintenance or repair having an expected useful life of more than one year.

The Office of Community Development manages the HOME Investment Partnerships (HOME) Program on behalf of the County and its twelve city HOME consortium members. The funds are used for the development of affordable housing through rental housing new construction, acquisition and/or rehabilitation or homeownership.

### **Budget Analysis**

Total Resources increase \$644,823 (17%). Total Requirements increase \$644,823 (17%).

HOME Investment Partnerships Program intergovernmental revenues from HUD increase from the prior year as a result of expected funding beginning for projects awarded under the American Rescue Plan Act (HOME-ARP) program.

Personnel and Materials and Services costs remain relatively flat from the prior year with no expected increase or decrease in staffing. Project expenditures increase due to HOME-ARP projects beginning funded activities during FY 2024-25.

### **Key Issues**

Office of Community Development manages the HOME program on behalf of the County and its twelve city HOME consortium members. HOME funds are used throughout the County to finance the development of affordable housing including rental housing new construction, acquisition and/or rehabilitation or homeownership. In FY 2024-25 two large development projects will be funded although the projects will not start expending funds during this fiscal year. The office also manages additional HUD funds received for HOME-ARP activities.

**Programs**

1. **HOME Administration (220-902005)** Ensures compliance with the federal program and cross-cutting regulations; informs community members of funding cycle opportunities and ways to engage in assessing housing and community development needs and informs actions and priorities; provides technical assistance to potential sponsors; provides planning, program and activity design; and ensures accountability and control of Department of Housing and Urban Development (HUD) funding.
2. **HOME - COVID-19 (220-902006)** The American Rescue Plan (ARP) provides assistance to individuals or households who are homeless, at risk of homelessness, and other vulnerable populations, by providing housing, rental assistance, supportive services, and non-congregate shelter, to reduce homelessness and increase housing stability across the country. These grant funds will be administered through HUD's HOME Investment Partnerships Program (HOME). HOME-ARP funds can be used for four eligible activities: Production or Preservation of Affordable Housing, Tenant-Based Rental Assistance (TBRA), Supportive Services, Purchase and Development of Non-Congregate Shelter.
3. **HOME Project Administration (220-902010)** This program accounts for the expenditure of HOME development, predevelopment, and operating support to assist in the development of affordable home ownership and rental housing. The HOME program is essentially an affordable housing block grant program.

This organization unit houses revenues and expenditures for the Metro Supportive Housing Services Measure, approved by Metro-area voters in May 2020. This measure is to raise revenue for supportive housing services for people experiencing homelessness or at risk of experiencing homelessness. Community members and leaders from around the region developed the measure to provide the much-needed housing and wraparound services to effectively and permanently elevate people out of homelessness.

The program is funded through a one percent tax on all taxable income of more than \$125,000 for individuals and \$200,000 for joint filers and a one percent tax on profits from businesses with gross receipts of more than \$5 million. The new tax requirements begin in January 2021. The program will be funded through December 2030, unless reauthorized by the voters on or before that date.

### ***Budget Analysis***

Total Resources increase \$4,000,000 (4%). Total Requirements, excluding Contingency, increase \$24,619,024 (26%). Contingency decreases \$2,717,418 (2%). Beginning fund balance increases \$17,901,606 (16%).

The Metro Supportive Housing Services is projecting to collect \$345,235,953 for FY 2024-25, according to their November 8, 2023 projection. The total available funding amount for Washington County during the fourth fiscal year is projected to be \$115,078,651.

Material and supplies include professional services for program development activities, \$7,302,479 staff payroll cost, \$3,328,000 Department of Housing Services internal cost allocation plan, and \$856,545 County's Cost Allocation Plan (CAP), which is up from \$597,450 (44%) since FY 2023-24.

The growth in other expenditures reflects an increase in housing assistance payments and an increase in contract amounts with services providers. In particular, the additional \$19,910,342 in housing assistance payments is aimed to diversify assistance to include rental assistance only and shallow subsidy programs. With this added flexibility, the County expects to be able to provide rent assistance to 1,905 households in total. The County is also planning to increase housing case management services by \$8,066,819 and shelters by \$7,393,070 in an effort to provide 445 more households with case management and 216 additional households with permanent supportive housing.

The decrease in interfund expenditures can be attributed to matching the budget to FY 2023-24 actuals. The interfund expenditures include the funding of the Office of Equity, Inclusion and Community Engagement Advisory Bodies Coordinator, the Health & Human Services Program Coordinator, and the County Administrative Office Communications Coordinator positions. The purpose of these positions is to deepen partnerships with other County departments to support and promote housing efforts. These positions result in more equity-centric decision-making, increased resident and participant engagement, and position the County for the forthcoming Medicaid 1115 waiver to advance health and housing-focused opportunities at Permanent Supportive Housing sites.

Transfer to other funds also increases to reflect subsidies provided to the Continuum of Care Grant funded by U.S. Department of Housing and Urban Development (HUD).

**Key Issues**

FY 2024-25 represents year 4 of implementing the Supportive Housing and Services (SHS) measure, which combines deeper infrastructure investment in the homeless system of care with stabilizing operations of previous commitments in housing and shelter strategies. Those experiencing homelessness or are at-risk of homelessness will have expanded resources via four access or navigational centers, supportive housing, and another hotel to immediately address their housing and services needs throughout the county. The budget reflects the expansion of RLRA by \$19,910,342 to maintain housing for the 1000+ households currently housed and expand the capacity to serve 1,650 households annually. The department is also exploring to offer Shelter Only and Shallow Subsidy programs to service a wider variety of underserved population with varying levels of rental assistance needs. Additionally, the budget also expands funding for our 25 community-based service providing organizations by \$15,459,889, many of which provide culturally specific services throughout our community.

**Programs**

1. **Supportive Housing Services Administration (221-653005)** This program provides accounting and administrative support for managing the taxes and expenditure planning for this fund.
2. **SHS Permanent Supportive Services Program (221-653010)** This program provides Housing Case Management Services and other Permanent Supportive Housing Programs and all related staffing, and program expenditures.
3. **SHS Shelter and Access Services (221-653015)** This program provides Shelter programs, Outreach programs, Access Center programs and all related staffing, and program expenditures.
4. **SHS Long-Term Rental Assistance Program (221-653020)** This program provides Regional Long-term Rent Assistance (RLRA) and all related staffing, and program expenditures.
5. **SHS Short-Term Housing Assistance (221-653021)** This program provides Rapid Rehousing, Rapid Resolution, and Eviction Prevention programs, and all related staffing, and program expenditures.
6. **SHS Other Supportive Services (221-653024)** This program provides Housing Liaisons, Employment Supports, Benefit Supports, Landlord supports, and other wrap -around services programs and all related staffing and program expenditures.
7. **SHS System Infrastructure (221-653025)** This program provides service provider capacity building, technical assistance and organizational health, system management programs for data, training and coordination and all related staffing and program expenditures.
8. **SHS Built Infrastructure (221-653026)** This program provides funding for property purchases, capital improvement projects, infrastructure investments and other tangible building and facility enhancements. It covers all related staffing and program expenditures.
9. **SHS Regional Strategy Implementation (221-653030)** This program funds projects that will collectively benefit the three Metro counties (Clackamas, Multnomah and Washington). Metro guidelines regarding areas of expenditure per the May 10th 2023 approved Tri-County Planning Body Goals and Recommendations are: Coordinated Entry, Regional Landlord Recruitment, Healthcare System Alignment, Training (for Service Providers), Technical Assistance (for Service Providers) and Employee Recruitment and Retention (for Direct Service Staff).

The Office of Community Development manages the Wood Stove Exchange Program which provides grants and rebates to eligible households to replace older wood stoves that contribute to higher levels of air pollution. This program has operated in partnership with the Department of Health and Human Services relative to air quality in the region. The funds are used to support the reduction of wood smoke particulate matter and associated harmful pollutants and gases that enter the atmosphere. The funds also provide general public awareness and outreach regarding the health impacts of wood smoke particulate and education on cleaner burning methods.

**Budget Analysis**

Total Resources decrease \$107,758 (20%). Total Requirements decrease \$56,412 (9%). Beginning fund balance increases \$51,346 (82%).

The Wood Stove Exchange Program reflects a decrease in anticipated Total Resources due to beginning fund balance amounts being available to partially fund the administration of this program. The Office of Community Development utilizes Gain Share funds to support continuation of this program; Gain Share revenue decreases to \$151,785 from the amount received in FY 2023-24 of \$250,000 due to carryforward. Grant revenues from private and public support for project expenditures are anticipated to remain relatively consistent.

Personnel Services expenditures remain flat from the prior year with no expected increase or decrease in staffing.

Materials and Services expenditures decrease due to lower carryforward amounts expected in beginning fund balance amount. Project expenditures remain unchanged from prior year.

**Key Issues**

Gain Share support for the Wood Stove Exchange program ended in FY 2020-21, and the program was able to continue operating using prior year funds until FY 2023-24. The County provided an additional \$250,000 in Gain Share funds for FY 2023-24 to support continuation of this program into the future. This year the Office of Community Development will receive \$151,785 in Gain Share funds for FY 2024-25, a reduced amount of Gain Share funds to support the administration of this program and continues to seek support for project costs associated with wood stove exchanges.

## Programs

1. **Wood Smoke Reduction (244-903005)** Washington County residents who rely on an old or uncertified freestanding wood stove, or a wood stove insert as an essential heat source may be eligible to receive a rebate or full cost replacement grant (dependent on income) to replace the current system with a cleaner heating system. New device options include gas furnaces, electric heat pumps, and certified pellet or gas stoves. Households with income less than 80% of the area median family income are eligible for a new certified wood stove.

The County created the Housing Production Opportunity Fund (HPOF) in FY 2016-17 with General Fund resources. This fund was created to allow completion of multifamily affordable housing projects that experience gaps in funding due to unforeseen circumstances such as construction cost increases, changes to tax credit financing, loss of other sources of funding, etc. In FY 2019-20 the Board approved adding \$20 million dollars over five years to further these goals and expanded policy guidelines to provide assistance for affordable multifamily housing assistance, a homeownership program and innovative special needs housing programs.

**Budget Analysis**

Total Resources increase \$1,125,000 (0%). Total Requirements increase \$539,264 (16%). Beginning fund balance decreases \$585,736 (17%).

Carryforward amounts from prior fiscal years were used from the beginning fund balance to fund both administrative and project elements of this program, and the Office of Community Development was able to continue without \$4 million additional funds scheduled for the past two years. There are two remaining years of funding committed by the Board of Commissioners for a total of \$8 million. FY 2024-25 will represent the fourth of five years funding, with the program being extended for two years, so the original commitment of \$20 million General Fund dollars from the Board of Commissioners is honored. This year the Office of Community Development will request a reduced amount of the \$4 million commitment in the amount of \$1.125 million from the Strategic Investment Program (SIP) to support administrative requirements and planned new homeownership activities.

**Key Issues**

The HPOF was formally approved by the Board on February 2, 2021. Three affordable housing programs are eligible for funding through HPOF: Rental Housing, Homeownership and Special Needs projects. A total commitment of \$20 million in strategic investment was made for a five-year period. The program operated with carryforward funds from program start up for FY 2022-23 and FY 2023-24 and is now requesting an additional \$1.125 million from the SIP in the FY 2024-25 budget cycle. The commitment from the Board may need to be reconsidered in light of County budget constraints.

*This page intentionally left blank*

**Parks**

*How does this budget scenario advance the County's equity and inclusion priorities?*

The 5% General Fund reduction would postpone a planned \$246,819 transfer from General Fund contingency as well as adjusting three seasonal positions from 0.60 to 0.44 FTE. These reductions may decrease the quality of the public's recreation experience, but the impacts should not disproportionately affect any minority group.

*How does this budget scenario negatively or positively impact our goals of (a.) Civil Rights Act compliance and language access and/or (b.) recruitment and retention of bilingual and BIPOC staff?*

This proposed budget will not impact our goal of Civil Rights Act compliance, language access, and/or recruitment and retention of bilingual and BIPOC staff.

*How does this budget scenario provide mitigations for any negative impacts?*

This reduced General Fund budget is not projected to have negative impacts on existing efforts toward equity priorities.

*Do you foresee any unintended consequences and potential ways to mitigate?*

Staff does not foresee any unintended consequences from this reduced budget.

**Extension Services**

*How does this budget scenario advance the County's equity and inclusion priorities?*

The 5% General Fund reduction scenario would cut \$20,621 in General Fund transfer to OSU Extension Services, which may prompt a personnel restructuring. This reduction would still advance the County's commitment to equity and inclusion because of its modest size relative to the \$414,425 base budget. Although contracted Extension Services would experience an impact, core programming to support youth, families with low incomes and rural residents would continue.

*How does this budget scenario negatively or positively impact our goals of (a.) Civil Rights Act compliance and language access and/or (b.) recruitment and retention of bilingual and BIPOC staff?*

The modest General Fund reduction to this contract would negatively impact the County's equity goals because it would mean a reduction in services directly to Washington County residents whom the County prioritizes for increased access, including rural residents, families with low incomes and youth.

*How does this budget scenario provide mitigations for any negative impacts?*

This reduced budget scenario would mitigate potential negative impacts to staffing and access because the total reduced amount is not enough to reduce even one position or a line of service. Instead, Extension Services would have to make minor cuts across program areas.

*Do you foresee any unintended consequences and potential ways to mitigate?*

A potential unintended consequence of this reduction scenario would be a loss of prioritized services to specific populations. Reductions in funding to materials and supplies may mean less funding for specific outreach and marketing to rural residents, young people and families with low incomes. As a result of this lessened outreach, those community members served by Extension Services may become less diverse.

**Cooperative Library Services**

*How does this budget scenario advance the County's equity and inclusion priorities?*

This proposed budget would advance the County's equity and inclusion priorities by continuing Washington County Cooperative Library Services' investments in language access, community engagement, digital equity and library open hours.

Language access would expand by continuing to fund interpretation and translation services for all partner agencies WCCLS contracts with for library service. Staff would continue to grow digital collections in multiple languages spoken by county residents, and staff plan to continue Title VI compliance work by expanding it to the online fee payment interface and adding languages to the online catalog interface.

As WCCLS fills community engagement positions, the team is positioned to begin working on a countywide community engagement and outreach strategy, developing strategic partnerships with culturally specific organizations and listening and learning from these community-based organizations to increase the cultural relevance of library services. In addition, WCCLS is budgeting to provide equity training for partner libraries, to support their work in reducing barriers to access and increasing cultural relevance of services and collections.

WCCLS continues to advance digital equity in Washington County by supporting 16 library locations with broadband access and Wi-Fi. In FY 2024-25, staff are requesting funds to upgrade wireless access points across all library buildings, ensuring the infrastructure in libraries is sufficient to meet community needs. In addition, staff are requesting funds to redesign and diversify broadband infrastructure that supports the library cooperative, investing in secure and scalable systems to meet community needs now and into the future. Library funding allocations allow libraries to keep open hours and suitable staffing in their buildings for supporting the public's use of these resources at current levels.

*How does this budget scenario negatively or positively impact our goals of (a.) Civil Rights Act compliance and language access and/or (b.) recruitment and retention of bilingual and BIPOC staff?*

This proposed budget would continue the investments in language access from FY 2023-24 and expand on them by adding funding to offer online fee payment service in multiple languages and adding additional languages to our online catalog interface.

This proposed budget would add a bilingual required Program Specialist position in the Partnerships Team. This position would increase the number of bilingual staff in the department and improve the ability to provide culturally relevant services to the community, support libraries in growing Spanish-language collections and expand the languages represented in digital collections. Staff can add this position, without any additional cost, by eliminating a vacant full-time position that does not meet current business needs.

*How does this budget scenario provide mitigations for any negative impacts?*

This proposed budget does not have any negative impacts that require mitigation.

*Do you foresee any unintended consequences and potential ways to mitigate?*

The primary unintended consequence of this proposed budget would be that the library funding allocations to partner agencies are not keeping up with the costs of providing service. Public library buildings serve as spaces for lifelong learning, internet access, community gathering spaces, workspaces for students and remote workers and safe places that provide a respite from weather conditions for unhoused residents of the county. Libraries are increasingly asked to play a broader role in the services they offer and in the way their spaces are used. The lack of sufficient addiction treatment and behavioral health support in our communities is evident in the situations that library staff must address on a frequent basis, including overdoses, mental health crises and public safety issues. The mission of libraries has expanded due to a

lack of other social services available. A modest increase in library operational funding is not sufficient to support the needs for staffing like safety officers, social workers, alternate furniture and space modifications, etc., while also maintaining regular library service levels for the community.

The proposed budget would allocate resources to support the Funding and Governance Evaluation Process, a Board-supported process to evaluate the current governance and funding mechanisms for library service in Washington County, determine baseline service priorities, service levels and costs and identify sustainable funding mechanisms, including an equitable method for distributing operating funding among partner agencies. While not an immediate solution, this process will help libraries in Washington County continue to sustainably meet the wide variety of community needs they encounter every day.

### **West Slope Library**

*How does this budget scenario advance the County's equity and inclusion priorities?*

This proposed budget would advance the County's equity and inclusion priorities by supporting the continuation of library service in the West Slope/Raleigh Hills community and advances the Board of County Commissioners' FY 2024-25 budget principle of using Washington County funds for countywide services. The 5% General Fund reduction scenario in this proposed budget would eliminate a vacant Librarian II position to offset a \$49,416 transfer from WCCLS. Eliminating the position would save a total of \$142,286. Finding savings in the personnel budget would be a more sustainable approach than making significant reductions in the materials and supplies budget, although eliminating this position creates more savings than the 5% reduction in revenues requires.

This proposed budget also addresses the Board's budget principle of using Washington County funds for countywide services, in that WCCLS is exploring an alternate model for the operation of the West Slope Library in FY 2023-24, and in FY 2024-25 will be implementing the transition to a new operating model, pending approval of the Board of County Commissioners. The transition will be completed by June 30, 2025. In this context, the Garden Home Community Library Association (GHCLA), the nonprofit agency that operates the Garden Home Community Library (GHCL), has expressed interest in taking on the operation of the West Slope Library and incorporating it into their nonprofit agency. WCCLS staff are working with Garden Home to explore the option of offboarding West Slope Library from the County and transitioning the library to being operated by the GHCLA by June 30, 2025.

*How does this budget scenario negatively or positively impact our goals of (a.) Civil Rights Act compliance and language access and/or (b.) recruitment and retention of bilingual and BIPOC staff?*

This proposed budget would not impact Civil Rights Act compliance and language access as these core services are provided to West Slope Library by Washington County Cooperative Library Services (WCCLS). The 5% General Fund reduction would negatively impact the recruitment and retention of bilingual and BIPOC staff in that it would reduce the number of positions available to recruit bilingual and BIPOC staff.

*How does this budget scenario provide mitigations for any negative impacts?*

The reduced, proposed budget would not have any short-term mitigation for these negative impacts to the recruitment and retention of staff. The operational model evaluation and assessment work would include an analysis of staffing structure, which could include new opportunities when the library is operated by a nonprofit agency.

