17. SECTION 435 – VARIANCES AND HARDSHIP RELIEF

435 VARIANCES AND ADJUSTMENTS HARDSHIP RELIEF

435-1 Purpose

The purpose of this Section is to provide a remedy from the strict interpretation of this Code where it can be shown that literal interpretation would cause unnecessary hardship.

435-2 Scope

435-2.1 Permitted Variances and Adjustments Hardship Relief

Under the provisions of this Section, an applicant may propose a variance or adjustment in accordance with the standards of this Section ~~hardship relief from a dimensional standard (as defined by Section 106-61) of this Code, from a development standard of Section 392 (Pedestrian-Oriented Mixed-Use Districts), and from the minimum required amount of parking of Section 413, except when:~~

- A. The proposed variance or adjustment ~~hardship relief~~ would allow a use which is not permitted in the applicable land use district;
- B. Another procedure is available in this Code for modifying or waiving the particular standard; or
- C. This Code specifically prohibits a variance or adjustment ~~hardship relief~~ from a standard (for example ~~e.g.~~, Section 430-1.1 B.(8) prohibits a variance or

~~adjustment hardship relief change to the distance between an accessory structure and a primary structure).~~

435-3 Type I Setback Adjustment

An adjustment to decrease yard setbacks in Article III (Land Use Districts) up to 10% or 12", whichever is less, may be approved when:

- A. Proposal is consistent with Section 435-2;
- B. The adjustment will not result in a violation of any provision of this Code;
- C. No other variance or adjustment to the setback has been previously approved; and
- D. A perpetual minimum 6-foot wide reciprocal private-maintenance easement adjacent to shared property lines is provided for the benefit of interior adjoining lots.

Procedure

~~Unless otherwise specified in this Code, variances shall be processed through a Type III procedure.~~

~~A variance may be granted only when the Review Authority makes findings, based upon evidence in the record, that the variance is consistent with all of the following criteria:~~

- ~~435-4.1 — Compliance with the applicable standard of the Code would create an unnecessary hardship due to the following condition:
 - ~~A. — The physical characteristics of the land are not typical of the area, including a jurisdictional wetland, or a significant natural resource or historic feature that is identified by a Community Plan or the Rural Natural Resource Plan, resulting in a hardship unique to the property of the applicant and not applying generally to other property in the same vicinity and the variance is necessary to permit the property to be developed or enjoyed to an extent comparable with other properties in the same district in the area;~~~~
- ~~435-4.2 — The hardship does not result from actions of the applicant, owner(s) or previous owner(s), or from personal circumstances of the applicant, owner(s) or previous owner(s), such as physical condition, age or financial situation;~~
- ~~435-4.3 — The variance is not intended to avoid a standard of this Code to facilitate a particular site design or development when another design or development which meets the standard is available;~~

- ~~435-4.4~~ — ~~Strict adherence to the requirement or standard is unnecessary because the proposed variance will reasonably satisfy both of the following objectives:~~
- ~~A. — Not adversely affect the function or appearance of the development and use of the subject property and surrounding properties;~~
 - ~~B. — Not impose limitations on other properties and uses in the area including uses that would be allowed on adjacent properties; and~~
- ~~435-4.5~~ — ~~The variance will allow the property to be used only for purposes authorized by this Code.~~
- ~~435-4.6~~ — ~~The Review Authority may impose such conditions as are deemed necessary to mitigate any adverse impacts which may result from granting the relief.~~
