

# COVID-19 Update

Adrienne Donner, MBA

| January 11, 2022

Washington County Public Health  
Public Health Advisory Council Meeting

# Overview

- Epidemiology and pandemics
- Status of COVID-19 in Washington County and Oregon
- Preventing transmission
- Virus variants
- Vaccine updates and planning
- Vaccine equity work

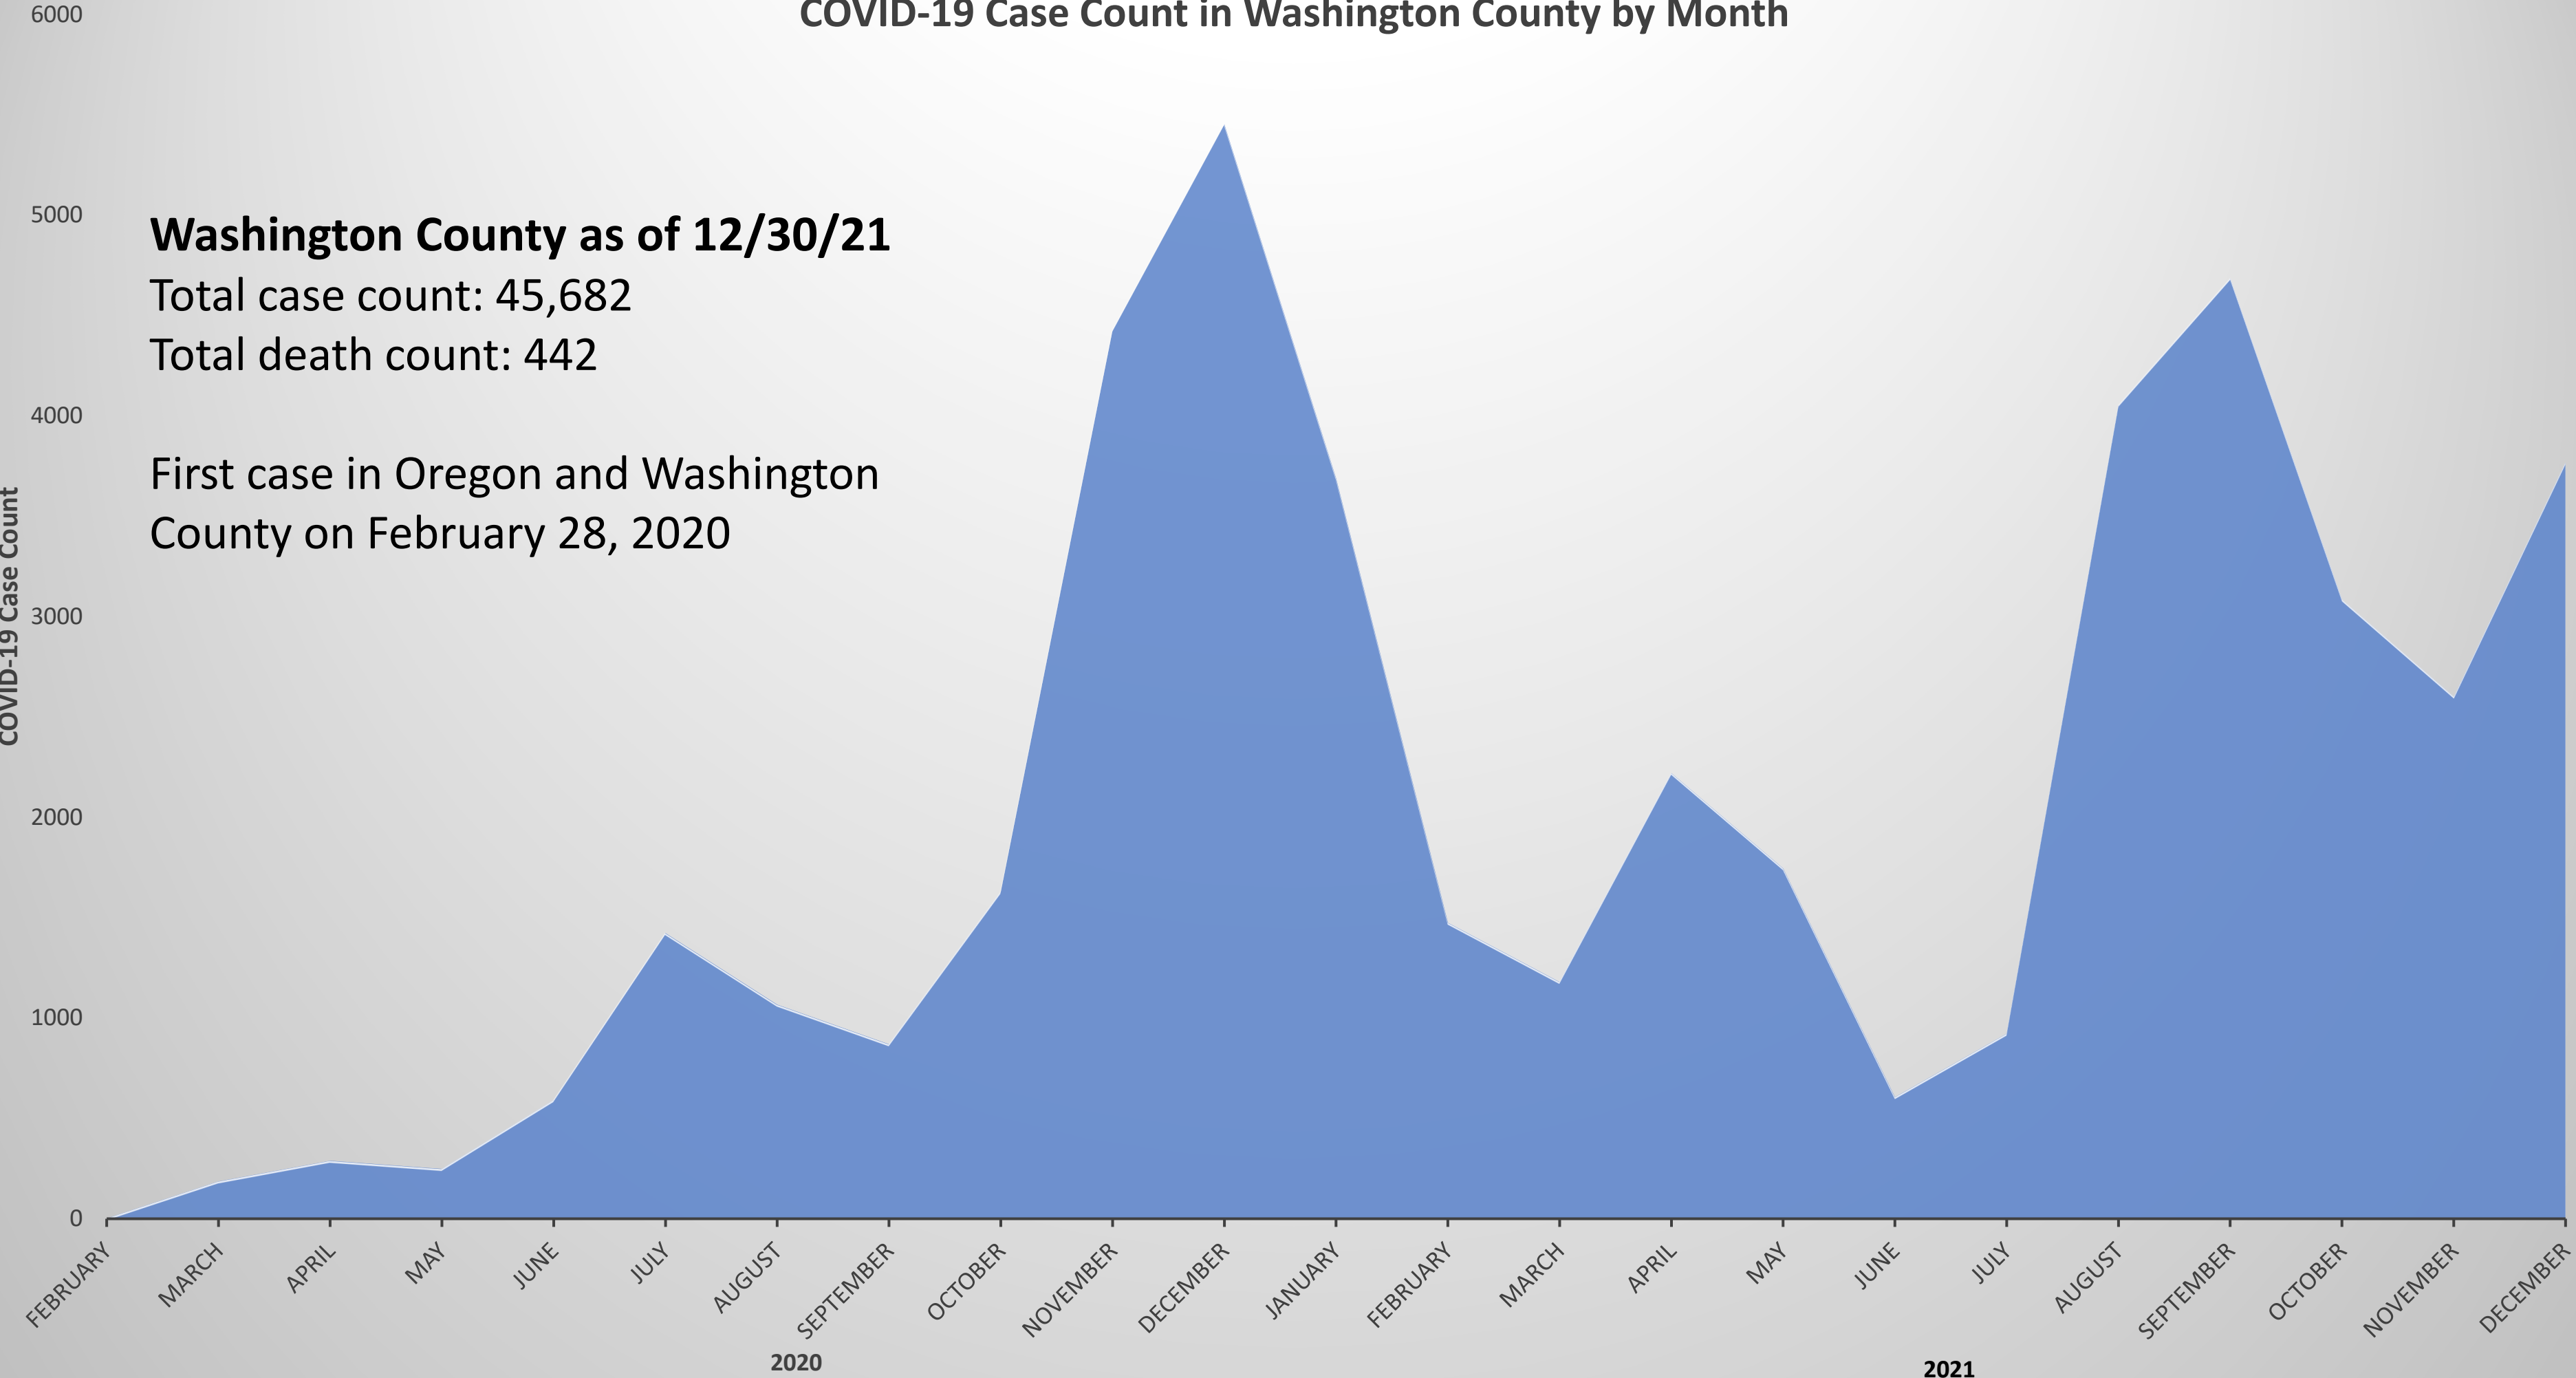