*Do you foresee any unintended consequences and potential ways to mitigate?*

Staff do not foresee any unintended consequences of this reduced budget.

**County Fair Complex/Westside Commons**

*How does this budget scenario advance the County's equity and inclusion priorities?*

The proposed budget would advance the County's equity and inclusion priorities by continuing to support Westside Commons and the Wingspan Events and Conference Center serving as an important community resource offering low-cost rentable space, shelter space for those experiencing homelessness and as a no cost sheltering during disasters and extreme weather. The Fair Board continues to advance equitable access to the County Fair by allowing all members of the community to attend for free.

*How does this budget scenario negatively or positively impact our goals of (a.) Civil Rights Act compliance and language access and/or (b.) recruitment and retention of bilingual and BIPOC staff?*

This proposed budget would positively impact the County's goal of Civil Rights Act compliance, language access, and/or recruitment and retention of bilingual and BIPOC staff by 1) maintaining the investments in language translation and language diversity in advertising and entertainment for the County Fair and 2) maintaining the language translation investments for Westside Commons. Recruitment and retention of Westside Commons employees identifying as BIPOC has increased from 55% to 57%.

*How does this budget scenario provide mitigations for any negative impacts?*

This proposed budget does not anticipate any negative impacts.

*Do you foresee any unintended consequences and potential ways to mitigate?*

Staff does not foresee any unintended consequences of this proposed budget.

\*Effective FY 2024-25, General Fund organization unit "General Parks" 100-3560 is moved to this new enterprise fund.

This organization unit is responsible for the operation, maintenance and development of Washington County Parks.

**Budget Analysis**

Total Resources increase \$2,716,142 (0%). Total Requirements increase \$2,716,142 (0%).

Effective FY 2024-25, the Parks Division moves from the General Fund to its own enterprise fund.

Increases to Personnel Services expenditures are due to rising costs in salaries, retirement costs, and health benefits and are offset by the partial allocation of six positions (0.75 FTE) to Metzger Park (fund 162). Without no additional staff or new resources, Parks will continue to focus on providing safe, enjoyable public recreation spaces with the resources available.

Parks is reducing General Fund support in the amount of \$29,682 by adjusting FTE to three seasonal recreation positions. As a new enterprise fund, Parks will operate without a contingency, due to the deferral of a General Fund transfer.

**Key Issues**

Parks revenues are funded primarily by sales of parking passes, facility rentals, permit fees, state revenue share of Recreation Vehicle license fees, and a matching grant from the Bureau of Reclamation. These sources of income, including the annual number of licenses purchased for recreational vehicles, are perpetually unstable due to external forces such as weather and the economy. Without a beginning fund balance due to the conversion to an enterprise fund, Parks may operate in a deficit at the beginning of FY 2024-25 until revenues stabilize.

**Total Budget**

**Programs**

1. **General Parks (100-356005)** \*Effective FY 2024-25 this program's new number is 433-356005.

Metzger Park is a well-used, seven-acre park in urbanized, unincorporated Washington County near Washington Square Mall. Amenities include play structures, sports courts, open lawn, natural areas and the Patricia D. Whiting Metzger Park Hall. The Metzger Park Local Improvement District Fund is managed by Washington County Parks.

**Budget Analysis**

Total Resources increase \$63,072 (23%). Total Requirements, excluding Contingency, increase \$14,357 (5%). Contingency increases \$133,810 (87%). Beginning fund balance increases \$85,095 (45%).

The Board of County Commissioners approved the MPLID maximum assessment increase for FY 2024-25. The increased annual assessment and corresponding decrease in Materials & Services expenditures offsets the increasing cost of goods, services, labor, and administrative costs, while maintaining service level delivery fully independent of the General Fund.

**Programs**

1. **Metzger Park (162-356010)** Program funding consists of the Metzger Park Local Improvement District (MPLID) assessment applied to properties within the MPLID boundary, hall rental income, and interest. The fund is the repository for assessment revenue that provides for operations and maintenance, capital replacement, and capital improvements for Metzger Park.

This organization unit provides for Washington County funding contributions from the General Fund to Oregon State University (OSU) Extension Service and Washington County Extension Service. These resources support multiple community programs including Agriculture, Family and Community Development (Home Economics), Forestry Wood Products, and 4-H Youth Development.

**Budget Analysis**

Total Requirements decrease \$21,993 (4%). General Fund subsidy decreases \$21,993 (4%).

Materials & Services expenditures decrease due to a decreased Cost Allocation Plan (CAP) expense allocation. A 5% reduction to General Fund support in the amount of \$20,621 was implemented decreasing the funding for OSU Extension Service.

**Total Budget**

**Programs**

1. **Agricultural Extension (100-951005)** OSU Extension Service delivers research-based objective information to help Oregonians solve problems, develop leadership and manage resources wisely.

Washington County Cooperative Library Services (WCCLS) is a partnership between Washington County, nine cities, and three non-profit associations to deliver countywide public library service. WCCLS has five primary roles: 1) distributing the primary operational funding for countywide public library service; 2) providing the technology and logistics support to ensure equitable access to library materials and services across the county; 3) providing services to the public that are more effectively delivered at a county level; 4) marketing and communications to encourage usage of libraries and WCCLS; and 5) identifying common goals across the Cooperative and providing training resources to ensure a consistently exceptional patron experience. WCCLS is funded by a transfer from the General Fund and a Library Local Option Levy (LOL).

### ***Budget Analysis***

Total Resources increase \$1,185,946 (3%). Total Requirements, excluding Contingency, increase \$1,367,760 (3%). Contingency decreases \$181,814 (1%).

Operating expenses do not exceed projected revenues.

The Library Local Option Levy (LOL) tax revenue increases due to projected increases in assessed value.

Miscellaneous revenues increase due to an anticipated increase in donations and collection of online fee payments for lost library materials.

The WCCLS Operating Transfer from the General Fund revenue reflects a \$588,126 reduction from FY 2023-24. This reduction resulted from a projected increase of 4.70% (\$1,051,422) in General Fund transfer (based on projected Assessed Value increase) and a Budget Decision Package (BDP) reducing the General Fund transfer by 7% (\$1,639,548).

Personnel Services expenditures increase due primarily to increases in salaries, retirement costs, and health benefits. Position adjustments include the elimination of four vacant part-time or temporary positions and one vacant full-time Library Program Supervisor position, and also adding one full-time Bilingual Program Specialist position for culturally relevant outreach and community engagement. The net change to total FTE is a reduction from 37.00 FTE to 36.80 FTE.

Materials and Services expenditures increase due to increases in contracts and Information Technology Services Department costs. Books, including digital collections, subscriptions, publications, and postage increase. Partner agencies (cities and nonprofits) that operate libraries receive an operational increase of 2%.

The funding transfer for West Slope Community Library operations (fund 185) has been reduced by 5% .

Capital Outlay is budgeted for required firewalls for an internet redesign project and a required network switching equipment upgrade.

The fund balance target is a minimum of three months of total annual expenditures as noted in the Public Library Network, Services, and Funding intergovernmental agreement. The fund balance will be strategically deployed through the levy cycle ending FY 2025-26 for libraries to maintain current service levels and to support patron demand for digital collections and other services.

### ***Key Issues***

Washington County Cooperative Library Services (WCCLS) is a partnership between the County, nine cities and three nonprofit organizations. The majority of public library operating funds come from the County General Fund, but a significant percentage (44%) comes from a five-year LOL approved for renewal by the voters in May of 2020 at a rate of \$0.22 per \$1,000 of assessed value. The FY 2024-25 budget reflects the fourth year of the renewed levy which ends June 2026.

# Cooperative Library Services 184-9710

# Budget Detail

WCCLS is leading a structured process with our partner agencies in preparation for the next levy cycle (FY 2026-27 to FY 2030-31). This strategic process includes evaluating library service levels, performing data analysis, including community indicators, and assessing which library service delivery methods best meet community needs in Washington County. The Cooperative will evaluate governance structures to support those needs, explore sustainable funding mechanisms, and agree upon equitable funding distribution models.

The process will support the collective exploration of important policy questions, including the role of the County, cities, and nonprofits in public library service delivery, how WCCLS can distribute funding to partner agencies to create more equitable outcomes for our community, and how WCCLS supports accountability for the effective use of taxpayer funds supporting our public library system. This collaborative effort with our partners will chart our path to long-term sustainability for our public library system, and staff look forward to bringing these important policy questions to the Board of County Commissioners in FY 2024-25 and in the coming years.

**Programs**

- Administration (184-971005)** Administers WCCLS programs and West Slope Community Library (fund 185). Distributes operational funding to public libraries. Convenes the WCCLS Executive Board and WCCLS Policy Group membership to coordinate countywide services. Strategic leadership and data analysis to support cooperative-wide initiatives.
- Countywide Collections (184-971010)** Program ended 6/30/2023 due to WCCLS reorganization.
- West Slope (184-971015)** (Program is closed)
- ILS & Technical Services (184-971020)** Program ended 6/30/2023 due to WCCLS reorganization.
- Partnerships (184-971025)** Develops strategic library and community initiatives to increase library participation by underserved populations. Develops and maintains partnerships with community organizations focused on the underserved. Works with member libraries to facilitate collaboration on shared initiatives.
- Operations (184-971030)** Provides business operations for the whole department. Manages countywide digital library collection and online learning resources. Coordinates interlibrary loan (out of county) borrowing for member libraries. Provides mail delivery of library materials to people who are housebound or who live in care facilities. Provides funds to purchase materials for the County Jail Library. Administers the Integrated Library System (ILS) and provides cataloging support for member libraries, ensuring data integrity, and acquisition support. Provides supplies such as physical library cards, barcodes, and RFID tags to libraries. Manages the public catalog interfaces. Provides seven day per week sorting and delivery of materials between libraries, manages central storage of materials for member libraries, and maintains for Orbis courier service for ground delivery between libraries in Oregon and Washington. Manages contracts for reciprocal borrowing with library systems in the Portland metropolitan area.
- Marketing & Communications (184-971035)** Develops countywide public information initiatives to improve awareness of countywide library services. Promotes digital engagement with library services through email newsletters and social media. Does marketing to increase the number of library cardholders. Coordinates communications activities with member libraries. Develops strategic partnerships with community organizations. Funds translation services for member libraries' communications collateral into other languages.

8. **Information Technology** (184-971040) Provides countywide internet access for the public in member libraries, time and print management for public internet stations, security and other key network infrastructure, and support. Provides database administration for the integrated library system and data analysis. Manages the public-facing portal to countywide resources at wcls.org and internal web infrastructure to connect the Cooperative. Provides regular and emergency network support for libraries. Manages Information Technology (IT) hardware, software, and support for all WCCLS programs and West Slope Community Library.

The West Slope Library (WSL), located in the unincorporated Raleigh Hills/West Slope area of Washington County, has been operated directly by Washington County Cooperative Library Services (WCCLS) since 1978. Other public libraries in urban unincorporated areas of Washington County are operated by nonprofit agencies which receive a large portion of their funding from WCCLS to support their operations. Public libraries located in municipalities in Washington County are operated by their respective city, which also receive funding from WCCLS to support their operations in addition to city budget resources.

WCCLS is exploring an alternate model for the operation of the West Slope Library in FY23-24, and in FY24-25 will be implementing the transition to a new operating model, pending approval of the Board of County Commissioners. The transition will be completed by June 30, 2025. In this context, the Garden Home Community Library Association (GHCLA), the nonprofit agency that operates the Garden Home Community Library (GHCL), has expressed interest in taking on the operation of the West Slope Library and incorporating it into their nonprofit agency. WCCLS staff are working with Garden Home to explore the option of offboarding West Slope Library from the County and transitioning the library to being operated by the GHCLA by June 30, 2025.

**Budget Analysis**

Total Resources decrease \$49,446 (5%). Total Requirements, excluding Contingency, increase \$23,367 (2%). Contingency decreases \$72,813 (11%).

Intergovernmental revenues decrease. Ready to Read grant funds are anticipated to be reduced from the State Library of Oregon. No change in Miscellaneous revenues. Reduction in operating transfers-in from Cooperative Library Services (fund 184) by 5%.

Personnel Services costs decrease due to the elimination of a vacant 1.00 FTE Librarian II position, resulting in a reduced FTE total of 8.00 FTE.

Materials and Services expenditures increase due to a one-time \$140,000 investment in consulting work to support transitioning West Slope Library from a County-operated facility to one operated by the Garden Home Community Library Association, a partner nonprofit agency already operating one public library.

**Key Issues**

An RFP was issued to select a consultant to plan and execute the transition plan for the WSL, pending the Washington County Board of Commissioners' approval. In addition, the WSL is contracting with the Garden Home Community Library Association for subject-matter-expert staff support for the transition project. These expenses are funded by using an equivalent amount from this fund's Contingency.

## Programs

1. **West Slope (185-971015)** West Slope Library provides service for residents in the West Slope/Raleigh Hills area, including library collections, customer service, wifi and computers, story times, and a volunteer program.

# Transient Lodging Tax 240-1655

# Budget Detail

This fund accounts for the Transient Lodging Tax (TLT) which is a tax collected from daily or weekly lodging guests renting at hotels, motels, and other lodgings establishments. This tax was created in 1972. Effective July 1, 2006 the tax rate within Washington County increased to 9%. Of the total tax collected, 5% is returned to the lodging operators, on-line travel companies and, Airbnb as a service fee for collection expenses.

The balance of the tax is distributed as follows: 26% to the Washington County Visitors Association, 28% to the Washington County General Fund, 11% to the Washington County Fair Complex, 7% to the Event Center and 28% is split amongst the cities within Washington County.

This organization unit houses those revenues generated by lodging tax that is tourism-dedicated (33% of total). The following programs reflect the County's expanded role in facilitating tourism development:

### Budget Analysis

Total Resources increase \$2,194,426 (14%). Total Requirements increase \$2,194,426 (14%).

Effective FY 2024-25 all revenue related to the Transient Lodging Tax (TLT) will be moved out of the General Fund (fund 100) and reside in this fund, allocated based on ordinance.

Total Resources are returning back to pre-pandemic levels as travel restrictions have been reduced.

**Programs**

1. **Targeted Tourism Development (240-165505)** This Program houses revenues from the two-ninths lodging tax increment approved by voters in 2006. These funds must be used consistent with the definitions of "tourism facilities" and "tourism promotion" as put forth in state law.
2. **Flexible Tourism Development (240-165510)** This program houses revenues from the one-ninth lodging tax increment approved by voters in 1985. The County or its agents retain broad discretion to determine the specific uses for these funds.
3. **Administration Dedicated Lodging Tax (240-165515)** This program will house the remaining revenues related to the Transient Lodging Tax (TLT) which was previously in the General Fund (Fund 100).

Westside Commons (formerly the Fair Complex and Fairgrounds), home of the Wingspan Event & Conference Center (WECC) and the annual Washington County Fair, is a multi-use campus that is dedicated to serving the entire community by hosting and producing national-class events on a local scale.

### ***Budget Analysis***

Total Resources increase \$1,708,715 (47%). Total Requirements, excluding Contingency, increase \$1,208,284 (30%). Contingency increases \$143,050 (5%). Beginning fund balance decreases \$357,381 (11%).

Effective this fiscal year, the Westside Commons/Event Center fund (435) which includes the WECC budget has been incorporated back into this fund. Total Resources for the combined department increase by 7%.

11% of the Transient Lodging Tax (TLT) is directed to the Fair and Fairgrounds by ordinance. 65% of the collected TLT received is allocated to Fairgrounds operations, and 35% is allocated to the annual County Fair. TLT is estimated to increase by 10%. Other revenue for the department is generated through a variety of fees collected and estimated to decrease over prior year budget by 7%.

Total requirements for the combined department (including the newly assimilated Westside Commons fund 435) decrease by 23% due to continued reduction of spending to preserve the fund balance.

Total Personnel Services expenditures increase mainly due to Cost Of Living Adjustments (COLA), as well as increases in salaries, retirement costs, and health benefits. Personnel Services costs for Westside Commons are shared between three of Fund 200's programs; Fairgrounds Operations (981005), Annual County Fair (981010), and the WECC (981035). The shared percentage split between programs have been re-allocated to more accurately reflect the time each program utilizes. No change to total FTEs.

#### **FAIRGROUND OPERATIONS**

The Fairgrounds budget maintains resources at existing levels to continue to serve as an important community resource offering low-cost rentable space, shelter space for the houseless, and sheltering for people, pets, and livestock in times of extreme weather and disasters. Revenue increases are due to additional outdoor events and the Housing Department's use of the Cloverleaf for Houseless shelter for additional time. Personnel Services expenses decrease 33% for this program due to the reallocation of existing FTEs to accurately reflect the amount of time each person is working for Wingspan.

#### **ANNUAL COUNTY FAIR**

The Fair Board budget maintains funding at existing levels to fulfill their strategic plan objectives of community and partnership building, ensuring health and safety, and providing relevant programming. Serving over 150,000 community members annually, the Fair Board budget continues to equitably serve the community by offering free admission, free diverse entertainment, affordable space for local businesses to interact and sell their products and services to the community, and funding for 4-H & Future Farmers of America to facilitate these important youth development programs a place and time to showcase their livestock and education projects. Revenues increase due to expanded partner participation and increased commissions. Total expenditures for this program increase 12% due to higher costs in Materials and Services.

#### **FAIR COMPLEX CAPITAL IMPROVEMENTS**

No capital projects are planned for FY 2024-25. \$100,000 is budgeted in this program for unforeseen facility emergencies.

WINGSPAN EVENT& CONFERENCE CENTER (WECC)

This program's revenues are budgeted lower over the prior-year budget that was based upon the pre-COVID business plan's forecasts for the second year of operations. Program revenues are generated from facility use agreement fees, parking fees, food & beverage commission, and equipment rental fees. Requirements for the WECC continue to outpace resources. Personnel Services expenditures increase 38% after reallocating existing FTEs to more accurately reflect the amount of time each person is working for Wingspan.

The department continue to seek out and book events that generate higher levels of revenue, while also pursuing options to reduce spending without negatively impacting the rental program or client experiences. Implementing operational efficiencies and alternatives identified in Wingspan's Business & Operation Review are underway.

**Key Issues**

The findings from the recent WECC business and operations review identified several key areas for improvement in financial and operational sustainability. Implementing funding mechanisms that supplement operations including sales and marketing, that also fund future capital improvements remains critical.

The updated Fairgrounds Master Plan, completed and approved by the Washington County Board of Commissioners in 2019, envisions a regional event destination complementing the new WECC and the annual County Fair. Funding/financing has not yet been identified to complete any part of the three-phase project.

