Behavioral Health Resource Network (M110)

Behavioral Health Resource Networks (BHRN) were developed in every County in Oregon with the funding received from M110.

BHRNs were established to support agencies working together to increase services to clients.

In Washington County we have 19 different agencies that make up our BHRN. My work as the BHRN Coordinator is to help develop the network part of the BHRN.

Services Included in the BHRN

Initial Screening for Substance Use Disorder services

Low Barrier SUD treatment

Peer Delivered services

Behavioral Health needs assessment

Supported Housing

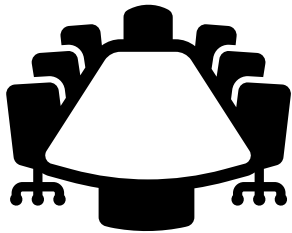

Supported Employment

Harm Reduction