# COVID-19 Case Count in Washington County by Month

## Washington County as of 12/30/21

Total case count: 45,682

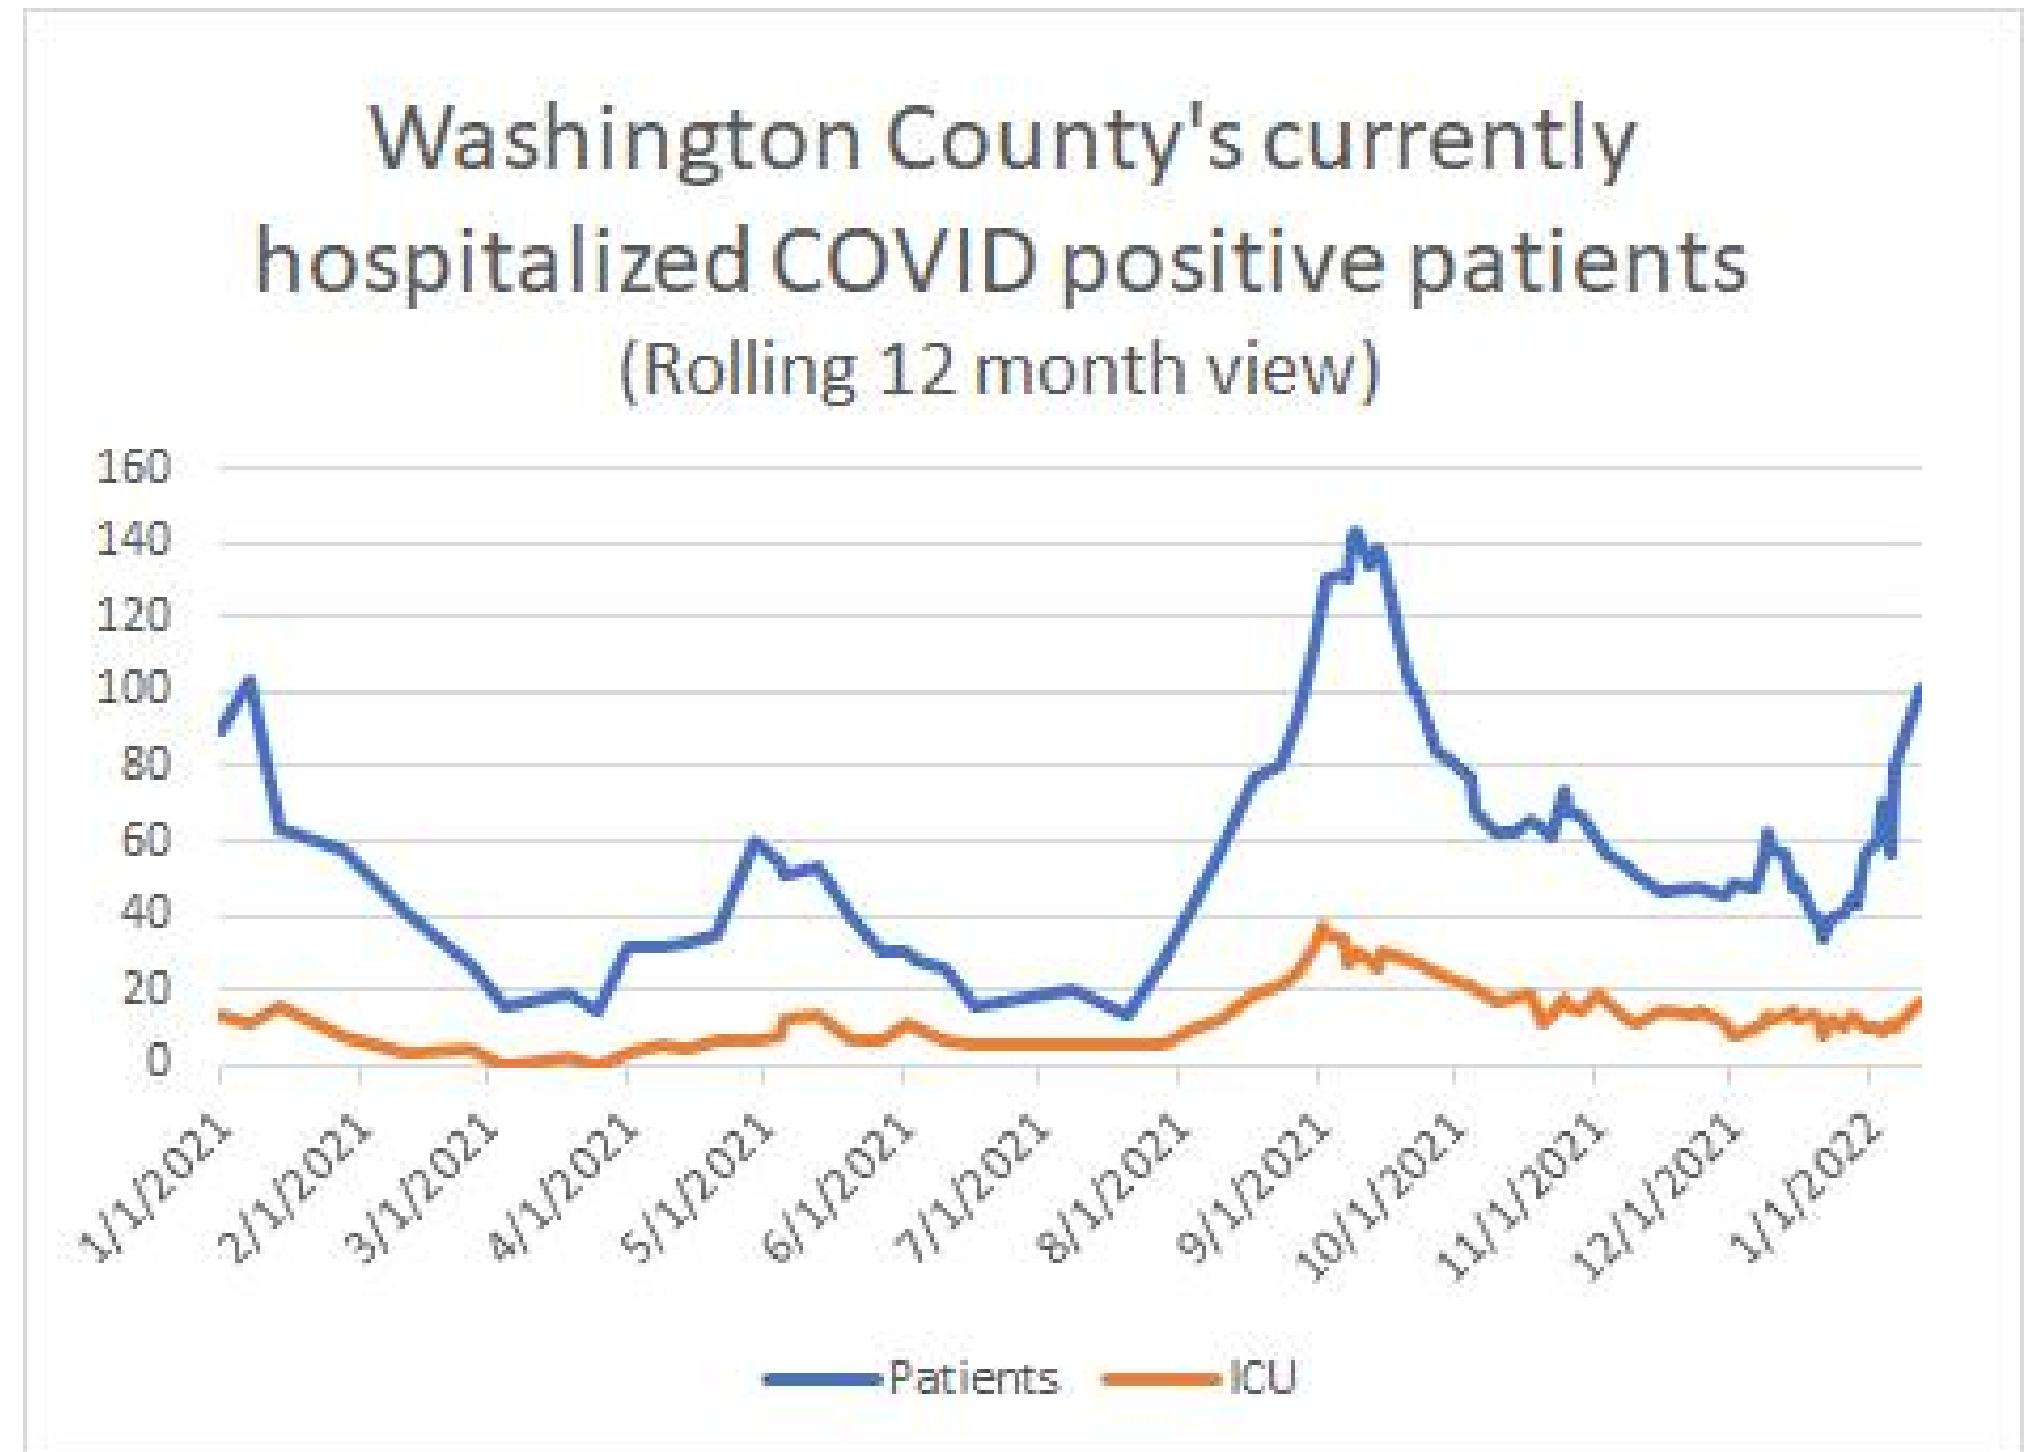

Total death count: 442

First case in Oregon and Washington County on February 28, 2020

# Hospital Capacity

- In Washington County, there are 70 confirmed COVID patients currently admitted as of January 3, with 9 in the ICU.
- The number of COVID patients in county hospitals has increased after declining significantly over the last month.
- These are patients at hospitals with COVID, not necessarily to treat COVID.