**Programs**

1. **Fairgrounds Operations (200-981005)** This program accounts for all activities associated with operation of the Fairgrounds portion of Westside Commons.
2. **Annual County Fair (200-981010)** This program accounts for all the activities associated with the annual County Fair that are planned, prepared, and produced by staff under fiscal and operational oversight from the Fair Board per Oregon Revised Statue 565 and the Fair and Fairgrounds Agreement between the Fair Board and the Washington County Board of Commissioners.
3. **Fair Complex Capital Improvements (200-981030)** This program accounts for Capital Improvements, Maintenance Plan projects, and other major facilities needs for the Fairgrounds portions of Westside Commons.
4. **Wingspan Event Center (200-981035)** This program accounts for all operations, activities and events held at the Wingspan Event and Conference Center

# Event Center Operations 435-9840

# Budget Detail

\*Closed this fund and moved Wingspan Event and Conference Center (WECC) budget back to the Westside Commons/Fair Complex budget (fund 200).

The WECC is located on the nearly 100-acre property known as Westside Commons (formerly the Fair Complex and Fairgrounds) owned by Washington County. The WECC hosts a variety of events, meetings, conferences, sporting events, trade and consumer shows throughout the year. The County oversees the management, maintenance, and marketing of Westside Commons including the WECC. During the period of the annual County Fair, the WECC is used by the Fair Board, at no cost, per the operating agreement between the Washington County Board of Commissioners and the Fair Board and Oregon Revised Statue 565.

## Budget Analysis

Total Resources decrease \$1,355,000 (100%). Total Requirements, excluding Contingency, decrease \$1,263,759 (75%). Contingency decreases \$1,428,409 (100%). Beginning fund balance decreases \$1,337,168 (76%).

# General Fund Contingency 100-1630

# Budget Detail

The beginning fund balances from the General Fund (100) and Revenue Stabilization Fund (105) become the General Fund reserve, a critical and core element of the County's financial planning and fiscal stability. The reserve serves many purposes including contributing to the preservation of the County's bond rating, meeting cash-flow requirements, accommodating cyclical variations in revenues, providing for unanticipated, intermittent or future planned expenditures, and minimizing the need to rely on General Fund local operating levies for the long-term sustainability of programs and services.

## Budget Analysis

Total Requirements increase \$5,986,970 (19%). General Fund subsidy increases \$5,986,970 (19%).

The Board of Commissioner's goal is to maintain the General Fund's fund balance at a minimum of 15% of net revenues with a goal of 20%, which is slightly higher than the recommended contingency of four months of the projected current property taxes. These funds are held to assist with operating expenditures in future years to provide stability in funding government services.

## Programs

1. **Contingency (100-163005)** Provides separate accounting for contingency funds that are available to other County General Fund organization units.

This organization accounts for County funds contributed as it partners with various organizations to address community needs.

**Budget Analysis**

Total Requirements decrease \$438,690 (91%). General Fund subsidy decreases \$438,690 (91%).

Total requirements decrease due to moving transfers to the Regional Arts and Culture Council, Tualatin Valley Creates, and Young Audiences to the Lottery Fund. Vison Action Network is dissolving as a non-profit, so those funds are no longer needed either. As part of the multi-year reduction of support for non-profits funded by the County, funding for Community Partners for Affordable Housing, the Community Housing Fund, and United Way of Columbia Willamette have been removed. These organizations continue to receive support from other County departments to meet programmatic needs.

**Key Issues**

This budget continues support for the United Way's 211 information program. This year's funding is \$37,904 and accounts for the majority of total requirements. The remaining expenses are the County's Cost Allocation Plan charges.

**Total Budget**

**Facilities/Technology****2016 Full Faith and Credit Facilities Capital Projects; Facilities Capital Projects; Parks & Open Spaces Opportunity Fund; Emergency Communications System; Event Center**

*How does this budget scenario advance the County's equity and inclusion priorities?*

The 5% General Fund reduction scenario for this proposed budget would permanently reduce the annual General Fund transfer by \$86,500, further limiting allocations toward non-essential department requests and reducing the number of projects. The reduced proposed budget would commit the County to meeting only bare minimum standards related to Americans with Disabilities Act and related building code requirements in existing and new construction. Corrections would be made only as needed with no room for proactive or strategic efforts.

*How does this budget scenario negatively or positively impact our goals of (a.) Civil Rights Act compliance and language access and/or (b.) recruitment and retention of bilingual and BIPOC staff?*

Under this 5% proposed budget reduction, the quality of Civil Rights Act notices would be reduced to meet minimum compliance levels.

*How does this budget scenario provide mitigations for any negative impacts?*

The reduced, proposed budget would not allow the department to negate impacts to physical access and information signage.

*Do you foresee any unintended consequences and potential ways to mitigate?*

The reduced budget would result in deterioration of the built environment and prohibit improvements of any kind, including those intended to increase accessibility or employee retention.

**Facilities Park System Development Charge**

*How does this budget scenario advance the County's equity and inclusion priorities?*

This proposed budget would advance the County's equity and inclusion priorities by providing access to translation and interpretation services as needed. The program may also support park and open space land acquisition in areas that are historically underserved.

*How does this budget scenario negatively or positively impact our goals of (a.) Civil Rights Act compliance and language access and/or (b.) recruitment and retention of bilingual and BIPOC staff?*

This proposed budget would positively impact the County's goal of Civil Rights Act compliance and language access by providing resources for translation and language access services as needed.

*How does this budget scenario provide mitigations for any negative impacts?*

There are no known negative equity and inclusion impacts to mitigate.

*Do you foresee any unintended consequences and potential ways to mitigate?*

Staff does not foresee any unintended equity and inclusion consequences of this proposed budget.

### Information Technology Services Capital Projects

*How does this budget scenario advance the County's equity and inclusion priorities?*

For the current fiscal year (FY 2023-23), Washington County made a 7% cut for Information Technology Services, a \$1 million reduction across Capital and Operation funds. Additionally, ITS moved to an internal service fund (ISF) model for the current fiscal year. ITS's Systems Replacement Program within the Replacement Fund (242) received a 93.6% cut (\$1.2 million) to General Fund Building Depreciation, the department's ongoing revenue source.

This 5% reduction in the FY 2024-25 proposed budget would represent an ongoing impact to Capital funding that would significantly limit the ability of ITS to execute on General Fund projects requested by departments throughout the County organization. General Fund departments and programs rely on this funding to invest in systems which will allow more efficient use of taxpayer dollars and to achieve goals set forth in the County's and ITS' strategic plans. Cuts of these sorts may have public-facing impacts as initiatives to enhance digital government or to enhance community-facing communication platforms may be significantly delayed or would not move forward until funding is increased.

Additionally, this ongoing reduction limits ITS' flexibility to cover key infrastructure maintenance and replacement needs (such as servers, websites and enterprise systems) as the present funding model for the Replacement Fund is not adequate to support the County's IT replacement needs.

As mentioned in the General Government section, the 5% General Fund reduction to the proposed budget for ITS Operations would eliminate a contracted SharePoint Administrator. This loss of a position would impose a reduced ability to develop specialized or manage off-the-shelf digital government solutions. It also would generate a reduced ability or risk of failure in analyzing and mitigating cyber threats and vulnerabilities in website technologies and other publicly exposed internet capabilities.

*How does this budget scenario negatively or positively impact our goals of (a.) Civil Rights Act compliance and language access and/or (b.) recruitment and retention of bilingual and BIPOC staff?*

The 5% General Fund reduction to this ITS Capital fund would negatively impact the County's goals of Civil Rights Act compliance and language access and/or recruitment and retention of bilingual and BIPOC staff by reducing investments in IT technologies supporting such efforts. On the other hand, special fund investments (funded by requesting departments) invest in such initiatives. Each department project is scored on EDI as an investment category. There are many requests submitted by departments that are self-identified as supporting EDI strategies.

*How does this budget scenario provide mitigations for any negative impacts?*

This 5% reduction scenario would mitigate any of the negative impacts listed above in that ITS is not cutting services completely. Instead, ITS is attempting to find balance to meet reduction guidelines, maintain ITS staff and keep core services, all while minimizing impacts to equity goals. Instead, ITS is highlighting the potential for delays and reductions.

*Do you foresee any unintended consequences and potential ways to mitigate?*

There may be some unintended consequences of this reduction scenario, however the department intends to make every effort to minimize these impacts.

### Transportation

**Major Streets Transportation Improvement Program (MSTIP); Road Capital Projects; Transportation Development Tax; North Bethany County System Development Charge; Bonny Slope West System Development Charge**

*How does this budget scenario advance the County's equity and inclusion priorities?*

The 7% reduction in General Fund transfer to the Major Streets Transportation Improvement Program (MSTIP) would result in \$3.5 million that would not be allocated to existing and ongoing Capital Projects for active transportation, safety and accessibility in Washington County. MSTIP-funded projects often improve mobility for people who may be transit dependent and/or utilize mobility assistance devices such as wheelchairs or scooters. Washington County's transportation capital prioritization process includes an equity consideration to inform investment decisions. This process seeks to avoid disparate impacts to people of color, people with low incomes, neighborhoods with Title I elementary schools and so forth.

*How does this budget scenario negatively or positively impact our goals of (a.) Civil Rights Act compliance and language access and/or (b.) recruitment and retention of bilingual and BIPOC staff?*

This 7% reduction scenario could delay implementation of pedestrian accessibility improvements and/or projects in historically underrepresented communities.

*How does this budget scenario provide mitigations for any negative impacts?*

The reduced, proposed budget would not mitigate the potential negative impacts described above.

*Do you foresee any unintended consequences and potential ways to mitigate?*

Potential unintended consequences of this reduced budget include reduced contracts with COBID, DBE and disadvantaged consultants and contractors in the community, thereby reducing job opportunities for people and businesses who contract with Washington County. These impacts may be mitigated by the County receiving federal grant funding which would require COBID/DBE goals and percentages.

*This page intentionally left blank*

# CAPITAL

# BUDGET OVERVIEW

The Capital budget is comprised of Facilities & Technology and Transportation projects. Capital expenditures may include the purchase of land, contractual services for environmental impact analysis, engineering and design, hardware, costs associated with implementing new software and project management.

# 2016 FF&C Facilities Capital Projects 353-3580

# Budget Detail

The 2016 FF&C Facilities Capital Projects fund accounts for bond proceeds from the Series 2016 B Full Faith and Credit Obligations (FF&C) for facilities capital projects.

## Budget Analysis

Total Requirements, excluding Contingency, increase \$1,224,250 (127%). Contingency decreases \$1,200,000 (100%). Beginning fund balance increases \$24,250 (1%).

No new resources have been identified for this fund.

Fund balances amounts are fully appropriated in FY 2024-25 for a new project assignment for exterior improvements to the Service Center East location, housing staff from various County departments. This will provide greater project funding and timing flexibility as project needs are further defined and contracted.

The Department of Information Technology Services (ITS) provides comprehensive technology services to Washington County departments and offices. The capital budget for ITS is divided into functional focus areas within the fund: The Office of the Chief Information Officer, Technical Services, Infrastructure Services, Enterprise Applications & Solutions, Security, and Land, Spatial & Digital.

### ***Budget Analysis***

Total Resources decrease \$1,079,519 (28%). Total Requirements, excluding Contingency, decrease \$1,268,169 (20%). Contingency increases \$306,634 (13%). Beginning fund balance increases \$117,984 (2%).

Beginning fund balance is \$4.8 million which represents unfinished projects carrying forward from the prior fiscal year FY 2023-24.

FY 2024-25 Total Resources is comprised of General Fund and special fund support, and Gain Share (fund 205) revenues. Total Resources decrease by 28% which is the net impact of substantial reduction in General Fund support and in the transfer from the ITS Replacement Fund (special fund 242), offset by a 17% increase in special fund revenue for County department projects.

The General Fund transfer is again mandating reductions to General Fund support County-wide. As a result, the ITS Capital Projects General Fund transfer is down 51%. Until this fiscal year, the ITS Replacement Fund (242) typically initiated an interfund transfer to this fund to provide financial resources for various system upgrades and replacement projects. However, due to a methodology change implemented in the County's Cost Allocation Plan, the ITS Replacement Fund (242) is experiencing a significant reduction in system replacement revenue for FY 2024-25. Therefore, there will be no FY 2024-25 transfer revenue to ITS Capital Projects so that the departments may rebuild the reserves within fund 242.

Gain Share revenue remains flat. However, Interdepartmental revenue increases reflects increasing requests for new technology projects from across County departments this fiscal year.

Capital Outlay expenditures reflect newly requested projects as well as a 7.5% decrease in carryforward projects from prior years. This decrease is largely due to project reprioritization and budget reduction impacts from FY 2023-24. Total FY 2024-25 requirements decrease overall while the Contingency remains flat. The Contingency represents project amounts anticipated to be carried forward by the end of the fiscal year.

### ***Key Issues***

Fund 354 historically has received \$1 million in Gain Share revenue (determined year-to-year), \$1 million in ITS Systems Replacement Program interfund transfer revenue, \$2 million in General Fund support, and various special fund revenue to support a wide array of ITS Capital Projects. However, due to ongoing General Fund reductions,, ITS will need to work quickly to revise its funding model to ensure longevity for investments in technology capital projects and will make every effort to do so expeditiously. In the interim, Contingency funds will support approved immediate needs, and future County ITs capital requests will undergo an additional review to determine the necessity prior to confirmation.

**Programs**

1. **ITS Capital Land, Spatial, and Digital (354-358080)** This program supports internet and intranet technologies, land-oriented and engineering, and Geographic Information Systems (GIS) mapping related systems and services. Projects included in this program relate to Washington County websites and digital experience, Permitting and Taxation, and GIS.

2. **ITS Capital Enterprise Application & Engineering** (354-358081) This program is responsible for targeted implementations of new line-of-business applications for County departments along with enterprise-wide solutions for general use. Projects in this program may include cloud-based and on-premise applications as well as consulting and enhancement of existing tools and applications. Typical projects in this area would include initiatives to enhance transparency, add staff capabilities and modernize existing application systems.
3. **ITS Capital Client Services** (354-358082) This program supports standard client software and computer hardware for all County employees. Projects in this program include enhancements to staff capabilities, desktop application life cycle management, and innovations to better serve county staff and the public.
4. **ITS Capital Security** (354-358083) This program is responsible for the County's enterprise security solutions, education and services. Projects in this program include County workforce member security training, enhancements to security and compliance related initiatives to better serve county staff and the public.
5. **ITS Capital Office of the CIO** (354-358084) This program focuses on projects requiring support across all functional areas of ITS. Projects in this program relate to general leadership, program level projects and Equity, Diversity, and Inclusion initiatives.
6. **ITS Capital Infrastructure Services** (354-358085) This program supports network, server, storage, virtualization, and voice infrastructure needed to support all other digital functions for ITS and the County. Projects in this program include the lifecycle management of the hardware and software necessary to support county operations as well as new and innovative technologies that further the county mission.

Fiscal year 2024-25 ITS Capital Projects

Project Category	Project Description	Beginning Fund Balance	Gain Share	General Fund	System Replacement Fund	Special Funds	Totals
Assessment & Taxation System	Hardware/Software to support A&T. Includes Orion enhancements and Digital Voucher Transmission.	52,000	-	26,200	-	-	78,200
Client Systems and Software	Client hardware/software support including workstation upgrades, operating systems, monitors, scanners and printers and contracted resources related to client projects.	138,500	119,737	26,545	-	476,112	760,894
COOP/DR	Hardware/Software to support COOP and DR activities. Includes analysis of cloud solutions to enhance resiliency, table top exercises and offsite disaster recover solution.	25,000	-	-	-	-	25,000
Criminal Justice Systems	Hardware/Software to support Criminal Justice and Public Safety. Includes solutions for SB751, mobile device investigation, e-ticketing, scheduling and field training tracking.	190,111	-	18,000	-	19,389	227,500
Cyber Security and Compliance	Hardware/Software and systems to support county cyber security, risk and compliance efforts. Includes enhancement of monitoring and detection, risk assessments, security framework, siem solutions and risk assessment.	-	190,000	24,000	-	-	214,000
Document Publishing	Hardware/Software to support Document Publishing. Includes Laserfiche enhancements and open data initiatives.	25,000					25,000
Enterprise Systems	Hardware/Software to support Engineering Systems. Includes support for enhanced constituent engagement, data warehouse, analytics and file sharing.	176,800	111,263	24,039	-	-	312,102
Facilities Systems	Hardware/Software to support Facilities Management. Includes security enhancements to County employee ID badge.	10,000	-	6,000	-	-	16,000
Finance System	Hardware/Software to support Finance. Includes analysis of ERP replacement, WISARD hardware/software, contract management and ACFR publication application.	240,000	-	-	-	-	240,000
GIS	Hardware/Software to support GIS. Includes aerial imagery, data visualization and application for Mosquito Management.	42,939	-	10,510	-	86,200	139,649
Health & Human Services System	Hardware/Software to support HHS. Includes project management and department wide system improvements evaluation.	20,000	-	33,330	-	200,780	254,110

Project Category	Project Description	Beginning Fund Balance	Gain Share	General Fund	System Replacement Fund	Special Funds	Totals
Infrastructure	Infrastructure to support Enterprise Systems. Includes lifecycle replacement of critical network equipment, server hardware, storage, support for cloud migration and expanded remote workforce.	780,000	542,000	15,000	-	-	1,337,000
Other Department Systems	Hardware/Software to support departments not included elsewhere. Includes asset management, comprehensive demographic data collection, fleet management and WebEOC.	390,000	37,000	45,500	-	283,000	755,500
Permitting & Inspection System	Hardware/Software to support Permitting and Inspection systems. Additional Accela work, Annexations processing, public facing portal and inspection recording.	-	-	10,000	-	533,000	543,000
Web & Digital Presence	Hardware/Software to support county digital presence. Includes website redesign, intranet redesign and community engagement tools.	120,000	-	-	-	-	120,000
Contingency	Contingency reflects unforeseen projects determined to be carried forward by the end of the current fiscal year as well as a prediction of projects that may be cancelled by County departments and have not yet been redirected.	2,666,585					2,666,585
		<b>4,876,935</b>	<b>1,000,000</b>	<b>239,124</b>	<b>-</b>	<b>1,598,481</b>	<b>7,714,540</b>

This fund accounts for Systems Development Charges (SDC's) for park capital improvements and was created by the Washington County Board of Commissioners in October, 2004. Proceeds are to be used in partnership with the Tualatin Hills Parks and Recreation District (THPRD) for parks capital improvements in the Bethany, Cedar Mill and Cooper Mountain areas.

**Budget Analysis**

Total Resources increase \$6,832 (23%). Contingency increases \$19,841 (8%). Beginning fund balance increases \$13,009 (6%).

This fund collects and distributes revenues collected from development in areas outside the current Tualatin Hills Park and Recreation District boundary to help fund acquisition of land for future parks and open spaces. This program has no staff.

