

SW TAYLORS FERRY ROAD BRIDGE & SIDEWALK PROJECT

SW Taylors Ferry Road Closure

During the project, there will be an anticipated 5 week closure of Taylors Ferry Road at the bridge site (immediately west of SW 80th Avenue). The exact dates of the closure have yet to be determined but will occur during the Summer 2019 time frame consistent with restrictions on in-water work activities in Ash Creek .

The site conditions, overhead utilities and limited work area require the road closure for timely project completion.

During road closure, detour route signing will be posted.
