# Initial Feedback

“Parents have been very grateful to have access to these [lockboxes] when we're safety planning for their child. The fact they can leave with them in-hand means everything to a family that is already exhausted and don't have the means to buy one.”

# Initial Feedback

“For those who believe a cable lock might damage a firearm worth hundreds or thousands of dollars, the gun cases are a way forward for those who won't let others hold their firearms.”

# Initial Feedback

“In working with the family of an 18 year old who was escalated... [the youth] would shake the box their parents put their sharps in and they would slip through the cracks, allowing access to the knives. [This] scared the parents tremendously. The lockbox made it so [the parents] had one less thing to worry about.”