Total Resources are derived from development activity on lots within the Interim County Park Systems Development Charge (Park SDC) boundary. February 2024 data from Metro indicated 55 lots remain vacant in the Park SDC boundary. The FY 2024-25 estimate includes projected revenue from the development of an estimated ten detached single family dwelling units lots during the year. Since 2018, an average of 12 residential units per fiscal year have been subject to this Park SDC, however as of February, 2024 the year-to-date revenue collected was for only one lot. Therefore, the forecast for FY 2024-25 was reduced slightly to ten units.

All funds in prior years were appropriated and remained unspent. A budgeting change in FY 2021-22 moved all funds into contingency, as no funds were expected to be spent in that fiscal year. While no expenditures are planned for FY 2024-25 at this time, it is possible the Board could authorize future expenditures. The County has partnered with THPRD on projects to benefit the Park SDC collection area in the past.

**Programs**

1. **Park SDC (355-358045)** This program accounts for the financial activities related to Park SDC's.

Funding for projects usually comes from the General Fund, various special funds, the Gain Share program and Energy Rebates. Programs have been established to match revenue and expenditures by funding source. A capital project can reflect a new facility, renovation, or major maintenance work that increases the value of the facility or extends its useful life. The fund also includes improvements, additions, or expansions that change interior space alignment.

**Budget Analysis**

Total Resources increase \$16,715,000 (44%). Total Requirements, excluding Contingency, increase \$17,185,180 (39%). Contingency increases \$483,842 (19%). Beginning fund balance increases \$954,022 (11%).

Special funds and the General Fund are the usually the primary resources for capital improvement projects housed in fund 356. However, the County General Fund reduced its support this year due to budget cuts. Instead, Facilities Capital Projects is receiving a \$20 million transfer from the Strategic Investment Program (SIP). These funds will provide resources to address some of the necessary critical infrastructure HVAC improvements (\$12 million), Enterprise Resource Planning (ERP) software replacement project needs (#3 million), a new courtroom to accommodate the recent judge assignment to the County (\$3 million), schematic design for the jail expansion (\$200,000) and funds for addressing departmental capital requests (\$1.92 million). In light of these allocations, the General Fund is not anticipating a specific contribution in FY 2024-25.

The Housing, Health and Human Services Department's development of the Centers for Addiction, Treatment and Triage is another source of special fund revenues in the FY 2024-25 budget at just over \$34 million. The projects are anticipated to move into construction during the coming year.

Total expenditures increase primarily due to the aforementioned proposed Centers for Addiction, Treatment and Triage, as well as the critical infrastructure projects, the state required judge accommodations, the jail expansion design, and the departmental capital requests all mentioned above. Facilities continues to address the list of established critical facility infrastructure projects, primarily related to 24/7 service operations. Many of these projects will be moving into construction phases during FY 2024-25.

Within Materials & Services, allocated expenditures assigned through the County's Cost Allocation Plan increase significantly in the FY 2024-25 budget and have an impact on the available funding for project delivery.

## Programs

1. **Facilities Capital Projects (356-358030)** This program accounts for contingency funds and other miscellaneous revenues and expenses that do not fall under a facility capital project in a specific capital program.
2. **Projects for General Fund (356-358032)** This program accounts for the financial activities related to capital projects supporting programs associated with core County missions. Funding comes from General Fund discretionary revenues.
3. **Projects for Special Fund (356-358033)** This program accounts for the financial activities related to capital projects funded by Special Funds, usually provided by Department sources such as dedicated revenue sources, donations or grant funding.
4. **Projects for Gain Share (356-358034)** This program accounts for the financial activities related to capital projects specifically approved by the Board for Gain Share Funds.
5. **Projects for Energy Savings (356-358036)** This program accounts for the financial activities related to capital projects which are eligible for energy rebates from the Energy Trust of Oregon
6. **SIP - Strategic Investment Program (356-358038)** This program accounts for the financial activities related to capital projects approved for Strategic Investment Program (SIP) Funds.

# Parks & Open Spaces Opportunity 357-3580

# Budget Detail

This fund accounts for proceeds from the sale of County-owned timber property and receipts from the selected harvest. These resources are set aside for greenspace acquisition, County park improvements, and maintenance of the timber property.

## Budget Analysis

Total Requirements, excluding Contingency, increase \$1,491 (2%). Contingency decreases \$4,911 (2%). Beginning fund balance decreases \$3,420 (1%).

Resources are derived primarily from the management of timber on County-owned property.

A limited portion of the resources will be appropriated to maintain flexibility in addressing needs that arise for forestry and other miscellaneous program expenses while the remainder will be housed in Contingency for future use toward the purchase of land, improvements to parks, and maintenance of the timber property.

Designated forest properties total 296 acres and include: Timber Road (80 acres), Holly Hill (74 acres), Shadybrook (60 acres) and a Highway 26 parcel (82 acres).

1. **Greenspace (357-358035)** This program accounts for the financial activities related to greenspace acquisition, park improvements, and maintenance of County-owned timber property.

# Emergency Communications System 359-3580

# Budget Detail

This fund accounts for the proceeds from the general obligation bonds, approved by voters in the May 2016 election, for the Emergency Communication System project.

## Budget Analysis

Total Requirements decrease \$978,018 (25%). Beginning fund balance decreases \$978,018 (27%).

The Emergency Communications System Fund began with the issuance of \$77,000,000 in voter-approved general obligation bonds to fund updates to the County's emergency communications system. The bonds, issued in July 2016, included an \$11,300,000 premium due to a favorable bond market.

The emergency communication system improvement projects have needed some additional time and are anticipated to be completed in FY 2024-25. Expenditures are budgeted at \$726,030 lower as projects move toward closing out.

**Programs**

1. **Administration** (359-358050) This program accounts for the financial activities related to the projects that were included in the Bond documents.
2. **Dispatch Center** (359-358070) Provides financial accounting for the activities related to the Dispatch Center.
3. **System Infrastructure** (359-358075) Provides financial accounting for the system infrastructure.

This fund was established in FY 2015-16 to account for the future build-out of the Wingspan Event and Conference Center at the Westside Commons.

**Budget Analysis**

Total Requirements increase \$48,707 (2%). Beginning fund balance increases \$48,707 (2%).

The Wingspan Event and Conference Center project is essentially complete although a few outstanding issues have arisen that are being addressed prior to finalization of the project and closure of the fund. To retain the most appropriation flexibility, the Contingency has not been utilized. The fund closeout process will be initiated with Finance upon project finalization.

# Major Streets Transportation Improvement Program (MSTIP) 362-6065

## Budget Detail

This fund accounts for resources collected and expended to support the design, permitting and construction of transportation capital improvement projects identified for funding through the Major Streets Transportation Improvement Program (MSTIP) funding allocation process. The primary objective of MSTIP is to fund improvements on a network of multimodal streets and roads that support countywide mobility. The Washington County Board of Commissioners generally makes MSTIP funding allocation decisions every five to six years following community input opportunities and a recommendation from the Washington County Coordinating Committee (WCCC), which is made up of elected officials from Washington County and cities within the County. MSTIP was initially funded through a serial levy from 1986 until passage of Ballot Measure 50 in 1997. The MSTIP serial levy in effect at that time was rolled into a new permanent County property tax rate. Since 1997, an annual transfer from the County General Fund is the primary source of MSTIP revenue.

### ***Budget Analysis***

Total Resources increase \$134,682,840 (140%). Total Requirements, excluding Contingency, decrease \$34,707,274 (23%). Contingency increases \$180,630,328 (0%). Beginning fund balance increases \$11,240,214 (20%).

Intergovernmental revenues decrease in FY 2024-25 due to project timing and the reduction of the City of Hillsboro's High Growth Balloon Payments received in FY 2023-24. Miscellaneous revenues increase overall due to higher interest income. Operating transfers in decrease primarily due to the removal of one-time transfers from Transportation Development Tax to four capital projects in FY 2023-24.

The MSTIP operating transfer from General Fund revenue reflects a net 0.30% reduction (\$258,955) compared to FY 2023-24. This reduction results from a projected increase of 4.70% (\$2,274,936) in the General Fund transfer (based on projected Assessed Value increase) followed by a mandatory 5% reduction in the General Fund transfer (\$2,533,891). Transfers from Transportation Development Tax (TDT) are also reduced due to one-time project transfers to four projects that were anticipated in FY 2023-24 to address funding needs. Overall, operating transfers-In are reduced by 19% (\$12 million).

Total requirements decrease primarily due to the normal fluctuations in project expenditures associated with the timing of multi-year transportation projects. Materials and Supplies saw a substantial reduction as we moved the unobligated reserve to Contingency.

Interdepartmental expenditures decrease because of the timing of project-related expenditures.

Transfers to other funds increase primarily due to a transfer to the Road Capital Projects Fund (fund 368) whose costs have increased due to project timing.

Capital outlay expenditures increase due to right-of-way acquisitions required for projects.

Overall, the MSTIP fund houses 40 active projects. Within the MSTIP program there have been eight multi-year project packages; MSTIP 1, MSTIP 2, MSTIP 3, MSTIP 3b, MSTIP 3c, MSTIP 3d, MSTIP 3d HG, and MSTIP 3e. These project packages have been developed by the Washington County Coordinating Committee and adopted by the Board of Commissioners.

### ***Key Issues***

Regulatory requirements changes, supply and contractor cost escalations, and increasing Personnel Services costs increase the total cost of each project. This drives the need to look to other sources of funding, including becoming a certified Local Public Agency to deliver federal aid projects.

The Washington County Board of Commissioners' approval of future MSTIP 3f package of projects will be required to move forward with new MSTIP projects.

MSTIP 3f Projects	Road	2,250,000	Design
<b>Total</b>		<b>\$ 118,838,153</b>	

This fund accounts for the activities necessary for construction of extra capacity street facilities. The projects in this fund are funded with the recent incremental increase in gas tax revenue, Gain Share revenue, and 1% bike and pedestrian funding.

**Budget Analysis**

Total Resources increase \$9,628,454 (75%). Total Requirements, excluding Contingency, decrease \$8,571,601 (27%). Contingency increases \$15,250,195 (0%). Beginning fund balance decreases \$2,949,860 (16%).

Intergovernmental revenue increased due to additional revenue from Oregon Department of Transportation, Hillsboro and Forest Grove, Other Federal and Other local Intergovernmental revenues. These revenues are primarily based on project statuses for Council Creek Trail (CCRT), CCRT Enhanced Street Crossings, and Basalt Creek Parkway. The increase in the Other Federal Grants is solely attributed to the Rebuilding American Infrastructure with Sustainability and Equity (RAISE) Grant awarded to Washington County for the Council Creek Regional Trail project.

Operating transfers in from Road Fund and Major Street Transportation Improvement Program (MSTIP) increased, Transportation Development Tax (TDT) Transfer decreased, and transfers from Gain Share remained steady. Road Fund transfers increased largely due to the addition of the Timber Road construction project. The MSTIP Opportunity Fund provided a local match to leverage external funding for several projects including the Council Creek Regional Trail and the CCRT Enhanced Street Crossings projects. TDT Transfer decreased due to project timing, however, transfer reductions and increases are a result of normal fluctuations in project timing and schedules.

Materials and Supplies decreased significantly, primarily due to unobligated reserve moving from there to contingency.

Interfund expenditures increased in Intradepartment Charges - General for project labor as several new projects have been added into this fund and are scheduled to begin.

Capital outlay increased due to right-of-way acquisitions needed for projects, primarily the Basalt Creek Parkway project.

**Key Issues**

Regulatory requirements changes, supply and contractor cost escalations, and personnel costs, increase the total cost of each project.

**Total Budget**

1. **LUT Capital Projects (368-606505)** Program accounts for the financial activities related to road construction activities.
2. **Bikeway & Pedestrian (368-606520)** Program accounts for the financial activities related to bikeway and pedestrian projects
3. **Bridge Program (368-606525)** Program accounts for the financial activities related to bridge replacement projects
4. **Road Fund Capital Projects (368-606535)** Program accounts for the financial activity of capital transportation projects financed by the Road Fund.
5. **Gain Share Bike & Pedestrian (368-606550)** Program accounts for the financial activities related to Gain Share supported bikeway and pedestrian projects including the Safe Routes to Schools Program.
6. **Gain Share ITS (Intelligent Trans System) (368-606555)** Program accounts for the financial activities related to gain share supported intelligent transportation system projects.

This fund has been established to provide a separate program to account for resources made available by the creation of a new transportation tax on development. The Transportation Development Tax (TDT) was approved by voters in November 2008 and replaced the Traffic Impact Fee (TIF) which will be phased out over the next several years. The TDT is collected from new development for use in building transportation system capacity.

**Budget Analysis**

Total Resources increase \$432,444 (9%). Total Requirements, excluding Contingency, decrease \$43,681,529 (94%). Contingency increases \$34,559,633 (0%). Beginning fund balance decreases \$9,554,340 (0%).

Charges for Services decreased due to slower development revenue. Miscellaneous revenue increased overall due to increased interest income.

Materials and Services saw a substantial reduction as we moved our unobligated reserve from there to contingency. Other Expenditures decreased due to the elimination of bank charges. Interfund expenditures increased due to project advancement and the contribution match required.

Transfers to other funds decreased primarily due to a decrease in Transfer to MSTIP 3 Fund for one-time project transfers that occurred in FY 2023-24. Fluctuations are normal based on the nature of projects and development fees allocated to County Service Districts.

FY 2024-25 has one project budgeted, but has funds committed for future projects and current projects in other funds with future transfers from the Nike TDT deposits as they near completion. Nike transfers include Project #100309 - Walker Rd (Schendel to Butner) and Project #100238 - Walker Rd/Murray Blvd Intersection Improvements. Future projects include, but are not limited to, Thompson Rd (Saltzman to Marcotte), Laidlaw Rd (Saltzman to Marcotte), Marcotte Rd (Laidlaw to Thompson), and Saltzman Rd (Laidlaw to Thompson).

**Key Issues**

Regulatory requirements changes, supply and contractor cost escalations, and personnel costs, increase the total cost of each project.

**Total Budget**

## Programs

1. **LUT Capital Projects** (374-606505) Program accounts for the financial activities related to road construction activities.
2. **Administration and Analysis** (374-606510) Program accounts for the financial activities related to administration of the TDT analysis and transportation planning efforts.

This fund accounts for the North Bethany System Development Charges (North Bethany SDC) that fund needed capacity improvements.

**Budget Analysis**

Total Resources increase \$56,375 (8%). Total Requirements, excluding Contingency, decrease \$93,625 (10%). Contingency increases \$150,000 (0%).

Charges for Materials and Services show a decrease due to unobligated funds now being allocated to Contingency. North Bethany County Service District for Roads (North Bethany CSDR) development activity continues to slow.

Transfers to other funds reflect a increase, primarily in the transfer to North Bethany County Service District for Roads (NBCSDR), to provide design resources toward Project #100709 - Kaiser (Springville-Brugger) and design and construction resources toward Project #100461 - Springville Road (Joss to Portland Community College (PCC) entrance).

The transfer to North Bethany CSDR for FY 2024-25 includes new revenue and all available funds less expenditures for the current budget year.

**Key Issues**

This fund was established in FY 2011-12 as a supplemental System Development Charge (SDC) on development in North Bethany. Funds are used for transportation projects in the community. A \$795,804 transfer to the North Bethany CSDR for the construction of Project #100461 - Springville Road (Joss to PCC entrance) and design of Project #100709 - Kaiser (Springville-Brugger) is budgeted in FY 2024-25.

**Programs**

1. **Administration and Analysis** (376-606510) Program accounts for the financial activities related to administration of the North Bethany SDC analysis and transportation planning efforts.

This fund was established in FY 2015-16 and accounts for the Bonny Slope West System Development Charges (SDC) that will help fund needed capacity improvements in Bonny Slope.

**Budget Analysis**

Total Resources increase \$76,173 (18%). Total Requirements, excluding Contingency, decrease \$4,810,035 (92%). Contingency increases \$4,717,081 (0%). Beginning fund balance decreases \$169,127 (4%).

System Development Charges (SDC) revenue collection is expected to decrease based on approximately 20 single-family detached units to be built in FY 2024-25, with SDC fees of approximately \$10,093 each.

Transfer from TDT - Transportation Development Tax Fund is projected to decrease from \$220,000 in FY 2023-24 to \$200,000 in FY 2024-25.

Bonny Slope West SDC funds will be allocated between four projects, Thompson Road (Saltzman Road to Marcotte Road), Laidlaw Road (Saltzman Road to Marcotte Road), Marcotte Road (Laidlaw Road to Thompson Road) and Saltzman Road (Laidlaw Road to Thompson Road).

Materials and Services expenditures decrease due to future project appropriations previously held in Professional Services. Contingency holds \$592,991 obligated for current projects and \$4.1 million as unobligated for future projects.

Transfer to Other Funds increased related to Project #100694 Thompson Rd (Saltzman to Marcotte) that is housed in MSTIP 3 Fund and reflects the slight decrease in transfers to Road Fund.

**Key Issues**

This fund accounts for supplemental system development charges collected in the Bonny Slope area to help fund needed transportation capacity improvements as development occurs.

**Total Budget**

# NON-OPERATING

# BUDGET OVERVIEW

Non-operating organization units generally provide an internal service for the entire County organization. For example, the Risk Management/Insurance funds provide a central accounting function for tracking organization-wide costs that are funded by charges to departments based on the number of employees, vehicles or claims experience. Replacement / Reserve funds are used to provide a central accounting function to funds which maintain reserve accounts or provide for assets that are at the end of their useful life. Miscellaneous Non-operating expenditures include the transfer of General Fund resources to special funds and the distribution of Strategic Investment and Gain Share program resources. Funds in the Non-operating budget are all special funds with the exception of the General Fund Transfers Program.

This fund accounts for the principal and interest on the Series 2016 B Full Faith and Credit Obligations (FF&C). Proceeds from this issue are being used to provide funding for capital projects for Washington County facilities, the building of an Event Center, and various Major Street Transportation Improvement Program (MSTIP) projects (fund 362).

**Budget Analysis**

Total Resources increase \$3,082,625 (40%). Total Requirements decrease \$12,331,774 (32%). Beginning fund balance decreases \$15,414,399 (50%).

In December 2016 the County issued \$121 million in Full Faith and Credit (FF&C) Obligations. The proceeds from the borrowing are being used to fund three project areas - Facilities Capital Projects (fund 362), construction of the Wingspan Event and Conference Center, and road projects associated with Major Street Transportation Improvement Program (MSTIP) projects (fund 362).

Total Resources to this fund represent funding sources to pay the annual debt service and are derived from the General Fund (fund 100), Gain Share fund (fund 205), and Transient Lodging Tax (TLT) revenue (fund 240).

The debt service payments under Other Expenditures represent the actual payments according to the debt service amortization schedule as well as the debt service reserve.

The County reviews outstanding debt on a regular basis to ensure refinancing opportunities are evaluated. A list of the County's outstanding debt is available in the Summary Schedules section.

**Key Issues**

In December 2016 the County issued \$121 million in FF&C. Proceeds from the borrowing are used to fund three project areas - general facilities projects, construction of the Wingspan Event and Conference Center, and road projects associated with the Major Street Transportation Improvement Program (MSTIP). Total Resources to this fund are to pay the annual debt service and come from General Fund, Gain Share Fund, and TLT revenue.

