# LAND USE COMPATIBILITY STATEMENT (LUCS), continued

## Onsite Wastewater Treatment System Permits

### What is LUCS?

Land Use Compatibility Statement is the process used by the Environmental Health Program to determine whether Environmental Health Program permits and other approvals affecting land use are consistent with local government comprehensive plans. The LUCS form is included in the onsite permit application approval packet.

### Why is LUCS required?

Oregon Law requires that state agency activities which impact land use be consistent with local comprehensive plans and land use regulations. Oregon Administrative Rules, (OAR) Chapter 340 Division 18 identifies agency activities/programs that significantly affect land use and the process of ensuring consistency.

### When is LUCS required?

A LUCS statement is required for affect land use. **This form only applies to onsite wastewater treatment system permits and activities.** *Water Pollution Control Facilities (WPCF) applicants must complete DEQ's General LUCS form.*

### How to complete a LUCS:

Step	Who Does It	What Happens
1.	Applicant	<b>Completes Section 1 of the LUCS and submits it to the appropriate city or county planning office.</b>
2.	City or County Planning Office	Completes Section 2 of the LUCS by determining if the activity or use meets all local planning requirements, and returns to the applicant the signed and dated LUCS form <b><u>with findings of fact for any local reviews or necessary planning approvals.</u></b>
3.	Applicant	Includes the completed LUCS with <b><u>findings of fact</u></b> with the DEQ permit or approval submittal application to the Washington County Environmental Health Program.

A permit cannot be issued if the business or facility does not comply with all applicable local land use requirements. The applicant is responsible for working with the local planning office to comply with land use requirements.

**Where to get help:** If you have questions regarding the LUCS, please contact Washington County Environmental Health Program at (503) 846-8722.

**CULTURAL RESOURCES PROTECTION LAWS:** *Applicants involved in ground-disturbing activities should be aware of Federal and State cultural resources protection laws. ORS 358.920 prohibits the excavation, injury, destruction or alteration of an archeological site or object or removal of archeological objects from public and private lands without an archeological permit issued by the State Historic Preservation Office. 16 USC 470, Section 106, National Historic Preservation Act of 1966 requires a federal agency, prior to any undertaking, to take into account the effect of the undertaking that is included on or eligible for inclusion in the National Register. For further information, contact the State Historic Preservation Office at (503) 378-4168, ext. 232.*