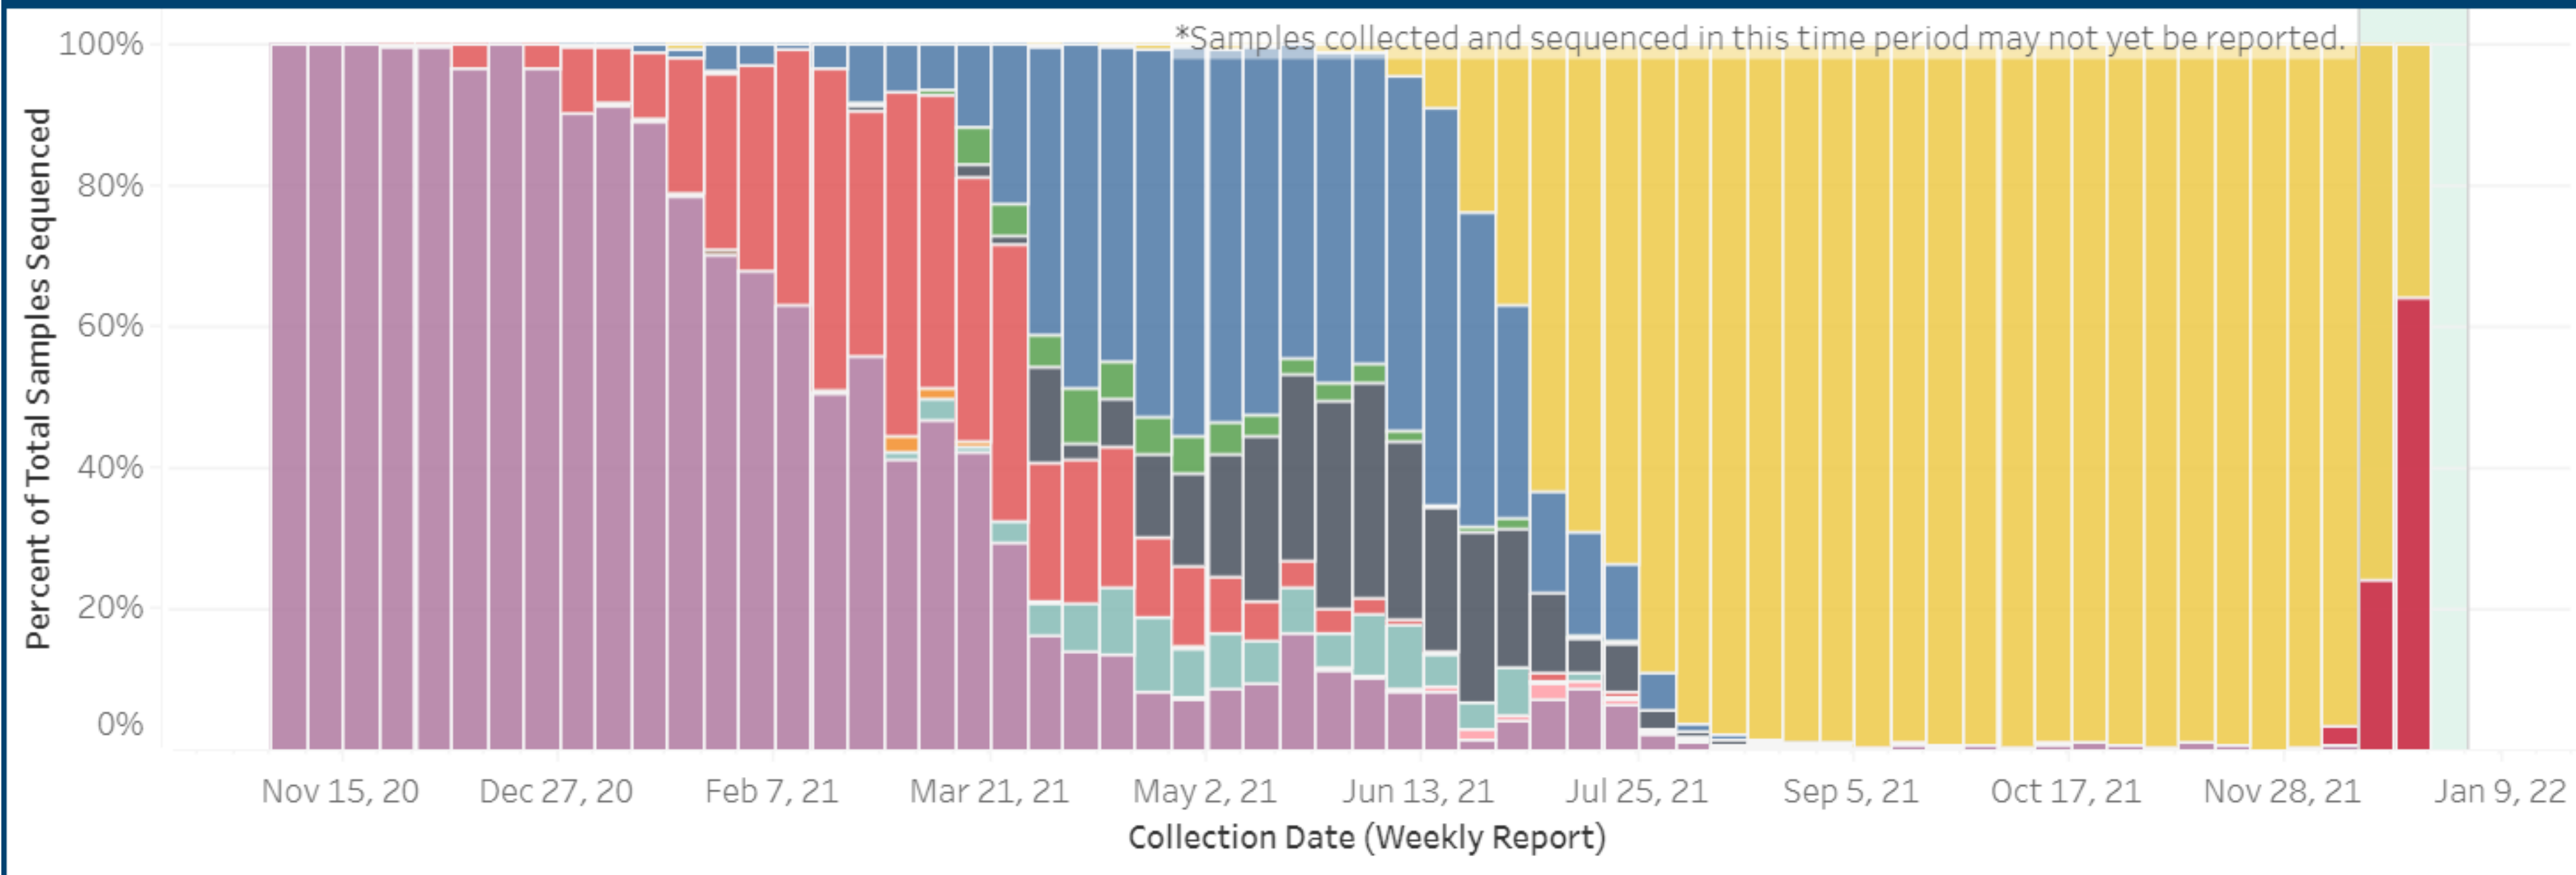

# → Omicron variant

- First identified end of November 2020
- Science is still emerging
- Likely to be dominant but unknown how it will compete against Delta (previously dominant SARS-CoV-2 variant)
- Some early estimates show less severity of disease
- Boosters help protect against severe illness

# Who Can Get a Booster Shot

<p>IF YOU RECEIVED <b>Pfizer-BioNTech</b></p>	<p><b>Who should get a booster:</b></p> <ul style="list-style-type: none"><li>• Adults 18 years and older</li></ul> <p><b>Who may get a booster:</b></p> <ul style="list-style-type: none"><li>• Teens 16-17 years old</li></ul>	<p><b>When to get a booster:</b></p> <ul style="list-style-type: none"><li>• At least 6 months after completing your primary COVID-19 vaccination series</li></ul>	