**Programs**

- Debt Service (305-358505)** Principal and interest payments are taken from the amortization schedule included with the closing documents for the debt issue. Total requirements are tracked in this program and are received as follows: 1) the General Fund's share of the debt service for Facilities Capital Projects (fund 356), 2) Gain Share funds (fund 205) allocated to the Event Center project and future capital outlay, 3) Transient Lodging Tax (fund 240) revenue allocated for a portion of the debt service related to the Event Center project and 4) property taxes allocated to MSTIP fund's share of the debt service for MSTIP Projects.
- Series 2016 B General Fund Contributions (305-358510)** The General Fund's share of the debt service for General Facilities Capital projects.
- Series 2016 B Gain Share Contributions (305-358515)** Gain Share allocated to the Events Center project and future capital outlay will be received to pay the debt service for the Event Center and General Facilities Capital projects.
- Series 2016 B Tourism Dedicated Lodging Tax Contributions (305-358520)** Transient Lodging Tax revenue allocated for a portion of the debt service related to the Event Center project.
- Series 2016 B MSTIP Contributions (305-358525)** \*Effective FY 2023-24 this program is closed.

Property taxes allocated to MSTIP III Fund's share of the debt service for MSTIP Projects. 100% collected by FY 2022-23.

This fund pays the principal and interest on the May 2016 voter-approved general obligation bond for the Emergency Communications System (911).

**Budget Analysis**

Total Resources increase \$202,500 (4%). Total Requirements increase \$211,500 (4%). Beginning fund balance increases \$9,000 (7%).

Property tax revenues are used to pay the debt service on these bonds. The debt service payments for FY 2024-25 are levied in the fall of 2024 and assumptions include a 96.02% collection rate. The beginning fund balance represents the building up of a reserve to cover any unforeseen revenue shortfalls.

The debt service payments in Other Expenditures represent the actual payment amounts according to the debt service amortization schedule as well as the debt service reserve.

The County reviews outstanding debt on a regular basis to ensure refinancing opportunities are evaluated. A list of the County's outstanding debt is available in the Summary Schedules section.

**Key Issues**

In May 2016, County voters approved a bond for the replacement and upgrade to the Emergency Communication System (9-1-1). The annual debt payment of approximately \$5.5 million is allocated and collected through property tax statements.

# Miscellaneous Debt 306-3585

# Budget Detail

This fund accounts for the principal and interest on other debt not accounted for in the General Obligation Debt Service Fund (fund 304) or the 2016 Full Faith & Credit (FF&C) Debt Service Fund (fund 305). The debt instruments accounted for in this fund include FF&C obligations, notes, and contracts for debt issued prior to calendar year 2016.

### Budget Analysis

Total Resources increase \$175,156 (3%). Total Requirements increase \$138,065 (2%). Beginning fund balance decreases \$37,091 (100%).

Transfers from the General Fund (fund 100) and various special revenue funds provide the funding sources for the annual debt service payments.

The debt service payments in Other Expenditures represent the actual payments according to the debt service payment amortization schedule, as well as the debt service reserve.

The County reviews outstanding debt on a regular basis to ensure refinancing opportunities are evaluated. A list of the County's outstanding debt is available in the Summary Schedules section.

**Programs**

1. **Debt Service** (306-358505) Principal and interest payments are taken from the amortization schedules included with the closing documents for the respective debt types.

This fund and organization unit was established to pay claims, legal fees and adjustment services for the County's self-insurance program. Premiums for the County's property insurance, bonds and excess general liability are paid out of this fund.

**Budget Analysis**

Total Resources increase \$990,960 (13%). Total Requirements, excluding Contingency, increase \$414,467 (6%). Contingency increases \$576,493 (13%).

Total Resources increase in accordance with the County's Cost Allocation Plan (CAP). The change is primarily due to rate increases to cover operating costs and maintain a healthy reserve for this fund.

Interdepartmental revenues increase due to higher costs for vehicle accident reimbursements and property reimbursements that are collected from insurance companies and others if they are responsible for damages to County property. Materials and Services increase primarily due to insurance costs.

The Contingency represents the anticipated ending fund balance and reserve for future claims as estimated by the actuarial report.

**Total Budget**

**Programs**

1. **Insurance Liability (504-357010)** Provides financial activities related to accounting for insurance required payments and revenues from departments to offset those costs.

This fund and organization unit was established to collect funds from departments for Life and Long Term Disability (LTD) insurance and, in turn, pays all Life & LTD premiums for insurance provided to County employees.

**Budget Analysis**

Total Requirements, excluding Contingency, increase \$112,564 (39%). Contingency decreases \$112,564 (48%).

The fund balance target for this fund is approximately three months' expenditures, and excess funds are held in Contingency.

The Human Resources Benefits Team leads an annual review of the rate setting structure to stabilize the ongoing fund balance as well as the rates to charge the departments.

**Programs**

1. **Insurance Employee Benefits (506-357005)** Provides financial activities related to accounting for employee benefits.

This fund pays claims costs, premiums, administrative charges, and payroll taxes for those claims incurred during the fiscal year, as well as the continuing liability resulting from claims occurring in previous years.

**Budget Analysis**

Total Resources decrease \$1,502,768 (29%). Total Requirements, excluding Contingency, decrease \$611,295 (13%). Contingency increases \$771,325 (418%). Beginning fund balance increases \$1,662,798 (658%).

Total Resources decrease due to utilization of the fund balance during FY 2023-24.

Materials and Services decrease due to County's Cost Allocation Plan (CAP) decreases and lower projected insurance claims using FY 2023-24 claims data.

**Total Budget**

**Programs**

1. **Insurance Liability 508-357010** This program details the financial activities of Washington County's workers' workers compensation insurance, including required payments and revenues from County departments to offset those costs.

This fund pays all administrative and claims costs associated with the medical, dental and vision insurance plans, as well as the wellness program, employee assistance and flexible spending accounts for dependent care, and health expenses.

**Budget Analysis**

Total Resources increase \$4,481,687 (10%). Total Requirements, excluding Contingency, increase \$3,231,789 (7%). Contingency increases \$1,249,898 (13%).

Revenues for Charges for Services increase as the County continues to find ways to minimize health insurance cost. The County charges a blended health insurance rate to departments that is intended to cover the actual costs incurred based on each employee's elected benefit level.

Total requirements increase due primarily to premium adjustments effective January 1, 2024 and projected adjustments for January 2025 which are offset by the addition of a Contingency fund this year to fund future cost increases and provide a stable cash flow.

County employees pay 5% or 10% of their health care costs based on their plan choices (Providence low or high deductible; Kaiser low or high deductible; ODS Dental or Kaiser Dental). In addition, approximately 84 employees waive all three coverages (medical, dental & vision) and are eligible to receive a contribution to a Voluntary Employee Benefit Account (VEBA).

The fund balance target is approximately \$9.0 million, about 2-3 months of expenditures, to allow for adequate cash flow during the fiscal year. The beginning fund balance for FY 2024-25 is \$8.7 million, which is similar to FY 2023-24. The fund balance will continue to be managed through rates charged to departments.

**Programs**

1. **Insurance Employee Benefits** 510-357005 Details financial activities related to accounting for employee, Consolidated Omnibus Budget Reconciliation Act of 1985 (COBRA) and retiree health insurance benefits.

This fund and organization unit was established to collect funds from departments for unemployment insurance and, in turn, pay unemployment claims.

**Budget Analysis**

Total Requirements, excluding Contingency, increase \$50,681 (19%). Contingency decreases \$50,681 (11%).

Unemployment claims are improving as the employment market improves.

The fund balance target is set at one year's expenditures based on the unemployment claims experienced during the 2009 through 2012 economic downturn. Future rates to the departments will be adjusted as needed to restore the fund balance to target level.

1. **Insurance Employee Benefits** 512-357005 Details financial activities related to accounting for employee unemployment benefits.

This fund was established to maintain a reserve for future rate increases. Resources may be used to offset an Oregon Public Employees Retirement System (PERS) rate increase or to make a lump sum payment to PERS to reduce Washington County's unfunded liability.

The Board of Commissioners created this fund to accumulate resources to partially offset future PERS rate increases.

**Budget Analysis**

Total Resources increase \$14,500 (0%). Total Requirements, excluding Contingency, increase \$356,146 (0%). Contingency decreases \$350,993 (100%). Beginning fund balance decreases \$9,347 (3%).

In FY 2019-20, Washington County established a PERS side account for \$14.5 million to offset the increasing PERS employer rates. This investment is partially funded by the \$6.8 million set aside from the PERS Employer Rate Stabilization Fund and an \$8.2 million transfer from the General Fund. This investment provided PERS employer rate savings of approximately \$1 million per year during the 2019-2021 biennium; and it is expected to gradually grow to nearly \$1.9 million per year during the 2035-2037 biennium. During this period (FY 2019-20 to FY 2036-37), the cumulative rate reduction is estimated to be nearly \$26 million. The Special Funds portion of the \$8.2 million investment is being charged through payroll to return to General Fund.

The beginning fund balance for FY 2024-25 is \$341,646 and is expected to remain in this fund until the County's next PERS investment.

1. **Revenue Stabilization 105-166005** \*This program was closed on June 30, 2024.

The fund balance in this fund is considered the General Fund Reserve and is a portion of the General Fund's fund balance for the fund balance target calculation.

# Building Equipment Replacement 232-3555

# Budget Detail

This fund provides resources for systematic replacement of various building and equipment components of the County's buildings.

## Budget Analysis

Total Resources decrease \$160,202 (3%). Total Requirements, excluding Contingency, increase \$2,816,988 (20%). Contingency increases \$833,111 (51%). Beginning fund balance increases \$3,810,301 (36%).

Building equipment replacement revenues are generated as a Cost Allocation Plan (CAP) function based on the square footage of County-owned buildings. FY 2024-25 Total Resources are lower than the prior fiscal year. Interest-earning are not budgeted, however any earnings realized will offset new CAP expenses.

Due to resource capacity issues resulting from long-term Project Manager vacancies, the proposed increase in appropriations is the result of the carry-forward of incomplete projects still in process, the timing of peak construction for construction projects, and the addition of projects intended to prevent interruption to service delivery countywide. The proposed budget will provide for a robust schedule of heating, ventilation, and air conditioning (HVAC) maintenance, urgent roof replacements, plumbing restoration, and other building system repairs at various buildings within the County portfolio.

<b>Contingency</b>		<b>2,451,544</b>
<b>Total</b>		<b>\$ 19,080,483</b>

This fund provides funding for systematic replacement of key information technology assets.

**Budget Analysis**

Total Resources increase \$204,602 (17%). Total Requirements, excluding Contingency, increase \$355,188 (36%). Contingency increases \$71,982 (12%). Beginning fund balance increases \$222,568 (62%).

The Total Resources increase reflects the impact of major funding model changes to the two programs (ITS Computer Replacement and ITS Systems Replacement) within ITS Systems Replacement Fund (fund 242) for FY 2024-25.

Starting in FY 2024-25, a new funding model for the ITS Computer Replacement Program was created and the program will bring in an additional \$1,355,188 in revenues. This new program is intended to provide funding stability for computer lifecycle replacement countywide. The funding model for this program is an annual direct charge to departments to fund the replacement of deployed computers on a four-year lifecycle for laptops and five-year lifecycle for desktops. For FY 2024-25, the program total expenditures are budgeted at the full amount of \$1,355,188 to address the deferred maintenance needs due to the FY 2023-24 one-time ITS Systems Replacement Fund budget reduction. Usually, the difference between total revenues and total expenditures is budgeted as the program contingency and reserves for future computer replacement needs. However, since the revenues and expenditures will be same, there is no contingency budgeted for this program in FY 2024-25.

Total Resources for the ITS Systems Replacement Program is calculated based on the depreciation schedule of the Oracle Fixed Asset System and is charged through the County's Cost Allocation Plan (CAP).

Through FY 2023-24, Operating Transfers In and Operating Transfers Out have been budgeted at approximately \$1.0 million respectively, reflecting the computer replacement activities. Because of the recent changes in the CAP, beginning this fiscal year the computer replacement revenues are reflected under Charges for Services, and the expenditures under Materials & Services.

**Key Issues**

The recent change in the countywide CAP model has created a significant funding gap for the ITS Systems Replacement Program. ITS Department will need to revise its funding model to meet the overall need, which is estimated at \$3.0 million, with \$1.5 million required annually for replacement projects. Currently, the program is severely underfunded and cannot support future replacement needs. To address this, the ITS Department is planning to implement a new funding model for countywide IT infrastructure. In the meantime, ITS will rebalance Total Resources and the Contingency within the ITS Capital Fund to temporarily cover the gap until the new model is in place.

## Programs

1. **ITS Systems Replacement 242-352605** This program provides financial activities related to funds held in reserve for technology systems replacement.
2. **ITS Computer Replacement 242-352650** This program accounts for financial activities related to funds held in reserve for personal computer lifecycle replacement.

This fund provides for the purchase and disposition of fleet vehicles and equipment. Replacement costs are billed to other departments at an amount estimated to cover depreciation.

**Budget Analysis**

Total Resources decrease \$591,119 (7%). Total Requirements, excluding Contingency, increase \$1,275,346 (12%). Contingency decreases \$464,767 (3%). Beginning fund balance increases \$1,401,698 (8%).

Estimated contingency will decrease by 3% and is available to fund future replacements of the County Fleet. The activity level in this fund typically fluctuates from year to year due to variations in the replacement cycles of the vehicles and equipment represented in the fund as well as variations in the acquisition and resale value of the fleet.

The list of vehicles and equipment scheduled for replacement, as well as proposed BDP upgrades and additions are attached.

**Key Issues**

Vehicle production has been 180 to 300 days across all manufacturers and has delayed replacements & additions to the fleet. Accelerated inflation has continued to drive vehicle and equipment cost up by 7% to 20%.

**Total Budget**

# General Fund Transfers 100-1670

# Budget Detail

This fund accounts for transfers to special funds such as Community Corrections, Human Services, Aging Services, Debt Service, and Capital Projects. The fund also receives all of the discretionary revenues available for allocation by the Washington County Board of Commissioners including property taxes, interest earnings, indirect cost charge receipts, liquor and cigarette tax distributions, and timber receipts.

## Budget Analysis

Total Resources increase \$9,133,910 (4%). Total Requirements increase \$12,785,109 (13%). Beginning fund balance increases \$10,415,749 (31%).

Total Resources are budgeted based on the following:

- \* Taxes revenue: Projected normal increases in assessed values and new home construction; additionally Transient Lodging Taxes were moved out of General Fund to a Tourism Dedicated Lodging Tax Fund (fund 240);
- \* Recording Fees revenues decrease due to a decrease in real estate transactions;
- \* Operating Transfers In increase primarily due to the transfer from the Strategic Investment Program (SIP) to cover several one-time improvements across the county, partially offset by the elimination of Transfers-In from the County's Cost Allocation Plan as internal service functions converted to their own funds last fiscal year. SIP revenue is considered discretionary (part of General Fund), and the transfer provides additional funding to support to General Fund operations.

Total requirements increase due entirely to increases noted in the Operating Transfers Out table shown below.

This fund was created as result of House Bill 3188 which was passed during the 2011 legislative session. This bill requires counties to deposit lottery monies into a dedicated fund. Video lottery revenue is received by each county from the State of Oregon as a transfer from the Oregon State Lottery fund. Lottery program revenues will be used to support projects, services, organizations, and staff furthering economic development.

**Budget Analysis**

Total Resources increase \$14,000 (0%). Total Requirements increase \$14,000 (0%).

Total Resources increase based on current projections from the Oregon State Revenue Forecast, recent experience, and actual receipts.

Total Requirements change to align with prioritized internal transfers and the addition of new line-items to this fund. Most prominently, funding for the Tualatin Valley Creates and Regional Arts and Culture Council (RACC) are moved into this fund from the Community Network organization unit within the General Fund (100-1696) and are reduced. Funding within the Research and Development and Capacity Building categories are reduced. Continued funding includes \$200K to extend the WorkSystems Inc. (WSI) pre-apprenticeship/construction contract.

County staff reviewed the Lottery fund's (156) expenditures with to try and align them with the County's Economic Development goals and performance-driven contracting strategies. In addition, this year County staff aligned the Economic Development Program funding area by grouping individual expenditures into three focus areas: Research & Development, Capacity Building, and Workforce Development.

**Programs**

1. **Lottery (156-162505)** Provides financial accounting for lottery proceeds which are used to support economic development activities within Washington County.

This fund accounts for revenue associated with the Strategic Investment Program (SIP) agreements. This revenue source has been in place since the legislature first enacted SIP legislation in 1993 and is comprised of payments from companies receiving property tax exemptions under the state's Strategic Investment Plan. The purpose of the SIP is to promote economic development and create and retain jobs in areas where eligible projects are located. A company can apply for a property tax exemption for qualifying projects that equal or exceed \$100 million for an urban area or \$25 million if the project is located in a rural area.

The County has three active SIP agreements: 1) a 2006 agreement with Genentech (2010-25); 2) a 2005 agreement with Intel (2010-25); and, 3) a 2014 agreement with Intel. Both the 2005 Intel and 2006 Genentech SIP agreements cover a 15-year period. The 2014 Intel SIP is a 30-year (2017-46) agreement with multiple investment packages each covering a 15-year period. The first 15-year investment package (2014A) commenced in 2016 with program revenues first received in FY 2017-18.

**Budget Analysis**

Total Resources increase \$19,736,831 (44%). Total Requirements, excluding Contingency, increase \$35,299,681 (100%). Contingency increases \$19,586,736 (79%). Beginning fund balance increases \$35,149,586 (233%).

Strategic Investment Program (SIP) revenues are discretionary and considered part of the General Fund. Total Resources increase due to new projections in value.

Total Requirements increase due to a increase to cover several one-time improvements in General Fund operations. The difference is put to Contingency. Contingency is the projected ending fund balance and is considered a portion of the General Fund's fund balance for the fund balance target calculation.

**Programs**

1. **SIP Program Expenditures (204-164005)** This program was created eff FY 2024-25 to consolidate all SIP program Total Requirements in one program. Total Resources will still be distinguished by agreement.
2. **2006 Genentech SIP (204-164010)** Provides financial accounting for proceeds and payments related to the Genentech SIP.

- 
3. **2005 Intel SIP** (204-164015) Provides financial accounting for proceeds and payments related to the 2005 Intel SIP.
  4. **Gain Share** (204-164025) Closed 6/30/2023
  5. **2014A Intel** (204-164030) Provides financial accounting for proceeds and payments related to the 2014A Intel SIP.
  6. **SIP Administration** (204-164035) Interest earnings and capital outlay will be tracked in this program. SIP revenue will be received in the following programs: a) 2006 Genentech SIP (204-164010) covers the 15-year period from 2010-24, b) 2005 Intel SIP (204-164015) covers the 15-year period from 2010-24 and c) 2014A Intel SIP (204-164030) covers the period from 2017-31. Prior to 2017-18 all SIP revenue was transferred to the General Fund.

