# Community Engagement Metro Ordinance

Local implementation plans must be developed using locally convened and comprehensive engagement processes that prioritize the voices of people with lived experience and from communities of color.

The local implementation plans must include: an articulation of how perspectives of communities of color and culturally specific groups were considered and incorporated.

Equity and Community Engagement. Increase accountability by ensuring involvement of communities of color in establishing goals, outcomes and implementation and evaluation efforts.

Increase participation of communities of color in decision making.

# Community Engagement Plan

- \*Prioritize those with lived experience and communities of color.