<p><b>Which booster can you get:</b></p> <ul style="list-style-type: none"><li>• Pfizer-BioNTech or Moderna (mRNA COVID-19 vaccines) are preferred in most* situations</li><li>• Teens 16–17 years old may get a Pfizer-BioNTech COVID-19 vaccine booster</li></ul>
<p>IF YOU RECEIVED <b>Moderna</b></p>	<p><b>Who should get a booster:</b></p> <ul style="list-style-type: none"><li>• Adults 18 years and older</li></ul>	<p><b>When to get a booster:</b></p> <ul style="list-style-type: none"><li>• At least 6 months after completing your primary COVID-19 vaccination series</li></ul>	<p><b>Which booster can you get:</b></p> <ul style="list-style-type: none"><li>• Pfizer-BioNTech or Moderna (mRNA COVID-19 vaccines) are preferred in most* situations</li></ul>
<p>IF YOU RECEIVED <b>Johnson &amp; Johnson's Janssen*</b></p>	<p><b>Who should get a booster:</b></p> <ul style="list-style-type: none"><li>• Adults 18 years and older</li></ul>	<p><b>When to get a booster:</b></p> <ul style="list-style-type: none"><li>• At least 2 months after receiving your J&amp;J/Janssen COVID-19 vaccination</li></ul>	<p><b>Which booster can you get:</b></p> <ul style="list-style-type: none"><li>• Pfizer-BioNTech or Moderna (mRNA COVID-19 vaccines) are preferred in most* situations</li></ul>

# Expect delays in testing

- Demand for testing exceeds supply and home testing kits are hard to find
- If you know you've been exposed, try to schedule testing ASAP
- Try to test on day 5 after exposure, schedule right away, it may take that long to find testing
- Visit the testing page on our COVID-19 site for options