The 2007 the Oregon State Legislature approved the Gain Share program. Its purpose is to enable eligible local governments to share in the state income tax revenues generated from jobs created under Strategic Initiative Program (SIP) agreements (fund 204). The Gain Share program initially returned 50% of the state income tax revenue attributed to SIP project employment to taxing jurisdictions with such agreements.

In June 2015 the Oregon State Legislature passed SB 129 with the following modifications for these programs:  
 \*Distinguished that the 50% local share of applicable state income taxes is to be from new employment only, and the local share from retained SIP project employment is set at 20%.

\*Set a \$16 million annual cap on the amount counties may receive each fiscal year and extended the program from 2019 to 2024.

\*Changed the allocation mechanism from a separate shared services fund to a direct allocation by the Oregon Department of Revenue. Future allocations are subject to legislative modification.

In 2023 the Oregon State Legislature passed HB 2009 which extended the sunset clause for these programs to June 30, 2030.

In FY 2016-17 the County issued Full Faith & Credit obligations backed by the future receipt of Gain Share revenue from the state through 2024. These Gain Share monies have been transferred to the Miscellaneous Debt Service fund (fund 306).

In FY 2017-18 the County separated the Gain Share program from the SIP fund (204) in order to account for payments made in accordance with the Board of County Commissioners' (BCC) approved spending plan. Gain Share monies were prioritized by the BCC for the County Event Center and for future facilities capital projects.

**Budget Analysis**

Total Resources decrease \$72,313 (1%). Total Requirements, excluding Contingency, increase \$2,901,785 (33%). Contingency decreases \$2,466,145 (57%). Beginning fund balance increases \$507,953 (13%).

Total Resources for FY 2024-25 are mostly flat whereas Total Requirements include an additional \$3 million towards debt transfers.

1. **Gain Share (205-164025)** The Gain Share Program accounts for all proceeds and payments related to SIP Program agreements.

\*This fund was closed on June 30, 2024 after County Internal Service Funds were created.

This fund served as a pass-through fund for the Countywide Cost Allocation Plan (CAP). It accounted for the indirect costs that are allocated to and recovered from operating departments in connection with the Countywide Cost Allocation Plan (CAP). Monies received in this fund were in turn expended as reimbursements to the fund or cost center that provided the service.

**Programs**

1. **Indirect Cost Recovery (222-359505)** \*This program was closed on June 30, 2024.

Provided financial accounting for the collection of indirect costs that are recovered through the CAP.

# Service Districts

Enhanced Sheriff's Patrol District (ESPD) .....210-1680  
 Urban Road Maintenance District (URMD) .....214-6080  
 North Bethany County Service District for Roads .....215-6085  
 Service District for Lighting No. 1 (SDL No. 1) .....434-6090

*This page intentionally left blank*

**Enhanced Sheriff's Patrol District**

*How does this budget scenario advance the County's equity and inclusion priorities?*

The proposed budget increases District Patrol Law Enforcement Services by \$158,965. The increase provides funding for one additional deputy position based on Washington County population and local option levy planning.

*How does this budget scenario negatively or positively impact our goals of (a.) Civil Rights Act compliance and language access and/or (b.) recruitment and retention of bilingual and BIPOC staff?*

This proposed budget would advance the County's equity and inclusion priorities of recruitment and retention of BIPOC and bilingual staff, Civil Rights Act compliance and language access. As a law enforcement agency, the Sheriff's Office considers it crucial that recruitment and retention of employees results in staff who mirrors the community served.

*How does this budget scenario provide mitigations for any negative impacts?*

The Sheriff's Office does not foresee any negative impacts due to the proposed budget.

*Do you foresee any unintended consequences and potential ways to mitigate?*

The Sheriff's Office does not foresee any unintended consequences of this proposed budget.

**Urban Road Maintenance District; North Bethany County Service District for Roads**

*How does this budget scenario advance the County's equity and inclusion priorities?*

This proposed budget would advance the County's equity and inclusion priorities by funding programs and projects that help facilitate reasonably safe transportation access connecting community members with jobs, goods and services whether driving, walking, biking or accessing transit.

Many underserved community members live in areas where transit and non-motorized modes of transportation are unavailable, infrequent, impractical or inaccessible. The District works to maintain and improve safety and quality of life for the community through services such as maintaining streets within the urban unincorporated area, including striping, stormwater drainage and other transportation infrastructure.

This budget would provide resources needed for translation and language access services. The District is also implementing updated procurement guidelines to assist COBID-certified contractors to provide quotes or bid on projects and services.

*How does this budget scenario negatively or positively impact our goals of (a.) Civil Rights Act compliance and language access and/or (b.) recruitment and retention of bilingual and BIPOC staff?*

First note that URMD is a county service district that does not have any staff. District administration and services are provided by the Department of Land Use & Transportation's Operations and Maintenance Division.

This proposed budget would positively impact the County's goals of Civil Rights Act compliance, language access, and/or recruitment and retention of bilingual and BIPOC staff by funding language access and translation services, and by fully funding all Operations staff positions. This in turn would allow the program to retain and recruit bilingual and/or BIPOC staff to fill vacancies. The Operations and Maintenance Division has increased its recruitment outreach with an emphasis on women and Latino/Latina community members during job fairs and other recruiting events.

This proposed budget would also fund the District's work to improve pedestrian accessibility in District-managed rights-of-way through curb ramp replacements and related transportation accessibility improvements.

*How does this budget scenario provide mitigations for any negative impacts?*

There are no known negative equity and inclusion impacts to mitigate.

*Do you foresee any unintended consequences and potential ways to mitigate?*

Staff does not foresee any unintended equity and inclusion consequences of this proposed budget.

## **Service District for Lighting**

*How does this budget scenario advance the County's equity and inclusion priorities?*

This proposed budget advances the County's equity and inclusion priorities by providing access to translation and interpretation services as needed.

*How does this budget scenario negatively or positively impact our goals of (a.) Civil Rights Act compliance and language access and/or (b.) recruitment and retention of bilingual and BIPOC staff?*

This proposed budget positively impacts the County's goal of Civil Rights Act compliance and language access by providing resources for translation and language access services as needed. There is no staff in this program.

*How does this budget scenario provide mitigations for any negative impacts?*

There are no known negative equity and inclusion impacts to mitigate.

*Do you foresee any unintended consequences and potential ways to mitigate?*

Staff does not foresee any unintended consequences of this proposed budget.

# SERVICE DISTRICTS

# BUDGET OVERVIEW

Special district governments provide specific services that are not being supplied by existing general purpose governments. Most perform a single function, but in some instances, their enabling legislation allows them to provide several, usually related services.

## *Requirements by Service District*

# Enhanced Sheriff's Patrol District (ESPD) 210-1680

# Budget Detail

The Enhanced Sheriff's Patrol District (ESPD) is a separate government jurisdiction. Through a local option levy passed by voters, the Sheriff's Office provides extra law enforcement services within the urban unincorporated areas of Washington County, denoted as the ESPD. In May, 2022, voters approved an increase in the levy rate from \$0.64 to \$0.83 per \$1,000 of assessed value per year. It supplements the District's permanent tax rate of \$.64 per \$1,000 of assessed value to provide a total of \$1.47 per \$1,000 of assessed value per year to fund enhanced patrol services.

## Budget Analysis

Total Resources increase \$1,924,721 (5%). Total Requirements, excluding Contingency, increase \$1,180,071 (3%). Contingency increases \$2,483,285 (17%). Beginning fund balance increases \$1,738,635 (11%).

Total Resources increase based on projected increases in the assessed values and standard growth estimates.

Materials & Services increase due to funds transferred to District Patrol organization units to support law enforcement services in the ESPD as well as fund the replacement of 26 end-of-life patrol vehicles.

Contingency is available for cash flow between July and November tax receipts for unanticipated future needs and stability of service levels.

**Programs**

1. **Enhanced Sheriff's Patrol District (210-168005)** This organization unit exists for the purpose of housing property tax revenues for the District and to disperse funds for ESPD operations.
2. **Public Outreach (210-168010)** This program tracks all costs related to providing information to the public in preparation of an election.

The Urban Road Maintenance District (URMD) provides an enhanced level of road maintenance services including neighborhood street traffic calming on all access roads and all Washington County roads except arterials and collectors in the urban unincorporated areas of the County.

**Budget Analysis**

Total Resources increase \$985,976 (17%). Total Requirements, excluding Contingency, increase \$508,229 (4%). Contingency increases \$672,175 (14%). Beginning fund balance increases \$194,428 (2%).

This fund allows URMD to reimburse Operations and Maintenance and Capital Project Services staff for the work they perform within the URMD as well as for service requests.

Property tax revenues for the URMD are increasing at normal rates based on assessed values, tax history, and projected collection rates. Also captured in revenue figures is estimated investment income of \$483,746 (contained with Miscellaneous resources) based on projected interest earnings on fund balances.

Total requirements increase for projects including Americans with Disabilities Act curb ramp improvements and pedestrian and bicycle safety Improvements.

No personnel are housed in this budget, so it has no increase or decrease in FTE. However, engineers, project managers, surveyors, and others in Operations and Capital Project Services support the work of various URMD and URMD Pedestrian and Bicycle improvement projects, and the time they dedicate to those projects appear in this budget.

**Key Issues**

The primary function of the Urban Road Maintenance District (URMD) is the maintenance of streets within the urban areas outside of cities, other than those roads designated as Arterials or Collectors in the Washington County Transportation System Plan. However, since the URMD Board of Directors (Board of County Commissioners) approved URMD Ordinance No. 3 in 2011, more than 50 URMD pedestrian and biking improvement projects have been funded using URMD property tax revenues that have not been needed to maintain target pavement conditions on URMD streets.

A combination of factors, including growth in URMD street miles due to development, increasing need and costs for street maintenance, and increasing costs for construction of previously approved pedestrian and biking improvements may necessitate a "pause" in making additional pedestrian and biking project funding allocations. The Department of Land Use & Transportation staff who administer URMD continue to assess future estimated URMD revenues, maintenance needs and costs to help evaluate the program's financial capacity to continue funding pedestrian and biking improvements in the future.

<b>Total Requirements</b>	<b>\$ 5,613,075</b>	<b>3,664,269</b>	<b>17,129,980</b>	<b>18,310,384</b>	<b>18,310,384</b>	<b>18,310,384</b>	<b>7%</b>

## Programs

- Urban Road Maintenance Improvement District (214-608005)** This organization unit manages property tax revenues for the District and the expenditure of funds for URMD maintenance and operations including pedestrian and biking (safety) projects and other improvement projects within the District.
- URMD Pedestrian and Biking Improvements (214-608010)** This program includes funds for planned public safety improvements on roads within the district.

The North Bethany County Service District for Roads (North Bethany CSDR) was approved by voters in the May 2011 election. The District has an authorized permanent property tax rate of up to \$1.25 per \$1,000 assessed value to pay for a portion of the cost to construct roads to serve the North Bethany CSDR area. Additional funding is anticipated to come from a developer-paid supplemental system development charges, developer-paid transportation development taxes, and other transportation funds.

### ***Budget Analysis***

Total Resources increase \$795,861 (29%). Total Requirements, excluding Contingency, decrease \$9,522,352 (51%). Contingency increases \$12,064,861 (0%). Beginning fund balance increases \$1,746,648 (11%).

Current property tax revenues increase as new development continues within the North Bethany CSDR.

As we near build-out of the available land development, Operating Transfers-In from the North Bethany System Development Charge Fund and from the Transportation Development Tax Fund will be used to assist with design and construction on Project #100709 - Kaiser (Springville-Brugger), as well as design and construction work to continue on Project #100461 Springville Road (Joss to Portland Community College (PCC) entrance) and to provide flexibility in addressing future priority transportation projects within North Bethany.

Materials and Services saw a substantial reduction as we moved the obligated and unobligated reserve to Contingency. Materials and Services now more accurately reflect anticipated costs Project #100709 - Kaiser (Springville-Brugger) and Project #100461 Springville Road (Joss to PCC entrance), which has increased in cost, requiring an additional \$4.2M budgeted in Materials and Services this fiscal year.

Contingency contains obligated reserves for Project #100709 - Kaiser (Springville-Brugger) and Project #100461 Springville Road (Joss to PCC entrance) to be used in future fiscal years. Also included is \$629,121 in unobligated reserves.

Interdepartmental expenditures increase to reflect staff time estimates on the current projects being built and designed in this fund.

### ***Key Issues***

The North Bethany County Service District for Roads was established as part of a larger funding strategy to provide needed transportation improvements in the District as development occurs. Property tax revenues levied by the District are expected to increase as development activity continues in the North Bethany community. An \$800K transfer from the Transportation Development Tax Fund and a \$794K transfer from North Bethany Systems Development Fund are budgeted for construction of projects within the district.

North Bethany County  
 Service District for Roads 215-6085

**Programs**

1. **North Bethany County Service District (215-608505)** This program exists for the purpose of managing property tax revenues for the North Bethany CSDR and to expend funds for road construction activities.

# Service District for Lighting No. 1 (SDL No. 1) 434-6090

# Budget Detail

The Service District for Lighting No.1 (SDL No.1) provides neighborhood street lighting services when required for new development, as well as when requested and approved by the District's Board of Directors. SDL No. 1 services are provided to community members within the urban unincorporated areas of Washington County and operates on a fee-for-service basis. District assessments are collected along with the property taxes for each property that benefits from SDL No. 1 services.

## Budget Analysis

Total Resources increase \$240,238 (9%). Total Requirements, excluding Contingency, increase \$171,949 (7%). Contingency increases \$363,610 (40%). Beginning fund balance increases \$295,321 (45%).

The addition of new assessment areas increases revenues as they are collected. Rising electricity costs increases assessments slightly. The net increase is reflected in this budget.

Utility costs are projected to increase for FY 2024-25 based on rate information from Portland General Electric (PGE) and the addition of new service district assessment areas.

Interdepartmental charges for profession services increase slightly due to increases in staff costs associated with managing the program. This is offset by the project completion related to interdepartmental - ITS capital charges resulting in an overall decrease of 9% in Interdepartmental expenditures.

The Contingency increases due to the proposed assessment increase, ensuring adequate funds to cover ongoing program expenses until the district assessments are billed and collected with property tax payments in mid-November.

<sup>(1)</sup>Actual AV (assessed value) is released by Assessment and Taxation in October of each year.

<sup>(2)</sup>The ESPD local option levy was a dollar vs. rate levy; the *actual* rate/\$1,000 AV is determined when the *actual* AV is calculated, typically early October of each year. The above shows the *actual* calculated rate and taxes levy per the annual Summary of Assessment and Tax Roll for prior years, and an *estimated* rate calculated from the *estimated* AV for the upcoming budget year. From 2003-04 through 2007-08 the levy was \$6,150,000 each year; from 2008-09 through 2012-13 the levy is \$9,500,000.

In November 2012 voters approved the change from dollar based to rate base of \$0.68 local option rate levy. The new levy period is 2013-18.

A new levy passed May 2017 with the \$0.68 rate. The new levy period is July 2018- June 2023.

<sup>(3)</sup>Voters approved a renewal of the public safety local option levy in November 2006; the levy covers the 4-year period July 1, 2007 - June 30, 2011.

<sup>(4)</sup>Voters approved the WCCLS local option levy in November 2006; the levy covers the 4-year period July 1, 2007 - June 30, 2011.

Voters approved a 5-year renewal of both the public safety and WCCLS local option levies; July 1, 2011 - June 30, 2016 is the levy period.

Voters approved a 5-year renewal of the public safety levy and a \$0.22 WCCLS local option levy; July 1, 2016 - June 30, 2021 is the levy period.

In May 2020, voters approved a 5-year renewal of the WCCLS local option levy of \$0.22 per thousand value and an increase for the Public Safety & Justice local option levy raising it to

<sup>(5)</sup>Voters originally approved the Criminal Justice Facilities bonds in September 1994 & were refinanced in October 2007; the bonds matured in Dec 2013. voters approved \$77 million in general obligation bonds for the emergency communications system (911); the bonds will be issued in July 2016 and ma

<sup>(6)</sup>Voters approved the formation of the district in May 2011.

## ADMINISTRATIVE POLICIES

<b>SECTION:</b> 400	<b>POLICY#:</b> 404
<b>TITLE:</b> Budget Policy	<b>R &amp; O #:</b> 21-49
	<b>IMPLEMENTED BY PROCEDURE #:</b>
<b>SPONSORING DEPT/DIV:</b> Support Services / Finance	
<b>ADOPTED:</b> 4/16/2019, <b>Amended 4/20/21</b>	<b>REVIEWED:</b> 4/6/2021

1. **PURPOSE:** The purpose of this policy is to establish a framework for the development and administration of the annual budget process.
2. **AUTHORITY:** ORS 294.305-565 (Oregon Budget Law) and County Charter.
3. **ANNUAL POLICY REVIEW:** This policy shall be reviewed by the Support Services, Finance division annually and updated as necessary.
4. **BUDGET POLICY OVERVIEW:** The County Strategic Plan provides the framework for budget preparation in terms of services, funding mechanisms and priorities for the allocation of discretionary resources. The Plan emphasizes the allocation of General Fund resources toward programs that provide a Countywide benefit. Consistent with past practices, the budget focuses on long-term stability for core services and maintaining an ending fund balance consistent with this policy.
5. **BUDGET PERIOD**  
Washington County develops and adopts its budget annually. The County’s fiscal year begins July 1st and ends June 30th.
6. **BASIS OF ACCOUNTING**  
Local governments are required by ORS 294.445 to maintain accounting records by fund, using a cash, modified accrual, or accrual basis of accounting. Washington County uses a modified accrual basis of accounting for budget purpose.

## 7. BUDGET CONTROLS AND COMPLIANCE

- a. Legal compliance: The County budget process complies with Oregon Local Budget Law (ORS 294.305-565). Expenditure appropriations are a legal limit on the amount of expenditures that can be made during the fiscal year and are adopted at the organization unit level by the Board of Commissioners. Per statute, actual year-end expenditures cannot exceed appropriations for each organization unit.
- b. Administrative compliance: Administrative compliance is monitored at the fund, organization unit, program, expenditure category and line-item level by the Finance Division and department/office staff.

