

COVID-19 VACCINE PLANNING

Adrienne Donner, Program Supervisor
Carrie Beck, Senior Program Coordinator
Washington County Public Health Advisory Council Meeting
January 12, 2021

WASHINGTON COUNTY
OREGON

Department of Health and Human Services

VACCINE SAFETY & EFFECTIVENESS

- Phase 1-3 clinical trials in humans
 - Volunteers representative of population
 - Placebo-controlled, double-blinded studies
 - Phase 4: post-manufacturing surveillance
 - Youth phase going now for 12+
- Oversight Groups
 - National to state/regional level

 **Get vaccinated.
Get your smartphone.
Get started with v-safe.**

Learn more about **v-safe**
www.cdc.gov/vsafe

VACCINE CHALLENGES

- Temperature control - different needs for each
- 2 doses - different intervals with different vaccines
- Messaging the common side effects and contraindications (EpiPen)
 - sore injection site, headache, achy muscle, low grade fever, fatigue

COVID-19 Vaccination Record Card

Please keep this record card, which includes medical information about the vaccines you have received.
Por favor, guarde esta tarjeta de registro, que incluye información médica sobre las vacunas que ha recibido.

Last Name _____ First Name _____

Date of birth _____ Patient number (medical record or IIS record n) _____

Vaccine	Product Name/Manufacturer Lot Number	Date	Healthcare Professional or Clinic Site
1 st Dose COVID-19	_____	mm / dd / yy	_____
2 nd Dose COVID-19	_____	mm / dd / yy	_____
_____	_____	mm / dd / yy	_____
_____	_____	mm / dd / yy	_____

FEDERAL & STATE PLAN

Phase 1A

Everyone in Phase 1, Groups 1,2,3 and 4 are currently eligible for the vaccine.

Group 1

- Hospitals
- Urgent Care
- Skilled nursing and memory care facility healthcare personnel (HCP) and residents
- Tribal health programs
- Emergency medical services (EMS) providers and other first responders
- Health care interpreters
- Traditional health workers

Group 2

- Other long-term care facilities, including HCP and residents of:
 - Residential care facilities
 - Adult foster care
 - Group homes for people with intellectual and developmental disabilities
 - Other congregate care sites

- Hospice programs
- Mobile crisis care and related services
- Individuals working in a correctional setting

Group 3

- HCPs in outpatient settings serving specific high-risk groups
- Day treatment services
- Non-emergency medical transport (NEMT)
- Caregivers of medically fragile children or adults who live at home

Group 4

- All other outpatient HCPs
- Public health sites

Phase 1B, 1C and Phase 2

Who's getting vaccinated in Oregon next

Child-care, preschool and K-12 school and school district staff will be in the first group of Phase 1B.

Subsequent groups in Phase 1B and beyond will be determined by the Vaccine Advisory Committee and shared on OHA's COVID-19 vaccine web page. These are examples of groups of people who may included:

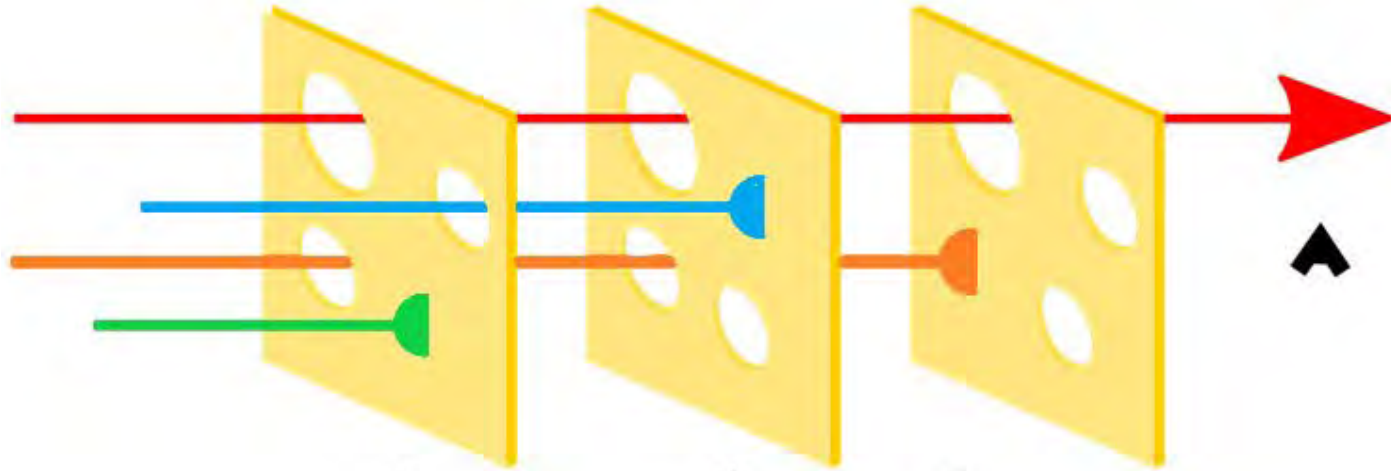

- Critical workers in high-risk settings — workers who are in industries essential to the functioning of society and substantially higher risk of exposure
- People in prisons, jails, detention centers, and similar facilities, and staff who work in such settings
- All older adults not included in Group 1A
- General population

