

Yard and Storm Debris Solutions

Debris removal after a storm may be as close as your curbside collection or available at a local drop-off depot.

At the Curb

If properly prepared, debris may be collected by your garbage & recycling collection company on regularly scheduled yard debris pickup days.

Community members with yard debris collection service may:

- Set out storm debris for regularly scheduled yard debris pickup.
- Contents may include leaves, grass clippings, weeds, and branches less than 4" in diameter and 36" long.
- Place materials at the curb in yard debris receptacles, 30-gallon Kraft bags, or bundled by twine and tied. Additional fees may apply for extra bags or bundles.
- Stockpile excess debris and set it into a yard debris container over several collection dates.

Maximum weight for your container:
120 lbs. for 60-gallon roll carts
60 lbs. for 32-gallon roll carts
45 lbs. for 30-gallon roll carts
45 lbs. for bags or bundle

Other Solutions

Drop Box Services

Your garbage & recycling collection company can provide a drop box (for a fee) to help with removal of large piles of debris. If the box is used for **yard debris only**, the material can be taken to a compost facility, rather than a landfill. Contact your service provider for more information on services and rates.

Yard Debris Depots

Residents *without* yard debris service or large volumes of material can elect to take debris to a yard debris depot.

- Yard debris does not include dirt, sod, stumps, large wood rounds, metal, rocks, ashes, or treated wood or lumber. These materials will not be accepted as yard debris. Contact local yard debris depots to determine accepted materials, hours of operation, disposal fees and facility directions.
- A depot list can be found at Washington County's Solid Waste & Recycling's website at WashingtonCountyRecycles.com/GRD using the *What to recycle and where* tool OR by calling the Solid Waste & Recycling Division at **503-846-3605**.

Drop-off Depots for Storm Debris

Call facilities in advance to confirm fees, hours, directions, and accepted materials.

RECYCLING

Storm debris can be dropped off at these locations where it will be recycled.

DISPOSAL

Residents can drop off non-vegetative debris such as roofing shingles, treated wood, fencing with hardware, glass, siding or other household debris resulting from storm damage to these facilities where it will be disposed of at the landfill.

Services	Facility Location	Hours
	Best Buy in Town 2200 NW Cornelius Pass Rd, Hillsboro, OR 97124 (503) 645-6665	M – Sat 7:30 AM - 5:00 PM (Yard debris until 4:30 PM)