## 8. BUDGET COMMITTEE APPROVAL AND BOARD ADOPTION

- a. The Washington County budget process includes the engagement of three distinct Budget Committees, each consisting of ten members (five community representatives and five Board of Commissioner members):
  - Washington County and Service District for Lighting No. 1
  - North Bethany County Service District for Roads
  - Enhanced Sheriff Patrol District (ESPD) and the Urban Road Maintenance District (URMD)
- b. The annual Budget Committee process minimally includes the following elements:
  - Electronic version of the Proposed Budget made available to the Budget Committees and public a minimum of 7 days prior to the first Budget Committee meeting
    - i. First Budget Committee Meeting: Budget Transmittal to the respective Budget Committees with staff presentation and Budget Committee questions. A separate evening meeting will be held for each budget committee.
    - ii. Second Budget Committee Meeting: Public Hearing for the respective budgets. Upon conclusion of public hearing, Budget Committee approves the proposed budget (becomes the Approved Budget). A separate evening meeting will be held for each budget committee.
- c. Board of Commissioner Public Hearing and Budget Adoption (typically third Tuesday in June). This is a daytime regular Board of Commissioner meeting.

## 9. BUDGET CHANGES AFTER ADOPTION

Oregon Budget law provides methods to increase or decrease or transfer from one appropriation category to another; and to adjust the budget when new appropriation authority is required. Such budget changes require the approval of the Board of Commissioners and depending on the type of change, a public hearing. The County Administrator may recommend modifications when appropriate to continue effective operations, provide adequate service levels, achieve cost savings or cost avoidance, and implement Board priorities.

## 10. GENERAL FUND

- a. Budget development general guidance:
  - i. General Fund budget should be developed with the goals of maintaining service levels and reflecting the County's strategic plan and priorities. Maintaining service levels should be considering: 1) community and client growth factors, 2) changes in inflation, cost of living, cost of employee benefits, etc.
  - ii. Budget development should start with the existing level of staffing and contracted obligations with modifications reflecting the County's budget priorities for the new fiscal year. Options to increase efficiency and reduce costs must be considered throughout budget development. Management should evaluate all options including process streamlining, utilizing technology and other appropriate efficiency tools with the goal of providing same level of services with the least amount of resource possible.
  - iii. Budget requests for additional service areas or elevated level of services should always reflect the County's long-term strategies and short-term priorities. Requests for new Full Time Equivalents (FTE) should include all direct and indirect costs to support these positions.
- b. Revenue Projections: Revenue projections shall be budgeted based on the best information available at the time the budget is prepared. The projection should be conducted with reasonable conservatism.
- c. New Revenue Sources: Departments will continue to pursue additional revenue sources where appropriate and feasible.
- d. Expenditure Reductions: An expenditure reduction may be required in the event of diminishing departmental revenues, declining fund balance, new Board priorities, or other factors that would make an expenditure reduction appropriate.
- e. Programs Previously Supported by Serial Levies: Prior to the passage of Ballot Measures 47 and 50, the Washington County Cooperative Library System (WCCLS) and Major Streets Transportation Improvement Program (MSTIP), were supported by revenues from dedicated serial levies. Measure 50 eliminated these levies by combining them with the County permanent tax rate. The annual transfer to WCCLS and MSTIP will be adjusted by the percentage change in assessed value and assumed collection rates on property taxes. These are not considered General Fund programs and the amounts transferred to the respective funds are not included in the General Fund's Fund Balance Percentage calculation.

## 11. SPECIAL FUNDS

- a. Special fund staffing levels must be commensurate to available resources and approved service levels. Requests for additional positions funded by dedicated resources will be reviewed on a case-by-case basis along with the sustainability of the revenue source.

- b. Revenue estimates will be based on the best information available at the time the budget is prepared.
- c. Special funds will continue to pursue new revenue sources where appropriate and feasible.
- d. Expenditure Reductions: An expenditure reduction may be required in the event of diminishing departmental revenues, declining fund balance, new Board priorities, or other factors that would make an expenditure reduction appropriate.
- e. General Fund transfers will be based on historical levels, unless otherwise recommended by the County Administrative Office.

## 12. STATE PROGRAMS

- a. Current state funding: State programs operated by the County will generally reflect the level of service attainable given the amount of funding provided. If state funding is reduced, there will be no increase in County General Fund resources unless mandated or approved by the Board of Commissioners. When an increase is required, the department will make every effort to minimize the increase by considering alternate service delivery systems, and/or a return of the program to the state.
- b. New state funding: New or increased state funding for existing or proposed programs will be considered based on local needs and requirements placed on the County by accepting the funding. The ability of the state to commit to long-term funding that meets the County's full cost requirements will be an important consideration in any decision to accept additional funding for expansion of existing programs and/or initiation of new programs.
- c. System balance: This policy is not intended to preclude the use of County resources when the Board determines it necessary to provide a balanced service delivery system or meet other Board policies and priorities.

## 13. LOCAL OPTION LEVIES

Local option levies are considered a special revenue funding (special fund) source and expenditures must conform with the language approved by the voters.

## 14. INTERNAL COST RECOVERY

To clearly define the true cost of each direct service the County prepares a cost allocation plan. Departments provide input and review the annual plan. A separate cost allocation plan is prepared for federal grant compliance purposes.

## 15. LOBBYING AND GRANT APPLICATIONS

- a. Approval to pursue: County Administrative Office (CAO) approval is required before appointed County representatives and employees pursue lobbying efforts on matters having budget implications, and before grant applications are submitted to the granting agency.

Elected department heads should advise the County Administrative Office before official positions are taken on matters that might affect the County's budget or financial status. Board approval is required to accept grants of \$100,000 or more.

- b. In-kind contribution: Where matching funds are required for grant purposes, the priority is to use as much "in-kind" contributions as allowed rather than hard-dollar matches.

**16. CONTRIBUTIONS TO OUTSIDE AGENCIES**

Funding to Outside Agencies will be considered by the Budget Committee/Board if adequate resources are available, the use of funds for this purpose will not adversely impact County programs, and the allocation of resources is consistent with Board policies and priorities. Consideration of funding requests from an outside agency requires the submittal of written justification in advance of the budget hearings.

# READER'S GUIDE

## ORGANIZATION OF THE BUDGET DOCUMENT

A budget, as defined by Oregon state law, is a “financial plan containing estimates of revenues and expenditures for a single fiscal year.” Local governments have the option of budgeting on a 24-month biennial period, or by fiscal year.

Washington County operates, and budgets, on a fiscal year beginning July 1 and ending the following June 30. Budgeting requires local governments to evaluate plans and priorities in light of the financial resources available to meet those needs.

The County budget is organized based on the following hierarchy:

- Functional Area
- Fund
- Organization Unit
- Program

Financial Table Example:

### Total Budget

	Actuals 2021-22	Actuals 2022-23	Modified 2023-24	Proposed 2024-25	Approved 2024-25	Adopted 2024-25	Change %
<b>Resources</b>

This Budget Summary document is divided into sections as follows:

### County Organization

#### Budget Message

The County organization documents the Commissioner Districts, budget committees and organizational chart of the County. The County Administrator’s budget message contains information that assists the Budget Committee and the public in understanding the budget. State statute requires the budget message to contain a brief description of the financial policies reflected in the budget as well as proposed changes from the prior year’s budget and any major changes. Key Initiative & Issues highlight areas of specific concern and are included in this section.

#### Budget Overview

Summary information includes an overview of the County budget, General Fund overview and discretionary revenue information.

#### Operating Budget

This section includes those functional areas that provide services directly to the community or to another part of the County organization. These functional areas cover General Government; Public Safety & Justice; Land Use & Transportation; Housing, Health & Human Services; Culture, Education & Recreation; and Non-departmental. Budget Detail tables and analysis is included for each organization unit. All County employees are accounted for in the operating budget.

#### Capital Budget

Facilities & Technology, Transportation and Culture, Education & Recreation capital projects are included in the capital

# READER'S GUIDE

---

budget section.

## **Non-Operating Budget**

Includes Debt and Other Financing, Risk Management/Insurance, Replacement/Reserves and Miscellaneous. This budget accounts for those activities that provide internal support to the entire County organization.

## **Service Districts**

The Enhanced Sheriff Patrol District (ESPD), Urban Road Maintenance District (URMD), North Bethany County Service District for Roads (North Bethany CSDR) and Service District for Lighting No.1 (SDL No. 1) are all under the authority of the Board of County Commissioners.

## **Summary Schedules and Supplementary Information**

The Summary Schedules present the budget by category and fund for revenues, expenditures, full-time equivalent employees (FTE), assessed value & property taxes and debt outstanding as of July 1. The Supplementary Information includes the Budget Policy, County Strategic Plan Summary, Reader's Guide and Glossary.

## **BUDGET PROCESS**

The County's annual budget process is guided by Oregon's Local Budget Law which requires the following:

- An annual budget be adopted prior to the beginning of the fiscal year (July 1) to which it applies.
- There must be notification of public meetings when the budget will be discussed; and
- That there is opportunity for public input; and a summary of the budget must be published in a local newspaper prior to adoption.

## **Budget Calendar**

July – September	Finance drafts calendar; begins working on Cost Allocation Plan
October – February	Departments work on their budgets.
Mid February – Early April	County Administrative Office and departments review and analyze requested budgets
Mid April	Proposed budget documents are compiled and printed.
Late April – May	Budget Committee convenes for public meetings and approves the proposed budget.
June	Board of County Commissioner's considers adoption of the approved budget.
July	Adopted budget becomes effective.

## **Budget Committee**

A quorum of the Budget Committee (comprised of the Board of Commissioners and five lay (citizen) representatives must approve the levying of property taxes at the time the budget is approved, and the Board of Commissioners must do the same at the time of adoption. All Budget Committee meetings are open to the public and are advertised as such.

Advertisements of the public hearing prior to the Board of Commissioners adoption include a summary of the budget as approved by the Budget Committee.

## **Budget Basis**

Washington County's financial reports are prepared following the guidelines recommended by the Government Finance Officers Association (GFOA) of the United States and Canada. The proposed budget described herein substantially conforms to Generally Accepted Accounting Principles (GAAP). The County's budget is prepared under the modified basis of accounting.

Under the modified accrual basis of accounting, revenues are recorded at the time they become measurable and available, and expenditures are recognized at the time the liabilities are incurred.

For financial reporting purposes governmental fund types (general fund, special revenue funds, debt service funds and capital project funds) are accounted for on the modified accrual basis of accounting.

The accrual basis of accounting is used for financial reporting of proprietary fund types (internal service funds and enterprise funds) and for the government-wide financial statements required by the County's requirements. Under the accrual basis of accounting, revenues are recorded at the time they are earned, and expenditures are recorded at the time liabilities are incurred. The measurement focus of the proprietary funds is on the flow of economic resources. The difference between the methods used for budgetary versus financial reporting primarily affects the accounting for depreciation and capital outlay.

Expenditures are appropriated by organization unit for each fund. These appropriations establish the level of control for each

# READER'S GUIDE

---

organization unit and may not be over-expended. Most operating funds also include an appropriation for contingency. Expenditures cannot be made against this appropriation without additional Board actions (see Budget Adjustments below). All appropriations lapse at the end of each fiscal year.

## ***Budget Adjustments***

Oregon Local Budget Law sets forth procedures to be followed to amend the budget as events occur after budget adoption. The type of event determines the procedure to be followed.

The adopted budget appropriates contingencies in each operating fund to be used at the discretion of the governing body. In most cases adjustments can be accommodated by transferring appropriations from fund contingencies or from the General Fund to other funds. Oregon Local Budget law allows for the Board of Commissioners to make such adjustments at a regularly scheduled meeting. Should a transfer from contingency exceed 15% of total fund appropriations, or the County need to increase appropriations due to additional revenue, the law provides for the following two types of supplemental budget processes:

1. If the increase is less than 10% of the total fund expenditures, the Board of Commissioners may approve a resolution and order adopting the supplemental budget at a regularly scheduled meeting. Prior to the meeting, specific details of the supplemental budget must be published in a local newspaper.
2. If the increase is 10% or more of the total fund expenditures, the Board must first hold a public hearing prior to approving a resolution and order. Published notice of the supplemental budget and public hearing are required.

## ***Adopted and Modified Budget***

The analysis in the Budget Detail pages is prepared based on the proposed budgets for the upcoming fiscal year compared to the current fiscal year budget as modified for any Board approved budget adjustments through March.

*This page intentionally left blank*

# CITIZEN BOARDS AND COMMISSIONS

---

Serving on an appointed board, committee or commission is a great way to participate in decisions that affect you and to learn more about how your local government works. The County's boards and commissions play a variety of important roles in advising the Board of Commissioners on service priorities, how to distribute available resources, and how to improve our collaboration with other parts of the community. Some (for instance the Civil Service Commission and the Board of Property Tax Appeals) actually have a quasi-judicial authority to review decisions by the County government. Vacancies for the various boards and commissions listed below can always be found at <https://www.co.washington.or.us/CAO/BoardsCommissions/index.cfm> and are announced periodically by media release shared on the Board on County Commissioner's [website](#) and advertised in local newspapers.

## **Aging and Veteran Services Advisory Council**

Planning for future services and reviewing current programs are two key roles for these 19 volunteers (13 regular and 6 alternate members). Their community ties and personal or professional familiarity with issues facing seniors and veterans make them an invaluable resource for Washington County Disability, Aging & Veterans' Services and the Board of Commissioners. The Council advises the department on policy, programs, and actions affecting the delivery of services and generally serves as an advocate for veterans and the elderly.

## **Audit Committee**

Independent oversight is critical to the effectiveness of financial statement audits. The Audit Committee monitors audits of the County's finances, in the belief that access to knowledgeable individuals help prevent an excessive reliance on the expertise of the external auditor.

## **Behavioral Health Council**

The Behavioral Health Council advises the Behavioral Health Division, and identifies community needs, recommends funding priorities, and helps select and evaluate service providers. The County's emphasis on contracting with community agencies for social services makes the work of this volunteer advisory council critical.

## **Board of Property Tax Appeals**

State law established the Board of Property Tax Appeals to consider taxpayer petitions challenging real market value, maximum assessed, specially assessed and assessed value as determined by the County Assessor. The Board also considers requests to excuse penalties assessed for the late filing of real and personal property returns.

## **Civil Service Commission**

The Civil Service Commission is comprised of five volunteers, one from each of the Commissioner districts, who provide a third-party review of the County's employment practices. The Civil Service Commission is the appeal board for Washington County employees and candidates for employment. Employees and candidates for employment may appeal to the Civil Service Commission adverse personnel management decisions such as appointments, disciplinary actions and classification allocations. The Commission hears and decides appeals by employees and candidates for employment.

## **Columbia Pacific Economic Development District (Col-Pac)**

The Columbia-Pacific Economic Development District (Col-Pac) is a private non-profit organization established to assist in diversifying and strengthening the economy and livability of Northwest Oregon. The District covers all of Clatsop, Columbia, and Tillamook counties and the western part of Washington County (including Banks, Cornelius, Forest Grove, Gaston, and North Plains).

Col-Pac's mission is to promote and sustain healthy communities in the district through retention, diversification and expansion of the economic base. The goal is healthy and thriving communities. A strong and diversified economic base that provides family-wage jobs is a significant component and contributor to healthy communities. Col-Pac's economic development activities focus on blending the natural resource-based industries in the region with new economic development opportunities that historically have not been part of the area's economy.

# CITIZEN BOARDS AND COMMISSIONS

---

As an economic development district, Col-Pac provides capacity building, coordination and establishment of basic economic development foundation building tools for NW Oregon.

## **Developmental Disabilities Council**

The Council identifies community needs, recommends funding priorities, and helps select and evaluate service providers. The County's emphasis on contracting with community agencies for social services makes the work of this volunteer advisory council critical.

## **Enhanced Sheriff Patrol District/Urban Road Maintenance District Budget Committee (ESPD/URMD)**

Reviews the proposed budget developed for the Enhanced Sheriff's Patrol District and the Urban Road Maintenance District in unincorporated Washington County.

## **Enhanced Sheriff's Patrol District (ESPD) Advisory Committee**

The ESPD works with the Sheriff and other officials from the Sheriff's Office to review and offer recommendations regarding the level and type of police service in the ESPD and advises on strategic goals and direction.

Future considerations will be to review long-range opportunities for future enhanced law enforcement and community collaboration.

## **Fair Board**

The Fair Board's primary function is to oversee the planning, preparation and production of the County Fair. The Fair Board will develop both short- and long-term plans for the promotion and production of the County Fair and provide input to the County's Facilities Maintenance Plan of the Fairgrounds.

## **Fairgrounds Advisory Committee**

The Fairgrounds Advisory Committee provides input on the priorities and development of the Fairgrounds Master Plan, and other plans including: capital projects, maintenance, non-fair marketing and other strategic initiatives. As advocates, this committee works with local partners and the community at-large to communicate and encourage participation in Fairground developments.

## **Farm Board of Review**

The Farm Board of Review is an advisory panel to the County assessor. The Board meets every other year to inform the Assessor regarding farmland rents and other information pertaining to the valuation of farmland for property taxation as provided by Oregon law.

## **Garbage and Recycling Advisory Committee**

A coordinated countywide program intended to ensure the safe, economical and efficient collection, storage, transportation and disposal of garbage and recycling, and to ensure adequate standards of service for the garbage and recycling system. To assist the Board in achieving these objectives, the Board has appointed this advisory committee to make recommendations on garbage and recycling decisions and programs that impact all users of the garbage and recycling system.

## **Homeless Plan Advisory Committee (HPAC)**

The Homeless Plan Advisory Committee is comprised of members who have authority within their agency/jurisdiction to make policy and budget decisions that impact the community's housing and supportive services system. The Committee provides high-level oversight to the implementation of A Road Home: Community Plan to Prevent and End Homelessness, encourages collaborative partnership building, provides guidance to the annual work plan, works to create resources and funding, and promotes and sustains the vision and leadership of the Plan. The Committee advises the county Homeless Program Manager, the Director of Housing Services, the County Administrator, and the Board of County Commissioners.

## **Housing Advisory Committee (HAC)**

Providing affordable housing in Washington County is a formidable job. It is the mission of the HAC to advise the Housing Authority Board of Directors on housing goals policies, to review and recommend actions on the budgets of the Housing Authority, to advise

# CITIZEN BOARDS AND COMMISSIONS

---

regarding the community's needs for low-income housing, and to recommend resources and programs available to address those needs.

## **Housing Authority Board of Directors**

The Housing Authority of Washington County is the legal entity that owns properties; and the Department of Housing Services is the County agency that operates the programs, works with developers, and provides services to meet the housing needs of low-income people in Washington County.

Facing ongoing reductions in federal housing support, the Housing Authority of Washington County and Department of Housing Services will continue to expand their entrepreneurial approach to funding low-income and affordable housing in Washington County. Partnerships are a key to the success of this work.

## **Metzger Park Local Improvement District Advisory Board**

Maintains a proud tradition of overseeing the only park in the County supported through a Local Improvement District. The Board plans and helps with park maintenance needs, deals with the administrative issues involved in running an active urban park.

## **Mountain Creek Road Local Improvement District Citizens Advisory Board**

The Local Improvement District (LID) collects annual fee and provides for the ongoing maintenance of Mountain Creek Road, which is a rural public dedicated road. The role of the Citizens Advisory Board is to administer the LID, including determining where and how collected funds should be spent.