STATE VACCINE ADVISORY COMMITTEE

Twenty-seven member work group

- Advise OHA on vaccine sequencing for phases 1b, 1c and 2
- Represent communities unjustly impacted by Covid-19
- Focus on ethical principles to guide sequencing
- First meeting 1/7/2021
- Expect report in February

Who will be vaccinating?*

Hospitals

- Frontline staff
- All staff
- High Risk Patients
- All clients

Pharmacies

- Long Term Care
- General Population

State Contract

- Targeted groups

Public Health

- Medically underserved
- Unable to access
- Disproportionately affected

Partners in Coordination with Public Health

- Emergency Medical Services
- First Responders
- Critical Infrastructure

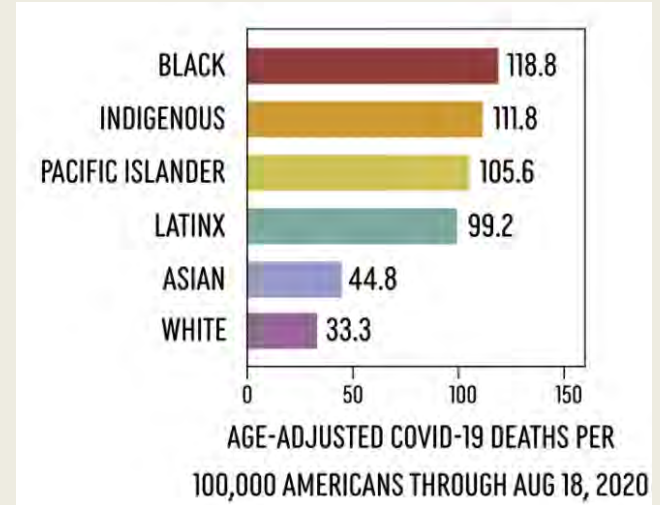

*ACIP is a federal advisory committee made up of medical and public health experts who develop recommendations on the use of vaccines in the U.S. public, including recommendations on what groups should be prioritized for COVID-19 vaccination first. The graphic below does not represent the progression of those priorities but is meant to describe which partners would provide vaccination services to different groups of people when they are eligible to receive vaccine.

FEDERAL PHARMACY PARTNERSHIP & STATE FOCUS

- FPP currently serving many long-term care and congregate care facilities within 1a groups
- State expanding support for congregate care facilities not previously eligible/did not register
 - Foster homes, adults with disabilities, group care homes
- State committed to getting increased vaccine allocation to the metro region for increased phase 1A vaccination

WASHINGTON COUNTY'S VACCINATION CLINIC FOCUS

- Vaccine distribution outside normal channels
 - Primary focus on BIPOC communities
 - Those without access to healthcare, pharmacies, or other vaccine-delivery systems
 - Those living in poverty
- Evenings and weekends

WASHINGTON COUNTY'S ROLE

- Coordination with state, regional and local partners
 - Federally-qualified health centers and other Community-based organizations
 - Engaging for best outreach to priority populations
 - City and County
 - Dispensing locations geographically spread for access
 - Health Systems
 - Large drive-thru vaccination operations
 - CBOs
 - Sponsors for specific populations/events
- Public communication and education
- Coordination of distribution across the many provider groups in support of phased approach

PHASE 1A PRIORITIZATION

- All groups now eligible
- Planning and access in the metro region to open up but still follow prioritization due to limited vaccine

- **Group 1:** hospitals; urgent care settings; skilled nursing and memory care facility HCP and residents; tribal health programs; EMS providers and other first responders, among others.
- **Group 2:** other LTCFs and congregate care sites including residential behavioral health programs; hospice programs; mobile crisis care and related services; and secure transportation.
- **Group 3:** Outpatient settings serving specific high-risk groups; home health providers, day treatment services; and non-emergency medical transportation.
- **Group 4:** All other outpatient; public health and early learning sites; last responders.

