

WASHINGTON COUNTY SHERIFF'S OFFICE

OREGON DRIVER LICENSE INFORMATION

Maintaining safe roads for everyone is a priority of the Washington County Sheriff's Office. It is important for all drivers to understand and follow the rules of the road to avoid causing harm to others, themselves, or the property around them.

If you have been given a citation for driving without a license, you may be eligible to have this citation dismissed if you get an Oregon driver's license. To do so, follow the instructions on the citation for making a court appearance and let the judge know you are interested in the deferred adjudication program. If you follow the direction of the court, this ticket can be dismissed.

Oregon Driver and Motor Vehicle Services (DMV) provides information on how to obtain an Oregon driver's license, available in eight languages. Call 503-299-9999 or visit bit.ly/36EVUcy for further information.

Oregon no longer requires proof of legal presence or citizenship to get a driver's license. A license is not to be confused with a Real ID. A driver's license can be used to legally drive or as personal identification.

There is an option for an audio knowledge test available for applicants who do not read or write. Interpreters may also be available upon request. In addition, some community-based organizations may be available to help study for the test.

To avoid unnecessary court fees or suspension of your Oregon driver's license, obey all traffic/driving laws, and make sure to maintain the required vehicle insurance required by the State of Oregon.