## **North Bethany County Service District for Roads Budget Committee**

Reviews the proposed budget developed for the North Bethany County Service District for Roads in unincorporated Washington County.

## **Northwest Area Commission on Transportation (NWACT)**

NWACT is an advisory body chartered by the Oregon Transportation Commission. NWACT addresses all aspects of transportation (surface, marine, air, and transportation safety) with primary focus on the state transportation system. NWACT considers regional and local transportation issues in northwest Oregon that affect the state system.

NWACT plays a key advisory role in the development of the Statewide Transportation Improvement Program (STIP), which schedules funded transportation projects. NWACT establishes a public process for area project selection priorities for the STIP. Through that process, they prioritize transportation problems and solutions and recommend projects in their area to be included in the STIP.

Boundaries include: The entirety of Columbia, Clatsop and Tillamook counties and the western portion of Washington County including the cities of Banks and Gaston. The Washington County area includes Highway 47 to the southern city limits of Gaston excluding the city of Forest Grove, the east on US 26 and including the Dersham Rd interchange.

## **Park and Recreation Advisory Board**

Provides advice on the maintenance, operations, and capital development needs of County parks, including Scoggins Valley Park / Henry Hagg Lake.

## **Planning Commission**

These nine appointed volunteers advise the Board of County Commissioners on technical land use and transportation planning issues. They conduct public hearings, make final decisions on some changes to land use plans, and convey recommendations to the Board on changes to the Comprehensive Plan, including the Community Development Code. Planning Commission meetings are scheduled twice a month, on the first Wednesday at 1:30 p.m. and the third Wednesday at 6:30 p.m., and typically run three hours. In addition, members are expected to dedicate about five to ten hours per month outside of these meetings to read and understand proposed ordinances and other materials provided by staff. Some knowledge of the Oregon land use planning system is helpful.

# CITIZEN BOARDS AND COMMISSIONS

---

## **Public Health Advisory Council**

The Washington County Public Health Advisory Council (PHAC) has been appointed by the Washington County Board of Commissioners to fulfill any federal and state-mandated responsibilities and to advise the Board of Commissioners in its role as the Board of Health for Washington County. The Washington County Public Health Advisory Council will make recommendations to the Board of Commissioners and the Public Health Division Manager to improve the health and well-being of everyone in Washington County.

## **Public Safety Coordinating Council (PSCC)**

The Public Safety Coordinating Council is a statutorily mandated committee convened by the Washington County Board of Commissioners for the purpose of developing and recommending plans for the use of state resources respective to the coordination of local criminal justice and juvenile justice policy. Collaborative planning provides a countywide approach to enhancing communication and partnership among law enforcement, public safety, criminal justice agencies and the residents of the Washington County community. The developed plans include strategies to address prevention, treatment, education, employment resources and intervention services. The Public Safety Coordinating Council supports an overarching coordinated approach to public safety by reviewing emerging and best practices in policy development, restorative justice, racial and ethnic disparities in the system and community collaboration programs that maximize resources and minimize duplication. The plans supported by the Public Safety Coordinating Council are referred to the Board of County Commissioners for final approval.

## **Rainbow Lane Special Road District Board**

The Rainbow Lane Special Road District was formed to provide a representing body that could make decisions regarding road maintenance issues on Rainbow Lane and Patricia Lane. These two roads are public roads, as opposed to County Roads, and are not eligible for gas tax and road fund expenditures, consequently their road maintenance must be funded by the adjoining and benefiting properties.

## **Rural Roads Operations and Maintenance Advisory Committee (RROMAC)**

RROMAC studies rural road operations and maintenance concerns in Washington County, works with County staff to develop program and funding alternatives and makes recommendations to the Board of County Commissioners.

## **Urban Road Maintenance District Advisory Committee (URMDAC)**

URMDAC advises the Board and staff on matters related to road maintenance provided by the Urban Road Maintenance District (URMD). URMDAC reviews and makes recommendations regarding URMD's level of service and annual work program, assists in evaluating the cost effectiveness and efficiency of URMD, assists in informing URMD activities and advises on continuation of URMD and/or other long-range funding opportunities for road maintenance.

## **Washington County and SDL No.1 Budget Committee**

Reviews the proposed County budget submitted by the budget officer each fiscal year.

## **Washington County Salary Commission**

In November of 2020 Washington County voters approved a change to the County Charter, establishing an independent salary commission. The voluntary Washington County Salary Commission will consist of five human resource professionals and one alternate who will determine of salaries for Washington County Board of Commissioners.

## **Washington County Sheriff's Office Latino Advisory Commission**

Latinos make up the largest ethnic group that have resided in Washington County the longest. They continue to be disproportionately overrepresented in policing enforcement, incarceration rates, and referrals to the juvenile justice system. The Advisory Commission is established to address these issues and to build trust between the Washington County Sheriff's Office and the Latino community. Establishing an ongoing partnership is an important step in meeting the public safety needs of the entire community.

## **West Slope Community Library Advisory Board**

# CITIZEN BOARDS AND COMMISSIONS

---

The Library Advisory Board supports library values including inclusion and access to library resources for all. We celebrate and champion the library within the community and provide feedback to the Director on a variety of matters.

# GLOSSARY

## COMMONLY USED TERMS

ACCOUNT	A classification of expenditure or revenue. Example: "postage" is an account in the Materials & Services category of expenditures.
AMERICANS WITH DISABILITIES ACT (ADA)	The Americans with Disabilities Act (ADA) prohibits discrimination on the basis of disability in employment, State and local government, public accommodations, commercial facilities, transportation, and telecommunications. The ADA recognizes and protects the civil rights of people with disabilities and is modeled after earlier landmark civil rights laws prohibiting discrimination on the basis of race and gender. ADA protects individuals with physical or mental impairments that substantially limits one or more major life activities, individuals who have a history or record of such an impairment, or individuals who are perceived by others as having such an impairment. ADA addresses access to the workplace (Title I), state and local government services, including public transportation (Title II), places of public accommodation and commercial facilities (Title III), and telecommunications (Title IV).
AD VALOREM TAX	Tax based on the assessed value of a property. Also see Assessed Value.
ADOPTED BUDGET	Approved legal spending plan for a fiscal year. In Washington County, the Board of Commissioners is responsible for adopting an approved budget.
APPROPRIATION	An authorization granted by a legislative body to spend public funds for specific purposes. An appropriation usually is time-limited and must be expended before the deadline.
APPROVED BUDGET	The budget is approved as a result of the Budget Committees' deliberations and is submitted to the Board of Commissioners for revision and adoption.
ASSESSED VALUATION	A valuation set upon real estate or other property by government as a basis for levying taxes.
BEGINNING FUND BALANCE	The amount in a particular fund that you start with at the beginning of the fiscal year. It represents the previous fiscal year's unspent funds carried forward; this includes reserves for future expenditures as well as any remaining contingency.
BUDGET	A plan of financial operation embodying an estimate of adopted resources and expenditures for a given year. The budget is the legal spending limit for county activities.
BUDGET COMMITTEE	Fiscal planning board of a local government, consisting of the governing body plus an equal number of legal voters from the County. The County has the following budget committees: Washington County/SDL No. 1, ESPD/URMD, and North Bethany CSDR.
BUDGET MESSAGE	Written explanation of the budget and the local government's financial priorities from the executive officer or chairman of the governing body.
BUDGET OFFICER	The budget officer, or the person or department designated by charter and acting as budget officer, shall prepare or supervise the preparation of the budget document. The budget officer shall act under the direction of the executive officer of the municipal corporation.
CAPITAL BUDGET	The County's budget for projects, major repairs and improvements or additions to the County's fixed assets (streets, sidewalks, roads, sewers, parks and buildings).
CAPITAL EXPENDITURES	An expenditure of high monetary value that results in the creation or revitalization of a fixed asset.
CAPITAL OUTLAY	Items which generally have a useful life of one or more years, such as machinery, land, furniture, equipment, or buildings. Items costing \$5,000 or more are included in the Capital Outlay expenditure category.
CAPITAL PROJECT	A program itemizing the County's acquisitions, additions, and improvements to fixed assets, including buildings, building improvements and land purchases.
CONSUMER PRICE INDEX (CPI)	The measure of the average change over time in prices paid by consumers for a market basket of consumer goods and services. <a href="https://www.bls.gov/cpi/">https://www.bls.gov/cpi/</a>
CONTINGENCY	A budgetary reserve set aside for emergencies or unforeseen expenditures not otherwise budgeted.
CONTRACTED SERVICES	Services rendered under contract by personnel who are not on the payroll of the jurisdiction, including all related expenses covered by the contract.
COST ACCOUNTING	Method of accounting which provides for the assembling and recording of all cost elements incurred to accomplish a purpose, carry on an activity or operation, or complete a unit of work or a specific job.
COST ALLOCATION PLAN	The process of recording the full cost in county services that directly service the community by allocating costs incurred by services that support the county organization (HR, Finance, ITS).

# GLOSSARY

COUNTY ELECTIONS OFFICER	County clerk or registrar of elections.
COUNTYWIDE PROGRAMS	Programs that benefit all areas of the County.
DEBT SERVICE	Interest and principal on outstanding bonds due and payable during the fiscal year.
DEBT SERVICE FUND	Established to account for the accumulation of resources and for the payment of general long-term debt principal and interest.
DELINQUENT TAXES	Taxes remaining unpaid on and after the date on which a penalty for nonpayment is attached. Even though the penalty may be subsequently waived, and a portion of the taxes may be abated or cancelled, the unpaid balances continue to be delinquent until abated, cancelled, paid or converted into tax liens.
DEPARTMENT	An organization device used by County management to group programs of like nature.
DEPARTMENTAL RESOURCES	Resources directly attributable to departmental efforts/activities or are otherwise required to be allocated to specific activities or purposes; also referred to as “dedicated” resources
DISCRETIONARY RESOURCES	The primary source of funds over which the governing body has options regarding the activities/purposes to which they are allocated. This spending is optional, in contrast to departmental resources or appropriations (expenditures).
DESIGN THE FUTURE	An initiative focusing on building a leading-edge, mission-focused organization that can better serve the community now and in the year ahead.
EARMARKED FUNDS	Revenues, such as a particular tax, designated by statute or constitution for specific purpose.
ENTERPRISE RESOURCE PLANNING (ERP)	An integrated technology system that connects business processes, people and technologies. ERP enables data-driven decision making, transparency and visibility throughout the Washing County organization.
EMPLOYEE BENEFITS & TAXES	Amounts paid on behalf of employees; these amounts are not included in their gross salary. They are fringe benefit payments, and, while not paid directly to employees, they are nevertheless a part of compensation. Examples are (1) group health or life insurance payments, (2) contributions to employee retirement, (3) social security taxes, and (4) workers compensation and unemployment insurance payments.
ENCUMBRANCE	Amount of money committed and set aside, but not yet expended, for the purchases of public goods or services.
ENHANCED SHERIFF’S PATROL DISTRICT (ESPD)	County service district formed under the provisions of Oregon Revised Statutes, Chapter 451, and first approved by the voters in the 1987-88 fiscal year. The district provides an enhanced level of sheriff patrol in the urban unincorporated area of the County and is funded by a \$0.6365 permanent tax rate and a \$0.83 Local Option Levy Rate. The District has its own board of directors (acting through the County Board of Commissioners).
EQUITY, DIVERSITY AND INCLUSION	The body of work, programs, policy reforms and other actions aimed at re-shaping communities and organizations so that race can no longer be used to predict life outcomes and outcomes for all groups are improved.
EQUITY RESOLUTION	Resolution and Order 20-30. Adopted unanimously by the Board of County Commissioners on February 25, 2020, that established an equity framework for the organization, including the creation of the Office of Equity, Inclusion and Community Engagement to be led by a Chief Equity Officer
EXPENDITURE	Designates the cost of goods delivered or services rendered whether paid or unpaid.
FEES	Charges for specific services levied by local government in connection with providing a service, permitting an activity, or imposing a fine or penalty. Major types of fees include business and non-business licenses, fines, and user charges.
FISCAL YEAR	Twelve-month period for which a budget is prepared. The County’s fiscal year is July 1 to June 30.
FIXED ASSET	An asset of a long-term character such as land, buildings, furniture, and other equipment with a unit value of \$5,000 or more.
FULL-TIME EQUIVALENT (FTE)	The ratio of time expended in a part-time position to that of a full-time position. The ratio is derived by dividing the amount of employed time required in the part-time position by the amount of employed time required in a corresponding full-time position.

# GLOSSARY

FUNCTIONAL AREA	A group of related activities aimed at accomplishing a major service for which a governmental unit is responsible. Public Safety & Justice is a functional area, which includes the Sheriff's Office, District Attorney, and Community Corrections.
FUND	A sum of money or other resources set aside for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations. A fund is a distinct financial or fiscal entity.
FUND BALANCE	The balance of net financial resources that are spendable or available for appropriation.
GENERAL FUND	The main operating fund of the County accounting for expenditures and revenues for Countywide activities. The bulk of the property tax rate is represented by this fund.
GEOGRAPHIC INFORMATION SYSTEM (GIS)	An organized collection of computer hardware, software geographic data and personnel designed to capture, store, update, analyze, display and distribute spatially referenced data.
GOVERNING BODY	County Court, Board of Commissioners, City Council, School Board, Board of Trustees, Board of Directors or other governing board of a local government unit.
GRANT	A contribution from one governmental unit to another, usually made for a specific purpose and time period.
INTERGOVERNMENTAL REVENUES	Revenue received from other governments, such as fiscal aids, shared taxes and reimbursements for services.
INTERNAL SERVICE FUND	Consists of organizations created to perform specified services for other County departments. The services performed are charged to the using department.
LOCAL GOVERNMENT	Any city, county, port, school district, public or quasi-public corporation (including a municipal utility or dock commission) operated by a separate board or commission.
LOCAL OPTION LEVY OR TAX	Voter-approved tax that is levied in addition to the taxes generated by the permanent tax rate. Local option taxes, such as the County's local option levy and ESPD can be for general operations, a specific purpose or capital project. The tax is limited to five years unless they are for a capital project, then they are limited to the useful life of the project or ten years, whichever is less.
MATERIALS & SERVICES	Accounts which establish expenditures for the operating expenses of County departments and programs. These accounts are numbered from 512XX to 51999.
MISCELLANEOUS REVENUE	A collection of various funding sources that do not have an overarching theme. Examples are investment/interest earnings, reimbursement from developers, reimbursement of expenses etc.
MUNICIPAL SERVICES	An enhanced level of services that benefit a specific geographical area or target population that is smaller than the Countywide area or population.
NORTH BETHANY COUNTY SERVICE DISTRICT FOR ROADS (North Bethany CSDR)	The North Bethany County Service District for Roads was approved by voters in May 2011. The District is authorized a permanent property tax rate of up to \$1.25 per \$1,000 assessed value to pay a portion of the cost of constructing roads to serve the North Bethany area. Additional funding is anticipated to come from a developer-paid supplemental system development charge, developer paid transportation development taxes and other transportation funds.
OBJECT	As used in an expenditure classification, a term that applies to the article purchased or the service obtained.
ONE WASHINGTON COUNTY	The vision of departments and offices operating together as a single organization.
ORDINANCE	Written directive or act of a governing body that has the full force and effect of law within the local government's boundaries, provided it does not conflict with a state statute or constitutional provision. Also see Resolution.
ORGANIZATIONAL UNIT	Any administrative subdivision of the local government, especially one charged with carrying on one or more specific functions (such as a department, office or division).
OTHER CHARGES	Accounts which establish expenditures for expenses other than salary or operations, such as debt service, WCCCA expenditures, Bank Service Charges, Green Energy Technology etc.
PER CAPITA	Amount per individual.
PERMANENT RATE	The maximum rate of ad valorem property taxes that a local government can impose. Taxes generated from the permanent rate can be used for any purpose. No action of the local government can increase the permanent rate.
PROGRAM	A group of related activities to accomplish a major service or function for which the local government is responsible.

# GLOSSARY

PROGRAM EVALUATION CRITERIA	A matrix of questions used to evaluate County programs to determine if the program should continue within the County service system. The matrix uses criteria such as: (1) is the service duplicated by others? (2) is the service mandated? (3) is the service controllable by the County? etc
PROPOSED BUDGET	Financial and operating program prepared by the Budget Officer, submitted to the public and the Budget Committee for review.
REAL PROPERTY	Land and attached structures.
REIMBURSEMENT	Payment received for services/supplies expended for another institution, agency or person.
REQUIREMENTS	All offsetting amounts to account for the resources that are available during the fiscal year, this includes expenditures, contingency and reserves.
RESERVE	An account that records a portion of the fund balance which must be segregated for some future use, and which is, therefore, restricted for future appropriation or expenditure.
RESOLUTION	An order of a governing body. Requires less legal formality and has lower legal status than an ordinance. Statutes or charter will specify which actions must be by ordinance and which may be by resolution.
RESOURCES	All the means of financing a budget (beginning balance, miscellaneous revenues) except for encumbered or general reserves.
REVENUE	Money received to finance ongoing County governmental services (e.g., property taxes, charges for service, licenses and permits).
SALARIES AND EMPLOYEE BENEFITS	Accounts which establish all expenditures for employee-related costs. Also called Personnel Services.
SCHEDULE	A listing of financial data in a form and manner prescribed by the state.
SHARED TAXES	Taxes collected by one level of government and distributed in whole or part to other levels according to a formula.
SPECIAL DISTRICT	Independent unit of local government generally organized to perform a single function (e.g., street lighting, road maintenance, parks, fire departments)
SUBVENTION	Provision for assistance or financial support, usually from a higher governmental unit.
SUPPLEMENTAL BUDGET	Prepared to meet unexpected needs or to spend revenues not anticipated at the time the budget was adopted; cannot be used to authorize a tax levy.
TAX LEVY	Amount of tax dollars raised by the imposition of the tax rate on the assessed valuation.
TAX RATE	The rate per one thousand dollars of the assessed valuation base necessary to produce the tax levy.
TAXES	Compulsory charges levied by a governmental unit for the purpose of financing services performed for the common benefit.
TRANSFERS	Amounts distributed from one fund to finance activities in another fund; shown as an expenditure in the originating fund and a revenue in the receiving fund.
UNAPPROPRIATED ENDING FUND BALANCE	Amount set aside in the budget to be used as a cash carryover to the next year's budget, to provide the local government with a needed cash flow until tax money is received from the County Treasurer in November. This amount cannot be transferred by resolution or used through a supplemental budget.
UNINCORPORATED AREA	Territory that is outside of any city boundary. In Washington County, these unincorporated areas include rural and natural areas, but also urbanized communities inside the urban growth boundary and yet outside of city boundaries.
URBAN ROAD MAINTENANCE SERVICE DISTRICT (URMD)	The County service district was formed under the provisions of Oregon Revised Statutes, Chapter 451. This District provides an enhanced level of local road maintenance to the urban unincorporated area of the County.
WISARD	Washington County Information System and Resource Database. The County's automated financial and human resources management system implemented in 2001.