Phase 1a is still anticipated to go into/through February

PHASE 1B PRIORITIZATION

- Top: K-12 school and school district staff, child-care, and preschool
- OHA 'Vaccine Advisory Committee' to create prioritizations based on equity
- Higher risk (age, likelihood to get Covid, etc.)
- Critical Infrastructure – still broadly defined

PHASE 1A/1B PLANNING (PUBLIC HEALTH)

- Working with EMS agencies to ensure they have access to vaccines and the ability to get them into arms
 - ALERT IIS reporting, Covid-19 Enrollment (giving vaccine and/or redistributing)
- Working with Health Systems and partners to ensure vaccine access for all in Phase 1A
- Reaching out to Cities and Districts to start conversations
 - Critical infrastructure and essential staff
 - Partnership for targeted public clinics

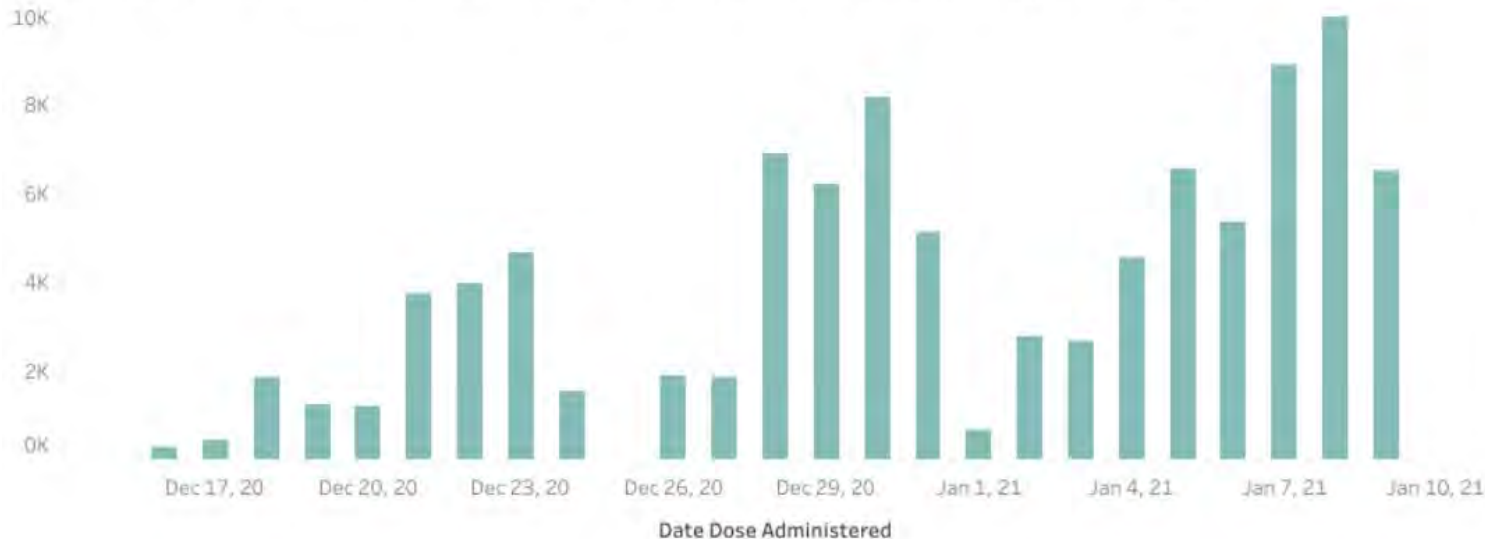

ROLL OUT CHALLENGES

- Hospitals receiving first vaccine didn't have guidance mechanisms for bringing in other phase 1a groups
- Need/desire to get vaccine out as quickly as possible
- Federal pharmacy partnership program challenges
- Metro region needs more vaccination access through health care partners
- Many people are anxious to be in line/next

STATE WIDE DATA ON VACCINE DOSES

Oregon's Vaccination Trend: Doses Administered by Day

This chart shows the total number of COVID-19 vaccine doses that have been given in Oregon.

Doses Administered

97,010

Total Doses Administered

People Vaccinated

88,720

Series In Progress

4,081

Fully Vaccinated

92,801

Total People

STATE WIDE DEMOGRAPHIC DATA

People Vaccinated by Demographic Group

These tables show the number of people who have received COVID-19 vaccine in Oregon by race, ethnicity, sex and age group.

RACE†

People with two or more races are counted in each of their racial groups.

American Indian / Alaska Native	1,521
Asian	4,640
Black	1,363
Native Hawaiian / Pacific Islander	762
White	64,839
Other Race	22,180
Unknown	16,811

ETHNICITY†

Hispanic	4,387
Not Hispanic	64,467
Unknown	23,947

SEX

Female	60,487
Male	31,367
Unknown	947

AGE GROUPS

16 to 19	325
20 to 29	10,955
30 to 39	21,570
40 to 49	21,702
50 to 59	18,512
60 to 69	12,536
70 to 79	3,973
80+	3,228
